SALES OF GOLD.

LETTER

FROM THE

SECRETARY OF THE TREASURY,

IN ANSWER TO

A resolution of the House of the 4th instant, relative to the sales of gold, &c.

JUNE 20, 1866.—Referred to the Committee on Banking and ordered to be printed.

TREASURY DEPARTMENT, *June 19, 1866.*

DEAR SIR: In answer to the following resolution of the House of Representatives adopted on the fourth of June, instant, viz:

“On motion of Mr. James F. Wilson,

“*Resolved*, That the Secretary of the Treasury be directed to report to this House how much gold belonging to the government of the United States has been sold since the first day of January, eighteen hundred and sixty-six, the date and amount, by whom sold, the compensation allowed for such sale, and the premium received; also, whether any gold has been bought for the treasury since that date; and if so, the amounts and dates of such purchases, amount of premium paid, and who acted as agent in making such purchases; also, whether any bonds of the United States have been bought or sold for the treasury since that date, the dates and amounts of such purchase or sales, the amounts paid or received for the same, and the character and denomination of said bonds”—

I herewith submit a statement of gold sold by the Treasury Department since the first of January last, the date and amount of such sales, the compensation or commission allowed the agent for selling, and the premium received.

These sales, with the exception of \$145,000 sold by the treasurer at New Orleans, were made through Mr. Van Dyck, the assistant treasurer in New York.

It is understood that since the first of January, Mr. P. M. Myer has been the sole agent for selling gold in that city.

No purchase of coin has been made since the first of January last.

I also submit a schedule of bonds purchased since the first of January last, the dates and amounts of such purchases, the prices paid for them, and the character and denomination thereof.

These bonds were purchased because this class of bonds were being sold in the market at prices much below their value, and because their depreciation was affecting injuriously the bonds which it was desirable for the government to negotiate, as well as the national credit generally.

These bonds, which have been cancelled, may be regarded as a purchase on account of the sinking fund, or as a redemption of so much of the public debt.

I also submit a schedule of bonds sold since the first of January last, to the 4th instant, the date and amount of such sales, the sums received for the same, and the character and denomination of the bonds.

A part of these bonds were sold for cash, and a part for compound and seven and three-tenths notes. The sales and exchanges were made through Messrs. Jay Cooke & Co., the Treasurer of the United States, and the assistant treasurer in New York, on the most favorable terms to the government.

It may be proper also to state that in addition to the bonds named in the schedule, \$7,947,700 were exchanged through Messrs. Jay Cooke & Co. for seven and three-tenths notes, and a small amount of certificates of indebtedness, previous to the first of January; the notes and certificates being received by the department at the time the bonds were delivered; but for lack of time to make the necessary calculation of interest and the proper entries upon the books, the account of the agents was not settled, and the amount of bonds delivered and notes received in exchange was not entered upon the public debt statement until February, and did not appear upon the published statement until the first of March.

It is also proper to remark that \$3,747,000 in 5-20 bonds, (\$3,717,000 of which were issued under the act of March 3, 1864,) and which by the schedule appear to have been sold in January and February, were not entered as a part of the public debt until March, and did not appear upon the public statement until April first. The explanation of which is, that the sales of the bonds were included by the agents in a continuous account, which was not settled and closed until March, the last sale having been made on the twentieth of that month; the agents in all instances giving proper certificates of deposits to the credit of the Treasurer of the United States, as the bonds were from time to time delivered to them.

I am, sir, very respectfully, yours,

H. McCULLOCH,
Secretary of the Treasury.

Hon. SCHUYLER COLFAX,
Speaker of the House of Representatives.

SALES OF GOLD.

[illegible]

LIGHT-HOUSE BOARD.

LETTER

FROM THE

SECRETARY OF THE TREASURY,

RECOMMENDING

An extension of the franking privilege to the chairman and secretaries of the Light-house Board.

JUNE 21, 1866.—Referred to the Committee on the Post Office and Post Roads and ordered to be printed.

TREASURY DEPARTMENT,

June 20, 1866.

SIR: I have the honor to transmit herewith copy of a letter from the chairman of the Light-house Board, requesting that the franking privilege be allowed that bureau; and in view of the facts set forth in the communication, I respectfully recommend, for the facilitating of the business of that branch of the public service, the passage of an act of Congress conferring upon the chairman and the two secretaries of the Light-house Board the franking privilege, as applied for.

I am, very respectfully,

HUGH McCULLOCH,

Secretary of the Treasury.

Hon. SCHUYLER COLFAX,

Speaker of the House of Representatives.

TREASURY DEPARTMENT, OFFICE OF THE LIGHT-HOUSE BOARD,

Washington, June 16, 1866.

SIR: I have the honor, by direction of this board, respectfully to request that application be made to Congress for the passage of an act conferring upon the chairman and secretaries of the Light-house Board the franking privilege.

The reasons governing this recommendation are:

1st. The privilege asked for is enjoyed by every other bureau of the department.

2d. The franking privilege being vested in this office, the department will be relieved from the onerous burden of franking documents not pertaining immediately to its own business.

3d. Under the present system the mail of this office comes under cover to

the honorable Secretary of the Treasury, whereby great delay is necessarily occasioned in its receipt at this office, all which would be obviated by having it come direct from the post office.

Some idea of the burden now borne by the department on account of the business of the light-house establishment may be gained from the statement that in addition to our daily correspondence (averaging about thirty letters) and the distribution of blank forms to all of the light-house inspectors, engineers, superintendents of lights, and light-keepers, there is the transmission of notices to mariners and lists of light-houses and buoys, averaging about five hundred per week.

Very respectfully,

W. B. SHUBRICK,
Chairman.

Hon. HUGH McCULLOCH,
Secretary of the Treasury.

EUROPEAN TROOPS IN MEXICO.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

IN ANSWER TO

A resolution of the Senate and House of Representatives in regard to the employment of foreign troops in Mexico.

JUNE 22, 1866.—Referred to the Committee on Foreign Affairs and ordered to be printed.

To the Senate and House of Representatives:

In further answer to recent resolutions of the Senate and House of Representatives, requesting information in regard to the employment of European troops in Mexico, I transmit to Congress a copy of a despatch of the 4th of this month, addressed to the Secretary of State by the minister of the United States at Paris.

ANDREW JOHNSON.

WASHINGTON, *June 22, 1866.*

Mr. Bigelow to Mr. Seward.

No. 330.]

LEGATION OF THE UNITED STATES,

Paris, June 4, 1866.

SIR: I waited upon his excellency the minister of foreign affairs on Saturday last, in pursuance of a previous appointment, to confer with him upon the subject matter of your instruction, No. 459, marked confidential. As he had been already apprised of the contents of that despatch, through the French minister residing at Washington, I was spared the necessity of restating them. He said that the imperial government proclaimed its intention to retire from Mexico because it suited its convenience and interests to retire, and for no other reason. When, therefore, it announced formally, not merely to the United States, but to all the world, that the army would be withdrawn from Mexico within a specified term he thought it should be deemed sufficient. The government made its declaration in good faith, and means to keep it. It means to withdraw its army within the time prescribed, and it does not intend to take one or two hundred troops in the first detachment, and one or two hundred more in the second, leaving the great body of them to the last; though it had not deemed it necessary to specify

with minuteness details of this kind, which depend upon hygienic and climatic considerations, of which it was the best and the only competent judge. This, his excellency said, he wished I would say to my government.

I asked his excellency if I had ever intimated to him, whether in writing or orally, any suspicion of the Emperor's intention to withdraw his army from Mexico in unequal proportions. He replied that I had not. I then asked him if any other person authorized to speak in the name of my government had done so. He said no; but he had read imputations of that kind in one of our papers. I replied, in substance, that the press was a law unto itself, but that we had better not accept it as a law unto us; and as he asked me to communicate to my government a formal answer to what sounded like an accusation of insincerity and bad faith on the part of the Emperor, I wanted his authority for stating that no such accusation had reached him through any official channel. He replied that he only had read of it in newspaper.

I then went on to say that the purpose of your instruction, as I understood it, was simply to obtain an explanation, which was sure to be required of you, of the shipment by France of large bodies of troops to Mexico after the purpose to withdraw her whole army had been officially proclaimed. To this his excellency replied, that since seeing me he had gotten from his colleagues of the marine and war departments information to the purport—

That no troops belonging to the *Corps Expeditionnaire* had been sent to Mexico this year, unless for the sake of partly replacing soldiers missing, but at any rate without augmentation of the number of standing troops.

That the shipment of troops referred to in the public prints, and in your despatch, was most likely that made in the transport *Rhône* about the beginning of the year.

That this *Rhône* touched at Martinique, but not at St. Thomas, as was stated.

That she carried 916, and not 1,200, soldiers.

That they belonged to the Foreign Legion, and not to the Expeditionary Corps.

That they consisted of troops which had been waiting transportation a long time in France and in Algeria to join their regiments.

That no new troops had been enrolled for the Foreign Legion since the Emperor proclaimed his purpose to withdraw his flag from Mexico, and that no more, for what he knew, were intended to be enrolled.

In regard to the shipments of troops from Austria, he said that that was an affair entirely between that government and the Mexican, with which France had nothing to do; that since I had spoken to him upon the subject he had verified his own convictions by a reference to the ministers of war and of marine, and had ascertained that no engagements of any sort had been entered into by either for the enrolment or transport of troops from Austria to Mexico. He went on further to say, that it was the intention of the government to withdraw the army entirely from Mexico within the time specified in his despatch to you at the very latest; sooner if climatic and other controlling considerations permitted, and it was not its intention to replace these with other troops from any quarter.

At the conclusion of a long conversation of which I have given the important results, I expressed my satisfaction with his excellency's explanations, and the pleasure I should have in communicating them to my government.

This despatch has been submitted to Mr. Drouyn de Lhuys, and the foregoing version of the results of our conversation has been approved by him.

I am, sir, with great respect, your obedient servant,

JOHN BIGELOW.

Hon. WILLIAM H. SEWARD,

Department of State, Washington, D. C.

CALIFORNIA VOLUNTEERS.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of the 24th instant, relative to the discharge of certain California volunteers stationed in the Territories.

JULY 27, 1866.—Laid on the table and ordered to be printed.

WAR DEPARTMENT,
Washington City, July 26, 1866.

SIR: In reply to the resolution of the House of Representatives of July 24, requesting information why the California volunteers in the United States service during the late rebellion, stationed in the Territories of Arizona, New Mexico, and Utah were discharged in said Territories, and what, if any, transportation was furnished to each of said soldiers, I send copies of a correspondence between persons named therein, which furnishes the information called for in the resolution.

Very respectfully, sir, your obedient servant,

EDWIN M. STANTON,
Secretary of War.

HON. SCHUYLER COLFAX,
Speaker of the House of Representatives.

HEADQUARTERS DISTRICT OF NEW MEXICO,
Santa Fé, New Mexico, September 24, 1865.

COLONEL: I had the honor to receive your indorsement of August 18, 1865, on papers herewith returned to you, which papers seem to have originated with a letter written to Senator Conness, from Seneca Falls, New York, on the 12th of last December, by a person who subscribes himself as "George B. Seeley, late of 1st cavalry California volunteers." The complaints made by Mr. Seeley seem to have been made by others in California, and became the subject of a letter from his excellency Governor Low, of California, to myself. My reply to Governor Low, together with the documents which accompanied that reply, seems to cover all the points of complaint made in Mr. Seeley's letter. I therefore beg to submit that correspondence herewith as an answer to your indorsement.

This correspondence shows that at the request of many of the California column, and for valid reasons, the troops of that column were discharged in New Mexico and in Arizona, by order of the Secretary of War; that they were authorized to retain their arms on conditions favorable to and optional with themselves. They were paid mileage back to the place of enrolment, and subsistence in cash.

There was a mistake made by the paymaster in some cases with reference to the route, but that mistake in nearly every instance, I believe, has been corrected. All that was done in the matter, as this correspondence will show, was done for the best interests of these men. There were errors committed with reference to subsistence by distant and inexperienced commanders, while some of the men were waiting for their pay, which can only be regretted. They could not be remedied here, because the men had gone before the error was known. The officers of the government here did not wrong these men wantonly, and all regretted the mistake about mileage and the errors about subsistence here alluded to.

I am, colonel, very respectfully, your obedient servant,

JAMES H. CARLETON,
Brigadier General Commanding.

Colonel RICHARD C. NUNN, *A. A. G.*,
San Francisco, California.

WAR DEPARTMENT,
Adjutant General's Office, July 26, 1866.

Official:

THOMAS M. VINCENT,
Assistant Adjutant General.

STATE OF CALIFORNIA, EXECUTIVE DEPARTMENT,
Sacramento, May 22, 1865.

GENERAL: Many of the volunteers which composed the 1st and 5th infantry California volunteers, whose terms of service expired last autumn, and were discharged in New Mexico, have returned here. They and their friends complain loudly because they were not returned to this State before being discharged, and some of them charge me with dereliction of duty in not seeing to it, and procuring the necessary orders for their return. As you are fully aware, I knew nothing of the matter, and that the orders and communications between the War Department and yourself never were laid before me.

I understand, unofficially, that it was left to a vote of the soldiers where they would be discharged, and they, by their own free will, chose the Rio Grande as the place.

I would be glad if you would cause copies of all orders and communications touching this matter to be forwarded to me with as little delay as possible.

I remain, general, your obedient servant,

F. F. LOW, *Governor.*

General J. H. CARLETON, *Santa Fé.*

Official copy:

THOMAS M. VINCENT,
Assistant Adjutant General.

HEADQUARTERS DEPARTMENT OF NEW MEXICO,
Santa Fé, N. M., July 18, 1865.

GOVERNOR: I have had the honor to receive your communication dated at Sacramento, California, May 22, 1865, in relation to complaints made by many of the volunteers who composed the 1st and 5th infantry California volunteers,

and by the friends of those volunteers. The complaints seem to have been that they were discharged in New Mexico, when they claim they should have been returned to California before they were discharged.

By the enclosed correspondence your excellency will see the reasons given by myself to the War Department why I thought it was more considerate to the volunteers alluded to, and better suited to the wishes of many of them, that they should be discharged here than to be marched in a body to California to be discharged there.

Up to the time of the discharge of these men it was believed by myself, from conversations with individuals of those organizations as well as from the enclosed correspondence, that but few, if any, of the men, even though they returned to California, would wish to recross the inhospitable deserts over which they had toiled and suffered so gallantly and unmurmuringly in the fulfilment of the requirements of their country.

But after their discharge, and when I was personally some three hundred miles away when many of those first discharged started for home, it was a matter of some surprise, disappointment, and regret that I learned that many of the men had determined to return home by the route over which they had come to New Mexico. I was surprised at their choice of route, and disappointed and sorry that the government had been unable to secure the services of such well-disciplined and splendid troops to the end of the war. When they had been under my immediate command, and had had my care and solicitude for quite three years; when they had been the subject of a just pride on my part for their high soldierly qualities, your excellency can judge of the pain and mortification which I had to endure in finding that I had become the subject not only of their censure and that of their friends, but the object, in some few instances, I am sorry to say, of their unjust, because unmerited, abuse.

They were not all paid their just allowance of mileage from an error made by the paymaster who paid them. This matter the paymaster himself explains in a letter, a copy of which is enclosed. And then again the commanding officer at Las Cruces saw fit not to let them have rations after their discharge, and while they were obliged to wait for their pay, *unless they paid for those rations*. All this was unjust and hard; but, as I said before, I myself was three hundred miles from the spot, and knew nothing of the matter until it was too late, from the departure of many of the men, to remedy the evil. The commanding officer, I have heard, took the ground that he could not under orders issue rations to citizens, as if *such* citizens had not a claim upon the government to be fed while the government itself compelled them to wait for their just dues.

The evil, as I have said, was not known to me until it was too late to remedy it, and I myself was charged with having given orders to treat the volunteers as they were treated. This matter caused me to feel more indignation and more painful regrets than I can express.

With reference to issuing subsistence for these men to consume *en route* to California, when once they were discharged, it could not be done under the regulations, because they had received in cash commutation for their rations, and for their mileage back to the place of their original enrolment. Besides, even though they wished to buy rations at Fort Bowie and Tucson or Tubac on their route home, the rations were not at those points to meet such unexpected demands in the midst of a desert, without injustice and perhaps danger to the garrisons of those isolated places, situated at very long distances from the source of supply. I hope I need not state that my natural desire must have been to have done all I could to further the interests and the comfort and happiness of the brave men with whom I had been closely associated under so many trying emergencies on our long and toilsome march, and who had performed such gallant services under my command in this department. But it was my fortune to be misunderstood and misrepresented in the matter. Personally, each of

those brave fellows should have shared my last crust; and many of them knew, and all ought to have known, that they were alike the objects of my pride, my solicitude, and of my professional as well as of my personal regard. Few commanders have had such splendid troops as those given to me from the State of California; and however much I may be censured in the matter, that fact shall always find me a prompt and cordial witness to its truth.

I need hardly say, in conclusion, that of all this matter your excellency had not the slightest knowledge, and, therefore, must be held entirely blameless.

I have the honor to be your excellency's obedient servant,

JAMES H. CARLETON,
Brigadier General Commanding.

His Excellency FREDERICK F. LOW,
Governor of California, Sacramento, California.

Official: CYRUS H. DE FORREST,
Aide-de-Camp.

Official: THOMAS M. VINCENT,
Assistant Adjutant General.

[Circular No. 36.]

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,
Washington, May 2, 1864.

I. To provide for certain cases of muster, which may arise at the dates the original terms of service of volunteer organizations will expire, the following regulations are established and announced for the information and guidance of all concerned. Their execution will be under the supervision and direction of the commissaries of musters for corps and departments:

MUSTERS-OUT AND DISCHARGES FROM VETERAN REGIMENTS WHERE THREE-FOURTHS THEREOF HAVE RE-ENLISTED.

1. In regiments where three-fourths ($\frac{3}{4}$) of the men have re-enlisted, and which are therefore veteran, the organization they may have at the dates of expiration of term (see section 1, general remarks) will be maintained, but all men who have not re-enlisted (except those who have joined since date of original organization) will, on said date, be mustered out and discharged the service.

The musters-out will be made by the assistant commissary of musters of the division to which the troops belong, and that officer will be held strictly accountable that the muster-out rolls are accurate, and made out in accordance with the mustering regulations.

A separate muster-out roll will be made, on the prescribed form, for the detachment from each company.

Particular attention is invited to the mustering regulations in so far as the formal discharge paper of the volunteer is concerned. (See section 5, general remarks.)

After the muster-out and discharge papers shall have been fully prepared, the department or corps commander will cause the discharged men to be formed into detachments, under competent officers, and forward them to the States (see section 6, general remarks) to which they respectively belong, there to be paid off promptly under such regulations as the Paymaster General may establish.

The senior officer of each detachment will take charge of the muster-out

rolls and discharge papers, and be responsible for their safety until placed in the hands of the paymaster.

OFFICERS FOR VETERAN REGIMENTS.

2. Under paragraph 9, of General Orders No. 191, 1863, it is announced that officers in service whose regiments or companies may re-enlist (now applicable to regiments or companies where three-fourths have re-enlisted) will have their commissions and rank continued. To this end officers will continue to serve, under existing musters, until the original term of their regiments shall have expired, when they will be re-mustered, under their existing commissions, for three years. To secure the back rank—not pay—of the grade in which they may be re-mustered, the assistant commissary of musters will make the following remark upon the re-muster-in roll: "To rank from ———, 186—, under paragraph 9, General Orders No. 191, War Department, 1863."

No provision herein will be construed as authorizing the retention in service of unfit officers. All such should be reported by the department, or army commander, to the Adjutant General of the army, with the view to their discharge.

MUSTERS-OUT OF REGIMENTS NOT VETERAN.

3. Where regiments fall under the provisions of section 1, general remarks, and less than three-fourths thereof have re-enlisted, the re-enlisted men and all recruits (drafted and volunteer) who have joined the regiment since the date of its original muster-in (section 1, general remarks) will be formed into one or more companies of the legal maximum standard, and officered by such officers as may be selected by the department or army commander. The remainder of the regiment will then be placed *en route* to the State, there to be mustered out and paid off in accordance with the mustering regulations of the army.

In regiments falling under the provisions of section 2, general remarks, and where less than three-fourths have re-enlisted at the dates the periods of service of the respective companies expire, the men thereof entitled to discharge and the company officers (present and absent) will be mustered out by the assistant commissary of musters of the division, in accordance with the rules enunciated in section 1, of paragraph 1. The remainder (re-enlisted men and recruits who have joined since date of original organization) will be temporarily assigned to the last company to be mustered out. When the men of all the companies entitled to discharge have thus been disposed of, the remainder will be formed into one or more companies of the legal maximum standard, and officered by such officers as may be selected by the army or department commander.

II. Nothing herein will be considered as interfering with the requirements of General Orders No. 182, series of 1863, from this office.

GENERAL REMARKS.

III.—1. Where all the companies of a regiment were mustered in within two (2) months of the date at which the organization commenced, the date of muster-out of the organization will be determined by reckoning the period of service from the date of muster-in of the last company. In accordance with this, if the last company of a regiment was mustered into service on the 20th of May, 1861, (that date is considered as the date of original organization and muster-in of the regiment,) the period of service of the regiment will expire May 19, 1864, (expiration of original term,) and, at that date, all the members of the regiment, except re-enlisted ones, and those who have joined since date of original organization, should be discharged.

2. Where there is a difference of two months or more between the dates of muster-in of the first and last companies, the companies will be mustered out

separately, and the field and staff reduced proportionally, and in the inverse order in which they were mustered in, under paragraph 85, Mustering Regulations. The field officers, however, to be mustered out at each stage of the reduction will rest with the commander of the army or department. The musters-out will be made by the assistant commissary of musters for the division.

3. When troops are mustered out of service, all officers and men, present and absent, who are entitled to be discharged, will be considered as mustered out at one time and place, except prisoners of war, who will be considered as in service until their arrival in a loyal State, with an allowance of time necessary for them to be returned to their respective places of enrolment. With officers and men of this class commanding officers of regiments and companies will exercise great care in stating, in the remarks on the muster-out rolls, the dates and places of capture, thus :

Prisoner of war.—Captured at ———, December —, 186—.

4. Officers and men absent from their commands, on detached service, sick in hospital, or paroled, (after the officer under whose command they may be has satisfied himself that their terms of service have expired,) will be furnished with transportation by the quartermaster's department to the place where the regiment is to be mustered out, in time to be present at the said muster. The transportation will be furnished upon the requisition of the commanding officer under whom the officer or soldier may be serving, or of the surgeon in charge of the hospital where he may be sick. The descriptive lists of the men will accompany them, and be turned over to the officer who may be charged with mustering out the force, by whom (after the data therefrom has been entered on the muster-out rolls) they will be forwarded to the Adjutant General of the army. If from sickness, or other proper cause, enlisted men cannot be sent in time, as above directed, they will be discharged at the hospital, and their final papers there made out, under direction of the surgeon in charge, and forwarded to the commander having the power to discharge, as in the case of surgeon's certificate of disability. The principles announced in paragraphs 3 and 15, appendix "B," Revised Army Regulations, will be applied in such cases; and, with a view to determining claims for pension, all information will be given in the papers which will throw light on the nature and cause of the soldier's sickness.

5. The following extracts from the Mustering Regulations are published for the information and guidance of all concerned :

"Whenever volunteers or militia are mustered for final discharge, on the expiration of their term of service, a discharge will be furnished for each officer and soldier, whether present or absent.

"The blanks for these must be filled with great care and neatness, and signed, with official rank affixed, (at the left hand,) by the colonel or other regimental commander for the field and staff, by captains or other company commanders for their respective companies, and by the mustering officer, and by the mustering officer returned to the said commanders for delivery to the individuals."

Form of discharge.

[Coat of arms.]

To all whom it may concern :

Know ye, that ———, a ——— of Captain ——— company [—] ——— regiment of ——— volunteers, who was enrolled on the ——— day of ———, one thousand eight hundred and ———, to serve ——— years, or during the war, is hereby discharged from the service of the United States, this ——— day of ———, 186—, at ———, by reason, (of being mustered out of service

on the expiration of his term.) * No objection to his being re-enlisted is known to exist.

Said ——— was born in ———, in the State of ———, is ——— years of age, ——— feet ——— inches high, ——— complexion, ——— eyes, ——— hair, and by occupation, when enrolled, a ———.

Given at ———, this ——— day of ———, 186—.

—————,
Commanding Company, (or Regiment.)

A. B.,
Capt. ——— U. S. Infantry and Mustering Officer.

“Where troops are mustered out of service, final statements must not be given. The muster-out rolls take the place of final statements in such cases.”

6. As a general rule, in returning troops to their States for muster-out, they will be sent to the points therein where they were mustered in, there to be met by mustering officers and paymasters.

7. To hasten the muster-out of troops, it is hereby made the duty of regimental and company commanders, under the direction of the commissary of musters of the corps or department and assistant commissary of musters for the division, to look after the data necessary for the preparation of the muster-out rolls. To this end it is directed that each company commander shall have the muster-out roll of his company, or such men thereof as are to be discharged, made out in rough, so that it can be quickly arranged, and a fair copy made at the required time.

8. As the interest of an enlisted man is always prejudiced if his record on the rolls is imperfect, mustering officers and paymasters will promptly report all officers who may neglect to have the rolls of their regiments and companies accurately made out, with a view to their being recommended for dismissal from the service.

IV. In mustering out independent companies and batteries, or fractional parts thereof, the principles, so far as applicable, laid down herein for regiments will be observed. Questions which may arise relative thereto will be decided by department and army commanders.

By order of the Secretary of War:

E. D. TOWNSEND,
Assistant Adjutant General.

HEADQUARTERS DEPARTMENT OF NEW MEXICO,
Santa Fé, N. M., May 31, 1864.

GENERAL: I have just received Circular No. 36, dated May 2, 1864, from your office.

There are some injunctions in that circular which cannot well be carried into practical effect in this department. The California troops, who are to be discharged within this department this year, desire to remain in New Mexico and Arizona, and it is of great advantage to the Territories of New Mexico and Arizona that they be permitted to do so. A great and inhospitable desert separates them from California, over which they have once marched, under many privations and much suffering.

To compel these men to return over the same desert against their wishes merely to be discharged in California would be very hard, and, under the circumstances of their desire to remain, not advisable. Besides, we are embarrassed

* This sentence will be erased, should there be anything in the conduct or physical condition of the soldier rendering him unfit for duty in the army.

for want of the necessary transportation for such movements. I therefore beg they may be ordered to be discharged here, and that funds be sent at once with which to pay them their dues. Political reasons connected with the filling up of these rich mineral lands by a hardy population of experienced miners, and by trained soldiers, who at any time can be called upon to defend the country, whether against savages within or rebels without its borders, should, and doubtless will, have great weight with the government. Such timely forecast will give an impetus to Arizona and New Mexico which will be felt not only by these Territories but by the United States at large. For it is to such men the country must look for the speedy development of the precious metals, now so greatly needed.

Please send a supply, say 3,000 of discharges, and a sufficiency of muster-out rolls for that number of men—say for three regiments and a half of 800 men to a regiment.

Some of the companies, under the rules established by your circular, will be mustered out in July, so that funds should be sent without delay to meet these demands. This last important matter has been the subject of two communications already sent to Washington—one to yourself on the 2d instant, and one on the 10th instant to General Halleck.

I beg again to urge upon your serious attention the defenceless condition in which this department will be when these troops have been discharged. This subject has also been urged upon your attention in letters dated November 29, 1863, (duplicated January 12, 1864,) and May 8, 1864.

I am, general, very respectfully, your obedient servant,

JAMES H. CARLETON,

Brigadier General Commanding.

Brigadier General LORENZO THOMAS,

Adjutant General U. S. A., Washington, D. C.

Official copy:

THOMAS M. VINCENT,

Assistant Adjutant General.

[Mem'a.]

WAR DEPARTMENT,

Adjutant General's Office, July 26, 1866.

In reply to this letter, and by letter of July 9, 1864, from this office, to Brigadier General Carleton, the authority of the War Department to muster out the troops referred to in the department of New Mexico was granted.

THOMAS M. VINCENT,

Assistant Adjutant General.

DEPARTMENT OF NEW MEXICO,

ASSISTANT ADJUTANT GENERAL'S OFFICE,

Santa Fé, N. M., July 17, 1865.

MAJOR: The California volunteers who were mustered out of service last fall at Las Cruces, New Mexico, have, in many instances, made serious complaints in regard to the amount of commutation paid to them as travelling expenses, mileage, &c., from the place of muster out to their different places of residence. These complaints have not only been made direct to these headquarters, but in many cases the friends of the soldiers have represented to the War Department that injustice has been done them.

As you paid off most of the discharged men in the 1st and 5th infantry, California volunteers, the general commanding directs me to ask you if you cannot,

in answer to this letter, make a statement in regard to the matters referred to above, which will place this question in a proper light, and serve as a reply to any future complaints which may be made by those who think that they have not received what they were justly entitled to get.

If practicable, the general would like to receive your answer to-day.

Respectfully, &c.,

BEN. C. CUTLER,
Assistant Adjutant General.

Major S. C. STAPLES,
Additional Paymaster U. S. A., Santa Fé, New Mexico.

Official copy :

THOMAS M. VINCENT,
Assistant Adjutant General.

PAYMASTER'S OFFICE,
Santa Fé, N. M., July 17, 1865.

MAJOR: I have the honor to acknowledge the receipt of your letter of this date, in reference to travelling expenses, &c., due certain California volunteers, mustered out of service last fall at Las Cruces, New Mexico.

In reply I have to state, that having then but recently arrived in this department, and there being no other list of distances than those laid down in General Order No. 25, 1864, department New Mexico, I assumed it as being the nearest mail route from Las Cruces, New Mexico, to San Francisco, California.

After the payment had been made I was informed by Major R. A. Kinzie, chief paymaster department New Mexico, that the distance assumed by me was incorrect.

As many of the soldiers composing companies A, C, and E, 1st California cavalry, and companies D and H, 1st California volunteers, had not left Las Cruces, I at once made the correction, and asked the soldiers the favor to inform others, in their respective companies, to sign blanks (No. 5 of the pay department) in duplicate, state their company and regiment, and I would be happy to pay them the difference between Las Cruces and San Francisco via Tucson, and Las Cruces and San Francisco via Denver City, Colorado Territory.

The trouble I then assumed, and do now, in righting my error of distances, will be sufficient evidence of the sincerity of my payment.

More than one-half of the men have been paid the difference, and I will cordially make the payment to any of the remainder, provided they comply with the above requirement, viz: send me blanks signed in duplicate to Santa Fé, New Mexico.

I am, major, very respectfully, your obedient servant,

S. C. STAPLES, *P. M. U. S. A.*

Major B. C. CUTLER,
Assistant Adjutant General, Department New Mexico.

Official copy :

THOMAS M. VINCENT,
Assistant Adjutant General.

HEADQUARTERS, FORT WHIPPLE, ARIZONA,
July 28, 1864.

CAPTAIN: I have the honor to inform you that about two-thirds of the men of this command, whose time is about to expire, desire to be discharged in New

Mexico; therefore, in accordance with the instructions contained in the letter of the general commanding of the 24th ultimo, I will return with those men to Las Pinos, upon the arrival of Captain Anderson.

I think about one hundred and forty or fifty of the men will desire to return.

* * * * *

I am, sir, very respectfully, your obedient servant,

EDWARD B. WILLIS,

Major 1st Infantry California Vols., Commanding.

Captain B. C. CUTLER,

**Assistant Adjutant General, Santa Fé, N. M.*

THOMAS M. VINCENT,

Assistant Adjutant General.

ARREST OF AMERICAN CITIZENS IN IRELAND.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

IN ANSWER TO

A resolution of the House of the 18th instant, with regard to the arrest of American citizens in Ireland.

JUNE 25, 1866.—Referred to the Committee on Foreign Affairs and ordered to be printed.

To the House of Representatives :

In answer to a resolution of the House of Representatives of the 18th instant, calling for information in regard to the arrest and imprisonment in Ireland of American citizens, I transmit herewith a report from the Secretary of State on the subject.

ANDREW JOHNSON.

WASHINGTON, June 22, 1866.

DEPARTMENT OF STATE,

Washington, June 21, 1866.

The Secretary of State, to whom was referred the resolution of the House of Representatives of the 18th instant, which is in the following words :

“Whereas it is alleged that peaceable citizens of the United States, engaged in no unlawful act, have been arrested and are held as prisoners by the British government in Ireland : Therefore be it

“*Resolved*, That the President be requested to inform this house, if not incompatible with the public interest, what information he may have as to such arrests, and what steps, if any, have been taken to protect such persons in their rights as citizens of the United States”—

Has the honor to subjoin a list of the names of alleged citizens of the United States who, according to the information in this department, have been arrested in Ireland since the recent suspension of the habeas corpus act in that country. Pursuant to the instructions of this department, the United States minister at London, and the consuls of the United States in Ireland, have made such representations to the British authorities in regard to the cases of these persons that they have been released, except two, who were held for trial upon grounds

supposed to be sufficient by the judicial authorities. It is believed, however, that in consequence of the aforesaid representations even the two persons referred to, one of whom is a Colonel Burke, have been set at liberty before the present time.

Respectfully submitted :

WILLIAM H. SEWARD.

The PRESIDENT.

Names of persons arrested in Ireland as "Fenians," claiming to be American citizens.

The following were held in arrest at Dublin : Maurice J. McGrath ; Lieutenant Colonel Jno. W. Byron, late major 88th New York volunteers ; George Archdeacon ; Michael O'Boyle, late captain 69th New York volunteers ; Timothy D. McEniff ; John Fanning ; — Burke ; — Kirwan ; — McDonald ; Jas. Bible, late captain United States army ; John H. Gleason ; Joseph Gleason ; Bernard McDermott ; Michael O'Brien, *alias* Thos. W. O'Brien ; Michael Duffy ; Daniel J. Mykens, native of New York ; Jas. Smith, native of Ohio ; John A. Comerford, native of Massachusetts ; Frank Leslie, *alias* Eugene Shed, New York ; William Mackay, native of Pennsylvania ; Edward Morley, native of Pennsylvania ; Cornelius Healy ; Thomas J. Hynes.

The following were held in arrest at Belfast : Captain O'Bryne ; John Dunn.

The following were held in arrest at Cork : John McCinerty, native of Ohio ; James Daniels.

The following was held in arrest at Tipperary : Thomas E. Blackwell.

EXPENDITURES FOR INDIAN SERVICE.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

IN RELATION TO

Appropriations and expenditures connected with the Indian service.

JUNE 25, 1866.—Referred to the Committee on Appropriations and ordered to be printed.

To the House of Representatives :

I transmit herewith a report from the Secretary of the Interior communicating in part the information requested by a resolution of the House of Representatives of the 23d of April last, in relation to appropriations and expenditures connected with the Indian service.

ANDREW JOHNSON.

WASHINGTON CITY, June 23, 1866.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., June 22, 1866.

SIR: I have the honor to enclose herewith, as a partial response to a resolution of the House of Representatives of the 23d of April last, copies of a communication of the Commissioner of Indian Affairs of the 21st instant, and statement of the Register of the Treasury showing the amount of all moneys on hand July 10, 1865, for the support of the various Indian tribes and for other purposes connected with the Indian service, also the entire amount which has been expended since that time up to the 20th of April, 1866, and the various heads of appropriations under which the moneys were drawn, together with the amount now on hand applicable to such service.

Congress did not authorize the department to employ the additional clerical aid required to enable me to answer more fully the resolution at this time. The accompanying papers are, nevertheless, submitted for transmission to the House of Representatives. They are as complete as it is practicable to render them with the clerical force at my disposal, without detriment to the indispensable current business of the department.

I am, sir, very respectfully, your obedient servant,

JAS. HARLAN, *Secretary.*

The PRESIDENT.

DEPARTMENT OF THE INTERIOR, OFFICE INDIAN AFFAIRS,
Washington, D. C., June 21, 1866.

SIR: Referring to office reports of the 2d and 7th ultimo relative to a resolution passed by the House of Representatives on the 23d April last, I have to state that this office is in receipt of a statement furnished by the Hon. Secretary of the Treasury showing the money on hand in his department on the 10th day of July, 1865, applicable to the support of the various Indian tribes and for other purposes connected with the Indian service; the appropriations from July 10, 1865, to April 20, 1866, and the repayment and transfers during the same time; the total expenditures between the two last-mentioned dates, and the balance on hand on the 20th April last.

This statement is a full response to said resolution except that it does not show the particular objects for which the expenditures have been made; and as no response has thus far been made to the request for additional clerical force to enable the department to respond to that part of the resolution, it is presumed that the House does not deem the matter of sufficient importance to provide the ten additional clerks asked for in my report of the 7th.

I therefore enclose herewith a copy of the statement furnished by the Treasury Department, and respectfully suggest that it be submitted to the House of Representatives as a partial response to said resolution as well as the one passed on the 4th instant; and if that part of the resolution not responded to by said statement is deemed of sufficient importance to provide the necessary clerks to enable this department to furnish the desired information, that their attention be again called to the difficulties in the way of a prompt response, and the absolute necessity for additional clerical force to perform the labor, as set forth in office report of the 7th ultimo.

Very respectfully, your obedient servant,

D. N. COOLEY, *Commissioner.*

Hon. JAS. HARLAN,

Secretary of the Interior.

Statement of all moneys on hand, July 10, 1865, for the support of the various Indian tribes, and for other purposes connected with the Indian service; also the entire amount which has been expended since that time up to the 20th of April, 1866, and the objects for which such expenditures have been made, together with the amount now on hand applicable to said service.

Appropriations or objects of expenditure.

TREASURY DEPARTMENT, Register's Office, May 18, 1866.

S. B. COLBY, Register.

HONORS TO REBELS.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

IN ANSWER TO

The resolution of the House of the 4th instant, as to whether any of the civil or military employés of the government have assisted in the rendition of public honors to the rebel living or dead.

JUNE 28, 1866.—Laid on the table and ordered to be printed.

To the House of Representatives :

I transmit herewith reports from the heads of the several executive departments, made in answer to the resolution of the House of Representatives of the 4th instant, requesting information as to whether any of the civil or military employés of the government have assisted in the rendition of public honors to the rebel living or dead.

ANDREW JOHNSON.

WASHINGTON, D. C., *June 28, 1866.*

DEPARTMENT OF STATE,
Washington, June 9, 1866.

The Secretary of State, to whom was referred the resolution of the House of Representatives of the 4th instant, requesting the President "to inform this House whether any of the military or civil employés of this government, within the State of Georgia, or any other of the rebel States, have, in any way, countenanced or assisted in the rendition of public honors to any of the traitors, either living or dead, who have been waging a parricidal war against this government, in commemoration of their great crime, either by closing their offices on such occasions, or making other honorable public demonstrations in connexion therewith; and, further, whether the privilege of doing like honors to loyalty at the graves of the Union soldiers who have perished far from their homes and kindred has been, in any instances, obstructed or denied by the rebel authorities with the concurrence or acquiescence of the officers of this government," has the honor to report that he has no knowledge or information on the subject of the resolution.

Respectfully submitted :

WILLIAM H. SEWARD.

The PRESIDENT.

ATTORNEY GENERAL'S OFFICE,

Washington, June 8, 1866.

SIR: I have the honor to acknowledge the receipt of a resolution of the House of Representatives, referred to me by you, adopted June 4, 1866, calling for information as to the participation of military or civil officers of the government in the State of Georgia, or any other of the lately rebel States, in the rendition of public honors to the deceased soldiers of the so-called Confederate States, or in the denial of such honors to the gallant dead of our own army.

In reply thereto, I have great pleasure in saying that this department has no knowledge of any such disloyal demonstration on the part of any officer subject to its jurisdiction, and believes that none such has taken place.

I have the honor to be, sir, very respectfully, your obedient servant,

JAMES SPEED,

Attorney General.

The PRESIDENT.

POST OFFICE DEPARTMENT,

Washington, June 13, 1866.

SIR: With reference to the resolution of the House of Representatives of the 4th instant, calling for information concerning the participation of military and civil employes of the government in the rendering of public honors to the rebel dead, &c., I have the honor to report that I have no information upon any branch of the inquiry made by said resolution, so far as it may relate to officers and employes of this department.

I have the honor to be, very respectfully, your obedient servant,

W. DENNISON,

Postmaster General.

The PRESIDENT.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., June 9, 1866.

SIR: In response to the resolution of the House of Representatives, adopted June 4, 1866, requesting the President "to inform the House whether any of the military or civil employes of this government, within the State of Georgia, or any other of the rebel States, have in any way countenanced or assisted in the rendition of public honors to any of the traitors, either living or dead, who have been waging a parricidal war against the government, in commemoration of their great crime, either by closing their offices on such occasions or making other honorable public demonstrations in connexion therewith; and further, whether the privilege of doing like honors to loyalty at the graves of the Union soldiers who have perished far from their homes and kindred has been in any instance obstructed or denied by the rebel authorities, with the concurrence or acquiescence of the officers of this government," I have the honor to report that none of the employes of this department, so far as I am advised and believe, within the State of Georgia, or any other of the rebel States, have in any way "countenanced or assisted in the rendition of public honors to traitors either living or dead," or concurred in the obstruction or denial by the rebel authorities "of the privilege of doing like honors to loyalty at the graves of the Union soldiers who have perished far from their homes and kindred."

I am, sir, with great respect, your obedient servant,

W. T. OTTO,

Acting Secretary.

The PRESIDENT.

NAVY DEPARTMENT,

Washington, June 13, 1866.

SIR : I have the honor to acknowledge the receipt of a copy of a resolution adopted by the House of Representatives on the 4th instant, relative to the participation of military or civil employés of the government in the rendering of public honors to the rebel dead, &c., which was referred by you to this department for a report.

This department has no information whatever on the subject-matter contained in this resolution.

With great respect, your obedient servant,

GIDEON WELLES,

Secretary of the Navy.

The PRESIDENT *of the United States.*

TREASURY DEPARTMENT, *June 12, 1866.*

SIR : I have the honor to acknowledge the receipt from you of a copy of the resolution of the United States House of Representatives calling for information concerning the participation of military and civil employés of government in rendering public honors to the rebel dead, &c.

It is not within the knowledge of this department that any of its civil employés or any other officers of the government within the State of Georgia or elsewhere have participated in the rendition of any such honors as are mentioned in said resolution, or that the privilege of doing honors to loyalty at the graves of Union soldiers has been obstructed or denied with the concurrence or acquiescence of any officers of this or any other department of the government.

I have the honor to be, very respectfully,

H. McCULLOCH,

Secretary of the Treasury.

The PRESIDENT.

WAR DEPARTMENT,

Washington City, June 27, 1866.

SIR : I have the honor to acknowledge your reference of the resolution of the House of Representatives of the 4th instant, calling for information as to whether any of the military or civil employés of the government have, in any way, countenanced or assisted in the rendition of public honors to the rebel living or dead; and also whether the privilege of doing like honors to loyalty at the graves of Union soldiers has been obstructed or denied by the rebel authorities with the concurrence or acquiescence of the officers of the government; and in reply, to state that this department is not in possession of any official information upon the subject.

Very respectfully, your obedient servant,

EDWIN M. STANTON,

Secretary of War.

The PRESIDENT.

COMMUTATION OF RATIONS.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of the 14th of June, relative to commutation of rations to soldiers while prisoners of war.

JULY 6, 1866.—Referred to the Committee on Appropriations and ordered to be printed.

WAR DEPARTMENT,
Washington City, July 5, 1866.

SIR: In answer to the resolution of the House of Representatives of the 14th of June, calling for information relating to the commutation of rations allowed to Union soldiers who were prisoners of war, I have the honor to report:

1. That by a General Order of February 14, 1862, rations to Union soldiers held as prisoners of war in the rebel States were commuted at cost price during the period of their imprisonment. The sum paid on this account is reported by the commissioner at about two and a half millions of dollars. This commutation has not been considered as an ordinary claim of allowance under existing laws, and no specific appropriation has been made to meet it, but it was allowed from the necessity of the case, to provide for those who were undergoing the calamity of prisoners in the rebel States.

2. After hostilities had terminated, and the prisoners were all released, it became manifest that commutation claims were becoming the subject of speculation and traffic by agents, brokers, and persons engaged in that class of business; and in the absence of any specific appropriation, the order for payment of commutation was suspended until Congress should make an appropriation, if deemed proper, and provide regulations that might secure the money to the persons properly entitled, and protect them against fraudulent speculation. The outstanding claims requiring appropriation, principally in the hands of agents, assignees, brokers, &c., are estimated at \$3,400,000.

I have the honor to be your obedient servant,

EDWIN M. STANTON,
Secretary of War.

Hon. SCHUYLER COLFAX,
Speaker of the House of Representatives.

THE SECRETARY OF WAR

LETTER

COMMUNICATION OF MATTERS

Washington, D.C., July 2, 1862

Dear Sir:

I have the honor to acknowledge the receipt of your letter of the 1st inst., in relation to the communication of matters to the Secretary of War, and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,
Your obedient servant,
John A. TAYLOR,
Secretary of War.

Very truly,
John A. TAYLOR,
Secretary of War.

DUNDAS PATENT.

LETTER

OF

THE SECRETARY OF THE INTERIOR,

IN ANSWER TO

A resolution of the House of the 26th of May, in regard to the reissue of the Dundas patent for cultivators.

JULY 6, 1866.—Referred to the Committee on Patents and ordered to be printed.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., July 6, 1866.

SIR: I have the honor to acknowledge the receipt of a copy of the resolution adopted by the House of Representatives on the 26th day of May last, as follows:

“Resolved, That the Secretary of the Interior be requested to communicate to this house whether any application has been made for the reissue of the Dundas patent for cultivator, and if so, by whom, and at what time, and upon what grounds, and to transmit to this house copies of all the papers and documents connected with the application; and also to state what effect it will have upon the agricultural interests of the country to reissue said patent, and have the same relate back and cover the essential improvements made since the year eighteen hundred and fifty-one; and also, further, to communicate whatever legislation is necessary to protect the interests of the public in regard to such reissues of patents.”

In response thereto, I transmit a copy of a letter of the 5th instant, from the Acting Commissioner of Patents, and the papers by which it was accompanied.

The last annual report of this department alluded to the law in cases of applications for the extension of patents, and to the propriety of conferring upon the Secretary of the Interior a supervisory control over the action of the Commissioner of Patents in regard to them. Experience and further examination have satisfied me of the propriety of the views then presented. The decision of the Commissioner, instead of being final and conclusive upon the merits of such an application, should be subject to the review of the department, by appeal or otherwise, in the same manner as the decisions of the other bureaus. Appropriate legislation to accomplish this object is respectfully recommended.

I am, sir, with great respect, your obedient servant,

JAS. HARLAN, *Secretary.*

Hon. SCHUYLER COLFAX,

Speaker of the House of Representatives.

UNITED STATES PATENT OFFICE,
Washington, D. C., July 5, 1866.

SIR: In response to the resolution adopted by the House of Representatives on the 26th of May, calling for information relative to an application for the reissue of the Dundas patent for cultivator, I have the honor to say that the original application of James Dundas for letters patent for improvements in corn cultivators was filed in the United States Patent Office August 9, 1851, and after various amendments, rejection, and substitution of new specification and claims, a patent was issued February 8, 1859.

On the 7th of March, 1866, an application was received and filed in the United States Patent Office, by James Dundas and Thomas Sayles, for a reissue of the above-named patent of James Dundas, (the said Sayles having become part owner of said patent by transfer, dated January 9, 1866, and received and recorded February 9, 1866.

This application for reissue was examined and rejected March 31, 1866, and in view of testimony and arguments the application was the second time rejected May 19, 1866.

On the 22d day of May, 1866, an appeal was taken to the board of examiners in chief, which is now pending before them.

The first rejection of this application was based upon the rejected application of Hiram H. Marsh, filed July 5, 1851.

The second rejection was based upon patents issued prior to that of Dundas, which were held by the examiner, to cover all the main features now claimed in the reissue application.

Since the rejection and withdrawal of Marsh's application, this class of cultivators (now sought to be reissued) have gradually gone into public use, and testimony has been presented tending to show that during the past year not less than forty-five thousand were built and sold and put into actual use, which embrace in their construction the leading features set forth in the claims of the pending application of Dundas.

If, therefore, the patent be reissued in the form now pending, and if its validity be sustained in the courts, a large number of farmers will be compelled to abandon the use of such cultivators, or to pay to the holders of the patent such fee as they may demand.

While, however, the effect of reissuing patents under such circumstances may properly be considered by the legislature, in connexion with the enactment of statutes, the action of this office cannot be predicated thereon.

Under the terms of the existing law as expounded by the Supreme Court of the United States, if it be shown that the device now sought to be covered by the reissue was shown in the original patent, and if it be shown that Dundas was the first inventor thereof, this office would be bound to reissue the patent, and could not refuse upon any supposed basis of public policy.

The propriety of a change in the law in this particular was urged upon Congress in the last annual report of this office, in the following terms:

"This period of *two years* is recognized in several instances as the measure by which the rights of an inventor shall be determined, and I am convinced that if the same idea is extended to another case, not now within its scope, the occasion for much serious injustice will be removed.

"Under the existing law a patent is taken out in which the inventor makes a clearly defined claim to a particular feature.

"The claim, it may be, does not cover all that is described in the specification or shown in the drawing, and whatever is thus left unclaimed may be used by any person unless protected by a previous patent. Some enterprising manufacturer, who is keen enough to recognize the value of that which the inventor did not deem it worth his while to appropriate, invests his capital and begins to

furnish the public with a valuable article, and after this the inventor applies for a reissue of his patent, and an extension of his claim, so as to give him the monopoly of that which he had before left open to the use of the world.

"If it appears, upon examination, that the original specification described the art or device in question, and that the holder of the patent was actually the original inventor, he is entitled to a reissue in such terms as to preclude the use of such device, except upon such conditions as he may grant. It would not be difficult in this manner to entrap a person into such an arrangement of his business, or employment of his means, as to leave him at the mercy of the inventor, or to compel him to pay an exorbitant royalty, when the patent is reissued with a broader claim. In my opinion it would be a judicious amendment of the law, and would prove an effective safeguard to the rights of innocent parties, if the privilege of reissuing a patent in such terms as to broaden the claim were restricted to the first two years of the life of a patent, leaving reissues for other purposes to be granted at any time as at present."

Such an enactment as is here suggested would effectually prevent the recurrence of such attempts to spring upon the public a title to what has been for years open to general use; but I am hardly prepared to recommend that such a provision be made to apply to cases in which patentees have already filed their applications and incurred an expense to secure that to which under present laws they may be fully entitled.

Accompanying this are copies of the several papers connected with the application.

I have the honor to be your obedient servant,

THOMAS HARLAND,
Acting Commissioner.

Hon. JAMES HARLAN,
Secretary of the Interior.

A.

CHICAGO, August 1, 1851.

To the Commissioner of Patents:

The petition of James Dundas, of Little Rock, in the county of Kendall and State of Illinois, respectfully represents: That your petitioner has invented a new and useful machine for cultivating corn, which he verily believes was not known or used prior to his invention thereof, which has not heretofore been and is not now in public use. He therefore prays that letters patent of the United States may be granted to him, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions expressed in the act of Congress in such case made and provided, the petitioner having resided five years in the United States, and has declared his intention to become a citizen thereof, and having paid thirty dollars into the treasury and complied with other provisions of the said act.

JAMES DUNDAS.

Witnesses: JAMES M. VANESDEL,
Js. McCLURG.

STATE OF ILLINOIS, *County of Cook, ss :*

On the first day of August, A. D. 1851, before the subscriber, Andrew J. Brown, a notary public in and for the said county in said State, personally appeared the above-named James Dundas, and made oath that he verily believes himself to be the first and original inventor of the method of constructing corn cultivators, as set forth in the above specification by him subscribed, and that he does not know or believe that the same was ever before known or used, and that he has resided for the last five years in the United States, and has declared his intention, in form of law, to become a citizen thereof.*

In witness whereof, I have hereunto set my hand and notarial seal this first
[SEAL.] day of August, A. D. 1851.

ANDREW J. BROWN,
Notary Public.

STATE OF ILLINOIS, *Kendall county, ss :*

On this 28th day of January, A. D. 1852, before me, the subscriber, clerk of the county court in and for the said county, personally appeared the within named James Dundas, and made solemn oath that he verily believes himself to be the original and first inventor of the mode herein described for constructing corn cultivators as set forth in the above specification by him subscribed, and that he does not know or believe that the same was ever before known or used, and that he has resided in the United States one year next preceding his application for letters patent, and has made oath of his intention to become a citizen thereof.

In witness whereof, I have hereunto subscribed my name and affixed the seal
[SEAL.] of the said county court, at my office in Oswego, the day and year first above written.

GEORGE W. HARTWELL,
Clerk of the County Court, Kendall County.

PATENT OFFICE, *February 21, 1852.*

SIR : The claim of your application for an alleged improvement in the construction of wheel cultivators has been again examined, and it is found that an equivalent device is contained in the application of Chapin Street, rejected on 25th of May, 1847.

In this cultivator the teeth were raised out of the ground by a joint in the rear part of the tongue and the application of lever power. It is evident, therefore, that no claim can be granted to you for terms of withdrawal, &c.
(see 11 and 12 pages of indorsed circular.) T. E.

JAMES DUNDAS,
Little Rock, Illinois.

[Received April 23, 1852.]

BIG ROCK, KANE COUNTY,
Illinois, April 8, 1852.

SIR : I have received yours of the 20th of February, 1852, stating that my application for a patent for an alleged improvement in the construction of wheel cultivators has been examined, and it is found that an equivalent device is contained in the application of Chapin Street, whose claims were rejected. You

* Oath defective.

say that in Mr. Street's cultivator the teeth were raised out of the ground by a joint in the rear part of the tongue and the application of lever power. These references, made in your official communication in order to justify the office in its decision in not granting my claim, fill me with hope. After a careful consideration of these grounds of rejection, and with due respect to the office, I pronounce them inapplicable to my case. There is a joint at the rear part of the tongue, where it is united to the beams of the cultivator, but I am not aware that there is any in the tongue. 2d. There is no application of lever power whatever in raising it out of the ground. It is done by a slight move of the driver backward on his seat without the application of lever or hand or foot. By drawing back the lock or small cross-bar under the rear part of the tongue, with the hand or foot, and a slight move of the driver, as we sometimes call it, leaning forward, the cultivator drops into its place again. I still deem myself entitled to a patent, and request a reconsideration of the case.

I would take it as a favor if the office would notify me of the time of reconsideration. I would go there with one of my cultivators. I would show, with more ease and better satisfaction than I can tell, that the levers are useless where the rows are straight and the ground clear of weeds; where the rows are crooked or a hill out of the row, we lean the levers to the right or left as occasion may require; and when weeds collect on the shovels, we elevate them and give them a shake, throwing the weeds to the right or left. I have also received a copy of Isaac Constant's specification, fifty-nine days after it was dated and mailed.

You say in your official communication of November 28, that my first claim is covered by the patent of Isaac Constant. Now, sir, I am willing to allow that the office is the best judge, and has the right of judging, yet, with the decision of the office and Mr. Constant's specification and claim now before me, I cannot see wherein they interfere with each other. His intermediate jointed ploughs are made fast to the main cultivating ploughs by a clevis on the front end of the beam, just as one harrow is made fast to another. The share is near the middle of the beam. In my cultivator (first claim) the levers are hung on about near the centre, and the shovels on the end of the lever. Mr. Constant's cultivator is guided by the ploughman, just as any other plough is—a handle in each hand, travel on foot, and crowd first one way and then the other. If mine is like this, it is known nowhere but at Washington. Asking pardon for taxing your patience so heavily, I subscribe myself,

Your humble servant,

JAMES DUNDAS.

The COMMISSIONER OF PATENTS,

Patent Office, Washington, D. C.

P. S.—If my claim should come up for reconsideration before I get there, I would prefer having it laid over until I come.

JAMES DUNDAS.

[Received and answered December 2, 1852.]

BIG ROCK, KANE COUNTY,

Illinois, November 16, 1852.

SIR: I received your communication of February 20, stating that my claim for a patent on wheel corn cultivators has been again examined, &c.

Supposing that my claim might prove good by taking a different view of it, I wrote on the 8th of April last, giving as clear a statement, and my reasons for urging my claims, as I was capable of doing, and requesting a re-examination. I also requested that I might be notified of the time when an examina-

tion would take place, (perhaps that is not in accordance with the rules of the office.) As I have done my own writing, in order to save expense, I would like to know if there is anything wrong about it that can be made right.

With due respect, sir, I remain, your obedient servant,

JAMES DUNDAS.

My address is Big Rock, Kane county, Illinois.

The COMMISSIONER OF PATENTS,

Patent Office, Washington, D. C.

PATENT OFFICE, *December 2, 1852.*

SIR: Your letter of the 16th ultimo, regarding your rejected application for letters patent on a corn cultivator, is duly received.

The specification is herewith returned for such modification as may be desirable, in accordance with the rules of this office, a copy of which, in pamphlet form, is also sent for your guidance in the proposed amendment of your claim, &c.

R. C. W.

JAMES DUNDAS,

Little Rock, Kendall county, Illinois.

I, James Dundas, of the county of Kane, and State of Illinois, do hereby make, constitute, and appoint C. W. Bennett, of Washington, D. C., my true and lawful attorney, for me and in my name, place, and stead, to prosecute my claim for letters patent for the "Dundas corn cultivator," the application for which, with the original specification of said machine, are dated Chicago, August 1, 1851, and witnessed by John M. Vanosdel and Jas. McClurg; giving and granting unto my said attorney full power and authority to do and perform all and every act and thing whatsoever requisite and necessary to be done, in and about the premises, as fully, to all intents and purposes, as I might or could do if personally present, with full power of substitution and revocation, hereby ratifying and confirming all that my said attorney, or his substitute, shall lawfully do, or cause to be done, by virtue hereof.

[L. S.] In witness whereof, I have hereunto set my hand and seal, the 21st day of May, A. D. 1855.

JAMES DUNDAS.

Witness: DANIEL EASTMAN.

WASHINGTON, *June 7, 1855.*

SIR: I herewith enclose the original specification, a copy of amended specification of James Dundas for corn cultivator, and also a power of attorney from Dundas to myself.

I understand this case was filed in 1851, and was partially rejected. From the letter of Commissioner Ewbank, of date 28th November, 1851, to Jas. Dundas, it is concluded that a portion of the claim is patentable.

Will you please cause the case to be re-examined and advise me of the result.

Very respectfully, yours,

C. W. BENNETT.

Hon. C. MASON,

Commissioner of Patents, Present.

UNITED STATES PATENT OFFICE, *June 14, 1855.*

SIR: The last action of this office was returning the specification of your corn cultivator for amendment. It having been left nearly three years without any effort on your part to make out a patentable invention, and without any suitable amendment, the office can do nothing with the case except to further postpone its consideration, till you furnish such specification and such claim as you design to sustain. Of the two specifications one was filed August 9, 1851; the other not filed at all until now, nor witnessed. It is the business of the applicant to prepare his papers before they can be acted on. Both these specifications are enclosed for preparation, whichever you choose to select for that purpose; the other will be returned to this office without charge. See the circular enclosed.

Respectfully,

JAMES DUNDAS,

*Care of C. W. Bennett, Washington, D. C.**To the Commissioner of Patents:*

The petition of James Dundas, of Little Rock, in the county of Kendall, and State of Illinois, respectfully represents, that your petitioner has invented a new and useful machine for cultivating corn, which he verily believes was not known or used prior to his invention thereof, which has not heretofore been, and is not now in public use. He therefore prays that letters patent of the United States may be granted to him, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions expressed in the act of Congress in such case made and provided; the petitioner having resided five years in the United States, and has declared his intention to become a citizen thereof, and having paid thirty dollars into the treasury, and complied with other provisions of said act.

CHICAGO, *August 1, 1851.*

For signature see original petition.

To all whom it may concern:

Be it known that I, James Dundas, of Little Rock, in the county of Kendall, and State of Illinois, have invented a new and useful machine for cultivating corn, called "The Dundas Corn Cultivator," of which the following is a full and exact description: "The nature of my invention consists in arranging a number of plough-shaped shovels to a proper frame, suspended to a single axle, which is sustained by a pair of common wagon wheels, having a tongue attached for the purpose of harnessing thereto a pair of horses, or other animals, used for similar purposes; also by a peculiar arrangement of the shovels the earth is thrown from the young corn plants, and the same shovels are readily arranged to throw the earth toward the plant as may be required; also, by detaching a single catch, the ploughs or shovels rise above the surface of the ground so that the machine may be driven about the field, or on the road from place to place, as may be desired. To enable others skilled in the art to make and use my invention I will proceed to describe its construction and operation, reference being had to the accompanying drawing, where fig. 1 represents a perspective view of the machine; fig. 2 a longitudinal section of the same. No. 1 represents the movable shovels arranged to throw the earth toward the plants; No. 2 the same, arranged to throw the earth from the plants; No. 3 represents a front view of the stationary side shovels. Let *a a* represent two ordinary wagon wheels; *b* an axle resting in the hubs of the wheels *a a*; *c c* are two pieces of timber passing through the axle. The forward ends of the pieces *c c* are con-

connected by the bar *d* by means of the bolts *ee*. The beams *cc* pass outwards back of the axle *b*, forming support for the platform *f*. I then place a seat for the driver on the platform *f*, and secure it to the same. The seat is represented at *g*; I then pass two inclined bars through mortices cut in the beams *cc*; these bars are shown at *hh*, being connected at the upper end by the cross-bar *i*, which has a slaut for one of the bars *h*, as shown in fig. 1; the bar *h* being secured at any point in the slaut by inserting the pin *j*; the bars *hh* are supported on the iron rod *kk* passing through the timbers *cc*, also through the hounds *ll*, and the tongue *m*; *nn* represents two connecting bars or braces attached to the head of the bolts *e*, and by means of eye-bolts to the lower end of the bars *hh*. I also bolt to the side of the beam *cc* two other inclined bars, as shown at *oo*, and brace them by means of iron rods, as shown at *p*; *q* represents a cross-bar resting on the upper side of beam *cc*, and working on a pivot at *r*; the opposite end is made to slide under the iron staple *s*. I then insert a spring between the bar *q* and axle *b*, as shown at *t*; this spring presses the bar *q* against the end of the tongue *m*. I then attach a short piece of chain, as shown at *ll*, one end of which is fixed to the cross-bar *d*, and the other end to the tongue *m*; *vv* represents the ordinary cultivator shovels attached to the bars *oo*; *ww* represents two half shovels attached to the lower ends of the bars *hh*. The operation of this machine is as follows: First, the tongue *m* is movable on the rod *kk*, consequently the bar *d* rests upon the upper side of the tongue; then the bar *q* being pressed against the end of the tongue, the beams *cc* is retained in the same plane with the tongue. In this position the machine is in readiness to cultivate the corn. When it is desired to withdraw the shovels and elevate them above the surface of the ground, the driver places one of his feet against the bar *q*, and drawing it slightly backwards, releases the end of the tongue, and the weight of the driver causes the platform to descend, tilting the front part of the frame upwards, in the position as shown at fig. 2. The chain *u* prevents the machine from too great an elevation, and the bar *q* being released is pressed forward under the end of the tongue *m*, which fixes the machine in the position as shown at fig. 2. An oscillating or side motion can be given to the shovels *ww* by the driver pressing the bar *i* either right or left; the mortices in the beams *cc* being enlarged at the sides to allow the bars *hh* to play sideways, as shown by the dotted lines on No. 1, bringing the points of the shovels at *xx* alternately. By this operation, if the plants are not in a straight line, the driver can avoid them by moving the shovels to the right or left. Observe that the half shovels can be taken out and reversed for the purposes before mentioned in this specification.

What I claim as my invention, and desire to secure by letters patent, is the arrangement of the half shovels *ww* in connexion with the bar *hh* and *i*, to be moved to the right or left, at the pleasure of the operator.

JAMES DUNDAS.

(Two witnesses.)

(See original specification filed August 9, 1851. See also oath filed January 28, 1852.)

BIG ROCK, *January 3, 1859.*

DEAR SIR: About the 1st of August, 1851 or 1852, I made application for a patent on a four-shovel corn cultivator to run on wheels. My papers were returned for correction. They were corrected and forwarded again to the office. On a second examination it was found that some other claim came in contact with one of mine. The papers were again returned. I then abandoned our claim, made a slight alteration in my specification, intending to have it better understood. In some further correspondence I was advised to get up new papers. I then went to D. Eastman, attorney-at-law, (now judge of Kane county.)

He made out new papers, employed as agent C. W. Bennett, attorney-at-law Washington, D. C. We forwarded him all the correspondence, with the new papers and some money. This was in June, 1855. Since then we have never heard from Mr. Bennett or the papers. I have been advised by our best scientific men to go to Washington and represent my case, but being out of health and poor, I never could. I now suppose there is no way for me to succeed without money, friends, or papers. I ask if I can withdraw my application or abandon it and recover my two-thirds of the patent fee.

Very respectfully, &c.,

JAMES DUNDAS.

My address is Big Rock, Kane county, Illinois.

P. S. Having no papers to guide me, I cannot give the dates exactly.

J. D.

The COMMISSIONER OF PATENTS.

WASHINGTON, January 13, 1859.

SIR: I herewith return the two specifications in the case of James Dundas for a corn cultivator, and request that the original specification be cancelled except the petition, oath, signature, and witnesses, and that it be examined on the specification filed June 14, 1855.

C. W. BENNETT, *Attorney.*

Hon. J. HOLT, *Commissioner of Patents.*

No. 22,859.—JAMES DUNDAS, of Little Rock, county of Kendall, State of Illinois.

Corn cultivator.—Received, August 9, 1851; petition, August 9, 1851; affidavit, August 9, 1851; specification, August 9, 1851; 2 drawings, August 9, 1851; model, August 9, 1851; 1. Certificate deposited, \$30, August 9, 1851; 2. Cash; 3. Examined by Jenckes, January 21, 1859; issue Shugert, January 24, 1859; patented February 8, 1859; recorded volume 96, page 172; C. W. Bennett, of Washington, agent, January 9, 1855.

Improvement in cultivators.—Reported to examiner, November 26, 1851; returned specification for oath and drawings, November 28, 1851; reported to examiner, February 7, 1852; rejected, February 20, 1852; letter from applicant, (within,) April 23, 1852; returned specification to applicant, December 2, 1852; returned two specifications for amendment, 15th June, 1855.

B

335 BROADWAY, *New York*, March 5, 1866.

SIR: You are hereby authorized and respectfully requested to permit George Harding, of Philadelphia, Pa., to act as attorney and counsel in the matter of the application for the reissue of the patent granted to James Dundas, for improvements in cultivators, dated the 8th day of February, A. D. 1859.

Respectfully, your obedient servants,

JAMES DUNDAS,
THOMAS SAYLES,

By their attorney, E. S. RENWICK.

Hon. T. C. THEAKER, *Commissioner of Patents.*

To the Commissioner of Patents :

The petition of James Dundas, of the county of Nemaha, in the Territory of Nebraska, respectfully represents, that the said James Dundas, who formerly resided in Little Rock, in the State of Illinois, did obtain letters patent of the United States for an improvement in cultivators, which letters patent are dated the 8th day of February, 1859, and are numbered 22,859; that your petitioner is now one of the owners of the said letters patent and the invention described therein; that he now believes the said letters patent are inoperative by reason of a defective or insufficient description and specification, and that error has arisen by inadvertency, or mistake, and without any fraudulent or deceptive intention. He therefore prays that he may be allowed to surrender the same, and that new letters patent may issue to him, for the same invention, for the residue of the period for which the original patent was granted, under the amended specification herewith presented in the words of the said James Dundas, he having paid thirty dollars into the treasury of the United States, agreeably to the acts of Congress in that case made and provided.

Your petitioner further hereby appoints, and requests you to recognize, Edward S. Renwick, of the city of New York, to be his true and lawful attorney, for him and in his name to prosecute his application for and receive the aforesaid new letters patent, to amend the description and specifications, or to withdraw the said application; also, to appoint such counsel or attorney to prosecute this application as he may deem fit, and generally to do every act and thing which your petitioner might rightly do to obtain said new letters patent, hereby ratifying and confirming each and every act he and his said appointees may do for that purpose.

JAMES DUNDAS.

To the Commissioner of Patents :

The petition of Thomas Sayles, of Chicago, in the State of Illinois, respectfully represents, that James Dundas, who formerly resided in Little Rock, in the State of Illinois, did obtain letters patent of the United States for an improvement in cultivators, which letters patent are dated the eighth day of February, 1859, and are numbered 22,859; that your petitioner has become the owner, by assignment, of the patent right and invention of the said James Dundas for all that portion of the United States which is not owned by the said Dundas; that your petitioner believes that said letters patent are inoperative by reason of a defective or insufficient description and specification, and that the error has arisen by inadvertency, or mistake, and without any fraudulent or deceptive intention; he therefore prays that he may be allowed to join with said James Dundas in surrendering the said letters patent, and that new letters patent may issue, for the same invention, for the residue of the period for which the original patent was granted, under the amended specification in the words of the said James Dundas, herewith presented, thirty dollars having been paid into the treasury of the United States, agreeably to the acts of Congress in that case made and provided. Your petitioner also consents that the said new letters patent may be issued to the said James Dundas, in case the Commissioner of Patents shall so determine.

Your petitioner further hereby appoints, and requests you to recognize, Edward S. Renwick, of the city of New York, to be his true and lawful attorney, for him and in his name to prosecute the application for and receive the aforesaid new letters patent, to amend the description or specification herewith presented, and to withdraw the said application; and also to appoint such counsel or attorney to prosecute the application as he may see fit, and generally to do every act and thing which your petitioner might rightly do to obtain said new letters patent,

hereby ratifying and confirming each and every act he and his said appointees may do for that purpose.

THOMAS SAYLES.

THE TERRITORY OF NEBRASKA, *County of Nemaha, ss :*

On the twenty-third day of February, 1866, before the subscriber, a notary public in and for said county, personally appeared the before-named James Dundas, and made solemn oath that he verily believes that, by reason of a defective or insufficient description and specification, his aforesaid patent is inoperative, and that the error has arisen from inadvertence or mistake, and without any fraudulent or deceptive intention, to the best of his knowledge or belief; also, that he verily believes himself to be the original and first inventor of the improved cultivator described in his specification, and that he does not know or believe that the same was ever known or used before his invention thereof; also, that he is a citizen of the United States.

[L. s.]

CHARLES G. DORSEY,
Notary Public.

CITY AND COUNTY OF NEW YORK, *State of New York, ss :*

On this ninth day of February, 1866, before the subscriber, a notary public in and for said city, personally appeared the before-named Thomas Sayles, and made solemn oath that he verily believes that, by reason of a defective or insufficient description and specification, the aforesaid patent of James Dundas is inoperative, and that the error has arisen from inadvertence or mistake, and without any fraudulent or deceptive intention, to the best of his knowledge or belief, and that he is a citizen of the United States.

[L. s.]

THOMAS P. HOWE,
Notary Public.

To all whom it may concern :

Be it known that I, James Dundas, formerly of Little Rock, in the county of Kendall and State of Illinois, and now of the county of Nemaha, in the Territory of Nebraska, invented a new and useful machine for cultivating corn, called the Dundas Corn Cultivator, of which the following is a full and exact description :

The object of my invention is to cultivate Indian corn, and such large plants that are planted in rows, with wide spaces between the rows, by horse-power. Previous to my invention it was customary to cultivate such plants in one of three ways :

1st. By hand hoeing.

2d. By ploughs or by cultivators dragged by horse-power between the rows, some of which cultivators had a series of ploughs secured to a frame carried by wheels, but arranged in a single gang, so as to till the soil at one side only of a row of plants.

3d. By implements which have been termed straddle-row cultivators, and which consist substantially of two gangs of ploughs, of either shovels or other form, arranged at opposite sides of a frame, which straddles the row of plants, so that the strips of soil at both sides of the same row are simultaneously cultivated. In these machines the attention of the conductor is concentrated upon a single row of plants, and the work of the machine is limited to tilling the soil at opposite sides of such one row, so that the plants of that row may be cultivated, however the distance between it and the adjacent rows may vary.

My invention has reference to the class of machines last above referred to

and its objects are to facilitate the labor of cultivation by limiting the depth to which the plough can enter the soil by means of wheels running upon it; to enable the conductor of the machine to ride upon it, thereby lessening the labor; to enable him to direct the ploughs at opposite sides of the row of plants simultaneously, and to permit the ploughs to be raised from the ground as required.

To these ends, my invention consists of certain combinations and arrangements of the following instrumentalities, viz:

1st. Wheels, whose function is to sustain the weight of the machine, and to limit the distance to which the ploughs can penetrate the soil.

2d. A frame whose function is to connect the ploughs with the wheels, and their arms or axle, and with the tongue to which the horses are applied; also, to form, in connexion with the wheels, a carriage upon which the conductor of the machine can ride.

3d. A series of ploughs arranged in two gangs, with a space between the gangs, so that the gangs may simultaneously till the strips of soil at opposite sides of a single row of plants, which may stand in the space between the gangs. This member of my combinations is not restricted to any particular form of the individual ploughs, but is limited to the arrangement of the ploughs in two gangs, the members of each of which are nearer together, measuring crosswise to the line of progression of the machine, than the width of the central space which separates the two gangs, so that a central strip of soil between the two gangs is left untilled, while the strips at each side of that central strip are thoroughly tilled.

4th. Movable bars or stocks for the innermost ploughs of the two gangs, the direction in which they are movable being crosswise to the line of progression, and the relation of the movement being to that line, or, in other words, to the line connecting the centre of the axle of the wheels of the machine with the point of the tongue, so that while the machine is drawn forward the ploughs may be moved laterally to the line of progression, so as to conform to plants which are not exactly in that line.

5th. A cross-bar or other connexion between the movable ploughs of the two gangs, so that the ploughs at opposite sides of the central space may be moved simultaneously to make their positions conform with that of the plants standing in that space.

6th. A seat for the driver, so that the driver may ride upon the machine while directing the ploughs.

7th. Mechanism to permit the ploughs to rise and descend relatively to the wheels, so that the ploughs may be raised from the soil and carried above it by the wheels.

To enable others skilled in the art to make and use my invention, I will proceed to describe the construction and operation of the straddle-row cultivator, in which I embodied it previous to filing my application for the original patent, and in which I made use of ploughs of what is commonly known as the shovel-form, and I will refer to the accompanying drawing, wherein—

Figure 1 represents a perspective view of the machine.

Figure 2 a longitudinal section of the same.

No. 1 represents the movable shovels arranged to throw the earth toward the plants in the row to which the machine is applied. No. 2, the same arranged to throw the earth from the plants. No. 3 represents a front view of one of the outside shovels.

Let A A represent two ordinary wagon wheels; B an axle, resting in the hubs of the wheels; C C are two pieces of timber passing through the axle. The forward ends of the pieces C C are connected by the bar D, by means of the bolts *e e*. The beams C C pass outwards, back of the axle B, forming supports for the platform F. The timbers C C, bar D, axle B, and platform F constitute in this example the frame of the machine. I place a seat for the

driver on the platform F, and secure it to the same. The seat is represented at G; I pass two inclined bars through mortises, cut in the beams C C; these bars are shown at H H, being connected at the upper end by the cross-bar I, which has a slot for one of the bars H, as shown in figure 1; the bar H being secured at any point in the slot, by inserting the pin *j*. The bars H H are supported on the iron rod *k k*, passing through the tumblers C C, the hounds *l l*, and the tongue M; and the slots in the timbers C C are made flaring, as seen in section at No. 1 and No. 2, so that the bars can be rocked laterally, or moved upon the bar *k*, which connects them with the frame of the machine. These movable inclined bars have shovels *w w*, secured to their lower ends, so that they constitute movable stocks for said shovels. N N represent two connecting bars or braces attached to the heads of the bolts *e e*, and by means of eye-bolts to the lower ends of the bars H H. I also bolt to the side of the beams C C, two other inclined bars or stocks, as shown at O O, and brace them by means of iron rods, as shown at P. Q represents a cross-bar resting on the upper sides of beams C C, and working on a pivot at *r*. The opposite end is placed under the iron staple *s*. I insert a spring between the bar Q and the axle B, as shown at *t*. This spring presses the bar Q against the end of the tongue M. I attach a short piece of chain to the machine, as shown at *u*; one end of said chain is fixed to the cross-bar D, and the other end to the tongue M; *v v* represent ordinary cultivator shovels, attached to the bars O O, which form their stocks; *w w* represent two half shovels attached to the lower ends of the bars H H, which form movable stocks for them. The operation of this machine is as follows: First, the tongue M is movable on the rod *k*, consequently the bar D rests upon the upper side of the tongue; then the bar Q being pressed against the end of the tongue, the beams C C are retained in the same plane with the tongue. In this position the machine is in readiness to cultivate the corn. When it is desired to withdraw the shovels and elevate them above the surface of the ground, the driver places one of his feet against the bar Q, and drawing it slightly backwards, releases the end of the tongue, and the weight of the driver causes the platform to descend, tilting the front part of the frame upwards in the position, as shown at figure 2. The chain *u* prevents the frame from tilting too far, and the bar Q being released by the foot, is forced forward by the spring *t*, and passes under the end of the tongue M, which fixes the machine in the position, as shown at figure 2, with the shovels raised above the ground.

In the machine thus described and represented, the series of ploughs is composed of the four members or shovels *v, v, w, w*, which are arranged in two gangs, each composed of two shovels *v w*, and the two members of each gang are nearer together, measuring crosswise with the machine, than the innermost shovels *w w* of the two gangs are. Hence the two gangs are adapted to tilling two strips of soil at the opposite sides of a central strip, which is left untilled between the innermost two ploughs *w w*, and in which the row of plants to be cultivated stand. An oscillating or side motion can be given to the shovels *w w*, by the driver pressing the bar I either right or left, the mortises in the frame C C being enlarged at the sides to allow the bars H H to play sideways, as shown by the dotted line on No. 1, bringing the points of the shovels at *x x* alternately. By this operation, if the plants are not in a straight line, the driver while sitting upon the machine can avoid them by moving the shovels to the right or left; moreover as the driver's seat is behind the innermost shovels of the two gangs, which are in full view of the driver, he can observe their operation, and direct them as required to avoid the plants which are not in the line of progression of the machine. Observe that the half shovels can be taken out and reversed for the purpose before mentioned in this specification.

Having thus described a machine embodying my invention, I declare that I do not claim to have invented the individual members which are combined together to constitute my invention; nor do I claim to be the first who combined

a series of ploughs or other cultivator shares with a frame and wheels, all my combinations being restricted to the arrangement of the series in two gangs (as above described) so as to straddle a single row of plants, and till the soil at both sides thereof simultaneously. What, therefore, I claim as my invention, and desire to secure by letters patent, is the combination in straddle-row cultivator of the following instrumentalities, viz: the two wheels, frame, and a series of ploughs arranged in two gangs, with a central space between the gangs, so as to till the soil simultaneously at both sides of a single row of plants which the machine straddles, all of these operating in the combination substantially as set forth.

I also claim the combination in a straddle-row cultivator of the following instrumentalities, viz: the two wheels, frame, series of ploughs arranged in two gangs as aforesaid, and seat for the driver; all of these operating in the combination substantially as set forth.

I also claim the combination in a straddle-row cultivator of the following instrumentalities, viz: the two wheels, frame, the series of ploughs arranged in two gangs as aforesaid, and movable stocks, all operating in the combination, so that, while the wheels limit the penetration of the ploughs, the inner ploughs of the two gangs may be moved laterally to avoid the plants that are out of line in the row, substantially as set forth.

I also claim the combination in a straddle-row cultivator of the following instrumentalities, viz: the two wheels, frame, the series of ploughs arranged in two gangs as aforesaid, movable stocks as aforesaid, and driver's seat; all operating in the combination substantially as set forth.

I also claim the combination in a straddle-row cultivator of the following instrumentalities, viz: the two wheels, frame, the series of ploughs arranged in two gangs as aforesaid, driver's seat, and a connexion between the movable ploughs, all operating in the combination substantially as set forth.

I also claim the combination in a straddle-row cultivator of the following instrumentalities, viz: the wheels, frame, series of ploughs arranged in two gangs as aforesaid, and mechanism to permit the ploughs to be raised relatively to the treads of the wheels; all operating in the combination substantially as set forth.

I also claim the arrangement of the inside ploughs of a mounted cultivator in front of the axle and seat thereof, so that said ploughs are in full view of the operator while sitting on his seat.

In testimony whereof, I have hereunto set my hand this twenty-third day of February, 1866.

JAMES DUNDAS.

Witnesses: CHAS. Y. DORSEY,
S. M. RICH.

UNITED STATES PATENT OFFICE,
March 20, 1866.

SIR: The application for letters patent for your improved corn cultivator, with claim for additional rights, which you say is defective, insufficient, and rendered inoperative by reason of imperfect description, has been examined, and, for reasons hereinafter stated, rejected.

In the examination of your claim and correspondence, it appears that, in the month of August, 1851, your application was made, which, for some informality, was returned to you 28th of November, 1851, and was again received, and filed for examination 7th of February, 1852, and your claim rejected for reasons given, that it had been anticipated in an official letter, dated February 21, 1852, and your specification returned to you 2d December, 1852.

On the 23d of April following the office received your letter, in which you attempt to show wherein the office is mistaken in its opinion on the anticipated claim, which is the last communication we find upon the subject until the receipt of the renewed claim and application dated June, 1855, from your agent and attorney, C. W. Bennett, esq., more than three years after, which specification was returned, as it was not witnessed.

In January, 1859, your letter was received, asking "if your application could not be withdrawn and abandoned, and two-thirds of the amount paid returned to you," and soon after your renewed application on which letters patent were issued, dated 8th February, 1859, was received.

That you should not, until this late day, have discovered the error in your claims appears rather strange.

While the office is ready to extend every encouragement to inventors, and adopt every means for their protection, it cannot forget its duty to parties whose claims are of prior date, or extend to claimants a reissue of patent after fifteen years' opportunity for investigation, giving you prior claim to an invention not previously asked, by which a large number of inventors of machines under the same name or title have, without any knowledge of yours, introduced similar improvements, and the right to dictate to them how far they may use them, or to require pay for their use without evidence that leaves no doubt of your rights under it.

Upon further investigation of the subject, you are found to be anticipated in many important features which the office is of opinion would render your claim much less valuable than as it now stands, as follows :

The arrangement of your combination of a straddle-row cultivator, with the two wheels, with the axle resting upon them ; two gangs of shares, with central space between the shares, that the soil may be tilled or cultivated on both sides of the row simultaneously ; with platform for the driver or operator, sustained by framing the hands through the axle ; with plans on movable stocks, so operating by the combination that the penetration into the soil can be limited, and made to move to the right or left as may be required for the protection of plants not planted in straight rows ; also the arrangement of the ploughs (inside) in full sight of the driver on the platform, have been anticipated by the application of Hiram H. Marsh, received July 5, 1851, rejected and withdrawn November 10, 1851.

Respectfully,

J. BRAINARD, *Examiner.*

JAMES DUNDAS,

Care of George Harding, Philadelphia, Pa.

[This letter was thought by the copying clerk to be too lengthy. The Commissioner orders it to be placed on file for reference, and a condensed one written for record.]

BRAINARD.

JAMES DUNDAS.]

I do hereby certify that, in the summer of 1850, my father, James Dundas, formerly of Little Rock, Kendall county, Illinois, invented a cultivator and explained the same to me by the fore part of a common wagon, and in the winter of 1850 I commenced to make one of the machines, the same as are shown in the drawings of the patent granted to said James Dundas February 8, 1859.

WESLEY DUNDAS.

Sworn to and subscribed before me, this 20th day of March, A. D. 1866.

[SEAL.]

CHARLES G. DORSEY,
Notary Public.

I do hereby certify that I invented a corn cultivator in Kendall county, Illinois, in the summer of 1850.

When I was ploughing corn my horse walked very fast, and it tired me very much to keep up with him, when I thought it would be very convenient to have a machine on which I could ride. I thought the matter over in my own mind, and in a short time settled on the form of a cultivator which I explained to my son, Wesley Dundas. I showed him by the forward wheels and axle of a wagon how I would have the machine made.

I thus explained to my said son in the summer of 1850, and I applied for a patent in the summer of 1851, and on the 8th day of February, 1859 a patent was granted me for the cultivator as I invented it and explained it to my son in the summer of 1850.

JAMES DUNDAS.

Sworn to and subscribed before me this 20th day of March, A. D. 1866.

[SEAL.]

CHARLES G. DORSEY,
Notary Public.

STATE OF ILLINOIS, *Cook County, City of Chicago, ss:*

Hiram H. Marsh, being first duly sworn, on oath deposes and says, that he now resides in said city of Chicago, but formerly in La Salle county, in the same State. That in January or February, A. D. 1851, he conceived in his own mind a plan for a corn cultivator, but did not make a drawing or model of the same or fully explain the same to any one until the month of May in the same year (A. D. 1851,) when he had a machine made on said plan, and on or about the 1st day of July, 1851, he made application for letters patent of the United States on said invention, designating it as a horse-hoe, as will be seen on reference to the papers on file in the Patent Office. And further this affiant saith not.

H. H. MARSH.

Subscribed and sworn to before me this 24th day of March, 1866.

CHARLES A. GREGORY, *Notary Public.*

U. S. PATENT OFFICE, *March 31, 1866.*

SIR: Your application for a reissue of your patent of February 8, 1859, has been examined. Your claims as presented, embracing in straddle-row cultivators, supported on wheels, "two gangs of shares, with central space between the shares, platform for the driver, devices for raising and depressing the shares, their movement to the right and left," &c., have been anticipated by the application of Hiram H. Marsh, received July 5, 1851, and rejected and withdrawn November 10, 1851.

Respectfully,

BRAINARD.

JAMES DUNDAS, *care George Harding, Philadelphia, Pa.*

PHILADELPHIA, *April 2, 1866.*

SIR: I herewith file the affidavits of James Dundas, Wesley Dundas, and H. H. Marsh, in reply to the reference to the case of H. H. Marsh, in the application for reissue of the patent of James Dundas for straddle-row cultivators.

Very respectfully, your obedient servant,

GEORGE HARDING,
Attorney for James Dundas.

Hon. T. C. THEAKER,
Commissioner of Patents.

OFFICE OF WM. B. MURRY & CO., PLOUGH WORKS,
Cor. of Indiana and Franklin Streets, Chicago, Ill., April 19, 1866.

SIR: We have this day learned that one Sayles, in connexion with one Emigh, who have bought up an old patent called the Dundas, are trying to get a reissue of it. We hasten to object to this, for reasons we will soon present to you. Being in no way interested in the manufacture of these articles, we nevertheless have the opportunity of judging somewhat of the merits of the case, and believe great injustice will be done to many worthy manufacturers, as well as to the whole farming community, should this reissue be granted. They are vultures, preying as patent speculators on the whole northwest.

Very respectfully,

W. B. MURRY & CO.

To COMMISSIONER OF PATENTS.

OFFICE OF GILBERT & HAMILTON, *Kewanee, April 23, 1866.*

DEAR SIR: We learn that Messrs. Sayles and Emigh are trying to procure a reissue on the Dundas patent cultivator, the term for which said patent was granted having nearly expired.

Now, we, the improvers and manufacturers of G. W. Brown's patent cultivator, (patented August 28, 1860,) hope you will take into consideration this our earnest protest against such a measure; we think it would be an outrage upon the improvers and manufacturers of the west.

We ask you to disallow the reissue of said patent for the following reasons:

1. You would in no way benefit the patentee by allowing the reissue, as we are very credibly informed that he sold his right to Sayles & Co. for a trifling sum.
 2. Because it was not a practical machine, and has in no way helped to lessen the toils of the farmer.
 3. Because it would be unjust and injurious to the best manufacturing interests of our country, and would greatly retard the ultimate success of this improvement.
- Hoping you will weigh this matter carefully and candidly, and thereby do justice to all men, is the prayer of your petitioners.

O. A. GILBERT.
 P. M. GILBERT.
 WM. HAMILTON.

The COMMISSIONER OF PATENTS, *Washington, D. C.*

UNITED STATES PATENT OFFICE, *April 26, 1866.*

SIR: The affidavits of H. H. Marsh, W. Dundas, and that of your own, relating to the matter of reissue of your cultivator patent, have been considered. It has been admitted by one of your attorneys (Mr. Harding) that the rejected application of Marsh, previously cited, affords a sufficient answer to the case, provided that it cannot be shown that you are the prior inventor, and for the purpose of establishing that point the above-named affidavits are offered as proof.

The object of this communication is to set forth that the evidence drawn from these affidavits does not afford the proof sought.

The most conclusive evidence now before the office is the date of the filing of the two applications in question. Marsh filed his application July 5, 1851. Yours was filed August 9, 1851. At that time the evidence of priority was certainly in favor of Marsh. Both applications were rejected by the office, and in November following Marsh withdrew his application. From the fact that you suffered your application to sleep from December 2, 1852, till June 15, 1855, without an effort on your part to obtain your patent, and then keeping

your specification out of the office for four years more, making seven years, without an action affords a sufficient reason for asking the strongest proof that can be afforded as to the question of priority.

Your application will be postponed for the shortest practicable period to afford an opportunity for the desired evidence to be obtained.

Respectfully,

BRAINARD.

JAMES DUNDAS,

Care George Harding, Esq., Philadelphia, Pa.

U. S. PATENT OFFICE, *April 28, 1866.*

SIR: You are requested to furnish this office, in a statement under oath, any facts in your possession relative to the invention and construction of the cultivator, for which an application for reissue is now pending before this office.

Respectfully,

BRAINARD.

JAMES DUNDAS,

Care George Harding, Philadelphia, Pa.

U. S. PATENT OFFICE, *April 28, 1866.*

SIR: You are requested to furnish this office, in a statement under oath, any facts in your possession relative to the invention and construction of the cultivator, for which you filed an application for a patent July 5, 1851.

Respectfully,

BRAINARD.

H. H. MARSH, *Chicago, Illinois.*

CHICAGO, *May 4, 1866.*

DEAR SIR: Your letter of April 28, requesting me to furnish you, under oath, a statement of such facts as may be in my possession in regard to the invention and construction of a cultivator on which I made application for a patent on or about the first of July, 1851, is just at hand. The facts are briefly these:

While ploughing corn in the month of June, 1850, in La Salle county, State of Illinois, and after making repeated mental inventions by which to facilitate the operation, I at last conceived the idea of a cultivator that would plough both sides of the row at once.

The distinctive features of this idea were these: that a machine should be constructed to run upon two wheels of a common wagon to be drawn by two horses, which should straddle the row cultivated; that the operator should ride upon the machine, and by some appliance so graduate its cultivating teeth or shovels as to adapt them to any variations, either of row or team.

In October, 1850, I moved to Salem, Tippah county, Mississippi, and there or in that neighborhood, during the month of January, possibly February, 1851, arranged and perfected all the details of said machine almost precisely as I constructed it about the first of the following June.

Tried the machine at Salem, Mississippi, perhaps three or four times, and was perfectly satisfied with its operation.

Immediately after had a model made from the working machine.

The first drawing of the machine was made by Knight Bros., (I think the name correct.) of Cincinnati, a copy of which was sent to the department with the specification and claim.

I never made, or caused to be made, other models or drawings.

Anterior to about the first of January, 1857, I think I never disclosed the idea except to my wife.

After the rejection of my claim, in October, 1851, I marked the machine to myself, Peru, Illinois, paid a man to haul it to Memphis and ship it, and think he performed his contract before I returned to La Salle county, Illinois, the same month.

However this may be, I never afterwards saw the cultivator, and after several inquiries gave it up for lost.

Partly owing to my moving immediately afterward to a section not adapted to its use, and partly to my disappointment and chagrin in not getting a patent, which I had deemed certain, I never built another, but within, say, two years thereafter begun to see them as built by others, substantially the same in principle and action.

When brought into direct contact, I have since noticed the different forms of the thing as varied by different manufacturers, but without any decided or particular interest. Not deeming myself a citizen of the State of Mississippi at the time I made the claim, I made application as a resident of Illinois; all of which is submitted.

Yours, respectfully,

H. H. MARSH.

Mr. T. C. THEAKER,
Commissioner of Patents.

Subscribed and sworn to before me, at Chicago, Illinois, this 4th day of May, A. D. 1866.

[SEAL]

PHILIP A. HOYNE,
U. S. Commissioner, North District, Illinois.

TERRITORY OF NEBRASKA, *County of Nemaha, ss:*

James Dundas, being duly sworn, does depose and say that he did invent a corn cultivator between the 1st and 20th of June, 1850—that is, he conceived at this time the plan for a straddle-row cultivator the same as was patented to him on the 8th day of February, 1859, and that he fully explained to his son, Wesley Dundas, how he would build said cultivator as early as the month of July, 1850; that he assisted his son Wesley in making the wood-work of a straddle row cultivator in the following winter, which wood-work was completed in April, 1851, but they were unable to get the blacksmith work completed before about the first of June, 1851. This said cultivator was exactly like the model filed by me in the Patent Office of the United States, on or about the 9th day of August, A. D. 1851.

JAMES DUNDAS.

Subscribed in my presence, and sworn to before me, this fourth day of May, A. D. 1866.

[SEAL.]

GEO. W. FAIRBROTHER,
Notary Public.

TERRITORY OF NEBRASKA, *County of Nemaha, ss:*

Wesley Dundas, being duly sworn, does depose and say that my father, James Dundas, invented and described to me fully, so that I understood him at the time, a complete straddle-row cultivator, as early as the month of July, 1850. From that description I could have constructed a complete straddle-row cultivator at the time. I was much occupied and could not commence its construction until the succeeding winter. From the description which he had

given me in July, 1850, I did commence to construct the cultivator in the winter of 1850-'51, and the complete cultivator was completed, so far as the wood-work was concerned, by me as early as the month of April, 1851. My health was poor at that time, and my father assisted me in making the cultivator. We were unable to get the blacksmith to complete the iron-work on said cultivator until about the first of June, 1851. The description given me in July, 1850, was a cultivator exactly like the model sent to the Patent Office and filed by my father, with his application, on or about the 9th day of August, 1851, and like the large cultivator made by me in the spring of 1851. The model for the Patent Office was made in July, 1851. I have no interest in the patent whatever.

WESLEY DUNDAS.

Subscribed in my presence, and sworn to before me, this 4th day of May, A. D. 1866.

[SEAL.]

GEO. W. FAIRBROTHER,
Notary Public.

UNITED STATES PATENT OFFICE,
May 19, 1866.

SIR: In the matter of your application for a reissue of your cultivator, patent of February 8, 1859, you are informed that the examiner in charge is unable to grant your petition, for the following named reasons:

1st. The rejected and withdrawn application of H. H. Marsh, previously cited, is held to be a sufficient reference.

2d. The affidavits on file do not show to the satisfaction of the examiner that you are the prior inventor as regards Marsh.

3d. Your present claims cover ground occupied by earlier patents, and would doubtless have been refused had they been presented when your original patent was granted—in the patents of H. D. Ganse, August 26, 1856; John Imel, January 2, 1855; D. E. Hall, November 10, 1857; and N. Whitehall, October 27, 1857. The patent of Ganse, above cited, anticipates your original claim, and which is also consequently rejected.

Respectfully,

BRAINARD.

JAMES DUNDAS,
Care of George Harding, Esq., Philadelphia, Pa.

UNITED STATES PATENT OFFICE,
Washington, D. C., May 22, 1866.

SIR: I desire to enter an appeal to the board of examiners in chief in the case of Dundas's application for reissue, rejected by the examiner.

Respectfully, your obedient servant,

GEORGE HARDING,
Counsel for Dundas.

Hon. T. C. THEAKER,
Commissioner of Patents.

In the matter of the application of James Dundas for reissue of letters patent dated February 8, 1859, before the board of appeal.

The applicant filed his original application, model, and drawing, August 9, 1851. His invention there exhibited a straddle-row cultivator mounted on wheels, having also a seat for the driver; having also an apparatus for regula-

ting the movement of the stocks, a connecting piece between the two movable stocks; arrangement for raising the ploughs relatively to the tread of the wheels.

These several features form the basis of his claims for reissue.

It is not objected to the reissue that his claims are now made for something not contained in his original invention, but it is alleged that Hiram H. Marsh anticipated Dundas.

Marsh filed his application July 5, 1851, *originally*, about one month prior to Dundas. On this reference being given to Dundas, he contended—

1st. That Marsh showed *no seat* on his drawing, model, or description, which disposed of the reference as to one-half of Dundas's present claims.

2d. It was proved by the affidavit of James Dundas, Wesley Dundas, and Hiram Marsh, as follows:

1st. Marsh conceived an idea of a straddle-row cultivator in the summer of 1850 (June, 1850.)

2d. He reduced it in his mind to its form of construction, as applied for in January or February, 1851.

3d. Marsh never made any model, drawing, or description, nor mentioned it, until May, 1851, when he had a machine built on the plan.

4th. Marsh, after rejection, withdrew his application, abandoned his machine, and has paid no attention to it since.

5th. On the other hand, Dundas shows by his own deposition and that of his son, that he, Dundas, fully conceived in his own mind, and gave a practical description to his son, in the month of June, 1850, of the machine afterwards patented.

2d. The said Wesley Dundas, his son, was enabled, and did from said description, the month of April, 1851, construct a full working machine, (the steels being not obtainable until afterwards.)

3d. Dundas persevered in his application for a patent after rejection, and finally obtained it.

Thus Dundas was the first practically to *describe the invention*—was the first to *build a full-size machine*—and he was only one month behind Marsh in filing his application; this, it is contended, places him in point of law as the prior inventor.

The examiner also referred to four several cases of patents granted between the date of Dundas's original application and the issue of his patent.

Neither of these parties made claim to the combination, specifically, as now asked for, and Dundas's application for reissue; and it is submitted that Dundas should not be put in interference with them. There can be no interference in the claims as they stand, and it is to be presumed that all these parties obtained their original patents in view of what Dundas had previously done. It is not the business of the office, in cases like this, to invite interference where the records show none. The language of the law applies to a party applying for a patent where there is a previous application or patent for the same thing. Here there is no one in the office prior to Dundas's first appearance, so far as the four cases are concerned, their dates of application being, respectively, as follows:

Dundas's application, filed.....	Aug. 9, 1851.
D. C. Hall's application, filed.....	Oct. 24, 1857.
Robert Ray's application, filed.....	June 12, 1857.
H. D. Ganse's application, filed.....	Mar. 24, 1856.
John Imel's application, filed.....	Oct. 23, 1854.

On these grounds, therefore, it is submitted the reissue as asked for should be allowed.

GEORGE HARDING.

Assignment of James Dundas to A. Emigh, and A. Emigh to Thomas Sayles, corn cultivator; date of assignment, September 20, 1864; recorded October 1, 1864. His right is an undivided half of Cook county, Illinois. M.⁷ 381.

James Dundas to A. Emigh; date of assignment, September 7, 1864. Recorded September 26, 1864. His right in Cook county, Illinois. N.⁷ 202.

James Dundas to Emigh and Sayles; date of assignment, December 10, 1864; recorded December 23, 1864. His right in said patent east of the Mississippi river, except counties of Boon, McHenry, and Kendall, in Illinois; also, for any extension. S.⁷ 153.

James Dundas to Edward Little, and E. Little to G. W. and J. B. Mingle; date of assignment, January 28, 1865; recorded April 8, 1865. All his right, title, &c., in Lee county, Illinois. I.⁷ 310.

James Dundas to A. Emigh, and Emigh to Sayles; date of assignment, January 9, 1866; recorded February 9, 1866. All his right in said patent and any extension. I.⁸ 109.

C.

CINCINNATI, *July 2, 1851.*

SIR: Enclosed please find application for letters patent of Hiram H. Marsh for horse-hoe, together with withdrawals to the credit of same. The model will be forwarded by express.

Respectfully,

GEORGE H. KNIGHT & BRO.

The COMMISSIONER OF PATENTS.

To the Commissioner of Patents:

The petition of Hiram H. Marsh, of Ophir, in the county of La Salle, and State of Illinois, respectfully represents, that your petitioner has invented new and useful improvements in the horsehoe, which he verily believes have not been known or used prior to the invention thereof by your petitioner; he therefore prays that letters patent of the United States may be granted to him therefor, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions expressed in the act of Congress in that case made and provided, he having paid thirty dollars into the treasury and complied with other provisions of the said act. He further prays that George H. Knight & Brother may be recognized as his duly appointed attorneys to transact all business arising on this application with the Patent Office, to amend, alter, or correct the same, to receive and receipt for all moneys to be withdrawn on the same, and to do all other things in the premises that he might legally, and according to the usages of the Patent Office, himself do.

HIRAM H. MARSH.

To all whom it may concern :

Be it known, that I, Hiram H. Marsh, of Ophir, in the county of La Salle, and State of Illinois, have invented new and useful improvements in horse-hoes, of which the following is a full, clear, and exact description, reference being had to the annexed drawing, making part of this specification :

My improvements have reference mainly to the vertical, lateral, and angular adjustability of hoes, or other earth-moving blades, to suit the various changing exigencies which arise.

In the annexed drawing like letters refer to like parts. The machine is represented by a perspective view ; *a* is the truck of a common farm or road wagon ; *b* is a swinging frame or gate, so secured, by hinge at *c*, to the hounds of the truck as to be capable of vertical vibration. To this gate *b* is pivoted a frame *d e*, the posts *e* of which are furnished with hoes, shares, or shovels, *f*. Between these shares intervene two other shares, *f'*, attached to a frame *e'*, so hinged at *g* to the upper bar *d* of the frame *d e*, as to have lateral vibration, and thus to provide for irregularities in the rows of deviations of the team. To the free end of the gate *b* is affixed a bar *h*, forming a treadle, and to the posts *e* are pivoted the levers *i* of another treadle *k*, having its fulcrum upon the edge of the platform *j*, so that the operator, standing upon the platform, and desiring a greater depth of tillage, may, by treading upon the bar *h*, depress the shares according to the depth to which it is desired that the ground should be stirred, or, by treading upon the bar *k*, the entire set of shares may be lifted out of the ground when not required for use. The lateral shifting of the intermediate shares is effected by means of a hand lever *l*, pivoted at *m* to one of the intermediate share posts, and having its fulcrum at *n* on the cross-rail *o* of the main share frame. Chains, extending from the gates *b* to the lower ends of the share posts, not only brace the shares, but, by taking up or letting out the chains, the rake or angularity of the shares can be adapted to the work required. The two middle shares are made to straddle the row, and, by throwing the dirt up on both sides of the row simultaneously, the liability of covering the plants is decreased. The outer share posts may be shifted to the outside of the gate, so as to adapt them to a wider arrangement of rows. The intermediate share posts are connected at their midlength by a rail *q*, which having several bolt holes *r*, the posts can either be spread apart or brought nearer to each other at will. Again, by removing the inner shares, the outer ones can be used for laying off rows of various widths, according as the share posts are placed within or without the gate, or the machine may be used to lay off one row and cover another at the same time. In working this hoe, the operator stands upon the platform, adjusts the inner shares with his right hand by means of the lever *l*, and guides the team with his left, and increases the depth of ploughing, if required, or throws the shares out of the ground altogether by the right foot upon the treadles, as before described. To this arrangement may be used any kind of hoes, shares, or shovels.

Having thus fully described the nature of my invention, what I claim herein as new, and desire to secure by letters patent, are—

1. The arrangement, substantially as herein described, of swinging or vibrating gate *b*, capacitated for hinge attachment to the hounds of a common wagon ; the said gate giving support to a gang or set of hoes or shares, and being provided with a double set of treadles and with brace chains, as described, whereby the said hoes or shares can be placed to any elevation or rake desired.

2. The swinging gate *e' e'*, containing the two middle shares *f f'* pivoted or hinged to the upper rail *d* of the share frame, and having lateral adjustability by the hand brake or lever *l* ; also hinged to the share frame, so as to enable the operator to provide for irregularities in the row or deviations of the team.

In testimony whereof, I have hereunto set my hand before two subscribing witnesses.

HIRAM H. MARSH.

GEO. H. KNIGHT,

H. MAROT,

Witnesses.

STATE OF OHIO, *Hamilton county, ss :*

On this first day of July, 1851, before the subscriber, a notary public in and for said county, personally appeared the within-named Hiram H. Marsh, and made solemn oath that he verily believes himself to be the original and first inventor of the herein-described improvements in the horse-hoe, and that he does not know or believe the same was ever before known or used; and that he is a citizen of the United States.

ALEX. VAN HAMM,

Justice of the Peace, Notary Public.

No. 41.

OCTOBER 7, 1851.

In conformity to an act of Congress entitled "An act to promote the progress of the useful arts," approved the 4th of July, 1836, I have received of Hiram H. Marsh, of Ophir, Illinois, thirty dollars, which sum has been placed to the credit of my account in the treasury of the United States, District of Columbia, under the date of July, 1851, and for which I have signed a receipt for a patent horse-hoe.

PETITION.

To the Commissioner of Patents :

The petition of David E. Hall, of Abingdon, in the county of Knox and State of Illinois, respectfully represents, that your petitioner has invented a new and improved cultivator, which he verily believes has not been known or used prior to the invention thereof by your petitioner. He therefore prays that letters patent of the United States may be granted to him therefor, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions expressed in the act of Congress in that case made and provided: he having paid thirty dollars into the treasury, and otherwise complied with the

requirements of said act; and he hereby authorizes O. D. Munn, S. H. Wales, and A. E. Beach, of the firm of Munn & Co., or their accredited agents, to act as his attorneys in presenting the application, and in making all such alterations and amendments as may be required.

DAVID E. HALL.

Oath.

COUNTY OF KNOX, *State of Illinois, ss :*

On this 15th day of October, 1857, before the subscriber, a justice of the peace in and for said county, personally appeared the within named David E. Hall, and made solemn oath that he verily believes himself to be the original and first inventor of the within described improved cultivator, and that he does not know or believe that the same was ever before known or used, and that he is a citizen of the United States.

WALTER BOND,
Justice of Peace.

To all whom it may concern :

Be it known that I, David E. Hall, of Abingdon, in the county of Knox and State of Illinois, have invented a new and improved cultivator, and I do hereby declare that the following is a full, clear, and exact description of the same, reference being had to the annexed drawings making a part of this specification, in which—

Figure 1 is a longitudinal vertical section of my improvement taken in the line (x) (x) figure 2.

Figure 2 is a back view of ditto.

Similar letters of reference indicate corresponding parts in the two figures.

The object of this invention is to place the shares of the device under the complete control of the attendant so that the shares may be elevated free from the ground or moved laterally with the greatest facility, thereby enabling the driver to adjust or move the shares corresponding to the sinuous form of the rows, and always enable him to raise them in order to avoid obstructions which may be in their path, and also to keep the shares elevated as the machine is moved from place to place, or as it is turned at the ends of rows.

The invention also consists in the employment or use of cutters attached to the device in such a manner that stalks, which frequently encumber the shares, may be cut off and thereby allowed to be removed or ploughed under ground without affecting the perfect operation of the machine.

To enable those skilled in the art to fully understand and construct my invention, I will proceed to describe it.

A represents a horizontal rectangular frame which is supported by two wheels B B. The frame A is formed of two side pieces (a) (a) connected by two cross-ties (b) (b.) C is the draught-pole attached to the cross-ties at their centres. See figure 1.

On the cross-tie (b) a semi-elliptic spring D is placed and a bolster E is secured on the upper part or surface of the spring. F represents a bar, the front end of which is attached by a bolt (c) to the centre of the front cross-tie (b.) This bar rests upon the bolster E and has the seat G of the driver upon its back part. The bolt (c) passes loosely through the bar F, so that said bar may be moved laterally or vertically to a certain extent.

On the back end of each side-piece (a) (a) a pendent H is placed. These pendants have each a mortise made in their lower ends, and one end of a bar I is fitted and pivoted in each mortise, said bars being fitted loosely in the mortises so that they may have a certain degree of vertical play or movement.

The front or opposite ends of the bars I I are fitted in pendent slotted bars J J, attached to a bar K, the ends of which are fitted in guides (d) (d) attached to the side pieces (a) (a,) the bar K being allowed to slide freely within said guides (d) (d.) To the centre of the bar K an arm (e) is attached, and a strap L is attached to said arm. The ends of this strap pass through mortises in the cross-tie (b',) and each end of the strap is attached to a treadle M, the front ends of which are pivoted to hangers (f) (f) attached to the front cross-tie (b.)

N N represents two treadles, which are pivoted to hangers (g) (g) attached to the back cross-tie (b',) one at each end. The front ends of these treadles are connected by straps (h) to the front ends of the bar, I I, (see figure 1.)

To each bar I two inclined pendent bars O O' are attached, one to each side of each bar I, and to the lower part of each bar O O' a shovel or cultivator share P is attached. Each bar O O' is braced by a rod (i.)

To the inner sides of the two front bars O' O', a cutter Q is attached by a pivot (j) The blades of these cutters are of hook or curved semicircular form, and each blade has a projection (K) formed on it, the outer ends of the handles being attached to rods (l,) the upper ends of which are attached to opposite ends of the bolster E. Each cutter Q is placed against a forked steel plate R, the upper prongs (m) of which may be curved and project out from the bars, the lower prongs (n) being by the sides of the bars. The cutters are double-edged, and work over both prongs of the plates R.

The implement may be drawn by either one or two horses, according to its size, as larger or smaller implements may be used according to the nature of the work to be performed. The driver is placed on the seat, and as the implement is drawn along, the shares P perform their work as usual, the hills being between the shares—that is, the shares of the two bars I are at opposite sides of the rows. When a row is winding, the shares are adjusted laterally to conform to its sinuosities by operating the treadles M M with the feet; and in case a hill should be out of line with its fellows, the shares, instead of ploughing it out as usual, may, by being moved laterally, be made to avoid it and still plough it properly. This lateral movement or adjustability of the shares is important, as the horses do not require to be moved or guided out of a direct course in order that the implement may conform to the winding of the rows, and prevent the stray hills from being ploughed out. The driver, by placing his feet upon the treadles N N, may raise the bars I, and consequently the shares P P, so that said shares will be free from the ground and allowed to pass over obstructions, and also be kept elevated in turning at the ends of rows, and when the implement is being drawn from place to place.

It frequently occurs, in ploughing or cultivating crops, that stalks, weeds, &c., will wind around and encumber the front shares, and prevent the proper working of the machine. I obviate this difficulty by means of the cutters Q, which, by depressing the treadles N, and thereby raising the bars, I cause the cutters Q, in consequence of the projections (R) being connected to the rods (l,) to pass over the edges of the prongs (m) (n) of the plates R, the cutters dividing the stalks, and causing them to be detached from the shares as they move along. I would also remark, that as the cutters Q are connected to the bolster E by the rods (l,) and as the bar F rests on the bolster, more or less motion will be given said cutters by the elasticity of the spring D actuated by the movement of the machine, and this will have a tendency to prevent the accumulation of weeds, &c., around the shares P. The treadle N would only require to be operated occasionally to assist in cases of a large accumulation.

I am aware that cultivators have been previously devised, in which shares have been so arranged as to allow a certain degree of lateral movement, but I am not aware that shares have been arranged and applied as herein shown, to admit of the two movements described and rendered capable of being adjusted with such facility. I therefore do not claim loudly and separately the adjustable

shares irrespective of the arrangement herein shown and described ; but I claim as new, and desire to secure by letters patents, the attaching of the shares P P to the bars I I, which have their back ends pivoted in the pendants H H, and their front ends fitted in the pendent slotted bars J J, which are attached to the sliding bar K ; the bar K being operated by the treadles M to give the lateral movement to the shares, and the bars I, used vertically by the treadles N to give them their vertical movement, substantially as described.

I further claim the cutters Q pivoted to the bars O, and over the plates R and connected to the rods (l,) the whole being arranged as shown for the purpose specified.

DAVID E. HALL.

E.

NEW YORK, *January 2, 1857.*

DEAR SIR: We enclose herewith the application of N. Whitehall for a patent for a cultivator, with certificate for fee. We also enclose an assignment, which you will please record and return to us. We also enclose one dollar for recording.

Very respectfully, yours, &c.,

FOWLER & WELLS.

Per HOWE.

Hon. CHARLES MASON,

Commissioner of Patents.

PETITION.

To the Commissioner of Patents :

The petition of Nicholas Whitehall, of Rob Roy, in the county of Fountain, and State of Indiana, respectfully represents that your petitioners have invented a new and useful improvement in cultivators for farm use, which they verily believe has not been known or used prior to the invention thereof by your petitioners. They therefore pray that letters patent of the United States may be granted to them therefor, vesting in them and their legal representatives the exclusive right to the same upon the terms and conditions expressed in the act of Congress in that case made and provided, they having paid thirty dollars into the treasury, and otherwise complied with the requirements of said act. And they authorize L. N. Fowler and S. R. Wells, of the firm of Fowler & Wells, to act as their attorneys in presenting the application and in making all such alterations and amendments as may be required, acting either in person or by an authorized attorney.

NICHOLAS WHITEHALL.

COUNTY OF FOUNTAIN, *State of Indiana*, ss :

On this 20th day of October, 1856, before the subscriber, a justice of the peace in and for said county, personally appeared the within named Nicholas Whitehall and made solemn oath that they verily believe themselves to be the original and first inventors of the model herein claimed, of constructing cultivators for farm use, and that they do not know or believe that the same was ever before known or used; and that they are citizens of the United States.

[SEAL.]

THOS. E. McPHERSON,
Justice of the Peace.

To all whom it may concern :

Be it known that I, Nicholas Whitehall, of Rob Roy, in the county of Fountain and State of Indiana, have invented certain new and useful improvements in cultivators for farm use, of which the following description, illustrated by the accompanying drawings and references, is sufficiently clear and comprehensive to enable persons of competent skill to make and use my invention.

The nature of my improvement relates to the mode of constructing and attaching the ploughs to the shank by which they are drawn, and through them to the frame of the cultivator, and also in the mode of attaching the power necessary to draw the ploughs, using an arched frame and compound arched evener.

The object which I desire to accomplish in the construction of this cultivator is to fit it for ploughing both sides of a row of corn or other vegetables at the same time, even after having grown to considerable height, using two horses to do the work; the framework, evener, &c., being arched from side to side to pass over the corn. The drawing is a perspective view of my improved cultivator. A are the wheels attached by a pin *e* to the side of the swing frames or shanks F, hung to the main frame E with a stirrup G attached to the arm H. This stirrup is a fixed brace stirrup, and being operated laterally by the swing reciprocating frame I, carries with it the ploughs and their attachments as far as desired by the driver or operator. The driver's station is upon the seat I. The frame is moved by the handles J and turns upon the centre K. E is the main frame, which supports all the other parts, as represented. The chain N, from the braces O to the brace P, gives strength to the plough frame, and still permits it to receive the lateral motion above described. The double arch whiffletree or evener is formed of three parts or levers, Q R S; R lying horizontally upon the top of the tongue, and Q S being attached to the ends of R, as shown, with a central fulcrum at T, below which, at *t*, the power is applied by the use of two ordinary single whiffletrees; the said lever R being free to move upon its central fulcrum, gives an evening or balancing power to the single whiffletrees. The object of this arrangement is to carry the double whiffletrees over the top of the corn, while the horses are between the rows, upon each side of it. U U are for the purpose of arranging the ploughs closer together or further apart, in case it is desired they may be set sufficiently distant for crossing out a marking ground. Another and very important object gained in the arrangement above described over the particular arrangement described in a patent bearing date the 3d day of July, 1855, granted to N. Whitehall, is that the ploughs are attached so near the centre of the wheel that the length of the cultivator may be much shortened and thus rendered far more convenient for use. Another advantage is, that as the direction of the wheel's track is changed, the ploughs are more easily guided, as the wheel materially carries the plough with it.

What I claim as my invention is providing an arched cultivator with a balanced arched evener Q R S, suspended upon three points, and braced as described, so as to pass over the corn or other vegetable, as specified.

2d. I claim attaching both the wheels and ploughs to the same revolving shank F, (one upon each side,) as set forth, in order to shorten the length of the cultivator and guide the plough, as above described.

NICHOLAS WHITEHALL.

Witnesses :

THOS. E. MCPHERSON,
A. COLVERT.

No. 1, PATENT OFFICE, *January 30, 1857.*

SIR: The specification of your cultivator is herewith returned, together with the drawings, and your attention called to pencil notes on pages 2, 3, and 4 of the specimen.

Yours,

D. C. L.

N. WHITEHALL, assignor to N. & A. L. WHITEHALL,
Care of Fowler & Wells, New York.

NEW YORK, *May 19, 1857.*

DEAR SIR: We return herewith the application of Nicholas Whitehall for a patent for improvements in cultivators, amended as requested.

Very respectfully, yours, &c.,

FOWLER & WELLS,
Per HOWE,
Attorneys for N. & A. L. Whitehall.

Hon. CHARLES MASON,
Commissioner of Patents.

AMENDMENTS.

NEW YORK, *May 19 1857.*

SIR: We hereby amend the application of Nicholas Whitehall for a patent for improvements in cultivators, now in your office and in our charge as attorneys, by striking out the 12-19 lines of the first page of the specification, and inserting in their place as follows:

My invention consists in providing a double cultivator, the middle of which is elevated to pass over the rows of corn with a compound evener, so constructed that while the balance bar is placed high enough to clear the corn, the point of attachment for the single whiffletree may be sufficiently low to give an easy draught for the animals, as hereinafter more fully set forth.

We also substitute the words "compound evener" for "double arch whiffletree or evener," in lines 19 and 20 of page 2.

We also strike out the claims, and insert in their place as follows:

I claim providing a double cultivator, the middle of which is elevated to pass over the corn, with a compound evener suspended upon three points, and arranged as described, for the purpose set forth.

FOWLER & WELLS,
(Per HOWE,) *Attorneys for N. & A. L. Whitehall.*

The COMMISSIONER of Patents.

12, 1857; cash; examined October 16, 1857, D. C. Lawrence; 2. Issue, H. McCormick, October 16, 1857; 3. Patented October 27, 1857; recorded, vol. 81, page 453. Fowler & Wells, New York.

F.

CINCINNATI, October 18, 1854.

SIR: Enclosed please receive application for patent by John Imel, (cultivator,) with cert. \$30 fee thereon.

Very respectfully,

GEO. H. KNIGHT.

COMMISSIONER OF PATENTS.

To the Commissioner of Patents:

The petition of John Imel, of Liberty, in the county of Union and State of Indiana, respectfully represents, that your petitioner has invented a new and useful improvement in cultivators, which he verily believes has not been known or used prior to the invention thereof by your petitioner. He therefore prays that letters patent of the United States may be granted to him therefor, vesting in him and his legal representatives the exclusive right to the same, upon the terms and conditions expressed in the act of Congress in that case made and provided, he having paid thirty dollars into the treasury and complied with other provisions of said act.

He further prays that George H. Knight may be recognized as his duly appointed attorney to transact all business arising on this application with the Patent Office; to amend, alter, or correct the same, to receive and receipt for all moneys to be withdrawn on the same, to take charge of the patent when granted, to depute these powers, and to do all other things in the premises that he might legally, and according to the usages of the Patent Office, himself do.

JOHN IMEL.

To all whom it may concern:

Be it known that I, John Imel, of Liberty, Union county, Indiana, have invented new and useful improvements in cultivators, and I do hereby declare the following to be a full, clear, and exact description thereof, reference being had to the annexed drawing making part of this specification.

The first part of my invention consists of a guard or fender *a*, the object of which is to protect the young sprouting from being crushed or buried beneath the clods turned over by the inner shares *b b'*.

This guard *a* is made of sheet iron, is somewhat pointed in front, and is bent to the shape of a cylinder, of diameter somewhat greater than the width of the plate, and is so attached to the beam *c* as to present its concave surface downwards. The beam *c* is at front, hinged to the under side of the tongue *d*, and terminates behind in a perforated shank *k*, by which its height can be adjusted.

The second part of my invention consists in the arrangement whereby the shares *b b' e' e'*, either on one or both sides of the tongue *d*, may be lifted up from the ground, the share stocks being for that purpose hinged to a frame *f* projecting laterally from the tongue *d*, and supported on running gear *g*, of which only one wheel and one-half frame are visible in the drawing, the others being counterpart. This greatly lessens the danger of the jerking or sudden checking up the team, or the tearing off of the shares by opposing obstacles; and by means of notched post *h* and bar *i* one or both sets of shares may be perma-

nently elevated so as to enable the machine to run freely on its running gear when required. J is a driver's seat.

I claim as new and of my invention —

First, the carved and adjustable guard or fender hinged as described to a tongue supported upon running gear.

Second, the pair of adjustable share frames or stocks hinged as described to a frame supported on running gear.

In testimony whereof, I hereunto set my hand before two subscribing witnesses.

JOHN IMEL.

NEW YORK, *December* 11, 1855.

DEAR SIR: Enclosed is sent duplicate certificate of deposit for \$30, being the fee for patent applied for in the accompanying petition, specifications, and drawings. The model is also herewith enclosed.

Please acknowledge the receipt and oblige, yours, respectfully,

HERVEY D. GANSE,

Freehold, New Jersey.

By F. HUGHSON,

87 Wall street, New York.

The COMMISSIONER OF PATENTS.

The petition of Hervey D. Ganse, of the town of Freehold, in the county of Monmouth, and State of New Jersey, respectfully represents, that your petitioner has invented a new and useful method of combining ploughs or mould-boards, of whatever form, for cultivating corn, cotton, potatoes, and other field crops, upon both sides of the row at once. He therefore prays that letters patent of the United States may be granted to him therefor, vesting in him and his legal representatives the exclusive right to the same upon the terms and conditions expressed in the act of Congress in that case made and provided; he having paid thirty dollars into the treasury, and complied with the other provisions of said act.

HERVEY D. GANSE.

The COMMISSIONER OF PATENTS.

Be it known that I, Hervey D. Ganse, of the town of Freehold, in the county of Monmouth, and State of New Jersey, have invented a new and useful method of combining ploughs or mould-boards, of whatever form, for cultivating corn, cotton, potatoes, and other field crops, upon both sides of the row at once. And I do hereby declare that the following is a full, clear, and exact description of the same, reference being had to the annexed drawings making a part of this specification, in which Fig. 1 is a top view, and Fig. 2 a longitudinal section. These drawings are in the proportion of an inch to a foot.

A is the axle, and B is the tongue of a truck running upon the wheels C C. The cross-bar D is framed to the tongue and axle; the arms E E, the inner extremities of which reach to the dotted lines, Fig. 1, slide under the axle A through the bands *f, f, f, f*, in which they are secured by wedges. The bars

G G are movable, being held to the cross-bar and the arms by bolts; H H are four iron brackets, of which the two inner ones are held to the cross-bar D, and the shorter cross-bar I, by the bolts *k k*, and the pins *l l*; the two outer ones are riveted to the movable bars G G. M M M M are four beams bearing ploughs or mould-boards, which are drawn by the brackets described, to which they are attached by hooks or cleves; the two inner beams are united firmly by the bent iron brace *n*, and the outer ones by the brace *o*. The iron lever *p*, of which the fulcrum is at *q*, lifts, by means of the roller *r*, the wooden lever *s*, of which the fulcrum is at *t*, and with it the braces with their beams and ploughs; the roller then fits into the socket *u*, (Fig. 2,) and the levers stand until released by the hand. The driver's seat W is arranged behind the axle, that his weight may relieve the pressure upon the necks of the horses, and his feet may guide the inner pair of ploughs; it may be shifted back or forward; the outer pair of beams with all their attachments may be removed by removing the outer bars G G, above described; the track of the wheels may then be narrowed by the sliding arms described. The beams can be adjusted to any requisite distance from each other, and by exchanging them from side to side the furrows can be thrown either to or from the row. The depth to be ploughed can be regulated by the holes in the brackets.

What I claim as my invention and desire to secure by letters-patent is—

First. The combination of two or more ploughs or mould-boards, with a wheeled truck, above substantially described, by means of hooks, or cleves, or other loose joints, so as to admit the lateral and perpendicular play of the mould-boards in the manner and for the purposes above described.

Second. The combination of such mould-boards and truck as above substantially described, with the sliding arms, in the manner and for the purposes above described.

Third. The combination of such mould-boards and truck as above substantially described, with the driver's seat, arranged as described, and for the purposes described.

HERVEY D. GANSE.

Witnesses:

F. HUGHSON,
JOHN WEBBER.

STATE OF NEW YORK, *City and County of New York*, ss :

On this seventh day of December, eighteen hundred and fifty-five, before me, the subscriber, a commissioner of deeds in and for the city and county of New York, duly commissioned and sworn, and authorized by law to administer oaths generally, personally appeared the above named Hervey D. Ganse, and made solemn affirmation that he verily believes himself to be the original and first inventor of the mode above described, of combining ploughs or mould-boards, of whatever form, for cultivating corn, cotton, potatoes, and other field crops, upon both sides of the row at once, and that he does not know or believe the same was ever before known or used, and that he is a citizen of the United States.

JOHN WEBBER,
Commissioner of Deeds.

AMENDED SPECIFICATION AND CLAIM.

Be it known, that I, Hervey D. Ganse, of the town of Freehold, in the county of Monmouth, and State of New Jersey, have invented a new and useful method of combining ploughs or mould-boards of whatever form for cultivating corn, cotton, potatoes, and other field crops, upon both sides of the row at once; and I do

hereby declare that the following is a full, clear, and exact description of the same, reference being had to the annexed drawings, making a part of this specification; in which figure 1 is a top view, and figure 2 a longitudinal section. These drawings are in the proportion of an inch to a foot—A.

A is the axle, and B is the tongue of a truck running upon the wheels C C. The cross-bar D is framed to the tongue and axle. The arms E E, the inner extremities of which reach to the dotted lines, figure 1, slide under the axle A through the bands *f f f f*, in which they are secured by wedges. The bars G G are movable, being held to the cross-bar, and the arms by bolts H H H H are four iron brackets, of which the two inner ones are held to the cross-bar D, and the shorter cross-bar I by the bolts *k k* and the pins *l l*. The two outer ones are riveted to the movable bars G G; M M M M are four beams, (bearing ploughs or mould-boards,) which are drawn by the brackets described, to which they are attached by hooks or clevises, of which two are seen in figure 2, marked *x x*—B.

The two inner beams are united firmly by the bent iron brace *n*, and the outer ones by the brace *o*; the iron lever *p*, of which the fulcrum is at *q*, lifts by means of the roller *r* the wooden lever *s*, of which the fulcrum is at *t*, and with it the braces with their beams and ploughs. The roller then fits into the socket *u*, (figure 2,) and the levers stand until released by the hand. The driver's seat, W, is arranged behind the axle, in order that his weight may relieve the pressure upon the necks of the horses, and his feet may guide the inner pair of ploughs. It may be shifted back or forward. The outer pair of beams, with all their attachments, may be removed by removing the outer bars G G, above described. The track of the wheels may then be narrowed by the sliding arms described. The beams can be adjusted to any requisite distance from each other, and by changing them from side to side, the furrows can be thrown either to or from the row. The depth to be ploughed can be regulated by the holes in the brackets—C.

D. L. ADAMS.

PATENT OFFICE, *April 26, 1856.*

SIR: Artistically executed drawings are requisite in your application for "cultivator."

Your instructions are also requisite to substitute the amended specification for that originally filed.

Enclosed please find the drawings originally filed, with copy of "rules and directions."—(See sections 18 and 19 of latter.)

HERVEY D. GANSE, Esq.,

Care of F. Hughson, esq., 87 Wall street, New York, N. Y.

FREEHOLD, N. J., *April 29, 1856.*

SIR: The drawings connected with my application for patent for cultivator have been returned to me to be artistically executed. If that requisition includes a perspective drawing, will I not need to have my amended specification returned to me, in order to include such perspective drawing in the enumeration of the

figures? Such a drawing was not prepared in the first instance on account of the supposed impracticability of securing in that form any distinct representation of so many details. I would be glad to be saved the delay of having such a drawing prepared now. If the top view and longitudinal section already presented are thought to give a sufficiently clear idea of the combination proposed, they shall be executed in the manner prescribed, and returned to your office upon receipt of your reply. The others, of course, will be added if it be indispensable.

Respectfully,

H. D. GANSE.

The COMMISSIONER OF PATENTS.

UNITED STATES PATENT OFFICE,
March 31, 1856.

SIR: The specification and drawings in the matter of your cultivator are herewith returned, and your attention called to pencil notes on same.

HERVEY D. GANSE, Esq.,

Care of F. Hughson, esq., 87 Wall street, New York.

PATENT OFFICE, May 3, 1856.

SIR: Yours of the 29th instant has been received and considered, and your attention called to sections 18 and 19 of "rules and directions" sent you on the 26th ultimo.

Enclosed please find amendment to specification in your application for cultivator.

H. D. GANSE, Esq.,

Care of F. Hughson, esq., No. 87 Wall street, New York, N. Y.

Amendments to amended specification.

NEW YORK, May 16, 1856.

I hereby amend my amended specification, dated April 5, 1856, by inserting—

First, after the word "foot," on the tenth line of the first page thereof, the following words: "Fig. III is a perspective view."

Second, after the letters "x x," on the twenty-second line of the same page, the following words: "and all four are seen in Fig. III similarly marked."

HERVEY D. GANSE.

Witnesses: FREDERICK HUGHSON,
JOHN GANSE.

NEW YORK, May 16, 1856.

The above amendments are made in order to adopt said amended specification to the amended drawings, which are herewith forwarded; such amended drawings being exact duplicates of those first filed with the addition only of a perspective view.

I request that my amended specification, dated April 5, 1856, as now further amended, and my amended drawings of this date, be substituted for the specification and drawings first filed by me in this application.

HERVEY D. GANSE.

Witnesses: FREDERICK HUGHSON,
JOHN GANSE.

PATENT OFFICE, *May 30, 1856.*

SIR: Your application for a cultivator has been examined and rejected in view of the following reference, viz: Patents granted N. Whitehall, for improvement in ploughs, July 3, 1855; A. and T. S. Smith, for improvement in ploughs, March 4, 1856; Martin Nicholas, seed planter, October 16, 1840; and A. Leland, for corn plough, January 2, 1849.

H. D. GANSE, Esq.,

Care of F. Hughson, esq., No. 87 Wall street, New York. N. Y.

WASHINGTON, *July 16, 1856.*

SIR: Please substitute the following claim in place of that contained in my amended specification filed April 8, 1856:

I claim so constructing and arranging my cultivator by means of the clevis *x*, the beams *m*, and the brace *n*, substantially as described, that in combination with the seat *w* the ploughs may be so guided by the feet of the driver, in the manner and for the purpose set forth.

H. D. GANSE.

The COMMISSIONER OF PATENTS.

PATENT OFFICE, *July 18, 1856.*

SIR: Amended specifications are required to be clearly copied by the applicant before being engrossed. For this purpose please find herewith specification, two amendments, and one drawing in your application for a cultivator.

Rev. H. D. GANSE,

Care of F. Hughson, esq., No. 87 Wall street, New York, N. Y.

FREEHOLD, *August 4, 1856.*

SIR: I do not know whether the enclosed copy of my specification, including amendments, needed to be dated; nor if it did, what date should be given to it. I have ventured to affix the date at which the copy was made. The papers which I return contain the others.

If the patent shall issue, please let it be mailed to my address.

Respectfully,

H. D. GANSE,

Freehold, New Jersey.

The COMMISSIONER OF PATENTS.

Copy of specification including amendments.

FREEHOLD, *August 4, 1856.*

Be it known that I, Hervey D. Ganse, of the town of Freehold, in the county of Monmouth, and State of New Jersey, have invented a new and useful method of combining ploughs or mould boards, of whatever form, for cultivating corn, cotton, potatoes, and other field crops, upon both sides of the row at once; and I do hereby declare that the following is a full, clear, and exact description of the same, reference being had to the annexed drawings, making a part of this specification, in which Fig. 1 is a top view, and Fig. 2 a longitudinal section:

These drawings are in the proportion of an inch to a foot; Fig. 3 is a perspective view, A is the axle, and B is the tongue of a truck running upon the wheels C C. The cross-bar D is framed to the tongue and axle. The arms E E, the inner extremities of which reach to the dotted lines, Fig. 1, slide under the axle A, through the bands *ffff*, in which they are secured by wedges. The bars G G are movable, being held to the cross-bar and the arms by bolts. H H H H are four iron brackets, of which the two inner ones are held to the cross-bar D and the shorter cross-bar I by the bolts *k k* and the pins *l l*. The two outer ones are riveted to the movable bars G G. M M M M are four beams, bearing ploughs or mould boards, which are drawn by the brackets described, to which they are attached by hooks or clevises, of which two are seen in Fig. 2, marked *x x*, and all four are seen in Fig. 3, similarly marked. The two inner beams are united firmly by the bent iron brace *n*, and the outer ones by the brace *o*. The iron lever *p*, of which the fulcrum is at *q*, lifts by means of the roller *r*, the wooden lever *s*, of which the fulcrum is at *t*, and with it the braces with their beams and ploughs. The roller then fits into the socket *w*, (Fig. 2,) and the levers stand until released by the hand. The driver's seat W is arranged behind the axle, in order that his weight may relieve the pressure upon the necks of the horses, and his feet may guide the inner pair of ploughs. It may be sifted back or forward. The outer pair of beams, with all their attachments, may be removed by removing the outer bars G G, above described. The track of the wheels may then be narrowed by the sliding arms described. The beams can be adjusted to any requisite distance from each other, and by exchanging them from side to side the furrows can be thrown either to or from the row. The depth to be ploughed can be regulated by the holes in the brackets.

I claim so constructing and arranging my cultivator by means of the clevises *x*, the beams M, and brace *n*, substantially as described, that, in combination with the seat W, the plough may be guided by the feet of the driver, in the manner and for the purpose set forth.

HERVEY D. GANSE.

These drawings are to the proportion of an inch to a foot. Fig. 1 is a plan view of the machine, showing the frame, the engine, and the boiler. The engine is shown in the center, with the boiler on either side. The frame is shown as a series of lines connecting the engine and boiler. The boiler is shown as a large, rounded object with a chimney on top. The engine is shown as a smaller, more complex object with various parts labeled. The plan view shows the machine from above, with the boiler at the top and the engine at the bottom. The side view shows the machine from the side, with the boiler on the left and the engine on the right. The front view shows the machine from the front, with the boiler on the left and the engine on the right. The back view shows the machine from the back, with the boiler on the left and the engine on the right. The top view shows the machine from above, with the boiler at the top and the engine at the bottom. The bottom view shows the machine from below, with the boiler at the top and the engine at the bottom. The side view shows the machine from the side, with the boiler on the left and the engine on the right. The front view shows the machine from the front, with the boiler on the left and the engine on the right. The back view shows the machine from the back, with the boiler on the left and the engine on the right. The top view shows the machine from above, with the boiler at the top and the engine at the bottom. The bottom view shows the machine from below, with the boiler at the top and the engine at the bottom.

THEORY OF THE

THEORY OF THE

DEAR MR. [Name]

LETTER

SECRETARY OF THE INTERIOR

My dear Sir,

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the [Name] and to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,
Your obedient servant,

Very truly yours,

Wm. H. Hunt

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the [Name] and to inform you that the same has been forwarded to the proper authorities for their consideration.

Wm. H. Hunt

I am, Sir, very respectfully,
Your obedient servant,

Very truly yours,

Wm. H. Hunt

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the matter of the [Name] and to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,
Your obedient servant,

PUBLIC LANDS IN CALIFORNIA.

LETTER

FROM THE

SECRETARY OF THE INTERIOR,

IN ANSWER TO

A resolution of the House of the 9th instant, transmitting the report of the Commissioner of the General Land Office relative to public lands within certain limits of the State of California.

JULY 16, 1866.—Referred to the Committee on the Public Lands and ordered to be printed.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., July 14, 1866.

SIR: I have the honor to enclose herewith a copy of the report of the Commissioner of the General Land Office in relation to public lands within certain limits of the State of California, containing the information called for by the resolution of the House of Representatives of the 9th instant.

I am, sir, very respectfully, your obedient servant,

JAMES HARLAN,

Secretary.

Hon. SCHUYLER COLFAX,

Speaker of the House of Representatives.

GENERAL LAND OFFICE,

Washington, July 13, 1866.

SIR: I have the honor to acknowledge the reference to this office of a resolution of the House of Representatives of July 9, 1866, as follows:

“Resolved, That the Secretary of the Interior be directed to furnish to this House the information how many acres of public land are now in market, how long a time the same have been in market, situate in the State of California, and bounded as follows, viz: On the northeast and north by the San Joaquin river; on the east by the foot of the Sierra Nevada mountains; on the south by King’s river, and the line between townships seventeen and eighteen, and on the southwest and west by the foot of the Monte Diablo Mountain range; and also the number of acres already sold by the general government within the above-named boundaries; also the amount of lands granted by Congress at the present session for railroad purposes.”

In reply thereto, I have to state that the territory as described in the resolu-

tion contains 1,818,822 $\frac{31}{100}$ acres of surveyed lands, of which area 416,019 $\frac{31}{100}$ acres have never been offered at public sale, and are subject to pre-emption and homestead entry; 576,746 $\frac{99}{100}$ acres have been offered and subject to private entry for a period of eight years and two months; 622,900 $\frac{75}{100}$ acres for a period of seven years and five months; 203,155 $\frac{32}{100}$ acres for a period of five years and one month; 46,475 acres have been disposed of by entry, location and selection, within the territory named; and the odd sections, or the one-half of nineteen townships, and parts of townships, containing an aggregate area of 280,640 $\frac{10}{100}$ acres, are within twenty-five miles of the western division of the Central Pacific railroad, and have been withdrawn for that reason.

A few of the figures included in the above areas and amounts have been carefully approximated in order to save delay. It is believed that they are sufficiently exact to answer the intention and purpose of the resolution.

No act of the present session of Congress granting land for railroad purposes within the territory named in the resolution has been brought to the knowledge of this office.

All of which is respectfully submitted, and the resolution returned herewith.

Very respectfully, your obedient servant,

J. M. EDMUNDS,
Commissioner.

Hon. JAMES HARLAN,
Secretary of the Interior.

BREVET RANK IN THE REGULAR ARMY.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of 15th May, transmitting a report of all brevet ranks conferred upon officers of the regular army since April 12, 1861, to date of report.

JULY 16, 1866.—Referred to the Committee on Military Affairs and ordered to be printed.

WAR DEPARTMENT,
Washington City, June 20, 1866.

SIR: In compliance with a resolution of the House of Representatives of May 15, 1866, directing the Secretary of War to communicate to the House a statement of every promotion, by brevet, of officers in the regular army made since the 12th April, 1861, &c., I have the honor to transmit herewith the Adjutant General's report of this date containing the information called for up to the date of the report.

Very respectfully, sir, your obedient servant,

EDWIN M. STANTON,
Secretary of War.

Hon. S. COLFAX,
Speaker of the House of Representatives.

BUREAU OF FREEDMEN AND REFUGEES.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

RETURNING

To the House bill No. 613, with his objections thereto.

JULY 16, 1866.—Ordered to be printed.

To the House of Representatives:

A careful examination of the bill passed by the two houses of Congress, entitled "An act to continue in force and to amend 'An act to establish a bureau for the relief of freedmen and refugees, and for other purposes,'" has convinced me that the legislation which it proposes would not be consistent with the welfare of the country, and that it falls clearly within the reasons assigned in my message of the 19th of February last, returning, without my signature, a similar measure which originated in the Senate. It is not my purpose to repeat the objections which I then urged. They are yet fresh in your recollection, and can be readily examined as a part of the records of one branch of the national legislature. Adhering to the principles set forth in that message, I now reaffirm them, and the line of policy therein indicated.

The only ground upon which this kind of legislation can be justified is that of the war-making power. The act of which this bill is intended as amendatory was passed during the existence of the war. By its own provisions, it is to terminate within one year from the cessation of hostilities and the declaration of peace. It is therefore yet in existence, and it is likely that it will continue in force as long as the freedmen may require the benefit of its provisions. It will certainly remain in operation, as a law, until some months subsequent to the meeting of the next session of Congress, when, if experience shall make evident the necessity of additional legislation, the two houses will have ample time to mature and pass the requisite measures. In the mean time the questions arise, why should this war measure be continued beyond the period designated in the original act; and why, in time of peace, should military tribunals be created to continue until each "State shall be fully restored in its constitutional relations to the government, and shall be duly represented in the Congress of the United States?"

It was manifest, with respect to the act approved March 3, 1865, that prudence and wisdom alike required that jurisdiction over all cases concerning the free enjoyment of the immunities and rights of citizenship, as well as the protection of person and property, should be conferred upon some tribunal in every

State or district where the ordinary course of judicial proceedings was interrupted by the rebellion, and until the same should be fully restored. At that time, therefore, an urgent necessity existed for the passage of some such law. Now, however, war has substantially ceased; the ordinary course of judicial proceedings is no longer interrupted; the courts, both State and federal, are in full, complete, and successful operation, and through them every person, regardless of race and color, is entitled to and can be heard. The protection granted to the white citizen is already conferred by law upon the freedman; strong and stringent guards, by way of penalties and punishments, are thrown around his person and property, and it is believed that ample protection will be afforded him by due process of law, without resort to the dangerous expedient of "military tribunals," now that the war has been brought to a close. The necessity no longer existing for such tribunals, which had their origin in the war, grave objections to their continuance must present themselves to the minds of all reflecting and dispassionate men. Independently of the danger, in representative republics, of conferring upon the military, in time of peace, extraordinary powers—so carefully guarded against by the patriots and statesmen of the earlier days of the republic, so frequently the ruin of governments founded upon the same free principles, and subversive of the rights and liberties of the citizen—the question of practical economy earnestly commends itself to the consideration of the law-making power. With an immense debt already burdening the incomes of the industrial and laboring classes, a due regard for their interests, so inseparably connected with the welfare of the country, should prompt us to rigid economy and retrenchment, and influence us to abstain from all legislation that would unnecessarily increase the public indebtedness. Tested by this rule of sound political wisdom, I can see no reason for the establishment of the "military jurisdiction" conferred upon the officials of the bureau by the fourteenth section of the bill.

By the laws of the United States, and of the different States, competent courts, federal and State, have been established, and are now in full practical operation. By means of these civil tribunals ample redress is afforded for all private wrongs, whether to the person or the property of the citizen, without denial or unnecessary delay. They are open to all, without regard to color or race. I feel well assured that it will be better to trust the rights, privileges, and immunities of the citizen to tribunals thus established, and presided over by competent and impartial judges, bound by fixed rules of law and evidence, and where the right of trial by jury is guaranteed and secured, than to the caprice or judgment of an officer of the bureau, who, it is possible, may be entirely ignorant of the principles that underlie the just administration of the law. There is danger, too, that conflict of jurisdiction will frequently arise between the civil courts and these military tribunals, each having concurrent jurisdiction over the person and the cause of action, the one judicature administered and controlled by civil law, the other by the military. How is the conflict to be settled, and who is to determine between the two tribunals when it arises? In my opinion, it is wise to guard against such conflict by leaving to the courts and juries the protection of all civil rights and the redress of all civil grievances.

The fact cannot be denied that since the actual cessation of hostilities many acts of violence—such, perhaps, as had never been witnessed in their previous history—have occurred in the States involved in the recent rebellion. I believe, however, that public sentiment will sustain me in the assertion that such deeds of wrong are not confined to any particular State or section, but are manifested over the entire country—demonstrating that the cause that produced them does not depend upon any particular locality, but is the result of the agitation and derangement incident to a long and bloody civil war. While the prevalence of such disorders must be greatly deplored, their occasional and

temporary occurrence would seem to furnish no necessity for the extension of the bureau beyond the period fixed in the original act.

Besides the objections which I have thus briefly stated, I may urge upon your consideration the additional reason, that recent developments in regard to the practical operations of the bureau in many of the States show that in numerous instances it is used by its agents as a means of promoting their individual advantage, and that the freedmen are employed for the advancement of the personal ends of the officers instead of their own improvement and welfare—thus confirming the fears, originally entertained by many, that the continuation of such a bureau for any unnecessary length of time would inevitably result in fraud, corruption, and oppression. It is proper to state, that in cases of this character investigations have been promptly ordered, and the offender punished whenever his guilt has been satisfactorily established.

As another reason against the necessity of the legislation contemplated by this measure, reference may be had to the "Civil Rights Bill," now a law of the land, and which will be faithfully executed so long as it shall remain unrepealed, and may not be declared unconstitutional by courts of competent jurisdiction. By that act it is enacted "that all persons born in the United States, and not subject to any foreign power, excluding Indians not taxed, are hereby declared to be citizens of the United States; and such citizens, of every race and color, without regard to any previous condition of slavery or involuntary servitude, except as a punishment for crime, whereof the party shall have been duly convicted, shall have the same right, in every State and Territory in the United States, to make and enforce contracts, to sue, be parties, and give evidence, to inherit, purchase, lease, sell, hold and convey real and personal property, and to full and equal benefit of all laws and proceedings for the security of person and property, as is enjoyed by white citizens, and shall be subject to like punishment, pains and penalties, and to none other, any law, statute, ordinance, regulation, or custom to the contrary notwithstanding."

By the provisions of the act full protection is afforded, through the district courts of the United States, to all persons injured, and whose privileges, as thus declared, are in any way impaired; and heavy penalties are denounced against the person who wilfully violates the law. I need not state that that law did not receive my approval; yet its remedies are far more preferable than those proposed in the present bill—the one being civil and the other military.

By the sixth section of the bill herewith returned, certain proceedings by which the lands in the "parishes of St. Helena and St. Luke, South Carolina," were sold and bid in, and afterwards disposed of by the tax commissioners, are ratified and confirmed. By the seventh, eighth, ninth, tenth, and eleventh sections, provisions by law are made for the disposal of the lands thus acquired to a particular class of citizens. While the quieting of titles is deemed very important and desirable, the discrimination made in the bill seems objectionable, as does also the attempt to confer upon the commissioners judicial powers, by which citizens of the United States are to be deprived of their property in a mode contrary to that provision of the Constitution which declares that no person "shall be deprived of life, liberty or property without due process of law." As a general principle, such legislation is unsafe, unwise, partial, and unconstitutional. It may deprive persons of their property who are equally deserving objects of the nation's bounty, as those whom, by this legislation, Congress seeks to benefit. The title to the land thus to be portioned out to a favored class of citizens must depend upon the regularity of the tax sales, under the law as it existed at the time of the sale, and no subsequent legislation can give validity to the rights thus acquired, as against the original claimants. The attention of Congress is therefore invited to a more mature consideration of the measures proposed in these sections of the bill.

In conclusion, I again urge upon Congress the danger of class legislation, so

well calculated to keep the public mind in a state of uncertain expectation, disquiet, and restlessness, and to encourage interested hopes and fears that the national government will continue to furnish to classes of citizens in the several States means for support and maintenance, regardless of whether they pursue a life of indolence or of labor, and regardless also of the constitutional limitations of the national authority in times of peace and tranquillity.

The bill is herewith returned to the House of Representatives, in which it originated, for its final action.

ANDREW JOHNSON.

WASHINGTON, D. C., *July 16, 1866.*

INDIAN AFFAIRS IN DAKOTA.

LETTER

FROM THE

SECRETARY OF THE INTERIOR,

IN ANSWER TO

A resolution of the House of 23d of May, in regard to the conduct of Indian affairs in Dakota Territory.

JULY 19, 1866.—Referred to the Committee on Indian Affairs and ordered to be printed.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., July 18, 1866.

SIR: In compliance with the requirements of House resolution of May 23, 1866, I have the honor to transmit herewith a copy of a report of the Commissioner of Indian Affairs, of this date, with a copy of Special Commissioner Johnson's report, of the 16th instant, and accompanying papers, upon the conduct of Indian affairs in Dakota Territory.

I am, sir, very respectfully, your obedient servant,

JAS. HARLAN, *Secretary.*

Hon. SCHUYLER COLFAX,

Speaker of the House of Representatives.

DEPARTMENT OF THE INTERIOR, OFFICE INDIAN AFFAIRS,

Washington, D. C., July 18, 1866.

SIR: I have the honor to acknowledge the receipt of House resolution of May 23, 1866, requiring a report from you as to the amount of funds heretofore appropriated for the erection of school-houses and the maintenance of schools at the various agencies in the Dakota superintendency, and the manner in which the same has been expended, together with the present condition of said agencies, and the manner in which the business of the superintendency has been conducted, which resolution was referred to this office by your department for report on the 24th May, 1866.

There are but two agencies in Dakota where any appropriation has ever been made for school purposes—the Ponca and the Yankton. Under the treaty of March 12, 1858, with the Poncas, the sum of \$35,000 has heretofore been appropriated for the support of a manual labor school.

Of this sum \$17,500 were expended by late Agent Hoffman in the erection of a school-house, and the building has not yet been completed.

The residue of the appropriation (\$17,500) is still in the treasury. There has never been a school at the agency, and no funds have been expended for one.

The building, besides not being completed, is not suitable for the purpose for which it was intended; and the Indians, having removed to their proposed new reservation, are too remote from the school-house to send their children thither. Should the new treaty with these Indians be ratified, the school-house can be removed to the new reservation. It contains abundance of lumber to erect a building suitable for a school.

The treaty of April 19, 1858, with the Yankton Sioux, provides that ten thousand dollars shall be expended "to build a school-house or school-houses, and to establish and maintain one or more manual labor schools for the education and training of the children of said Indians in letters, agriculture, the mechanic arts, and housewifery." This sum was appropriated, and on the 1st of May, 1860, was remitted to late Agent Redfield. He seems to have made no attempt to build a school-house or maintain a school, but expended about one-half the sum for erecting a mill and other buildings, (in addition to the appropriation of \$15,000 for that object,) and paid or expended the residue as annuity. This treaty also provides for withholding a portion of the annuities of the tribe for school purposes to such amount as "shall be deemed necessary by the President." Under this provision late Agent Burleigh used of such annuities the sum of \$400 for lumber and timber for a school-house, \$40 for nails, \$231 for carpenters "in constructing a school-house, \$825 for pay of teachers, \$75 61 for school books, and \$300 for subsisting scholars and apprentices."

The foregoing facts appeared from the records of this office; but as I did not deem them sufficient to answer the resolution referred to, I, in compliance with your instructions in letter of June 5, 1866, directed Mr. Alexander Johnston to proceed to Dakota, and make such investigation and report as would enable the department to respond to the resolution of the House above referred to.

Mr. Johnston, under date of the 16th instant, submitted a preliminary report, referring chiefly to the Yankton agency, accompanied by testimony taken by him in regard to the past conduct of Indian affairs there, copies of which are herewith transmitted.

The facts elicited by Mr. Johnston, and referred to in his report, taken in connexion with the records of this office, may be briefly stated as follows:

That late Agent Burleigh claims to have expended \$1,871 61, and was allowed credit for that amount by my predecessor, for building a school-house and for educational purposes, while no house was built, no school kept, and no Indians taught;

That he took receipts from the Indians for property that he retained in his possession and dropped the property from his returns on such receipts;

That he made frequent purchases of supplies for the agency from the employés;

That the purchases made by him were made without inviting competition, by advertisement, as provided by law;

That he purchased articles with the funds of the Indians, which were not necessary for them;

That of 73 work cattle, 275 milch cows, 5 horses, 56 stock hogs and 17 wagons purchased by him during his term of office, nothing remained to be turned over to his successor except one wagon;

That he sold some oxen and a wagon from the agency, and took oxen, wagons, ploughs, chains and yokes from the agency to his farm at Bon Homme;

That he enrolled and paid eleven men as "carpenters" in "constructing a school-house" who were soldiers stationed at the agency, and who did not construct a school house;

That he paid Catherine S. Burleigh, Sallie D. Faulk, and Henrietta Faulk, as "teachers," when there was no school;

That he paid a miller and an engineer when there was no mill in operation ;

That he paid John Thompson as blacksmith and James Mechling as tinner while they worked for him on his farm ;

That he sold tinware to his trader which was manufactured by the tinsmith, paid out of the funds of the Indians ;

That he enrolled his son, thirteen years old, as a "laborer" at the agency, and paid him at the rate of \$40 per month, while the boy went to school or amused himself in hunting and fishing ;

That, running the mess-house (a wayside inn) for his own profit, he paid the persons who kept it out of the funds of the Indians ;

That he paid John W. Owens and Foster T. Wheeler, employed as laborers at the agency, less money than they receipted for ;

That he filled up a voucher, signed in blank by John W. Owens, for more than ten times the amount received by Mr. Owens ;

That he brought into his account a voucher for \$1,200 as paid to Charles C. Hedges and receipted by him, for hauling forty tons of goods from the wreck of the steamer J. G. Morrow—which goods had not been hauled by Hedges, but by other parties employed by agent Burleigh, at one-half the rates charged in the voucher ;

That he agreed to collect a depredation claim for John W. Owens, against the Indians under his charge, for one-half of the amount collected ;

That he presented and collected a similar claim of Ellis W. Wall, where a similar agreement had been entered into with his father-in-law, A. J. Faulk ;

That he brought a voucher into his accounts, which was allowed by my predecessor, for \$750, as paid to John W. Owens, when no part of it had or has been paid ;

That he brought a voucher into his accounts, which was allowed by my predecessor, for \$1,313 75, as paid to Ellis W. Wall, when but \$500 had been paid.

That he represented to both Owens and Wall that their claims for depredations had not been allowed, when he had the funds in his hands to pay them.

Beside these, there are other matters of less importance, but still of a very serious nature, in the report of Mr. Johnston and in the testimony accompanying his report. As he wrote with the facts and the records before him, and has stated the points more at length than I have done, I respectfully refer you to his report for the details.

Mr. Johnston alludes to the difficulties he had in making a report, occasioned by the shortness of the time at his disposal and the want of power to send for persons and papers, and suggests, if it is intended to redress the wrongs of these Indians, that a committee or a special commissioner be sent out, clothed with power to compel the appearance of witnesses, and make a thorough investigation.

I concur in this suggestion. Such investigations are too often a matter of form merely. The present case affords an instance. Soon after Mr. Burleigh entered upon the duties of the Yankton agency, charges were preferred against him. These charges were considered so serious that President Lincoln, on the 31st December, 1861, wrote, with his own hand, a letter to the late Commissioner of Indian Affairs, in these words: "I have been shown charges against Walter A. Burleigh, Yankton Indian agent, which have been filed in your office. I think you should suspend his official functions till these charges be heard, and that the charges be brought to a hearing as soon as possible. I think honorable Mr. Covode procured Mr. Burleigh's appointment; if I had anything to do with it, let me know.—A. LINCOLN."

An investigation was then ordered, which resulted in a report by the then superintendent of Indian affairs in Dakota, not only that the charges were unfounded, but that Agent Burleigh was a "fearless, upright, and efficient agent." The facts now presented are a sufficient comment on such investigations.

This report does not cover all the matters called for in the resolution of the House, and is not full upon the points contained in it. So soon as it is practicable to make further investigation, a full report will be submitted.

Very respectfully, your obedient servant,

D. N. COOLEY, *Commissioner.*

Hon. JAMES HARLAN,

Secretary of the Interior.

WASHINGTON, D. C., July 16, 1866.

SIR: In compliance with your instructions, under date of the 9th ultimo, I left Washington on the evening of the 10th, to visit the Dakota superintendency, and make the investigation and report upon the conduct of Indian affairs there, which was required by the instructions above referred to, and by House resolution of May 23d, 1866.

Having taken such testimony as the limited time and the surrounding circumstances would permit, I have the honor to submit the same with the following report.

I desire to premise, that, in making the investigation, I confined myself to persons against whom there was evil speaking by the people of the Territory, and to transactions in regard to which I could obtain competent testimony. If no evil is spoken of a superintendent or Indian agent in Dakota by the people, his conduct must have been circumspect; and if hearsay evidence could be taken, many volumes might be filled with a report upon Indian affairs in that superintendency.

THE SUPERINTENDENCY PROPER.

Hon. Newton Edmunds, governor and *ex officio* superintendent Indian affairs, was absent on duty as one of the peace commissioners to the tribes on the upper Missouri, and I did not, therefore, have a fair opportunity to examine into the conduct of Indian affairs in the superintendency proper. A great deal is said by the people to the prejudice of the governor, in his management of Indian affairs; but I was not able, under the circumstances, to elicit such facts as would sustain these reports against him. Upon his return from the upper Missouri, I propose to make further investigation and report in his case.

CROW CREEK AGENCY.

The Indians of this agency having been removed to Niobrara, in the northern superintendency, I did not extend my inquiries to it.

PONCA AGENCY.

I heard nothing said, of a definite character, to the prejudice of Agent Potter. I found the Indians of his agency nearly all located on their proposed new reservation, about twelve miles from the agency buildings. In a "talk" I had with some of the chiefs and headmen, they expressed great solicitude about the ratification of their new treaty. These Indians raised much more corn last year than they needed; but their liberality in giving it away to their neighbors, the Yanktons, has almost brought them to want. They have a little more ground planted this year than last, and the prospects for an abundant crop were never better.

The Poncas have no school, and never had. The school-house erected at the agency by late Agent Hoffman was never finished, and should not be. It is twice as large as the wants of the tribe would require; and the frame work is as

much too light as the building is too large. The lumber in it is good, and could be used in building a school-house at the new reservation, should the treaty be ratified.

No funds have been expended for school purposes at this agency since Agent Potter took charge of it.

YANKTON SIOUX AGENCY.

The conduct of affairs of this agency was the subject of universal remark by the people of Dakota; but the limited time I had at my command, and the difficulty I experienced in finding parties who have been personally cognizant of its details, compel me to submit an incomplete report, accompanied by testimony that is little more suggestive of what common report and the logic of circumstances indicate has been going on there since the agency was established. I found no one who was acquainted with the details of the management of the agency under the administration of late Agent Redfield, and very few who were familiar with its management by late Agent Burleigh. The few I did find were generally unwilling to give information. One of them, Jacob Rufner, who was the first I called upon to testify, refused to be sworn unless I first explained to him what I desired. "I want to know what you want," he said; "because if it's any slur on Dr. Burleigh, I ain't agoing to have nothing to do with it; if I do, he will fix it so I'll never get anything in the world, and he'll drive me out of the country." Therefore, in making such investigation as I did, I was compelled to search out individual cases at random, without any previous knowledge as to their character.

Among other data placed in my hands to assist me in examining into Indian affairs in Dakota, were the duplicate accounts of late Agent Burleigh. Many of the facts which I have elicited are unintelligible, except in connexion with these accounts, and I shall therefore be compelled to make frequent reference to them; and to make what follows more readily understood, I must refer to one matter that appears from the accounts alone, which is the manner in which late Agent Burleigh disposed of the property which came into his possession—a manner which I know you have not tolerated since you assumed the position you now hold.

In looking over the accounts of late Agent Burleigh, I find that at the end of each quarter he reports no property on hand; and in seeking an explanation of this, I discover that he has taken and filed with his accounts the receipts of the Indians for every article purchased by him or sent to him by the department. The form of receipt generally used is as follows:

"We, the undersigned, chiefs and headmen of the tribe of Yankton Sioux Indians, hereby acknowledge to have received from W. A. Burleigh, our agent, all the goods and property hereinafter mentioned, and we authorize our said agent to retain in his possession, for our use and benefit, as he may deem best for our interests, and to actually deliver to us for our use and consumption, such portions from time to time as he may judge proper for us."

Under these receipts all farming implements, all work cattle, all stock, all tools for the shops and mill, all medicines, all property of every description, from the horses he drove to the penknife he carried in his pocket, were dropped from the agent's returns as "issued to the Indians."

Take, for example, the following items from the "Indian receipt" in late Agent Burleigh's accounts for the third quarter of 1863, (a copy of which is herewith:)

"One pair of bay horses, 7 years old; 1 set double harness; 1 dozen 17-inch mill files; 2 14-inch ploughs; 2 ox wagons; 6 dozen Seidlitz powders; 6 pounds compound syrup squills; 6 dozen Ayres's pills; 1 gallon 95 per cent. alcohol; 3 bottles rose water; 1 cook stove; $\frac{1}{2}$ M, 6,434, 8 $\frac{1}{2}$ -inch official envelopes; 1

M. double thick white letter envelopes ; 1 ream P. and P. excelsior legal cap ; $\frac{1}{2}$ ream first-class Congress cap ; 1 ream quarto post ; 1 ream P. and P. first-class note ; 1 seal ; 1 penknife ; 1 ruling-pen ; 1 gross pens ; 1 dozen lead pencils ; 1 cash box ; 4 bottles (quart) Arnold's fluid ; 4 bottles 8-ounce mucilage ; 2 bottles 2-ounce carmine ; 1 pound wax ; 1 memorandum book ; 1 ream vouchers ; 1 portfolio."

To this receipt the agent makes a certificate in these words :

"I certify, on honor, that I have actually delivered to the chiefs and headmen of the Yankton Sioux all of the goods and property mentioned in the foregoing receipt.

"W. A. BURLEIGH,
"United States Yankton Agent.

"YANKTON AGENCY, *September 30, 1863.*"

Another matter of much less consequence, however, appears from the accounts above, which is, that many articles were purchased by late Agent Burleigh with Indian funds, which could not have been necessary for the Indians. The following list will furnish an example :

1 sewing machine.....	June 1, 1861,	\$90 00
School-books.....	July 30, 1861,	49 64
11 bedsteads, 2 dozen chairs.....	Aug. 12, 1861,	77 30
1 cook-stove.....	Aug. 14, 1861,	30 00
1 cook-range.....	Aug. 21, 1861,	75 00
School-books.....	Sept. 8, 1862,	25 97
1 cook-stove.....	Sept. 8, 1863,	24 00
4 beadsteads, 2 mattresses, 2 dozen chairs, and four tables.....	Sept. 15, 1862,	49 00

These accounts also show that late Agent Burleigh frequently made purchases of corn, cattle, beef, &c., from the employés of the agency—a thing not allowed under your administration ; and they also show, which is of much greater consequence, that all the purchases made by late Agent Burleigh, were made without inviting competition by advertising for proposals, or in any manner regarding the act of March 2, 1861, on that subject.

I will now briefly refer to some points in the testimony which is herewith submitted, in connexion with some of the items in the accounts of late Agent Burleigh :

First. His accounts show that, in addition to the cattle for beef, he purchased seventy-three yoke of work-cattle, two hundred and seventy-five milch cows ; also, five horses, fifty-six stock hogs, and seventeen wagons. The testimony shows that there was at the agency, when Agent Conger took possession, one milch cow, and no more, which the late agent gave to Mrs. Conger ; but not one ox, not one horse, and not one hog, and only one wagon. Owing to the peculiar manner in which the agent accounted for all property which came into his possession, it is difficult to find exactly what became of these cattle, horses, hogs, and wagons. The "Indian receipts" with his accounts merely show that they were either delivered to the Indians or retained by the agent to be delivered when he saw proper. John W. Owens testifies that "two yoke of cattle, two wagons, some ploughs, chains, and yokes" were brought from the agency, and put under his charge on Dr. Burleigh's farm at Bon Homme ; and Ellis W. Wall testifies that he bought from the agent, and took from the agency, three yoke of cattle and one wagon. Mr. Owens also testifies that the Indians killed thirteen oxen for getting into their fields, and that the meat of these oxen was taken to the warehouse and "sold out to the Indians." He also testifies that there were large numbers of milch cows brought to the farm of late Agent Burleigh at Bon Homme ; and that, when John H. Burleigh, (the agent's brother,

and farmer at the agency,) brought one hundred and eleven head to the farm, he (John H. Burleigh) said they were Indian cattle, bought with Indian money. This is not competent testimony, however; and the remark made by the agent to Owens, in regard to this same lot of cattle, "We have a fine lot of cows here now, and we can keep them till we get a calf or two apiece from them," is not definite.

Second. In the accounts of late Agent Burleigh for the fourth quarter 1862 he has a voucher which he designates as a "pay-roll of employés constructing a school-house." On this pay roll are the names of Ira Williams, Richard Kane, John Kinney, William Moore, George Yule, Abraham Sheefer, Joseph Brady, Matthew McWherry, James Clark, Dwight Wadsworth, and James Dugan. They are rated as "carpenters," and paid each for twelve days' service, at the rate of one dollar and seventy-five cents per day. I know by personal observation, and by the testimony, that there is not, and never was, a school-house at the agency; and Charles E. Hedges testifies that these "carpenters" were soldiers stationed at the agency.

Third. These accounts show that late Agent Burleigh paid Sallie D. Faulk as a "teacher" in the fourth quarter 1861, and she and Catharine S. Burleigh as "teachers" in the first, second, third, and fourth quarters of 1862; and Catharine S. Burleigh and Henrietta Faulk as "teachers" in the second quarter 1863. The testimony shows that there was a school for white children at the agency, taught by Dr. Barrett, who was paid as physician; but that there was never a school for Indians.

Fourth. The accounts show that Clarence Brown was paid as engineer in the second, third, and fourth quarters 1861; and that Alexander Keeler was paid as miller from the time Agent Burleigh took charge up to March 31, 1863—about two years. The testimony of Guyon and Bradford shows that the mill was not in running order; that it was not even standing till Mr. Bradford set it up in the summer of 1862. Guyon says: "The only engineer was Mr. Bradford. There was no miller there."

Fifth. The testimony of Mr. Bradford shows that John Thompson and James Mechling worked for Agent Burleigh on his farm at Bon Homme, while they were enrolled and paid, the former as blacksmith, and the latter as tinsmith, at the agency. The same testimony shows that this blacksmith did work for outside parties, and was paid for it; and that this tinsmith made tinware which was sold by Agent Burleigh to his trader.

Sixth. From the time Dr. Burleigh took charge of the agency, early in 1861, till July, 1863, as also in the fourth quarter 1864 and first quarter 1865, Timothy B. Burleigh was enrolled and paid as a "laborer" at the rate of forty dollars per month. The testimony of Owens, Guyon, and Bradford shows that this Timothy B. Burleigh was a son of Agent Burleigh; that he was a boy of thirteen years, going to Dr. Barrett's school, or amusing himself in hunting and trapping.

Seventh. The testimony of Hedges and Wheeler shows that the mess-house at the agency (which is a stage-station, where travellers are wont to stop) was kept during the administration of Agent Burleigh, up till May 16, 1864, by S. B. Shrader and Foster T. Wheeler, and that the receipts went into the hands of Agent Burleigh or to his family. These men were, as the accounts will show, enrolled and paid as employés—paid with the money of the Indians, while they worked for the agent.

Eighth. John W. Owens testifies that while he was employed at the agency he was paid at the rate of one dollar per day, for which he generally signed blank vouchers. According to the accounts of late Agent Burleigh, the Indians paid Mr. Owens at the rate of \$460 per annum for a part of the time, and for a part at the rate of \$480. Foster T. Wheeler swears that he worked in the mess-house for over two years, for which he received pay at the rate of

twenty-five dollars per month, and no more. In these accounts Mr. Wheeler receipts for wages at the rate of thirty dollars per month, except for the fourth quarter 1863, when he receipts at the rate of forty dollars. After examining one of the pay-rolls, he testifies that he "don't think the figures were there" when he signed it.

Ninth. Mr. Owens testifies that in the spring of 1862 he sold to Agent Burleigh "sixty or seventy bushels (but not more) of corn, and forty bushels of potatoes, for twenty-five cents per bushel for each," for which he signed a blank voucher. This sale would bring Mr. Owens between twenty-five and thirty dollars. In the accounts of late Agent Burleigh, the voucher purports to be for one hundred and seventy bushels of corn and two hundred bushels of potatoes, at one dollar per bushel each, making *three hundred and seventy dollars*, for which amount the agent gets credit. It is scarcely worth while, in this connexion, to mention that Guyon swears he sold Burleigh a mule for eighty dollars, which is put down at ninety dollars in his accounts.

Tenth. Voucher No. 41, in the accounts of late Agent Burleigh, is for "gathering and hauling from wreck of steamer J. G. Morrow forty tons of freight to the Yankton agency, at thirty dollars per ton." It is receipted by Charles E. Hedges. The timid Rufner testifies that he helped save these goods, and that they were hauled to the agency by "some Norwegians" that Agent Burleigh hired. Owens testifies that "there were different men hired" to haul them, and that he was one of them. Siever Halverson Myhren, a Norwegian, testifies that he hauled 3,500 pounds of these goods to the agency, for which he was paid at the rate of seventy-five cents per hundred pounds. Lewis Larson, also a Norwegian, testifies that he hauled two loads of these goods, for which he was paid at the rate of seventy-five cents per hundred. He also swears that ten others, who hauled at the same time he did, were paid at the same rate. Both Myhren and Larson testify that they were paid by Agent Burleigh, and that Hedges had nothing to do with the matter. Here we see, then, that if there was really forty tons of these goods, Agent Burleigh paid six hundred dollars for hauling them; and having a convenient man at his elbow to sign a voucher, he charges the Indians *twelve hundred* for it.

Eleventh. Voucher No. 5 in the accounts of late Agent Burleigh, for the second quarter 1863, is signed by S. B. Shrader, an employé who kept the mess-house. It is for furnishing 1,200 meals "for scholars and apprentices amounting to \$300. The accounts of the late agent show that there was an apprentice employed for two quarters in the blacksmith shop. Bradford testifies that there was one employed in the blacksmith shop "for about one month;" and that "there were no other apprentices." The only other indication that there were apprentices is that, per voucher No. 14 in these accounts, first quarter 1862, A. J. Faulk is paid for boarding two for three months. As I know there was no school, and of course no "scholars," who, then, if anybody, ate these "1,200 meals?" There is no doubt the amount of this voucher was paid, because, under the mess-house arrangement, the money went to the agent.

Twelfth. The accounts of late Agent Burleigh for the third quarter 1864 show that certain claims for depredations by the Yanktons had been paid as follows:

F. D. Pease,	September 30, 1864.....	\$2,571 00
W. A. Dempsey,	" " "	611 00
Fred. Carman,	" " "	550 00
John H. Owens,	" " "	750 00
Ellis W. Wall,	" " "	1,313 75

Of these claimants I could only find Owens and Wall. Their testimony in regard to these claims presents a singular state of facts. I will very briefly refer to it. Owens swears that he placed his claim in the hands of Dr. Bur-

leigh (then agent) for collection, with the agreement that the proceeds should be equally divided between them; that he signed a blank voucher for it, to enable the agent to collect it, and that he has "never received a cent of it." Wall testified, in regard to his claim, that he presented it to Agent Burleigh, who said he had no time to attend to it, but advised him to get Squire Faulk (the father-in-law of Agent Burleigh) to collect it; that he placed it in the hands of the squire, agreeing to pay him one-half for its collection; that when he afterwards spoke to the agent about it, he stated that "he didn't know how the squire was getting along with it, but he thought there was no chance;" that, in September, 1864, he was at the agency, and saw Dr. Burleigh, but the witness had better relate the rest in his own language. He continues: "Doctor Burleigh told me he was very anxious to see me, and told me to be sure and come to the office before I went away. I saw him before I left; he told me he had been on to Washington, and that there was no show for my claim. He said he wanted to help the people up here, though; that I was a poor man, and that if I would sign the vouchers, he would give up my note for \$500, and stand his chances of collecting my claim. I signed the vouchers, and he gave up my note. I have never heard anything further about the matter since." This was in September, 1864. Funds to pay the claim (\$1,313 75) in full had been placed in the agents hands in August, 1864.

The records of your office show that the claim of Owens, above referred to, was allowed by Commissioner Dole, January 15, 1864; they do not show that either of the above claims was allowed at all, except that the funds to pay them were remitted to agent Burleigh, August 19, 1864.

Although Wall testifies that his claim was placed in the hands of Mr. Faulk to be collected on the shares, (the agent stating he had no time to attend to it,) the records show that Agent Burleigh, and not Mr. Faulk, presented it to the department.

The note for \$500 alluded to by Wall, as above, was given, as his testimony will show, for four yoke of oxen and a wagon: one yoke of which oxen were sold to him by Agent Burleigh from his farm, and three yoke and the wagon from the agency.

The certificates to the voucher of Owens and that of Wall are both in the same language, and as follows:

"I certify, on honor, that the above account is correct and just, and that I have actually, this 30th day of September, 1864, paid the amount thereof.

W. A. BURLEIGH,
United States Yankton Agent."

There is one other matter of which it may be well to speak, where the accounts of late Agent Burleigh and the surrounding circumstances do not seem to accord, which is in regard to lumber. There was no sawing done until 1862, as Guyon and Bradford testify. During that year Agent Burleigh, as per his accounts, purchased 90,000 feet of saw logs; in 1863 he purchased 150,000 feet; and in 1864, 49,000 feet—in all, 289,000 feet. Mr. Bradford, working by the month, saved the logs in 1862, and, as per the accounts, was paid by the 1,000 feet for doing so in 1863 and 1864. What became of so much lumber? All the buildings at the agency do not contain any such quantity. Mr. Bradford swears that Hedges took away 1,500 or 2,000 feet, and Agent Burleigh took to his farm about 4,000 feet. But these items are insignificant; the agent's accounts throw no light on the subject, for he has receipts of the Indians, first for the logs, and afterwards for the lumber.

There are some curious facts contained in the accompanying testimony which do not depend for their interest on Agent Burleigh's accounts. These can be understood by any one who reads the testimony, however, and I will refer to but one or two of them.

It appears from the testimony of Owens and Bradford that there was butchering carried on at the agency, either by S. B. Shrader or John H. Burleigh, or both. A beef was killed at least once a week, and the meat was sold to the employés and the Indians. Both these witnesses testify that the Indians bought and paid for meat; and both swear that they never saw any issued to them for which they did not pay—unless, as Mr. Bradford says, it was some part that was not salable. When the Indians, in a fit of anger, killed thirteen of the work-cattle at the agency, as testified by Owens, the meat was sold to them. The accounts of the agent show negatively, that neither the Indians nor the government had credit for the proceeds of such sales.

The condition of the Indians of this agency for the last few months has not been very satisfactory. It was late in the season when crops were put in last year, and what was planted, owing to bad seed and dry weather, was almost a total failure. Their funds are not sufficient to clothe and subsist them, and they have consequently suffered to some extent. They have now more corn planted than ever before, with every prospect of an abundant crop. Their summer hunt, upon which they started while I was at the agency, bids fair to be successful. They will probably return with abundance of buffalo meat about the beginning of the roasting-ear season.

This must complete my report for the present. The facts elicited as to the past conduct of affairs are isolated, and relate to matters of little importance compared with the numerous and large transactions of the Yankton agency. If the object in view by the House of Representatives, in passing the resolution under which I was sent to Dakota, is to provide any remedy or redress for these Indians, it cannot be accomplished without conferring upon a committee, or a special commissioner, full authority to make an investigation, with power to send for persons and papers. I would respectfully suggest that this be done.

Respectfully submitted.

ALEXANDER JOHNSTON,
Special United States Agent.

Hon. D. N. COOLEY,
Commissioner of Indian Affairs, Washington, D. C.

Deposition of Jacob Rufner in regard to the conduct of Indian affairs in the Dakota superintendency, taken at Bon Homme, Dakota Territory, June 21, A. D. 1866.

Jacob Rufner being duly sworn, upon his oath deposes and says:

Question. State when and in what capacity you were first employed at the Yankton agency.

Answer. I came out here with Doctor Burleigh when he first came out on the steamboat. I worked by the month on the farm.

Question. How long did you work on the farm.

Answer. I worked about two years.

Question. State particularly what work you did on the farm.

Answer. I ploughed, harrowed, worked in the mill, and did everything that was to be done on the farm.

Question. When did you commence keeping the mess-house for Dr. Burleigh?

Answer. On the 16th of May, 1864, and on the 19th of June, 1865, I quit it.

Question. What arrangement had you with Dr. Burleigh in regard to keeping it?

Answer. I boarded his men by the week.

Question. At how much per week?

Answer. I got five dollars per week for each man, and a team furnished to haul water, &c., &c.

Question. Who furnished the provisions?

Answer. I did myself.

Question. During what time did you receive pay as an employé of the agency?

Answer. I received pay until I took the mess-house, except a part of the time that I was on Dr. Burleigh's farm.

Question. During what time were you on Dr. Burleigh's farm?

Answer. I was there about five or six months.

Question. Do you know what goods were saved from the steamer J. G. Morrow?

Answer. I don't know.

Question. Were you at the steamer after she had sunk?

Answer. Yes, sir.

Question. Did you assist to save the goods and bring them to the agency?

Answer. I helped to save a few sacks of flour. I did not help to bring any.

Question. Who brought the goods to the agency?

Answer. Some Norwegians he hired to haul them through.

Question. Did all the goods saved belong to the Indians?

Answer. That is more than I am able to tell.

Question. Who was it worked for Dr. Burleigh at his farm at the same time that you did?

Answer. Alexander Keeler, Charles Bedell, Clarence Brown, Ben Catod, Alexander Renroute, Baltize Lefont, and others.

JACOB RUFNER.

Sworn and subscribed to before me the 21st June, 1866.

[SEAL.]

CHAS. F. ROSSTEUSCHER,

Notary Public.

Deposition of John Owens in regard to the conduct of Indian affairs in the Dakota superintendency, taken near Bon Homme, Dakota Territory, June 21, 1866.

John Owens, being first duly sworn, upon his oath deposes and says:

Question. State when and in what capacity you were first employed at the Yankton agency.

Answer. I was employed as teamster from the 14th of December, 1861, until the last day of October, 1862.

Question. Was there any school where Indians were taught to read and write at the agency?

Answer. Not to my knowledge.

Question. Could there have been a school without your knowing it?

Answer. There could not have been.

Question. What agreement did you have with Agent Burleigh in regard to wages, and what wages did you receive?

Answer. I was to have one dollar per day, and the privilege to send my children to school for one year.

Question. What school do you refer to?

Answer. A school taught by Dr. Barrett.

Question. When you signed vouchers for your pay, were they filled up?

Answer. They were generally in blank; sometimes filled up.

Question. Were you at the steamer J. G. Morrow after she sunk?

Answer. Yes, sir.

Question. Who saved the goods, and who hauled them to the agency?

Answer. There were different men hired, and I was one of them.

Question. What rate of freight was paid for hauling up the goods?

Answer. I don't know.

Question. Was Timothy B. Burleigh employed as a laborer during the time you were there?

Answer. Not that I know of.

Question. Who is T. B. Burleigh, and what did he do while he was at the agency?

Answer. He was said to be the son of Walter A. Burleigh, and was going to school.

Question. Was there any mill in operation at the agency during the time you were there?

Answer. There was not.

Question. Did Catherine S. Burleigh and Sally D. Faulk teach school at the agency while you were there?

Answer. Not that I know of.

Question. What number of work-cattle were there at the agency while you were there?

Answer. Between twenty and twenty-five yoke.

Question. What number of other cattle?

Answer. Not more than four or five cows.

Question. Did these belong to the Indians or other parties?

Answer. They were claimed by Dr. Burleigh and Colonel Faulk.

Question. Were there any horses at the agency when you first went there?

Answer. I think there was one pair.

Question. What became of them?

Answer. One of them Dr. Burleigh sold to a soldier; the other I don't know what became of it.

Question. What cows were brought to the agency while you were there? and where did Dr. Burleigh procure them?

Answer. There were different little herds brought in, but I don't know where he procured them.

Question. Were there any stock hogs at the agency at the time you were there?

Answer. Four or five. Dr. Burleigh made presents to some of the favorite Indians with them.

Question. How many working cattle were there when you left the agency?

Answer. About four or five yoke.

Question. Do you know anything about eighty milch cows purchased of J. W. Bosler in October, 1862?

Answer. I do not.

Question. Could that many cows have been brought to the agency without your knowing it?

Answer. I think not.

Question. How many cattle besides work-cattle were there on the reservation at any one time while you were there?

Answer. To the best of my knowledge there were not over twenty.

Question. State what you know about the Indians killing oxen in the summer of 1862.

Answer. They killed six and wounded seven more, which had to be killed the next day; the reason assigned was that they got into their fields.

Question. What disposition was made of the meat after the cattle were killed?

Answer. The meat was taken to the warehouse and sold out to the Indians.

Question. State what butchering was done at the agency, and by whom and for whose benefit.

Answer. They butchered about twice a week; it was done by John H. Burleigh, and he received the pay for the meat.

Question. Was John H. Burleigh or Agent Burleigh the party really interested?

Answer. I cannot say for certain. The money paid at the time of the sale was paid to John H. Burleigh; but what meat I received was charged to me and taken out of my pay by Agent Burleigh.

Question. Do you know of any beef being issued to the Indians while you were there for which they did not pay?

Answer. I do not.

Question. Do you know that the Indians paid for beef issued to them?

Answer. Yes, sir; I have seen them pay for it.

Question. Did you sell Agent Burleigh corn and potatoes in the spring of 1862? if so, how much of each, and at what price?

Answer. I did sell him about sixty or seventy bushels, but not more, of corn, and forty bushels of potatoes, for twenty-five cents per bushel for each. I have not a memorandum of the exact number of bushels, but I am certain there was not more than I have stated. I am also certain that the price I have stated is correct.

Question. Was the voucher for this corn and potatoes in blank, or was it filled up when you signed it?

Answer. It was in blank.

Question. State whether you ever had a claim for depredations by the Yankton Indians; and if so, how did it arise?

Answer. I had a claim. In the fall of 1862, the Yankton Indians set fire to the wood where I was living, and burned the timber and all my feed for the cattle.

Question. Who undertook to collect this claim for you?

Answer. Agent Burleigh.

Question. What arrangement did Agent Burleigh propose to make in regard to collecting said claim?

Answer. He told me that he would take it and do the best he could, and proposed that he would equally divide the amount received.

Question. How much money did Dr. Burleigh collect for you; and how much have you received?

Answer. I never received anything. I do not know if he ever collected it or not.

Question. Please examine the paper which I hand to you, which is a duplicate of voucher No. 19 in the accounts of Agent Burleigh for the third quarter 1864, and state whether it is signed by you; and, if so, under what circumstances you signed it.

Answer. It is signed by me. I signed it in blank in order to enable Agent Burleigh to collect my claim. I did not know before that the claim had ever been allowed. I never received a cent of it. I have asked Agent Burleigh, and he answered that he "never got a damned cent."

Question. State fully what you know about the management of Indian affairs at the Yankton agency during the administration of Agent Burleigh.

Answer. There were cattle, wagons, and farming implements taken from the Yankton agency and placed under my charge on Dr. Burleigh's farm at Bon Homme—two yoke of cattle, two wagons, some ploughs, chains, and yokes. I brought part of them down myself. I was then to work on Dr. Burleigh's farm. I am not acquainted with the detail of the management at the Yankton agency.

Question. State whether you was ever employed by Dr. Burleigh at his farm at Bon Homme; if so, when, and what were you employed to do?

Answer. I was employed there from the fall, 1861, till spring, 1863, to take care of his farm and stock.

Question. How many cattle were on Dr. Burleigh's farm when you first went there; and how many were there when you left?

Answer. There were no cattle there when I first went, except one yoke I

took with me from the agency. There were two hundred and forty head (more or less) on the farm when I left it.

Question. Do you remember the first cattle that were brought to the farm after you went there, how many there were of them, and from whom Dr. Burleigh purchased them?

Answer. The first cattle that were brought there after I went consisted of about forty-five head of milch cows. This was in December, 1861. Dr. Burleigh told me that he had bought them from Bosler and Hedges.

Question. Were these cattle kept at Dr. Burleigh's farm?

Answer. Yes, sir; they were kept there as long as I stayed. A few of them were sold and taken away. I bought one of them myself after I had left his employ.

Question. What other cattle were brought to Dr. Burleigh's farm while you were there, when, and by whom?

Answer. John H. Burleigh brought one hundred and eleven head to the farm in the spring of 1862.

Question. What was said by John H. Burleigh, in regard to these cattle, when he brought them there?

Answer. He said in my presence that they were bought with Indian money, and that they were Indian cattle. Afterwards Dr. Burleigh came down to the farm, and said to me, "We have a fine lot of cows here now, and we can keep them till we get a calf or two apiece from them."

Question. How long were these cattle kept on Dr. Burleigh's place?

Answer. They were there when I left the place; that is, the bigger part of them. Small lots had been driven away.

JOHN W. OWENS.

Sworn and subscribed to before me, this 21st June, 1866.

CHAS. F. ROSSTEUSCHER,

Notary Public.

Deposition of Alexis C. Guyon in regard to the conduct of Indian affairs in the Dakota superintendency, taken at Yankton agency, Dakota Territory, June 22, 1866.

Alexis C. Guyon, being first duly sworn, upon his oath deposes and says :

Question. How long have you resided at the Yankton agency?

Answer. I have made it my home since five years this spring.

Question. How were you first employed by Agent Burleigh?

Answer. As a hired hand.

Question. What wages did you receive?

Answer. Forty dollars a month.

Question. Were Clarence Brown and Alexander Keeler employed at the same time you were? if so, in what capacity?

Answer. They were employed as hired men, like I was.

Question. Was the mill in operation during the first year that Dr. Burleigh was here as agent?

Answer. I think not.

Question. Was it run before Mr. Bradford came here to fix it—that is, after Agent Burleigh came?

Answer. I don't believe it did. The mill had been built on the bank of the river by Colonel Redfield, and the bank had washed away, so that it had to be moved. It was not run after Agent Burleigh came, until it was moved and set up again by Mr. Bradford.

Question. Who was the engineer, and who was the miller, under Dr. Burleigh's administration?

Answer. The only engineer was Mr. Bradford. There was no miller there. I don't remember when the first grinding was done.

Question. Do you know Timothy B. Burleigh?

Answer. Yes; I do.

Question. How old was he when you were first employed at the agency?

Answer. He was about thirteen years old. He was a little boy, and went to Dr. Barrett's school.

Question. Did you ever see him do any work?

Answer. I did not see him do any work. I have seen him do some work two years after Dr. Burleigh came here. I saw him then with a hoe in his hand, and I saw him drive cattle for his uncle.

Question. Was there ever a school-house on this reservation?

Answer. I never knew one to be for Indians.

Question. Was there ever a school where Indians were taught anything?

Answer. I have never known of any, and I would have been very glad if there had been, so I could have sent my two daughters there, who are two half-breeds of this nation.

Question. Did you ever sell Dr. Burleigh a mule? and if so, what did you get for it?

Answer. I did. I got eighty dollars for it. Dr. Burleigh gave it to Medicine-Cow.

Question. Do you remember who hauled the goods up that were saved from the J. G. Morrow?

Answer. I think John Owens and Ben Cadott hauled some. I am sure they did.

Question. How many work-cattle did Agent Burleigh have at the agency at any one time?

Answer. I helped blacksmith Thompson shoe twenty yoke of cattle one fall. Sometimes he had sixteen yoke, sometimes twelve, and as low as eight yoke.

Question. How many milch cows did Agent Burleigh ever bring to the agency at any one time?

Answer. I believe he brought fifty at one time.

Question. What building did Agent Burleigh do while he was here?

Answer. He built a timber-shop, a barn, a block-house, a carpenter shop, and a blacksmith shop. I think the first year he built the barn and timber-shop; the second year he built the block-house, carpenter shop, and blacksmith shop, also a house for Ben Cadott.

Question. Where did Agent Burleigh get the lumber?

Answer. I suppose it was sawed at the mill. We never hauled timber from any place else.

Question. Was there ever any lumber brought here by steamboats?

Answer. No, sir.

Question. In what capacity were you employed at the latter part of his term?

Answer. For the last two years I was interpreter.

Question. How are you now employed, and for how long have you been so employed?

Answer. I have been Agent Conger's interpreter ever since he came.

Question. In what condition was the agency when Agent Conger took possession?

Answer. A very poor condition. There was nothing left but one pair of old mules, some ploughs, and one old wagon, and some other old trash.

Question. Are you acquainted with Colin Campbell? if so, state his condition.

Answer. I am acquainted with him; he is very old and childish, and not able to attend to any business.

Question. State when the bedsteads and chairs in the mess-house were brought to the agency.

Answer. I saw some of them in there when Colonel Redfield was agent. It may be they were all here at that time.

Question. Did Agent Burleigh bring any chairs and bedsteads?

Answer. I think Agent Burleigh brought two dozen wood chairs and four bedsteads.

Question. How many live hogs did you ever see on the agency?

Answer. Four sows and one boar.

A. C. GUYON.

Sworn and subscribed to before me, this 22d June, 1866.

CHAS. F. ROSSTEUCHER,

Notary Public.

Deposition of H. M. Conger, in regard to the conduct of Indians affairs in the Dakota superintendency, taken at Yankton agency, Dakota Territory, June 22, 1866.

H. M. Conger, being first duly sworn, deposes and says :

Question. How long have you been at the Yankton agency, and in what capacity?

Answer. Since the 1st of May, 1865. I am employed as head farmer.

Question. What agricultural implements did you find at the agency when you came, and in what condition were they?

Answer. I found nine small ploughs, ten breaking-ploughs, one fanning mill, one corn-sheller, one scraper, one wagon and two pairs of trucks, one ambulance, three harrows, and one or two forks, and two or three shovels at the barn, also one pair of scales, and three scoop shovels. The wagon and trucks were considerably worn, and one pair of the trucks had to be repaired before it could be used. The ploughs were in good condition, worn a little. There was one mowing machine pretty well worn.

Question. What other property was there here at the agency?

Answer. One pair of mules and harness for them, the blacksmith's and carpenter's tools, as also the tinsmith's tools; but how much there was of each I am unable to tell; eight bedsteads, three box-stoves, one cook range, seven chairs, one kitchen safe in the mess-house, and two bedsteads and two chairs in the carpenter's house; a safe, an old worn-out cook stove, and a box-stove in the agency house; a box-stove in the doctor's house, an office stove in the warehouse, and a box-stove at the tin shop.

Question. Were there any horses, saddles, or bridles?

Answer. There was none.

Question. What preparation for a crop had been made when you came?

Answer. They had commenced ploughing. I should not think that there had been more than from ten to twenty-five acres ploughed.

Question. Did you continue the ploughing, or did Agent Conger hire the ploughing done?

Answer. He hired it done.

Question. State why it was necessary to hire the ploughing done.

Answer. There were no teams on the place to do it. It was late, and necessary to have it done right away in order to raise a crop.

Question. Do you know of any milch cows on the reservation when you came?

Answer. I know of but one, which Dr. Burleigh gave to Mrs. Conger.

Question. Was there any other cattle or stock hogs?

Answer. There was one dry cow, which was killed; there were no hogs I know of.

Question. Who are the present employés of this agency?

Answer. The blacksmith, I. Ingerson; carpenter, B. E. Wood. The physician is Dr. Livingston; interpreter, Alexis C. Guyon. I am head farmer, and Franklin Bronson, Lewis Mallet, and Kettle, an Indian, laborers; Little Bull, herdsman; Bird and Mandam are policemen. Other persons are occasionally employed as laborers.

Question. Was the mill and saw-mill in running order when you came?

Answer. I believe it was not; it had to be repaired before it was started again; the roof was bad, so that the machinery had rusted.

H. M CONGER.

Sworn and subscribed to before me, this 22d June, 1866.

[SEAL.]

CHAS. F. ROSSTEUSCHER,
Notary Public.

June 23, 1866.

Deposition of Charles E. Hedges, in regard to the conduct of Indian affairs in the Dakota superintendency, taken at Yankton agency, Dakota Territory, Charles E. Hedges, being first duly sworn, upon his oath deposes and says:

Question. How long have you been at the Yankton agency, and in what capacity?

Answer. I have been on the Yankton agency since March, 1862, in the capacity of trader?

Question. By whom was the mess-house of this agency kept when you came here and afterwards?

Answer. S. B. Schroeder was in charge of it when I came here, until about July, 1863, when Foster T. Wheeler took charge of it until the summer of 1864. Jacob Rufner then took charge of it, and remained so until Agent Conger arrived.

Question. Did these parties conduct it on their account or for the agent?

Answer. Schroeder and Wheeler were hired by the month by Agent Burleigh. Jacob Rufner kept it on his own account.

Question. For how many years have you cut hay on the reservation, and about how much each year?

Answer. For three years. The first year I cut about 350 tons. The second year 200 tons. The third year about 140 tons.

Question. By what authority and under what arrangement did you cut it, and who for?

Answer. By permission of Agents Burleigh and Conger. I cut it for the use of the garrison at Fort Randall, and by paying the chiefs one dollar per ton for the grass as it stood in the prairie for the first year. The second year I cut and put up about 60 tons of hay for the use of the agency in consideration for the 200 tons cut for the military. The third year I paid a dollar per ton.

Question. Did you pay the money to the chiefs yourself?

Answer. I paid the money to Agent Burleigh, and he in my presence handed over to the chiefs and headmen.

Question. Are you acquainted with Ira Williams, Robert Kane, John Kinney, William Moore, George Yale, Abraham Shiefer, Joseph Brady, Matthew McWherry, James Clark, Dwight Wordsworth, James Dugan?

Answer. Yes, sir; I am. They were soldiers stationed here at the agency.

Question. Are you acquainted with Timothy Prindle; if so, was he a soldier?

Answer. Yes, he was a soldier in company A, Dakota cavalry.

Question. Are you acquainted with the manner in which Governor Edmunds conducts, or has conducted, Indian affairs in this superintendency?

Answer. To some extent.

Question. Did Governor Edmunds ever loan or hire to you funds belonging to any Indian tribe in this superintendency?

Answer. Yes, sir; he did. In passing through Yankton in the fall, 1864, Governor Edmunds told me that Major Hoffman had resigned his position as agent for the Ponca Indians, and that he had relieved him; that he (Governor Edmunds) had some five thousand dollars that he had received, belonging to the Poncas, and if I wanted any to use he would let me have three thousand dollars. I told him that I had an interest in the corn contract at Sioux City, and we agreed in conversation that he should have an interest in the profits, in the proportion that \$3,000 bore to the amount required to carry out the contract.

Question. Was this arrangement carried out, and how long did you have the money?

Answer. It was carried out. The money was paid back in instalments. Some of it I had as long as four months.

Question. Has Governor Edmunds ever proposed any other transactions of this nature to you?

Answer. At the time he proposed this arrangement in regard to the \$3,000, he stated that it would be necessary to procure supplies for the Poncas, and intimated in language that I plainly understood, but which I cannot now repeat, that I could have the job if I shared with him the profits.

Question. Did you or Governor Edmunds make the first advances in these matters?

Answer. He spoke of it first. I did not know he had the money until he told me.

Question. What do you know about the payment of certain depredation claims of F. D. Pease, E. W. Wall, Frederick Carman, William A. Damsy, and John W. Owens?

Answer. I do not know how they were paid, except the claim of Pease; a portion of that I paid, and Pease gave me an order on Agent Burleigh, who paid me the money for it. I was absent when the claims were paid. I was here when the accounts were made up and I filled up the vouchers.

Question. What buildings were erected at the agency by Agent Burleigh?

Answer. The blacksmith shop, the tin shop, the carpenter shop, the block-house and stockade and some buildings for individual Indians.

Question. What transactions did you have with Agent Burleigh before you became trader?

Answer. I furnished him some bacon, flour, and cattle, and done some hauling for him; I think I sold him some horses.

Question. What hauling did you do?

Answer. I think I hauled some flour and stuff; some from Sioux City and some from Vermillion.

Question. Do you know what amount of goods were saved from the steamer J. G. Morrow, and what proportion of them belonged to the Indians and what to the trader?

Answer. I could not tell. It was before I came. A portion of the goods I purchased of Colonel Faulk (about \$2,000) had been sunk on the steamer J. G. Morrow.

Question. Did you see the goods brought to this agency for the Indians last year? if so, state what was the quality of them.

Answer. I did, sir. They were of a very inferior quality; in fact, every year I have been here, except the first, the goods sent here were very inferior, and I have often been selling at retail in my store at a less price than the Indian goods were invoiced. Many of the goods also were useless, and of no service to the Indians. The blankets, particularly the colored ones, were very inferior.

Question. From your experience in purchasing Indian goods, about what was

the value of the blankets received here for the Indians as compared with first class and full weight Mackinac blankets?

Answer. I regard it, that on the three-point blankets there was a difference of about \$4 per pair. A three-point blanket should weigh 8 pounds; those received here did not exceed 6 pounds.

Question. How were the prints and other cotton goods?

Answer. Generally of an inferior quality, particularly bed-ticking, brown drilling, denims, and blue drilling.

Question. What was the quality of the shawls?

Answer. Of very coarse texture, not worth over two-thirds of the contract price.

Question. How was the hardware?

Answer. The hardware was rough and clumsy, and many things were put in that were of no value to Indians. The Indians generally expressed great dissatisfaction with the hardware.

CHARLES E. HEDGES.

Sworn and subscribed to before me, this 23d June, 1866.

[SEAL.]

CHAS. F. ROSSTEUSCHER,
Notary Public.

Deposition of Foster T. Wheeler, in regard to the management of Indian affairs in the Dakota superintendency, taken on the Yankton reservation June 24, 1866.

Foster T. Wheeler, being first duly sworn, upon his oath deposes and says:

Question. State whether you were ever employed at the Yankton agency; if so, when and in what capacity?

Answer. I was employed by Agent Burleigh about April, 1862, and continued there a little over two years. I worked at the mess-house all the time.

Question. What wages did you receive?

Answer. Twenty-five dollars per month.

Question. State for whose account the mess-house was carried on.

Answer. Mrs. Burleigh received the money for transient boarders and travellers. I do not know who received money for boarding employes. I had nothing to do with receiving money except from transient customers. When I received that I paid it over to Mrs. Burleigh. The mess-house was a stage station where passengers and teamsters stopped to get their meals. All of the employes boarded at the mess-house.

Question. Where did the provisions come from to carry on the mess-house?

Answer. Sometimes I got them from the store, and sometimes I got them from Agent Burleigh's house.

Question. Who was in charge of the mess-house when you first went there?

Answer. There did not seem to be any one in charge till about the middle of May, when S. B. Schroeder took charge of it. He remained in charge until about August, 1863, when I took charge of it.

Question. Please examine the pay-roll of employes which I hand you, which is a duplicate of voucher No. 22, in the accounts of late Agent Burleigh, for 3d quarter 1863, and state whether the figures opposite your name were there when you signed it?

Answer. I don't think those figures were there; I only received twenty-five dollars per month.

Question. Was there any school for Indians while you were there?

Answer. No, sir; there was not.

FOSTER T. WHEELER.

Sworn and subscribed to before me, this 24th June, 1866.

[SEAL.]

CHAS. F. ROSSTEUSCHER,
Notary Public.

Deposition of Ellis W. Wall, in regard to the management of Indian affairs in the Dakota superintendency, Dakota Territory, taken at Brook's place, Dakota Territory, on June 25, 1866.

Ellis W. Wall, being first duly sworn, upon his oath deposes and says :

Question. State your name and residence.

Answer. I am thirty-one years old, and reside at Mineral Spring, Dakota Territory.

Question. Did you have a claim for depredations by the Yankton Sioux Indians? if so, state what steps you took to collect it.

Answer. I had a claim for depredations against them. I have had two claims against them; the first one was presented to Agent Redfield, and by him presented to the Indian Office. He did not collect it, and when he was leaving the agency he stated to me that he had turned over the papers relating to it to Agent Burleigh. Two or three weeks afterwards I spoke to Agent Burleigh about the claim, and he told me that Redfield had said nothing to him about it, and he did not think there were any papers relating to it at the agency. About a month or so afterwards I spoke to him again, and he said he hadn't found the papers. I do not remember that I spoke to him again about it till the second claim arose, which I think was early in 1862. When I went to see him about the second claim, he said he had no time to attend to it, and told me to call again in two or three weeks. I went as requested and he put me off again. After going several times I saw him in Mr. Hedge's store and spoke to him again about it. He said he hadn't time to attend to it, and that I had better get Squire Faulk, his father-in-law, to attend to it for me, stating that he would do it for a percentage. The squire was present and said that he would attend to it. He then called me behind the counter and told me what his terms were. He said he had undertaken to collect several claims of that kind and that his terms were to do it for one-half. I then spoke about the first claim, and Doctor Burleigh said the squire would put it in with the second.

Question. What were these claims for?

Answer. The first one, amounting to about \$500, was for tearing down a house belonging to me at Crow creek, and taking off provisions, ammunition, &c. The second, amounting to something over \$1,300, was for destroying my crops, breaking open my house and taking away what things I had in it. This house was about five miles above Randall.

Question. State what amount you received for these claims and under what circumstances.

Answer. For the first one I received nothing. In regard to the second one I will state that I had purchased four yoke of cattle and a wagon from Dr. Burleigh for \$500, and given him my note for the amount. I had several times spoken to him about my claim, and he had told me that he didn't know how the squire was getting along with it, but he thought there was no chance. In September, 1864, I happened to be at the agency when Doctor Burleigh told me he was very anxious to see me, and told me to be sure and come to the office before I went away. I saw him before I left; he told me he had been on to Washington, and that there was no show for my claim. He said he wanted to help the people up here, though; that I was a poor man, and that if I would sign the vouchers he would give up my note for \$500, and stand his chances of collecting my claim. I signed the vouchers and he gave up my note. I have never heard anything further about the matter since.

Question. Were the vouchers filled up when you signed them, or were they in blank?

Answer. They were blank.

Question. Where did the oxen and wagon come from that you bought of Agent Burleigh, as stated above?

Answer. One yoke of the oxen came from his farm at Bon Homme. The other three yoke and the wagon came from the Yankton Indian agency. They were cattle that I had seen about the Yankton agency at different times when I happened to be there. I got them at the agency myself.

E. W. WALL.

CHAS. F. ROSSTEUSCHER.

Notary Public.

Deposition of Siver Halverson Myhren, in regard to the management of Indian affairs in the Dakota superintendency, Dakota Territory, taken in Clay county, Dakota Territory, on June 28, 1866.

Siver Halverson Myhren, being first duly sworn, upon his oath deposes and says:

Question. State your age and residence, and how long you have resided here.

Answer. I am 51 years old, and reside in Clay county, Dakota Territory, for the last seven years.

Question. State whether you helped to save, and hauled to the Yankton agency, Indian goods which were saved from the J. G. Morrow.

Answer. I helped a few days to save goods from the steamer J. G. Morrow, and hauled 3,500 pounds of them to the agency.

Question. Who employed you to haul the goods, and who paid you?

Answer. I was employed by John H. Burleigh, and paid by the agent at the Yankton agency.

Question. At what rate per 100 pounds were you paid?

Answer. At the rate of 75 cents per 100 pounds.

Question. Who else hauled goods to the agency from the steamer J. G. Morrow?

Answer. Eling Oleson, Louis Anderson, Louis Larson, Halver Erikson, Henry Louison, Ole Oleson; there were a good many more who hauled off the goods, but they have left this part of the country.

Question. Did Charles E. Hedges haul any of the goods that were saved?

Answer. Not that I know of; I was not acquainted with him at that time.

SIVER HALVERSON ^{his} + MYHREN.

CHAS. F. ROSSTEUSCHER,

Notary Public.

Deposition of Louis Larson, in regard to the management of Indian affairs in the Dakota superintendency, Dakota Territory, taken in Clay county, Dakota Territory, on June 28, 1866.

Louis Larson, being first duly sworn, upon his oath deposes and says:

Question. Where do you reside, and how long have you lived here?

Answer. I reside in Clay county, Dakota Territory, and have lived here for the last six years.

Question. State whether or not you hauled any Indian goods to the Yankton agency which had been taken from the steamer J. G. Morrow after she sunk.

Answer. Yes; I did haul two loads.

Question. By whom were you employed to do the hauling, who paid you, and at what rate per 100 pounds were you paid?

Answer. I heard there was some hauling to be done, so I took my team and went to the place where the goods were landed. Mr. Meyers, who seemed to be superintending the matter, gave me a load which I took to the agency. Agent Burleigh afterwards employed me to take another load. I was paid by Agent Burleigh at the rate of 75 cents per 100 pounds.

Question. Who else hauled loads of these goods at the same time you did?

Answer. Eling Oleson, Siver Halverson's son, Ole Oleson, Halver Livenson, Louis Anderson, a boy by the name of Stephens, Henry Louison, Bucklin Wood, William Benedick, Erick Oleson.

Question. Were they paid at the same rate as you was?

Answer. All but Henry Louison; he may have been, but I don't know; I know all the rest received the same, because Agent Burleigh could not make the change, and we all went together to Charles Booge's store and Dr. Burleigh there paid the money for all of us to Mr. Benedick, and he afterwards distributed the money among us.

Question. Did Charles E. Hedges have anything to do with employing and paying you for hauling these goods?

Answer. He did not.

LOUIS LARSON.

Sworn and subscribed to before me this 28th June, 1866,
[NOTARIAL SEAL.]

CHAS. F. ROSSTEUSCHER,

Notary Public.

Deposition of D. P. Bradford in regard to the management of Indian affairs in the Dakota superintendency, Dakota Territory, taken at Green Point, Union county, Dakota Territory, June 29, 1866.

D. P. Bradford, being first duly sworn, upon his oath deposes and says:

Question. State whether you was ever employed at the Yankton Indian agency; if so, when and how long?

Answer. I was employed for three seasons, 1862, 1863, and 1864, as engineer.

Question. Was the mill at the agency in running order when you first went there?

Answer. No, sir; I think the season before I went the mill had been taken down to save it from falling into the river.

Question. Were you employed by the month or quarter, or did you saw at so much per thousand feet?

Answer. I was employed by the month the first season, and I sawed at so much per thousand feet for the following seasons.

Question. How much lumber did you saw each season?

Answer. The first season I sawed very little; the second season I do not remember how much I sawed. The last season I sawed forty-nine thousand feet.

Question. Did you saw as much as 150,000 feet the second season?

Answer. My impression is I did not. Logs were not furnished me as agreed, so I had to discharge my hands in July.

Question. Who furnished the logs in 1863?

Answer. George A. Fisher.

Question. Where were they cut?

Answer. On the reservation both above and below the agency.

Question. What disposition was made of the lumber sawed by you?

Answer. The first year it was used for fencing, &c. The second year it was principally used on the agency. There may have been a little left. The third year Mr. Hedges took away 1,500 or 2,000 feet, and Agent Burleigh some 4,000 feet. He took it to Bon Homme, where he was building.

Question. State what you know about the tinner at the agency making tinware for the trader.

Answer. I know that the trader had a good deal tinware at his store which was made by the tinner of the agency. I recollect sitting there one day when Hedges and I think the tinner carried a large lot of tinware, camp kettles, &c., from the shop to the store. Agent Burleigh was there, and said to Hedges that he had sold him the articles too cheap, or words to that effect.

Question. What do you know about beef being slaughtered at the agency and sold?

Answer. I know that a man by the name of Schroeder used to slaughter and sell beef there. I used to buy beef from him. When I moved to the agency I took with me a fat cow; Burleigh told me he wanted to get her for to kill. I told him I did not want to sell her; he said he would trade me another cow for her. I then told him I would do so. The cow was killed by Schroeder and the beef was sold as usual.

Question. Did you ever see the Indians buying beef from Schroeder?

Answer. Yes, I did.

Question. How often was there beef killed at the agency.

Answer. About once a week.

Question. Did you ever see any beef being issued to the Indians without being paid for?

Answer. I don't think I did, unless it was the shanks and necks, and such parts as were not salable. When they killed hogs they used to give the Indians the offal.

Question. Do you know of Agent Burleigh ever using any property belonging to the agency on his farm at Bon Homme?

Answer. He used wagons and teams there belonging to the agency, and took lumber from the agency.

Question. Do you know of John Thompson and James Mechling working for Agent Burleigh on his farm at Bon Homme; if so, when and how long?

Answer. They worked there in 1864 for some time. Thompson worked there at least a month, and Mechling a good deal longer.

Question. How could you distinguish the property belonging to the agency from the property belonging to Burleigh?

Answer. I could not distinguish them. I frequently bought flour and meat of Burleigh at the agency. I sometimes had as high as seven hands, and have quite a family. But don't know who it belonged to.

Question. Do you know of John Thompson doing work for outside parties and getting paid for it?

Answer. I know of his doing a good deal of work for parties other than the Indians and those connected with the agency, and I think he took pay for it; at least I have frequently heard him say how much he had made during the day for doing outside work, and have heard him dun parties for pay for work he had done.

Question. Are you acquainted with Timothy B. Burleigh. If so, state whether he was employed as a laborer at the agency?

Answer. I am. He is a son of Agent Burleigh. He did not work as others did about the agency. He was going to school a part of the time, and was hunting and trapping a good deal. He may have done some work and attended to some little chores such as a boy would.

Question. Was there any school for the Indians while you were there?

Answer. There was a school there for white children, but not for Indians.

Question. Were there any Indian apprentices in any of the shops while you were there?

Answer. There was one Indian called Tshatka who worked for about one month in the blacksmith shop. There were no other apprentices.

D. P. BRADFORD.

Sworn and subscribed to before me this 29th June, 1866.

CHAS. F. ROSSTEUSCHER,

[NOTARIAL SEAL.]

Notary Public.

We, the undersigned, chiefs and headmen of the Yankton Sioux tribe of Indians, hereby acknowledge to have received from W. A. Burleigh, our agent, all of the goods and property herein mentioned, the same having been actually delivered by our said agent, viz :

1 pair of bay horses, seven years old; 1 set double harness; 1 dozen seventeen-inch mill files; 4 C. S. spades; 1 ox yoke and bows; 6 pair ox bows; 1 keg fence nails; 2 C. S. hoes; 1 gross half-inch screws; 2 fourteen inch ploughs; 2 twenty-inch breaking ploughs, extra shears; 4 ten-inch corn ploughs; 2 ox wagons; 10,000 pounds bacon; 460 sacks flour; 460 pounds coffee; 1,440 pounds sugar; 2 yoke six-years-old oxen; 2 yoke six-years-old oxen; 45,000 feet saw logs; 1 set augers; 1 set auger bitts, complete; 1 set socket firmer chisels; 1 spoke auger; 6 kegs ten-penny nails; 6 kegs twenty-penny nails; 3 kegs forty-penny nails; 2 dozen traps; 1 $\frac{3}{4}$ dozen traps; 300 feet chain; 1 (only) riveting hammer; 6 dozen powders; 1 pound fluid extract valerian; $\frac{1}{4}$ pound tartar emetic; 2 drachms sulphate morphine; 6 pounds compound sirup squills; 4 dozen mustang liniment; 4 dozen Thompson's eye-water; 6 dozen Ayre's pills; 10 pounds sal epsom; 5 pounds paregoric, and bottle; 1 ounce quinine; 1 dozen Bron's ginger; 1 pound blister plaster; $\frac{1}{4}$ pound oil caraway, and bottle; $\frac{1}{4}$ pound cassia, and bottle; $\frac{1}{4}$ pound anise, and bottle; $\frac{1}{2}$ pound ipecac; 1 pound Dover's powder, and bottle; can, 1 gallon, 95 per cent. alcohol; 2 pounds sulphate zinc, and bottle; 2 sugar lead; 1 pound fluid extract colchicum root; 1 pound iodide potash; 3 bottles rose-water; 6 drachms crystal strychnine; 5 boxes 8 by 10 glass; 2 boxes 10 by 12 glass; box putty; 1 (only) tooth-key; 2 (only) stump forceps; 2 boxes, 4 dozen, small, pain-killer; 1 dozen soda powders; 2 dozen castor oil; 2 boxes; can, 1 gallon, turpentine; 491 pounds Rio coffee; 1,520 pounds No. 1 sugar; 4 coils rope; 4 boxes sperm candles; 1,050 sacks flour; 7 bars 1 $\frac{1}{2}$ by $\frac{1}{2}$ Tennessee iron, 158 pounds; 4 bars 1 $\frac{3}{4}$ by $\frac{1}{2}$ Tennessee iron, 187 pounds; 4 bars 2 by $\frac{1}{2}$ Tennessee iron, 165 pounds; 2 bars $\frac{3}{4}$ square Tennessee iron, 197 pounds; 4 bars 1 by $\frac{3}{8}$ Tennessee iron, 400 pounds; 4 bars $\frac{1}{2}$ round Tennessee iron; 2 bars $\frac{1}{2}$ square Tennessee iron, 655 pounds; 2 bars $\frac{1}{4}$ square Tennessee iron, 209 pounds; 2 Noand nail-rods, 100 pounds; 1 gross tinned ears, each 1-2-3-4; $\frac{1}{2}$ gross black ears, each 6-7; 2 $\frac{1}{2}$ pounds bar copper; 200 common bucket handles; 30 pounds bar tin; 6 mallets assorted; 6 dozen bucket covers, each 1-2-12 quarts; 2 dozen lamp bottoms; 2 dozen pie plates; 1 setting hammer; 1 $\frac{1}{2}$ feet wire cloth; 1 wire gauge; 4 solid pincers; 1 lantern chisel; 1 cooper's chisel; 1 round head slate; 3 $\frac{3}{4}$ pounds soldering copper; 15 sacks salt; 100 boxes pilot bread, 10,000 pounds; 30 bags patent shot; 19 bags $\frac{1}{2}$ -ounce balls; 1 bag 1-ounce balls; 1 cook stove; 63 sacks flour; 1,890 pounds bacon; $\frac{1}{2}$ thousand 6434-8 $\frac{1}{2}$ official envelopes; 1 thousand double thick white letter envelopes; 1 ream P and P legal cap; $\frac{1}{2}$ ream first-class long cap; 1 ream quarto post; 1 ream P and P first-class note; 2 balls linen twine; 1 seal; 1 penknife; 1 ruling pen; 1 gross pens; 1 dozen lead pencils; 1 cash box; 4 bottles (quart) Arnold's fluid; 4 bottles (8-ounce) mucilage; 2 bottles (2-ounce) carmine; 1

pound wax; 1 memorandum book; 1 hand-clip; 1 portable inkstand; $\frac{1}{2}$ dozen boxes seals; 2 seals, louder; 1 R. M. vouchers; 1 portfolio.

YANKTON AGENCY, *September 30, 1863.*
H. Ex. Doc. 147—3

REFORM OF THE SYSTEM OF COINAGE, WEIGHTS AND
MEASURES.

M E S S A G E

FROM THE

PRESIDENT OF THE UNITED STATES,

IN ANSWER TO

*A resolution of the House of the 16th instant, relative to a reform of the system
of coinage, weights, and measures.*

JULY 19, 1866.—Referred to the Committee on Coinage, Weights, and Measures, and or-
dered to be printed.

To the House of Representatives :

In answer to a resolution of the House of Representatives of yesterday, re-
questing information relative to proposed international movements in connexion
with the Paris Universal Exposition, for the reform of systems of coinage,
weights, and measures, I transmit a report from the Secretary of State and the
documents by which it was accompanied.

ANDREW JOHNSON.

WASHINGTON, *July 17, 1866.*

DEPARTMENT OF STATE,

Washington, July 17, 1866.

The Secretary of State, to whom has been referred a resolution of the House
of Representatives of yesterday, calling for any information from the United
States commissioner general to the Paris Exposition in relation to international
movements for the reform of the system of coinage, weights, and measures, has
the honor to lay before the President a copy of a communication of the 29th ul-
timo from the said commissioner general.

Respectfully submitted:

WILLIAM H. SEWARD.

The PRESIDENT.

PARIS, *June 29, 1866.*

SIR: I had the honor to address you on the 14th December last in relation
to the scientific commission formed by the French government and charged with
various labors. The commission was directed in particular to promote interna-
tional co-operation in the propagation of the use of new and important discov-
eries, and for the adoption of a uniform system of weights, measures, and coins.

I beg now to advise you of steps which have since been taken.

At the instance of the imperial commission, meetings have been held com-
posed of members of the scientific commission, the imperial commission, and the

foreign commissioners, for the purpose of consultation regarding proper measures to be adopted in connexion with the exhibition of 1867, for drawing public attention to the subject of uniformity in weights, measures, and coins.

The following suggestions were made by the English scientific association and approved by the meetings :

1st. To form a collection of the weights, measures, and coins of all nations, to be exhibited in the palace of the Universal Exposition of 1867.

2d. To organize an international committee charged especially with the formation and exhibition of this collection of weights, measures, and coins, and to devise the most efficacious methods of promoting uniformity.

3d. In accordance with these views the imperial commission appointed the space requisite for the exhibition of weights and coins in the exhibition parlor, and formed a special committee connected with their scientific commission, which special committee is the commencement of the international committee alluded to to be charged with this subject.

I annex hereto three documents, numbered 1, 2, and 3.

No. 1 contains a brief report of the preliminary meetings before mentioned.

No. 2 contains the approval of the proceedings of the minister of state, and a decree constituting a special committee, giving the names and professions of the persons appointed, which committee forms the nucleus of the international committee on weights, coins, &c., to be constituted.

No. 3 is a letter from this special committee asking my adhesion to the project in principle, and desiring me to take the further necessary proceedings.

It will be observed that article five of the decree provides that additional members may be added to the international committee by the foreign commissioners of those nations who take part in the exhibition of weights, measures, and coins.

At the particular request of the imperial commission I now present the subject for the consideration of the government of the United States, and respectfully solicit their co-operation in the formation of the collection of national weights, measures, and coins to be exhibited, and in appointing or authorizing the appointment of commissioners to be added to the international committee above named, and charged with the particular business herein described.

I have read with great pleasure the recent proceedings in the House of Representatives relating to the introduction of the metrical decimal system into the United States, and I observe that those proceedings provide for a commission to be charged with the subject of a common unit of coin.

If the general purposes and method of proceeding herein reported receive the approval of the government, I would venture to suggest that the commissioner to be appointed under the congressional authority alluded to be directed to prepare the proposed exhibition of weights, measures, and coins, and that he be nominated to the aforesaid international committee.

This arrangement will place the commissioner at once in direct relation with professional and learned persons occupied with coinage and analogous subjects, and best qualified to co-operate with him in the accomplishment of his particular object.

The committee is now organized according to the usual forms on this side, to give additional weight to its proceedings, and it is probable that its numbers and nationalities will be increased to an extent that will comprise much ability and appropriate knowledge, and produce an influence favorable to the objects of its labor.

I have the honor to be, with great respect, your obedient servant,

N. M. BECKWITH,

United States Commissioner General.

Hon. WILLIAM H. SEWARD,

Secretary of State.

No. 1.

[Translation.]

PARIS UNIVERSAL EXHIBITION FOR 1867.

Preparatory conference relative to the establishment of an international system of measures, weights, and coins, held at the Palace of Industry, in Paris.

FIRST SESSION, *Wednesday, May 2, 1866.*

Session opened at two o'clock.

Present: Messrs. Arles, Dufour, Beckwith, Van den Broeck, de Chancourtois, Michel Chevalier, Choiecki, Cumenge, Donnat, Ducuing, du Prè, de la Gueronniere, Max Gunther, de Haxthausen, Hüffer, Captain Krak, Marquis de Laborde, Le Play, Baron de Lesseps, Herve-Mangon, Roth, de Scholton, de Thal, Thomsen.

Mr. Le Play opened the conference by stating the object of the meeting as expressed in the notice. During the exhibition of 1855 a special committee, of which many persons present were members, considered the means of simplifying the operations of international commerce by the adoption of a common system of weights and measures. The conference caused the formation of societies for that especial purpose, in many countries, particularly in England. Many of these societies have expressed a desire to revive the question at the universal exhibition of 1867, and Mr. Leone Levi, secretary of the London Decimal Society, accredited by a letter from the president of the society, has informed Mr. Play that he would come to Paris to report various communications on the subject.

The conference met, but, by some mistake, Mr. Leone Levi did not come, and Mr. Le Play proposed to discuss the four following questions:

1st. Shall we resume the consideration of the subject of 1855 at the universal exhibition of 1867?

2d. What would be the best way to treat it?

3d. Would it be well to have a special exhibition of weights, measures, and coins?

4th. Would it be well to consider the scales of measures and the figured customs used in the arts and sciences, aside from the weights and measures properly so called?

After a few remarks by Marquis de Laborde, Choiecki, Baron de Lesseps, and Ducuing, the first question was decided in the affirmative.

After some observations on the second question by Messrs. Arles, Dufour, Max Gunther, and de Haxthausen, it was resolved to appoint a small committee, representing the principal nationalities, and members present were invited to designate persons willing to serve.

Mr. Le Play thought the imperial committee would willingly grant its protection to an independent committee.

The proposal for a special exhibition of measures, weights, and coins was approved. The costs of the exhibition should be paid by the nations taking part in it.

Marquis de Laborde and Michel Chevalier insisted that the exhibition should embrace the metrical system used in distant Asia.

The question of the extension of the exhibition beyond measures, weights, and coins was reserved.

Mr. Chancourtois agreed to receive the communications of members of the conference upon the formation of the committee, and to call a meeting, when a conclusive organization could be discussed.

The session adjourned at three o'clock.

SECOND SESSION, *Monday, May 14, 1866.*

Session opened at four o'clock.

Present: Messrs. Baudrillart, Ed. Becquerel, Beckwith, Calon, Cumenge, Donnat, Ducuing, José de Echeverria, de la Gueronniere, Herve-Mangon, Hüffer, Gunlogsen, Max Gunther, de Haxthausen, Le Play, Leone Levi, Marquis de Laborde, Mathieu, and Peligot.

The minutes of the meeting on the 2d of May were read and adopted.

Mr. Le Play, commissary general of the exhibition, introduced Mr. Leone Levi, professor of King's College, as a delegate of the metrical committee of the British Association for the Advancement of Science, and the International Association for obtaining a uniform decimal system of measures, weights, and coins. Mr. Leone Levi then read the following note:

"Universal exhibitions have shown that much remains to be done to facilitate international communications, and among the chief wants is a common system of measures, weights, and coins.

"This want was greatly felt at the international exhibition of 1851, and on its close the London Society for the Encouragement of Art, Industry, and Commerce informed the government that it would be well to examine with neighboring nations to see if measures could not be taken to hasten the adoption of a uniform system for the entire world.

"At the universal exhibition of Paris in 1855, the juries and committees of the different countries, to the number of two hundred, signed a declaration that one of the best ways to promote industry would be to adopt a universal system of weights and measures.

"At the London exhibition of 1862, a like report was made by the juries of different kinds, particularly that of chemistry.

"Other international and scientific assemblies, recently held, have expressed the same opinions. The International Statistical Congress, at Brussels in 1853, Paris in 1855, Vienna in 1859, and Berlin in 1863, found great difficulty in reconciling the differences of unity, giving the statistical facts of different countries. Different societies, such as the British Association for the Advancement of Science, and the Academy of St. Petersburg, have expressed their opinions upon the advantages to science of uniformity in scientific communications. And finally, after the Paris exhibition, a special international association was founded to obtain the adoption of a decimal system of measures, weights, and coins. Certain legislative measures of considerable importance have been taken for the same purpose.

"A committee was formed in 1862, in the House of Commons, to consider the practicability of a simple and uniform system of weights and measures, to be applied to foreign commerce as well as to domestic trade, and upon its report the legislature declared the metrical system to be a law. The adoption of decimal coins has also been considered by the legislature, and the discussion of the subject has progressed.

"The German states have also found the necessity of unity in their weights and measures, and after two official conferences at Frankfort, in 1862 and 1865, they concluded in favor of the metrical system. Many other states, such as Spain, Portugal, and Italy, have taken similar steps, and by a treaty relative to coins, recently concluded between France, Belgium, Switzerland, and Italy, those states have formed a monetary union. The United States have lately undertaken the same subject. An inquiry has been instituted, and a bill has been introduced into Congress for the adoption of the metrical system. Yet there remains much to be done to complete the work, for there is not only a difference in the national systems of measures, weights, and coins, but there are local and customary measures that embarrass trade and complicate international reckonings. The great difficulty is in a practical application; and the best way to overcome this is to exhibit the measures, weights, and coins in use in different countries

at the Universal Exhibition of 1867, and to settle it when the committees having the consideration of the subject meet in Paris. This is suggested as the best plan.

"For these reasons, the International Association to obtain a uniform decimal system of measures, weights, and coins, and the metrical committee of the British Association for the Advancement of Science have instructed me to agree with the commissary general upon the means of realizing an exhibition, under the auspices of the committee of the universal exhibition for 1867, comprising the following articles :

"1. A collection of weights and measures, their multiples and sub-multiples, and every legal weight and measure used for any purpose.

"2. Two collections to show both sides of all the current coins of last government issue, with specifications of pure metals in them of gold, silver, or copper, and their size, weight, &c.

"3. All official documents on the subject, and particularly every report of legislative committees in regard to a change in the weights, measures, or coins of the countries.

"The two associations desire, moreover, that an international conference be formed for the exhibition of 1867, composed of competent persons in a scientific, industrial, and commercial point of view, to study the objects and documents exhibited, so as to adopt as soon as possible a uniform decimal system for every country. These conferences might also consider analogous questions of a more scientific nature, and of interest to the progress of civilization."

Mr. Leone Levi added that the association to obtain a uniform system of weights and measures, instituted after the London exhibition of 1855, had decided, after much inquiry, to encourage the use of the metrical system, because it was founded on nature, and was the most scientific and generally known.

Mr. Mathieu stated that the Bureau of Longitudes, to which he belonged, had printed the bill in English, with the translation and the comparative table of weights and measures. If the decimo-metrical system of weights and measures were adopted as an international system, the trouble among the scientific men of all countries about the unities of different nations and provinces, in commercial relations, would be avoided. The bill mentioned by Mr. Mathieu, as introduced into the House of Commons, is a happy step towards the desired result.

Mr. Le Play says the most important step now, and Mr. Leone Levi agrees with him, is to arrange an international exhibition of measures, weights, and coins, and he hopes to have the assent of the imperial committee for it.

The collections of the different countries would be kept separate, but arranged systematically, so as to facilitate their comparison. Each nation would contribute its quota of the expenses for the arrangement.

In order to lose no time, a small committee would be appointed by the president of the imperial commission, with Mr. Leone Levi as one of them, who agrees to send many important collections, in the name of the association of which he is a delegate.

That committee, enlarged by the addition of foreign members presented by the committees of the different countries, would arrange the measures, weights, and coins, with their explanatory documents, and call a grand conference for the exhibition, the object of which would be to assist the English society in its extension of the metrical system.

Marquis de Laborde desired the committee to take up first the notice to accompany the exhibition of the objects, and arrange its elements in the most proper manner.

The proposal for the formation of a committee was adopted by the conference.

On motion of Mr. Roth, it was agreed that copies of the minutes should be furnished the members who wish to obtain from different governments a material participation in the proposed exhibition, the nomination of foreign mem-

bers to the committee on the nomination of delegates to take part in the general conference.

Adjourned at quarter past five.

The above minutes were approved by the members of the committee appointed by the minister of state, vice-president of the imperial commission, dated 7th of June, 1860.

No. 2.

PARIS UNIVERSAL EXHIBITION FOR 1867.

IMPERIAL COMMISSION.

Second decree appointing members of the scientific committee.—Minister of State, Vice-President of the Imperial Commission.

Whereas article 63 of the general regulations was discussed by the imperial commission on the 7th of July, 1865, and approved by imperial decree the 12th of July 1865 ;

Whereas the decree of the 20th of September, 1865, instituted the scientific commission, and the order to spread useful discoveries, and to induce reforms of international interest, such as the adoption of the same weights and measures and of common scientific unities ;

Whereas propositions were made by the two English scientific societies : 1st, for the plan of an international exhibition of measures, weights and coins ; 2d, for a conference in 1867 to adopt and spread one uniform system of measures ;

Whereas the above proposals were accepted by the free conference of the 2d and 14th of May, 1866, which met to devise means to resume the labors of the special commission of the Universal Exhibition of 1855 ;

Therefore, be it resolved :

ARTICLE 1. That a special locality be reserved in the entry of the Palace in the Champ-de-Mars for an international exhibition of measures, weights, and coins of all countries.

ARTICLE 2. That a special committee on measures, weights and coins be appointed by the scientific commission to attend to the arrangement of that exhibition.

ARTICLE 3. That the committee be requested to investigate the most efficacious means to profit by the exhibition of 1867, to adopt and spread a uniform system of measures, weights, and coins.

For this purpose, it will confer with those who took part in the conferences of 1855 and 1866, and with the notables of all countries, whose advice may seem desirable.

ARTICLE 4. The members of this committee are as follows : Messrs. Baudrillart, member of the Institute and professor in the College of France ; Edmond Becquerel, member of the Institute and professor in the imperial conservatory of arts and trades ; Leone Levi, professor of commercial law in King's College, London, doctor of political economy and delegate of the two scientific societies above mentioned ; Mathieu, member of the Institute and of

the Bureau of Longitudes ; Peligot, member of the Institute, professor in the imperial Conservatory of arts and trades, and assayer in the mint.

ARTICLE 5. Persons recommended by foreign state committees, who will contribute to the special exhibition of measures, weights, and coins, may be hereafter appointed members of this committee.

ARTICLE 6. The counsellor of state, commissary general, is charged with the execution of the present decree.

Done at Paris, June 7, 1866.

E. ROUHER,

Minister of State and Vice-President of the Imperial Commission.

Certified by F. LE PLAY,

State Counsellor and Commissary General.

No. 3.

PARIS UNIVERSAL EXHIBITION OF 1867.

IMPERIAL COMMISSION,

Paris, June 19, 1866.

A decree of his excellency the minister of state, vice-president of the imperial commission, has appointed a committee to arrange an exhibition of measures, weights, and coins, of all countries, for the Universal Exposition of 1867.

Honored as members of that committee, our first duty is to address the committees of different nations, asking them to request their governments to send collections for the special exhibition. We also request the different commissions to designate persons, in accordance with the 5th article, to represent each country in the central committee.

We have the honor to enclose the text of the decree forming the committee, together with the minutes of the preliminary conference, initiating and explaining the measures adopted.

We hope the commission of the United States of America will accept the request we make through you, to favor a work of such general interest ; and we beg you to send our president the name of the person selected by the commission as a member of the committee at the same time you forward the agreement of the United States to the special exhibition of measures, weights, and coins.

Communications for the president must be directed to the care of the counsellor of state, commissary general for the Universal Exhibition of 1867, at Paris.

Accept the assurance of our high consideration.

L. MATHIEU.

EUG. PELIGOT.

E. BECQUEREL.

And per pro. for LEONE LEVI.

H. BAUDRILLARD.

Mr. BECKWITH,

Commissary General of the United States

Of America for the World's Fair for 1867

DORENCE ATWATER.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of Representatives, of the 11th instant, calling for the papers in the case of Dorence Atwater, late private in the general service United States army.

JULY 16, 1866.—Referred to a Select Committee and ordered to be printed.

WAR DEPARTMENT,
Washington City, July 16, 1866.

SIR: In compliance with the resolution of the House of Representatives of the 11th instant, calling for certain papers in the case of Dorence Atwater, late a private in the general service United States army, I have the honor to transmit herewith copies of the papers called for.

Very respectfully, your obedient servant,

EDWIN M. STANTON,
Secretary of War.

HON. SCHUYLER COLFAX,
Speaker of the House of Representatives.

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,
Washington, July 13, 1866.

SIR: In compliance with your instructions, I have the honor to submit herewith copies of the following papers called for by a resolution of the House of Representatives, dated July 11, 1866:

1. Record of trial by court-martial in case of Dorence Atwater, late private in the general service United States army.

2. Report of Judge Advocate General, dated September 27, 1865, stating: "The proceedings were regular and the findings of the court justified by the evidence; it is recommended that the sentence be carried into effect."

3. General Court-Martial Orders No. 536, dated September 22, 1865, promulgating proceedings and sentence in the case.

4. General Court-Martial Orders No. 650, dated December 16, 1865, directing, by order of the Secretary of War, the discharge of Dorence Atwater from imprisonment.

5. Letter of Hon. Robert S. Hale, member of Congress, dated April 20, 1866, asking attention of the President to the memorial of Dorence Atwater, and that the conviction and sentence in his case be annulled.

6. Memorial of Atwater to the House of Representatives, accompanying letter of Hon. Mr. Hale.

7. Copy of reference by the President to the chief of Bureau of Military Justice for report.

8. Report of the Judge Advocate General, dated May 10, 1866, suggesting that a pardon may be issued to Atwater, "setting forth the grounds upon which it is granted, to wit, "the insufficiency of the testimony on which" his conviction rested."

9. Report, dated May 24, 1866, made under your instructions by the Adjutant General, in Atwater's case.

10. Copy of reference from the President to the Secretary of War "for his final action in the case, the President declining to take any action."

I have the honor to be, sir, very respectfully, your obedient servant,

E. D. TOWNSEND,

Assistant Adjutant General.

Hon. E. M. STANTON,

Secretary of War.

UNITED STATES	}	Official copy of the trial of Dorence Atwater, general service United States army.
<i>vs.</i>		
DORENCE ATWATER.		

J. HOLT,

Judge Advocate General.

Proceedings of a general court-martial convened at Washington, District of Columbia, by virtue of the following special orders.

[Special Orders No. 174.]

[Extract.]

HEADQUARTERS DEPARTMENT OF WASHINGTON,

Washington, D. C., July 19, 1865.

12. A general court-martial is hereby appointed to meet in this city on Thursday, July 25, 1865, or as soon thereafter as practicable, for the trial of such prisoners as may be brought before it.

DETAIL FOR THE COURT.

Lieutenant Colonel Jeffrey Skinner, 2d Connecticut heavy artillery.

Captain Orlando T. Bliss, 2d New York heavy artillery.

Captain Henry S. McKinney, 2d Connecticut heavy artillery.

Captain H. E. Richmond, 4th New York heavy artillery.

Captain Chas. R. Bannon, 1st Connecticut heavy artillery.

First Lieutenant Thomas Barber, 15th New York heavy artillery.

First Lieutenant Joseph Talcott, 1st Connecticut heavy artillery.

First Lieutenant M. R. Blodgett, 4th New York heavy artillery, judge advocate.

No other officers than those named can be assembled without manifest injury to the service.

By command of Major General Augur.

R. CHANDLER,

Assistant Adjutant General.

[Special Orders No. 181.]

[Extract.]

HEADQUARTERS DEPARTMENT OF WASHINGTON,
Washington, D. C., July 27, 1865.

5. First Lieutenant Thomas Barber, 15th New York heavy artillery, is hereby relieved from duty as a member of the general court-martial appointed by Special Orders No. 174, current series, from these headquarters, and will rejoin his regiment without delay.

By command of Major General Augur.

R. CHANDLER,
Assistant Adjutant General.

[Special Orders No. 205.]

[Extract.]

HEADQUARTERS DEPARTMENT OF WASHINGTON,
Washington, D. C., August 23, 1865.

6. The following named officers are hereby relieved from duty on the general court-martial appointed by Special Orders No. 174, from these headquarters, dated July 19, 1865, and will proceed to New Haven, Connecticut, and report to the chief mustering officer for final payment and discharge. The quartermaster's department will furnish the necessary transportation:

Lieutenant Colonel Jeffrey Skinner, 2d Connecticut artillery.

Captain Henry S. McKinney, 2d Connecticut artillery.

By command of Major General Augur.

R. CHANDLER,
Assistant Adjutant General.

[Special Orders No. 205.]

[Extract.]

HEADQUARTERS DEPARTMENT OF WASHINGTON,
Washington, D. C., August 23, 1865.

8. The following named officers are hereby detailed as members of the general court-martial appointed by Special Orders No. 174, from these headquarters, and will report for duty without delay:

Brevet Lieutenant Colonel S. B. Lamreaux, 2d New York heavy artillery.

Second Lieutenant Joseph Buckle, 2d New York heavy artillery.

By command of Major General Augur.

R. CHANDLER,
Assistant Adjutant General.

[Special Orders No. 209.]

[Extract.]

HEADQUARTERS DEPARTMENT OF WASHINGTON,
Washington, D. C., August 27, 1865.

2. Captain B. A. Ball, 3d Massachusetts heavy artillery, is hereby detailed as a member of the general court-martial appointed by Special Orders No. 174, from these headquarters, dated July 19, 1865.

By command of Major General Augur.

R. CHANDLER,
Assistant Adjutant General.

WASHINGTON, D. C., *September 2, 1865*—9 o'clock a. m.

The court met pursuant to the foregoing orders and adjournment.

Present, all the members of the court and the judge advocate.

The court proceeded to the trial of Private Dorence Atwater, general service United States army, who was called before the court; and, having heard the orders appointing the court read, was asked if he had any objection to any member named in the orders, and replied in the negative.

The members of the court were then duly sworn by the judge advocate, and the judge advocate was duly sworn by the presiding officer of the court, respectively, in the presence of the accused.

The accused applied to the court to be permitted to introduce H. H. Mason, esq., as his counsel, which application was granted, and he appeared as counsel for the accused.

The accused, Private Dorence Atwater, general service United States army, was arraigned on the following charges and specifications:

CHARGE 1.—Conduct to the prejudice of good order and military discipline.

Specification.—In this: that Private Dorence Atwater, general service United States army, did unlawfully and without authority seize and take from the tent or quarters of Captain James M. Moore, assistant quartermaster United States army, certain property of the United States, then and there in the proper charge and custody of the said Captain J. M. Moore, to wit, a certain document consisting of a list, written upon about twenty-four sheets of paper, of federal prisoners of war who had died at Andersonville, Georgia; the same having been prepared by said Atwater while a prisoner at said Andersonville, and sold and disposed of by him to the United States for the sum and price of three hundred dollars, and did appropriate and retain the said property to his own use. This at Andersonville, Georgia, on or about the 16th day of August, 1865.

CHARGE 2.—Larceny.

Specification.—In this: that Private Dorence Atwater, general service United States army, did unlawfully and feloniously take and steal from Captain James M. Moore, assistant quartermaster United States army, certain personal property of the United States, being then and in the proper charge and custody of him, the said Captain J. M. Moore, and of the value of three hundred dollars, to wit, a certain written document consisting of a list, written upon about twenty-four sheets of paper, of federal prisoners of war who had died at Andersonville, Georgia; which said list had been prepared by said Atwater while a prisoner at said Andersonville, Georgia, and sold and disposed of by him to the United States for the sum and price of three hundred dollars, and did appropriate and retain the said property to his own use. This at or near Andersonville, Georgia, on or near the 16th day of August, 1865.

To which charges and specifications the accused, Private Dorence Atwater, general service United States army, pleaded as follows:

To the specification of first charge, not guilty.

To the first charge, not guilty.

To the specification of second charge, not guilty.

To the second charge, not guilty.

John C. Clare, a witness for the prosecution, being duly sworn, testified as follows:

By the judge advocate:

Question. What is your name, age, residence, and occupation?

Answer. John C. Clare; twenty-two years old; my residence is at 91 Bridge street, Georgetown; I am a clerk in Captain Moore's office.

Question. Do you know the accused?

Answer. I do.

Question. How long have you known him ?

Answer. I have known him since the 8th day of July.

Question. Where were you on or about the 16th day of August last ?

Answer. At Andersonville, Georgia.

Question. Was the accused there ?

Answer. He was there.

Question. What were your duties there ?

Answer. My duty was to furnish the letterers with names for the head-boards, and do such other work as Captain Moore might direct.

Question. What were the duties of the prisoner there ?

Answer. Well, he had no particular duties to perform.

Question. With whom did he go—by whose direction ?

Answer. I understood he was sent down there by order of the Secretary of War.

Question. Was there a lady there by the name of Miss Barton ?

Answer. Yes, sir ; Miss Clara Barton.

Question. What was she doing there ?

Answer. She went along by order of the Secretary of War, I understood. She was there to correct her list of missing soldiers.

Question. Was the prisoner assisting her in her labors there ?

Answer. He was.

Question. Did the prisoner have free access to the quarters of Captain Moore, and also to your quarters ?

Answer. Yes, sir ; he had.

Question. Did he have in his possession at different times the list of men that had died at Andersonville ?

Answer. Yes, sir.

Question. Was it customary for him to go into the quarters and take out papers without the leave of any of the clerks ?

Answer. Yes ; he has done so frequently.

Question. When did you see this roll last ?

Answer. About the 12th or 14th of August.

Question. How long was that before you came away ?

Answer. That was two or three days before we started back to Washington.

Question. Where was it then ?

Answer. I could not tell whether all the lists were in the captain's tent or not, as Atwater was in the habit of coming in and taking such as he wanted ; but they were either in Captain Moore's tent or in my tent. The lists were turned over to Captain Moore every night for safe-keeping.

Question. Have you seen them since ?

Answer. I have not.

Question. Have you ever had any conversation with the prisoner in relation to them since ?

Answer. I have not.

Question. When you speak of these lists, what lists do you refer to ?

Answer. The original list captured by General Wilson, and the copy taken by Mr. Atwater while in prison there.

Question. Did these lists that you refer to ever remain in Mr. Atwater's tent over night ?

Answer. To the best of my knowledge part of them did ; but all of them did not.

Question. Did this list that you refer to—the original list that Mr. Atwater made—ever remain in your tent over night ?

Answer. To the best of my knowledge, part of the original list that he took did remain at times.

Question. This list that you speak of—was it the list that Captain Moore got of the War Department?

Answer. Captain Moore got both lists at the War Department.

Question. What do you mean by both lists?

Answer. There were two copies of the lists.

Question. You mean they were in duplicate?

Answer. Yes, sir.

Question. Did the captain get both copies at the War Department?

Answer. He got both there—yes, sir.

By the accused :

Question. This duplicate that you speak of—was that a duplicate copy of the roll Mr. Atwater made while at Andersonville?

Answer. The original, and one Mr. Atwater made while in prison there—two records in all. There was a copy of Mr. Atwater's roll, and both were there.

By the judge advocate :

Question. Did you say that while Mr. Atwater was a prisoner at Andersonville he duplicated a list of prisoners that had died there, which list General Wilson captured?

Answer. There was a list kept of all the prisoners that died there, and Mr. Atwater made a copy of it and took it to Washington. General Wilson captured the original records at the prison.

By the court :

Question. Was this original record that was captured by General Wilson one that was kept for the benefit of the rebel authorities there at the time?

Answer. Yes, sir.

George Henry, a witness for the prosecution, being duly sworn, testified as follows :

By the judge advocate :

Question. What is your name, residence, and occupation?

Answer. George Henry; citizen. I am a clerk in the War Department, Adjutant General's office, under Colonel Breck.

Question. Do you know the accused?

Answer. Yes, sir.

Question. State to the court what you know in relation to the accused taking from the possession of Captain Moore a record, consisting of the names of Union prisoners that had died at Andersonville, Georgia.

Answer. On the 25th or 26th of August Colonel Breck sent for me. Mr. Atwater was present with him. The colonel wished to have Mr. Atwater's property searched, to see if the papers that had been turned over by me to Captain Moore, consisting of records of dead Union soldiers that had died at Andersonville, Georgia, could be found. I went with the officer and sentry who had charge of the accused to Captain Moore. Captain Moore was in his office when we went there. I asked Captain Moore if he had any further information about the rolls than what he had given to Colonel Breck. He said no; that the rolls were missing, and it was supposed Atwater had taken them. I asked Atwater what he had done with the rolls, and he said he wished it to be distinctly understood that he wanted Captain Moore to be relieved from all responsibility for the loss of the rolls. I asked him what he had done with the rolls? He said the law allowed a man to take his own property wherever he could find it. We then proceeded to his room at the United States hotel, on Pennsylvania avenue, for the purpose of searching his baggage in order to find the rolls. When we entered the room Mr. Atwater said, "Gentlemen, you may search the place, but you won't find the rolls." I then asked him what he had done with them? He said, "Oh, they were safe." I asked him again what he had

done with the rolls, and he replied they were all safe. The baggage was searched, but we did not find the rolls, and then we turned him over to confinement.

Question. Did you turn these rolls over to Captain Moore?

Answer. Yes, sir, and he took his receipt for them, on July 8, 1865.

Question. Were they a part of the records of the Adjutant General's office?

Answer. The rolls were in my possession from about the 21st of April till the 8th of July, when I turned them over to Captain Moore. They were a part of the records of the War Department, and belonged to the Adjutant General's office.

Question. Do you know of your own knowledge how the War Department came in possession of these rolls?

Answer. Not of my own knowledge. They came to me by Mr. Hess, chief clerk under Colonel Breck, as being part of the records of the department, for which I understood three hundred dollars and a clerkship had been paid by the department.

By the accused:

Question. Do you refer to the original rolls made by Mr. Atwater?

Answer. I refer to copies that were furnished by Mr. Atwater. He swears, in an affidavit that he made, that they were copies or exact transcripts of the original rolls that he kept at Andersonville of dead Union soldiers—prisoners of war.

Question. What are the missing rolls from the department?

Answer. They are copies which the accused sold to the department. They are the ones which I turned over to Captain Moore, and which Captain Moore has lost.

By the judge advocate:

Question. Has the department ever had but one copy of these rolls?

Answer. We had the original books from Andersonville. They were in my possession until day before yesterday, when I turned them over to the commissary general of prisoners, by order of Colonel Breck.

Question. Did you receive these books after or before you received these rolls from the accused?

Answer. Long after, sir.

By the accused:

Question. When you asked the accused these questions in regard to these rolls, was he under arrest?

Answer. He was in charge of the officer that Colonel Breck had sent with him.

By the judge advocate:

Question. Were there any threats or force used towards the accused by any one?

Answer. No, sir; everything was friendly, just as we are now, and no harsh words were spoken to him by any one.

Question. You say in regard to these rolls that Captain Moore has lost them; do you mean only that he has failed to return them?

Answer. Yes, sir; that he has failed to return them.

Lieutenant Colonel Samuel Breck, assistant adjutant general U. S. army, a witness for the prosecution, being duly sworn, testified as follows:

By the judge advocate:

Question. What is your name, rank, and official position?

Answer. My name is Samuel Breck. I am a major and brevet lieutenant colonel and assistant adjutant general of the army.

Question. Do you know the accused?

Answer. Yes, sir.

Question. Please state to the court the conversation, or the substance of the

conversation, that occurred between yourself and the accused in relation to a certain list which the War Department bought of the accused for the sum of three hundred dollars.

Answer. We received information at the department that a soldier named Atwater had made a list of the men who had died at Andersonville, containing some ten or twelve thousand names. We received an order from the Secretary of War, ordering three hundred dollars to be paid to the man if we could get him. We telegraphed around until we succeeded in getting him to the department with his lists. When I saw him there, I told him that the Secretary had ordered him to be paid this sum of money for his lists, and I thought he would be willing to give them up. He said he thought it was worth quite a large sum more than the Secretary had ordered to be given him. He also wished to retain copies of the lists, or to have a copy of them. We had considerable conversation about the matter. Atwater seemed to be unwilling to part with his lists for so small a sum, and wanted copies of the lists. He also wanted to be a clerk in the department. I told him that that was information the department was entitled to, and could take from him. He then seemed willing to part with it. I said that I had no objections to his having copies; that I would prefer he should make copies himself before he gave up the lists. Then he wanted to be absent two or three months, I think, to go home on furlough, before he should be enlisted. Before he had gone I got a letter from him, in which he pressed for copies. I answered telling him that the clerks had no time to make out copies. From several things and from his original conversation, I began to think that he had some money-making scheme in it, and presented the matter to the Adjutant General, who instructed me not to let him have copies of the lists. I then informed him, by letter, or in some other way, that he could not have copies of the lists. I might say, also, that he was enlisted as a clerk in the office, and had been there for some little time before he went down with the party to Andersonville to put up head-boards for the prisoners who had died there.

Question. At the first conversation that you had with the accused, did he deliver to you these lists?

Answer. He did not deliver them to me; the clerk, Mr. Hess, took them, but I would not be positive as to that.

Question. Did you give the order for him to receive the three hundred dollars?

Answer. I got the account approved by the Adjutant General, on the order of the Secretary of War for him to be paid three hundred dollars.

Question. In that conversation that you had with the accused, was it understood by you that the accused should receive back the original rolls that he turned over to you, and that you should keep a copy, for which you were to pay him three hundred dollars?

Answer. I have no recollection of any such proposition—not the most remote.

By the accused:

Question. Did you ever tell the accused that after the rolls were copied he could have the original rolls that he disposed of to the department?

Answer. I had not the slightest idea of such an intention, and don't think I could have told him so.

Question. Did you ever have any correspondence with him on the subject?

Answer. Just what I have stated. I recollect one letter and one telegram, and he has been to see me several times about it.

Question. Have you at any time told the accused that if he would refund the three hundred dollars, he would have the original rolls back again?

(Question objected to by the judge advocate, and objection sustained.)

By the court:

Question. Were these rolls a part of the records of the Adjutant General's office?

Answer. Yes, they were.

Question. Was it necessary for these rolls to be there?

Answer. I will not say it was indispensable, because we had taken from the rolls the data necessary for the transaction of business, and it was not indispensable that the rolls should be there.

By the accused :

Question. When did you last see the accused previous to his arrest? When was he arrested?

Answer. I had him arrested on the spot. I think it was a week ago last Friday.

Question. A short time before his arrest, what conversation did you have with him?

Answer. He came to me and reported as having returned from the expedition to Andersonville. Captain Moore had reported to me that the lists were lost, and it was supposed that Atwater had taken them. I asked the accused what had been done with them, and he intimated that he had them, but would not give them up. I told him that it was a disagreeable business to me; that I wished he would give back the three hundred dollars, and he could keep the rolls; that it was a very dirty business, and I was very much disgusted with what he had done, and sorry that I ever had anything to do with him. In saying he might have the rolls by giving back the three hundred dollars I perhaps promised more than I could do, without the consent of the Secretary; I would say, further, that the Adjutant General made this same remark to me.

Question. He appeared to be under the impression that he was entitled to a copy of these rolls?

Answer. Yes, he seemed to have it impressed on his mind that he was entitled to a copy of the lists.

Question. Do you recollect the purport of those letters or communications that passed between you and the accused?

Answer. The first letter and telegram merely asked, I think, if the rolls had been completed. I think that one was a kind of a threatening letter—threatening some dim shadowy vengeance from him if he did not get the rolls.

Question. To the best of your recollection, was there anything in your letters to Atwater to induce him to think that after the original rolls were copied he should have the original rolls back?

Answer. Not to my recollection.

Question. Have these rolls that Atwater brought to the department ever been copied? Have you a copy in the Adjutant General's office now, or under the control of the department?

Answer. Not except in the way I have mentioned to the court, in taking sufficient data from them for the transaction of business. So far as I know, nobody has made a copy of them; they had no time.

The counsel for the accused here stated to the court that he had just taken hold of the case, without sufficient time for the preparation of a defence, and, in justice to the prisoner, he would respectfully ask a postponement of the further prosecution of the case. The request was granted and the court then adjourned, to meet again on Monday, the 4th instant, at 9 o'clock a. m.

SECOND DAY.

WASHINGTON, D. C., *September 4, 1865*—9 a. m.

The court met pursuant to adjournment.

Present, the same members as on the 2d instant, the judge advocate, and the accused and his counsel.

The court then resumed the trial of Dorence Atwater, general service United States army.

Captain James M. Moore, a witness for the prosecution, being duly sworn, testified as follows :

By the judge advocate :

Question. What is your name, rank, and official position ?

Answer. James M. Moore, captain and assistant quartermaster United States army.

Question. Do you know the accused ?

Answer. Yes, sir.

Question. Where were you on or about the 16th day of August last ?

Answer. At Andersonville, Georgia.

Question. Was the accused with you there ?

Answer. Yes, sir.

Question. You will state to the court what your duties were there, and what were the duties of the prisoner, and your associates.

Answer. On or about the 30th of June I received orders from the Quartermaster General, detailing me to proceed to Andersonville, Georgia, with a number of mechanics. Also to take care of Miss Barton, who accompanied me as a guest, and to notify Mr. Atwater, a clerk at the War Department, who was formerly a prisoner at Andersonville, to accompany me. We proceeded to Andersonville ; arrived there on the 25th of July, and commenced marking the headboards. Before leaving Washington I received the register of deceased soldiers, captured by general Wilson, also a register received from Colonel Breck, said to have been copied by Mr. Atwater. These registers were carefully boxed up and taken to Andersonville. While there Mr. Atwater had the use of the registers, for the purpose of comparing the rolls of Miss Barton, of missing men, to ascertain if any of them were interred there. In the evening the rolls, with the exception of those Mr Atwater had, were placed in my tent. While absent at Macon a part of the record was taken out of my tent, and a part from the record in my clerk's tent. On my return to Washington, on inquiring about the records, I found they were missing—my clerk stating they had been placed in my tent, and supposing Mr. Atwater had taken them. Mr. Atwater was sent for, and admitted taking the rolls, saying that a man could take his property wherever he might find it. I had given an official receipt for the roll, and was held by the War Department directly responsible for it.

Question. Which of these rolls did the accused have, and what part of them ?

Answer. Mr. Atwater had the rolls he had copied, and also the record of deaths captured by General Wilson. Mr. Atwater had the privilege of examining all the rolls we had.

Question. When did this conversation that you had with the accused, in which he admitted taking the rolls, take place ?

Answer. In my office, on the morning of the 25th of August, after we got back.

Question. Were you present ?

Answer. Yes, sir.

Question. Did the accused have free access to your papers—that is, that portion of these rolls—while you were at Andersonville ?

Answer. Yes, sir ; we permitted him to use the rolls whenever he saw fit.

Question by the accused :

Question. Which rolls are they that are missing ?

Answer. The copy made by Mr. Atwater.

Question. When did you first miss these rolls ?

Answer. I first missed these rolls, sir, on my return.

Question. Where were these records kept at night when you were at Andersonville, Georgia?

Answer. These records were kept, as a general thing, in my tent, although at times I have no doubt Mr. Atwater had part of them, as he had them frequently during the day.

Question. Do you know of his having any part of these rolls in his own tent over night?

Answer. I have no doubt that at times he had part of the rolls there; every confidence was placed in Mr. Atwater, as if he had been one of my own clerks.

Question. Do you know, of your own knowledge, that he took these rolls from your tent?

Answer. No; I do not know that I do.

Question. The only knowledge you have of his having them is from his own admission?

Answer. And from the fact that no one else would have cared anything about them.

Question. Do you know whether there is a copy of Mr. Atwater's roll or not?

Answer. No, sir; I do not.

Question. Did the accused accompany you by order of the Secretary of War?

Answer. Mr. Atwater accompanied me by order of the Secretary of war.

By the judge advocate:

Question. You speak of a copy which you got from the War Department; was that a copy, or the original roll made by the accused while at Andersonville?

Answer. The roll taken by the accused was copied from the original rolls captured by General Wilson at Andersonville.

By the accused:

Question. How many names were on the original rolls?

Answer. I do not know, sir.

By the court:

Question. Was the roll taken by you to Andersonville the roll made by the prisoner at Andersonville?

Answer. Yes, sir; the same roll. The original copy captured by General Wilson and that copied by the prisoner were at the War Department, and I receipted for the roll that Mr. Atwater made to a clerk of Colonel Breck's.

Question. Have you returned to the War Department, or have you in your possession now, the rolls captured by General Wilson?

Answer. I have a part of them, and part of them were turned over to an officer of General Wilson's staff for the purpose of bringing it on to Washington to be used at the trial of Captain Wirz.

By the judge advocate:

Question. When the accused acknowledged taking the rolls, what reason did he give, if any?

Answer. He stated that he had a right to take his property wherever he could find it.

Question. He carried the idea that they were his property?

Answer. Yes, sir.

By the accused:

Question. How do you know that no one but Mr. Atwater cared anything about them?

Answer. From the fact that he admitted to one of my clerks that he would make considerable money out of the rolls.

John Potts, a witness for the prosecution, being duly sworn, testified as follows :

By the judge advocate :

Question. What is your name, residence, and occupation ?

Answer. John Potts, chief clerk of the War Department; I reside in Washington.

Question. Do you know the accused ?

Answer. I do not.

Question. Did you ever see him before ?

Answer. I do not remember seeing him.

Question. Do the records of your office show that you have at any time paid to one Dorence Atwater three hundred dollars for a record of Union prisoners at Andersonville, Georgia, who had died there ?

Answer. They do. I have a voucher for that amount paid to Dorence Atwater, and purporting to be for that object.

Question. Was the money so paid ?

Answer. Yes, sir.

By the accused :

Question. Did you take a receipt for the money ?

Answer. I did ; at least it was done in my office.

Question. Have you the receipt with you now ?

Answer. I have.

Question. Will you please produce it ?

Answer. There is the retained voucher ; the original voucher has gone to the treasury.

Question. Will you please read the receipt ?

Answer. For furnishing extracts of certain data relative to the deaths of United States soldiers who have died in rebel prisons and hospitals while prisoners of war, taken from the regular official records of the prisons and hospitals where they died.

Question. Have you ever seen this record ?

Answer. No, I have not. This voucher merely came to me in the course of business, and I directed it to be paid.

The judge advocate here announced the prosecution closed.

George Henry, recalled on the part of the defence, testified as follows :

By the accused :

Question. What room have you charge of in the War Department ?

Answer. Death and disability records.

Question. Have you ever seen these missing rolls of the Andersonville prisoners ?

Answer. Yes, sir.

Question. When did you first see them ?

Answer. I think about the 21st of April.

Question. Who gave these rolls to you, or first sent them to you ?

Answer. Mr. Hess, chief clerk of Colonel Breck's office.

Question. What did he tell you to do with them ?

Answer. He turned them over to me from Colonel Breck, with instructions to write for the dead papers.

Question. When and under what circumstances did these rolls leave your possession ?

Answer. They were turned over by me to Captain Moore, on the 8th day of July, by order of Colonel Breck, and I took Captain Moore's receipt for them.

Question. Was there ever a copy taken of these rolls while in your possession ?

Answer. No, sir, not that I am aware of; I should have known it if there was.

Question. Was the accused a clerk in your room?

Answer. Yes; he was in a room under my charge.

Question. Was he ever called down stairs, on any occasion, to show any clerk about the abbreviations of diseases that were on the rolls.

Answer. I do not know that he was ever called down stairs. I know that after I had received the rolls I went after Mr. Atwater in order that some corrections might be made on the rolls as to the year. Mr. Atwater came down to the office and inserted the year, and also gave me a full explanation of the abbreviations of the diseases by which the men had died.

Question. Do you know whether any one ever had possession of these rolls before they were given over to Captain Moore?

Answer. No; except that they were distributed around the room to write for the dead papers.

Question. Are you sure that when they were so distributed there was no copy made of them?

Answer. It would have been an impossibility for copies to have been made without my knowledge.

Question. Did you ever have any conversation with the accused in regard to these rolls?

Answer. I do not know that I ever had any particular conversation with him. I went after Mr. Atwater to have the year corrected on the rolls, and there was perhaps some conversation as to the disposition of the rolls. While he was inserting the dates and writing out full explanations of the abbreviations of diseases, he stated to me that he could have disposed of the rolls for a large amount in confederate money, but he had sold them to the War Department as being the proper place. I asked him what he got for the rolls, and he said three hundred dollars and a clerkship. When Mr. Atwater came to work, I think the first or second day, I brought him up stairs and introduced him to Mr. Brinsmade, who had charge of the room in which Colonel Breck had assigned Mr. Atwater to duty. I told Mr. Brinsmade that he was going to be in his room, and for Mr. Brinsmade to set him to work at such work as he thought proper.

By judge advocate :

Question. Do you have control, or are you chief clerk of that room?

Answer. Yes; inspector and chief clerk in charge of that department of Colonel Breck's bureau.

Question. Do you set all the men at work and know what work they are on?

Answer. Not all the work. I tell the chief clerks of the rooms to set the men at such work as they think proper.

Question. Would it have been possible for any clerk to have made a record or copy of these rolls and you not know it?

Answer. I do not think it would, sir.

Question. If there was a copy so made, it has never been turned in as part of the records of the office?

Answer. No, sir; not to me. I have never known of it. There never was a copy made, but we have made circulars from the rolls, which we sent to the company commanders for the dead papers. From these a memorandum is made, to show that we had written for the papers. These memoranda are now on file in the rooms in which they were made.

Witness here desired to say : I think it was the first day that Mr. Atwater came to the office, when I had come down stairs after introducing Mr. Atwater to Mr. Brinsmade, one of them, I do not know whether it was Mr. Atwater or Mr. Brinsmade, came down and said that he wanted to copy rolls. Afterwards I think Mr. Atwater, himself, came down and said he wanted to copy rolls. I asked him "what rolls?" He said death and disability rolls. I told him that I had no instructions from Colonel Breck to have any rolls copied, and that he

must do such work as he was assigned to. We then went over to Colonel Breck, and I asked the colonel if it was intended that he should make copies of the rolls. The colonel turned to Mr. Atwater and asked him what he wanted copies of the rolls for. I then said to the colonel, "if Mr. Atwater is going to work for us, he must do just such work as he is put at, and not such as he wants to do." The colonel gave me orders not to let him have a copy; and after the question came up again he gave me positive instructions not to let him touch or handle the rolls; to let no one make a copy of them. I then kept the rolls carefully locked up in my desk until I put them up to turn them over to Captain Moore. Mr. Atwater was present and helped me to put them up.

By the accused:

Question. In this conversation that you have just referred to, do you recollect that Mr. Atwater asked Colonel Breck if he could make a copy of these rolls at night and bring them back in the morning?

Answer. I think something was said about making a copy at night, but I do not recollect what it was.

Question. Did you at this time tell Colonel Breck that if Mr. Atwater worked at night he would not be good for anything in the morning?

Answer. I do not recollect positively. There was something said about night when I closed the conversation with Colonel Breck.

Question. You do not recollect that the accused asked Colonel Breck to let him take the rolls home to copy?

Answer. I do not recollect.

John Hess, a witness for the defence, being duly sworn, testified as follows:

By the accused:

Question. Will you state your name, residence, and occupation?

Answer. John Hess; I am a clerk in the Adjutant General's office; my residence is 708 Fourth street east.

Question. In whose room are you in the Adjutant General's office?

Answer. In Colonel Breck's room.

Question. Did you ever see the accused before?

Answer. I have seen him in Colonel Breck's room.

Question. When did you first see him there?

Answer. Some time in the latter part of April.

Question. When you saw him there at the time you speak of, or at any other time, did you hear any conversation between the accused and Colonel Breck in regard to any Andersonville rolls?

Answer. I did not hear any regular conversation. I heard some fragments of conversation while I was in the office and passing out of it; but I did not take part in it, and could not state it, positively.

Question. Did you hear any agreement between Colonel Breck and the accused in regard to those Andersonville rolls?

Answer. I might have heard it, but I do not remember.

James Brinsmade, a witness for the defence, being duly sworn, testified as follows:

By the accused:

Question. Please state your name, occupation, and residence.

Answer. James Brinsmade; clerk in the Adjutant General's office; I reside in Washington.

Question. Do you know the accused?

Answer. Yes, sir.

Question. Has he ever been a clerk in the War Department?

Answer. Yes; he was a clerk in the room under my charge.

Question. Did you ever have in your room any list of Andersonville prisoners?

Answer. Yes, sir.

Question. Do you know how that list was obtained?

Answer. No, sir.

Question. Were these rolls ever in your charge?

Answer. I had a part of them in my room to notify the commanding officers of the death of the men.

Question. Did you have charge of the records of Ohio soldiers?

Answer. Ohio and Indiana soldiers.

Question. Were any of these rolls copied while in your charge?

Answer. No, sir; no copies were made. We wrote communications to commanding officers notifying them of the death of the men. These were on separate pieces of paper, and afterwards they were copied upon a list, which is still on file.

Question. Have you any record or any memorandum of these rolls in your room?

Answer. I have a list of Ohio soldiers, taken from the record. In the case of Indiana soldiers we made casualty sheets, and filed them. They are now on file.

Question. From this list that you have of Ohio and Indiana soldiers, have you a full record of the men that died from Ohio and Indiana?

Answer. We have, with the exception of the number of the graves.

Question. Did you ever have any conversation with Atwater in regard to these rolls?

Answer. I think I have.

Question. State what it was, and on what occasion.

(Objected to by the judge advocate, and withdrawn.)

Question. Did you ever see any correspondence pass between Colonel Breck and the accused in regard to these rolls?

Answer. Yes, sir.

Question. Do you recollect the purport of that correspondence?

(Objected to by the judge advocate, and objection sustained.)

By the judge advocate :

Question. You speak of memoranda being taken from these rolls; what were these memoranda for?

Answer. We wrote to the commanding officers notifying them that the men had died. These circulars were copied upon lists which are on file. These lists were referred to for evidence of death, when there is no other evidence of death on file.

By the accused :

Question. Have you that memorandum yet in your office?

Answer. Yes, sir.

Other witnesses for the defence being absent, the case was postponed till tomorrow, the 5th instant, at 9 a. m.

THIRD DAY.

WASHINGTON, D. C., *September 5, 1865*—9 a. m.

The court met pursuant to adjournment.

Present, the same members as on yesterday, the judge advocate, and the accused and his counsel.

The court resumed the trial of Dorence Atwater, general service United States army.

George Henry recalled for the defence.

By the accused :

Question. Has, at any time, any clerk from the Surgeon General's office made a copy of these rolls of Andersonville prisoners obtained from the accused?

Answer. Yes, sir. About two months ago, a clerk from the Surgeon General's office was sent over to me by Colonel Breck, with directions to let him copy records of United States soldiers that had died in rebel prisons during the war.

Question. Yesterday, when you said that no copy had been made, you meant that no copy had been made by clerks under your charge?

Answer. Yes, sir.

By the judge advocate :

Question. In relation to this clerk from the Surgeon General's office, did he report to you to take copies expressly of the prisoners of Andersonville?

Answer. No, sir ; of prisoners of all rebel prisons.

Question. Then he copied from all your records of all prisoners that had died in all the rebel prisons?

Answer. He copied from all the records we had of prisoners that had died in all the rebel prisons at Richmond, Belle Isle, Savannah, Andersonville, Salisbury, Cahaba, and all we had received records from.

Question. For what purpose was that record taken, and for whose benefit?

Answer. For the benefit of the Surgeon General, to complete his dead record, as stated to me by Colonel Breck.

Question. And taken by a clerk sent from the Surgeon General's office?

Answer. Yes, sir.

G. B. Merrick, a witness for the defence, being duly sworn, testified as follows :

By the accused :

Question. State your name, occupation, and residence.

Answer. G. B. Merrick ; clerk in the death and disability record room, Adjutant General's office, in Clark's building, G street. My residence is 42 First street, Georgetown.

Question. The rolls of what States do you have charge of in your room?

Answer. The six New England States.

Question. Have you ever seen, in your duties as clerk there, these rolls which the accused brought from Andersonville, of the prisoners who had died there?

Answer. I have.

Question. Have you ever made any memorandum from those rolls?

Answer. Not directly. We filled circulars for each of the names, and from these circulars we made lists which, in fact, was a duplicate of the names belonging to the States of which I had charge.

Question. These names were taken from those rolls which the accused brought from Andersonville?

Answer. Yes, sir.

Question. Are these duplicates now in your office?

Answer. Yes, sir.

Question. Do you know whether it was the custom in all the rooms to make the same memoranda from these circulars?

Answer. It was, sir.

Question. From these extracts that you made from these rolls, did you get at the names, date of death, and diseases the men died of?

Answer. In nearly all cases—very few exceptions. The exceptions were where the dates were not given.

Question. Are you acquainted with the manner in which these duplicates have been retained in other rooms?

Answer. No, sir.

Question. You do not know, then, whether or not in all the rooms where these duplicates were made they carried out the disease, number of the name, and date of death?

Answer. I have never known how they conducted it in other rooms besides my own.

By the judge advocate :

Question. What was the object of these duplicates or memoranda being retained?

Answer. That each clerk in each room might have the names belonging to each State consolidated for ready reference.

Question. Then these duplicates were kept for the benefit of each room separately, so that when they sent notifications to commanding officers for the dead papers, they could have a voucher to show what work they had done?

Answer. That was partly the idea, and so that when the names came in we could check them off from each State.

Question. How were these memoranda kept, in pencil or in ink?

Answer. In ink.

Question. Were any ever kept in pencil?

Answer. Not that I know of.

Question. Do you know positively?

Answer. I do not. I know, so far as my room was concerned, they were not.

Question. Did each clerk who had made these records, or had written for dead papers in these circulars, retain his own memoranda?

Answer. He did.

Question. They were considered part of the papers belonging to his separate desk, or bureau?

Answer. Yes, sir.

By the accused :

Question. Has it been the custom to make these memoranda in ink in the department.

Answer. Yes, sir.

Question. You say that these memoranda are still on file in the rooms?

Answer. They are on file in my room—those that were made there are.

Question. And from these memoranda, a complete list, so far as your room is concerned, could be made of those men who have died at Andersonville?

Answer. Yes, sir.

Question. Are these memoranda considered a part of the files or records of the office.

Answer. They are considered official as records.

Question. Would any clerk be at liberty to remove them from the office, or dispose of them.

Answer. No, sir.

By the judge advocate :

Question. Have they ever been made into a complete roll?

Answer. No, sir.

Question. What do you mean when you say they are a part of the records of the office. Were they filed in that room where the original rolls were kept and considered part of the records of the Adjutant General's office.

Answer. They were made as a memorandum and kept there for reference.

Question. Are these memoranda filed away in the room that is kept expressly for the records of the War Department, and where the original rolls, purchased from the accused, were kept?

Answer. They were not.

By the accused :

Question. After the present use for these memoranda had passed away, what did you do with them?

Answer. That is more than I know at present.

Question. Are they in the habit of destroying memoranda?

Answer. No, sir.

Question. Are they in the habit of filing them away and keeping them.

Answer. Yes, sir.

Question. From what you know of the department, what would be done with them?

Answer. I do not know anything about it. I never had a similar case. I do not know whether they keep them or not.

Question. And yet you say they are a part of the records of the office?

Answer. They are considered official.

Question. Do you know that these rolls were purchased by the War Department?

Answer. I do not.

Question. Do you know anything about these rolls—the right to copy them?

Answer. I do not.

Sebastian Balway, a witness for the defence, being duly sworn, testified as follows :

By the accused :

Question. Please state your full name, residence, and occupation.

Answer. Sebastian Balway; clerk in the death and disability room, Adjutant General's office; I live in Washington.

Question. In whose bureau are you in the War Department?

Answer. Colonel Samuel Breck's.

Question. In what division are you?

Answer. Death and disability.

Question. What district or States have you charge of?

Answer. The District of Columbia, New Jersey, the Territories, Minnesota, Maryland, Virginia, and others.

Question. Have you ever seen a record of prisoners who have died at Andersonville?

Answer. I have, a portion of them.

Question. What portion?

Answer. The portion which was assigned to my room. This portion was from all the States.

Question. Did you make any record or memoranda from these rolls?

Answer. We wrote circulars to company commanders, to inform them of the death of the men, and from these circulars we made a memorandum.

Question. Have you these memoranda yet in your office?

Answer. Yes, sir.

Question. Are they to be kept in the office?

Answer. Yes, sir, that is the intention.

Question. Do you know whether the rule that applies to your room applies in all the rooms in that department?

Answer. It does to all the rooms in the death and disability department.

Question. Then these memoranda which you made from these circulars are a part of the records of the office?

Answer. They are on file in the office.

Question. Are they considered part of the records of the office?

Answer. Yes, sir.

By the judge advocate:

Question. Of what room are they considered part of the records?

Answer. Death and disability room.

Question. Are they considered anything more than a record of work done in that room, and for that purpose alone?

Answer. There have been inquiries made from the Second Auditor's in rela-

tion to deaths, and from these memoranda we have answered, when no other records were on file.

Question. Who has charge of the records of the death and disability bureau?

Answer. George Henry.

Question. Are these memoranda which you made considered a part of the records of the death and disability bureau?

Answer. I consider that they are.

Question. Where are these records kept?

Answer. They are kept in the different rooms of that department.

Question. Were these memoranda that you made under charge of Mr. Henry?

Answer. Yes, sir. Mr. Henry gave us instructions to make them.

Question. Were not these memoranda taken for the sole and only purpose of keeping a record of work that you had done, so that you would not send for the same dead papers twice?

Answer. They were used so that we would know what papers we had sent away, and also as evidence of death when no other records were on file.

Question. Have these ever been made into complete rolls?

Answer. No, sir.

Question. Were they kept in the same room where the original rolls of the Andersonville prisoners were kept, and where the records proper of the bureau were kept?

Answer. No sir, they were not. My portion of the memoranda was kept in my room.

Question. Then could they be properly considered part of the records of that bureau?

Answer. The memoranda were made there and left in my charge in my room.

Question. Was the original roll the real record, or was this memorandum the real record?

Answer. The original roll was the real record.

Question. And the only real record?

Answer. Yes, sir.

Question. You are not in the habit of keeping two records?

Answer. No, sir.

By the accused:

Question. Did Mr. Henry distribute these rolls for the purpose of having these memoranda taken?

Answer. The memorandum was not taken from these rolls; it was taken from the circulars made from the rolls.

Question. So far as these memoranda go in your department, could a complete record of the names of those men that died in Andersonville be made?

Answer. Yes, sir.

Question. They are still kept in your office?

Answer. Yes, they are still on file there.

Other clerks of the Adjutant General's office having been subpoenaed on the part of the defence, but not being present, the judge advocate stated to the court that the prosecution would admit that other clerks in charge of the different rooms of the death and disability bureau, Adjutant General's office, would swear to the same facts in regard to their rooms as sworn to by the two previous witnesses.

J. J. Woodward, assistant surgeon United States army, a witness for the defence, being duly sworn, testified as follows:

By the accused:

Question. Please state your name, residence, and present occupation.

Answer. J. J. Woodward, Washington, D. C. Rank, brevet major and assistant surgeon. Present occupation, in charge of records and pension bureau in the Surgeon General's office.

Question. As such officer, have you in your charge a list of Union prisoners who died at Andersonville, Georgia?

Answer. I have been informed by the clerk in my office that there is in my possession such a list.

Question. Do you know by whose orders that list was made?

Answer. It was made by permission of Colonel Breck, who has authorized me to send a clerk to his office to copy lists of men who had died in all the rebel prisons. I have had for some time a clerk in the Adjutant General's office making such lists.

Question. Do you know from what roll this list you have was taken?

Answer. I do not, of my own knowledge.

By the judge advocate:

Question. This roll of Andersonville prisoners—is that a separate roll from that of other prisons?

Answer. As I understand it, the clerk has been copying all the rolls of deceased prisoners in the Adjutant General's office. The chief clerk of that department of the Adjutant General's office gives him the rolls one at a time, and he copies them as he gives them, the object being to enter these names alphabetically in the books for the States to which they belong.

Question. Then I understand you that you have not in your office a separate record of prisoners who died at Andersonville?

Answer. I suppose that the clerk who copied the Andersonville roll, by putting together the loose sheets on which he copied it, could produce the roll.

Question. Would these loose sheets probably be retained in your office?

Answer. Yes; they would probably be there now.

Question. Where did you first apply for a copy of this roll?

Answer. I first saw it in a newspaper, where I saw that a Mr. Dorence Atwater had in his possession such a list. I accordingly addressed to Mr. Dorence Atwater a letter simply asking him for a copy of the rolls. That was early in April of this year. He replied that he had disposed of the record I referred to to the War Department, and as I had already had arrangements made with the War Department I did nothing more, knowing I could get these rolls.

Question. This record that you have of deceased soldiers who have died in southern prisons—is that a record expressly for your own bureau?

Answer. This record is expressly for the Surgeon General's office.

Question. And has no relation or connexion with the records of the Adjutant General's office?

Answer. Only so far as the Surgeon General's office is a part of the War Department.

By the accused:

Question. You say that the Surgeon General's office is a part of the War Department?

Answer. It is a part of the War Department.

The counsel for the accused here stated that efforts had been made to get from New York city certain correspondence that had passed between Colonel Samuel Breck, Assistant Adjutant General, and the accused, and which he considered important in the accused's defence. He therefore requested a postponement of the case until Thursday, the 7th instant, at 9 o'clock a. m. The request was granted, and the case postponed until Thursday, the 7th instant.

FOURTH DAY.

WASHINGTON, D. C., *September 7, 1865*—9 o'clock a. m.

The court met pursuant to adjournment.

Present, the same members as on the 5th instant, the judge advocate, and the accused and his counsel.

The court resumed the case of Dorence Atwater, general service United States army.

The counsel for the accused stated that only one of the letters which he had endeavored to get from New York had been received. He then offered as evidence on the part of the defence the letter appended to this record and marked A, which, together with the indorsement of Colonel Breck, was read to the court.

The counsel for the accused then requested until Monday, the 11th instant, to prepare a written defence, which request was granted, and the case postponed until Monday, the 11th instant, at 9 a. m.

FIFTH DAY.

WASHINGTON, D. C., *September 11, 1865—9 o'clock a. m.*

The court met pursuant to adjournment.

Present, the same members as on the 7th instant, the judge advocate, and the accused and his counsel.

The court then resumed the case of Dorence Atwater, general service United States army.

The accused then presented his written defence, appended and marked B, which was read by his counsel in his defence.

The judge advocate then submitted the case to the court without remark.

The court was then cleared, and, after mature deliberation upon the evidence adduced, finds the accused, Dorence Atwater, general service United States army, as follows :

Of the specification first charge, guilty.

Of the first charge, guilty.

Of the specification second charge, guilty.

Of the second charge, guilty.

The court does, therefore, sentence him, Dorence Atwater, general service United States army, to be dishonorably discharged from the United States service, with loss of all pay and allowances now due; to pay a fine of three hundred (300) dollars; to be confined at hard labor for the period of eighteen (18) months at such place as the Secretary of War may direct; to furnish to the War Department the property specified in the second specification as the property stolen from Captain J. M. Moore, assistant quartermaster United States army, and to stand committed at hard labor until the said fine is paid, and the said stolen property is furnished to the War Department.

S. B. LAMOREAUX,

Bvt. Lieut. Col. 2d N. Y. H. Art'y, President of Court.

M. R. BLODGETT,

Lieut. 4th N. Y. H. Art'y, Judge Advocate.

B.

To the officers composing the general court-martial convened at Washington, D. C., by virtue of Special Order No. 174, Headquarters Department of Washington :

GENTLEMEN: In the defence of Atwater I shall first consider the second charge and specification preferred against him by Colonel E. D. Townsend. In this charge and accompanying specification he is accused of "larceny;" and it is alleged that the "larceny" consists in the wrongfully and feloniously taking and stealing from Captain James M. Moore, assistant quartermaster United

States army, "certain personal property of the United States, being," &c., in the proper charge of the said Captain J. M. Moore, "and of the value of three hundred dollars, to wit, a certain written document of about," &c., containing the names of Union prisoners who died at Andersonville, Georgia, which said document "had been prepared by said Atwater while a prisoner," &c., "and disposed of by him to the United States for the sum," &c., "and did appropriate," &c., the said property to his own use. This at or near Andersonville, Georgia, on or about the 16th day of August, 1865.

It is admitted by Atwater that when in Andersonville, about the time aforesaid, with the said Captain Moore, he took possession of and retained the said document containing the names, &c., of Union prisoners who died at Andersonville, Georgia. He denies, however, that he took and retained the document with any wrongful or felonious intent to defraud the government or any other party, and claims that he took possession of the said document as his own personal property, and that he never disposed of the *original document* to the United States, but that for the sum of three hundred dollars he sold to the United States the right to *copy the said document*, under the *express agreement that when copied the original document should be returned to him for the purpose of publication*, and that before he took possession of the said document it *had been copied by the War Department*, and that the department now has possession of the copy. Wharton, in his Treatise on American Criminal Law, lays down the following principle and rule of law, (and all writers and authorities on criminal law agree in the soundness and correctness thereof:) "Every taking of the property of another, without his knowledge or consent, does not amount to larceny. To make it such it must be accompanied by circumstances which demonstrate a *felonious intention*." (*Vide Wharton's American Criminal Law*, vol. 2, page 1769, sec. 1,769 *et ubi*.)

From this and other authority it is clear that *the intention constitutes* the crime of "larceny;" and if it appears from the evidence adduced on the trial that Atwater took and retained this said document without any *felonious intention*, the court cannot in law or justice convict him, as before stated. Atwater claims that he simply sold the right to *copy* the document that he prepared and brought away from Andersonville, at the risk of his life, after suffering there twenty-two months of imprisonment, under the agreement made with Colonel Breck that, besides the three hundred dollars, the document, when copied by the department, should be returned to him. True, there is but little or no evidence to the effect that an agreement for the return of the document to Atwater was made between him and Colonel Breck, with whom the affair of selling the right to copy was transacted. Colonel Breck says he does not recollect of any such agreement being made, and if such a one was made he does not remember it. He does not swear *positively* that no such agreement was made, but only that he has no recollection of it; and in the great press of business transactions in his office it is not to be supposed that he can recollect all the verbal contracts (for this was a verbal one) and agreements made by him with different parties. This, then, is sufficient to raise a doubt in the minds of the court as to whether such an agreement was or was not made by and between Atwater and Colonel Breck. If, then, such a doubt is raised, according to the well-known principle of law, the accused is entitled to the benefit of it; and also, if such an agreement was made, after the document was copied the department had no right to exert arbitrary power and keep it from him. That the document was copied, and that, too, before Atwater left for Andersonville with Captain Moore, is proven by the testimony of Assistant Surgeon General Woodward; and that there still are in Colonel Breck's department extracts and data taken from the original document of Atwater's, from which the names, &c., of the prisoners who died at Andersonville can be had *in full*, is proven by the testimony of the clerks in his department.

This, then, effectually disposes of the theory advanced by the prosecution, that no record of the death, &c., of the Andersonville prisoners remains in the Adjutant General's office.

Again, in relation to the selling by Atwater to the War Department of the *original document* made by him, or the right to copy or make extracts from it, the receipt produced by Mr. Potts (which receipt was given by Atwater) has an important bearing, and to one unskilled (like Atwater) in the interpretation of agreements, receipts, &c., the inference most certain to be drawn is that the right to make *extracts* from his original document was all he disposed of to the department. Another transaction between Atwater and Colonel Breck was decidedly instrumental in leading Atwater to believe that he only disposed of the right to copy, to wit, the conversation between him and Colonel Breck after his (Atwater's) arrest. Colonel Breck swears that he told Atwater if he would refund the three hundred dollars he could take his rolls and go; that he wanted nothing more to do with him or them. Upon this assertion Atwater very justly reasoned thus: If this document is a part of the records of the War Department, would Colonel Breck be willing to dispose of it and let it go out of the jurisdiction and charge of the department for three hundred dollars paid back? Most certainly not. There is a copy of the document in the department. This is all I saw, and this is all the department wants. Therefore, as the rolls are mine, I will keep them. True, upon the witness stand Colonel Breck swore that in telling Atwater this he exceeded his authority; but at the time he did not inform Atwater of it, nor did he know that in saying what he did Colonel Breck passed beyond his authority. From all these circumstances, then, it is but just to presume that Atwater believed he only *sold the right to copy*, and that in retaining possession of the document he only kept property he considered rightfully his; and he, as well as the department, is entitled to an opinion in the matter. From the facts and circumstances already stated it is clear that in retaining these rolls of prisoners deceased, Atwater had no wrongful or felonious intent, and in the absence of such an intent in law he cannot be convicted of "larceny." Another transaction, however, conclusively proves the *entire absence* of any *felonious* intention. What was Atwater's conduct when arrested? He frankly admitted that he took and still had this document. He said, according to the testimony adduced, that Captain Moore was not responsible for the non-production of the document; that he considered it his, and that the law allowed a man to take peaceable possession of his property wherever he found it; and such, too, is the well-known law. Atwater's admission is the only evidence that could be obtained in regard to the taking and retaining by him of this document. No one of the witnesses saw him take it; no one knew, save by suspicion, that he had it. Had there been, then, in his mind any felonious intention, would he have thus freely acknowledged the taking? Not at all; but, on the contrary, he would have said, and defied adverse proof, "I did not take the rolls; I know nothing of them. If you think I have them, produce your evidence." But no; seeing the position in which Captain Moore was placed, he came out openly and honestly and said that he had taken the rolls, that they were his property, and as such he had a perfect right to them. Colonel Breck also swore that he had had considerable conversation and correspondence with Atwater before he went to Andersonville with Captain Moore, and that he seemed *all the time* to be *under the impression* that he had a *right to these rolls*; that they *belonged to him*. Where, now, can the court find the shadow of a shade of evidence that Atwater acted with a *felonious intention*, without which, says the law, no one shall be convicted of "larceny?" Every transaction, every circumstance, every fact in the whole affair proves, and that, too, conclusively, that Atwater acted with a pure and honest motive, and that in the taking and retaining of these rolls there was no felonious intention whatever; for he was and still is under the impression that, having been copied by

the department, the *original ones* were his, (as he sold only the right to copy,) and that, as his property, he had a right to take quiet and peaceable possession of them. Another point to which I wish particularly to call the attention of the court is the following: The letter on file, with the evidence written, I think, to Assistant Surgeon General Woodward by Atwater, wherein he says that he cannot furnish a copy of these rolls, because he "had disposed of them to the War Department," means this, and nothing more. At this time the department had possession of the rolls, and he could not get them back to comply with his request. At this point I would also call the attention of the court to the letter on file written by Atwater to Colonel Breck, and also to Colonel Breck's indorsement thereon. He (Breck) says Atwater shall not have the rolls "for any purpose of traffic whatever." This is an unfair construction of and reply to Atwater's letter. He does not ask the rolls for the purpose of traffic, but for publication, that the many anxious thousands may receive news of their relatives and friends. This continued demand on the part of Atwater for these rolls is but another link in the chain of evidence going to show that he considered himself entitled to these rolls; for did he not think so, would he have so often and so persistently demanded them?

Still another circumstance shows that Atwater acted in entire good faith and with a perfectly good intention. He did not take possession of and retain these rolls until all the purposes sought by them to be accomplished by the government were accomplished. First, he did not take them until they were copied; second, he did not take them until at Andersonville. The graves were found, lettered, and numbered. In regard now to the first charge and specification, it appears almost too frivolous to admit of much attention. Atwater was in the general service; and in the general service men are enlisted only *as clerks*. They are subjected to no military discipline, and among them no discipline is enforced. They wear no uniform, have no regular officers appointed over them, and after office hours they are free to go where they please, provided they are punctual at their work in the office at regular hours. The fact, then, that Atwater took (at Andersonville) these rolls, which he considered his own private property, cannot be considered sufficiently prejudicial to military discipline to merit scarcely a reprimand, even were he in the regular service. Were Atwater guilty of all the charges and specifications preferred against him, there are reasons why the court should inflict merely a nominal punishment. For twenty-two months did he suffer imprisonment at Andersonville, and while there he had sufficient energy to make a copy of the death register, and courage enough to take it away with him at the risk of his life. To him, and to him alone, are the War Department and the country indebted for the full names and the number of the graves of the prisoners who died at Andersonville; for the records captured by General Wilson are imperfect, lacking two thousand names. But applying the evidence to the law—which says that without the *intention* a conviction cannot be made—I ask for a full and perfect acquittal of Atwater.

Very respectfully,

DORENCE ATWATER.

The statement that Atwater was twenty-two months in Andersonville, I am mistaken. He was twenty-two months prisoner, but only *eleven months* in Andersonville.

H. H. MASON.

ADJUTANT GENERAL'S OFFICE,
Washington, D. C., June 19, 1865.

SIR: I address you to learn if you do or do not intend to let me have the death rolls of Andersonville for publication.

I have promised that the register shall be brought before the public in the best manner possible, to furnish the many anxious thousands the fate of their friends. Will you please inform me to-day, and oblige your obedient servant,
DORENCE ATWATER.

Colonel SAMUEL BRECK,
Assistant Adjutant General.

ADJUTANT GENERAL'S OFFICE, *June 20, 1865.*

Returned to Mr. Atwater. I have fully explained the whole matter to General Townsend, who forbids this publication positively, and will not allow the list to be copied for any kind of traffic whatever.

SAMUEL BRECK,
Assistant Adjutant General.

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,
Washington, September 22, 1865.

Respectfully returned to the reviewing officer, Major General Augur, for revision.

The record does not show any finding upon the second charge and its specification.

E. D. TOWNSEND,
Assistant Adjutant General.

Indorsements.

The proceedings, findings, and sentence in the foregoing case are approved and confirmed. The sentence will be executed at such place as the Secretary of War may designate.

C. C. AUGUR,
Major General U. S. V., Com'g Dep't.

ADJUTANT GENERAL'S OFFICE, *September 21, 1865.*

The State prison at Auburn, New York, is designated as the place of confinement.

E. D. TOWNSEND,
Assistant Adjutant General.

BUREAU OF MILITARY JUSTICE,
September 27, 1865.

To the SECRETARY OF WAR :

Private Dorence Atwater, general service United States army, was convicted on the 2d of the present month, by general court-martial sitting in Washington, of "conduct prejudicial to good order and military discipline," and of "larceny," and sentenced "to be dishonorably discharged from the United States service, with loss of all pay and allowances due; to pay a fine of three hundred (300) dollars; to be confined at hard labor for the period of eighteen months at such place as the Secretary of War may direct; to furnish to the War Department the property stolen from Captain J. M. Moore, assistant quartermaster United States army, and to stand committed at hard labor until the said fine is paid, and the said stolen property is furnished to the War Department."

It appears that Atwater was at one time a prisoner at Andersonville, and that

while there he copied or obtained a copy of the names of Union soldiers who had died there ; that he subsequently sold the list of names to the United States, receiving as a consideration therefor the sum of three hundred dollars and permission to enter the general service.

On or about the 30th of June last, by order of the War Department, he accompanied Captain J. M. Moore, quartermaster, to Andersonville, in his expedition to mark the graves of Union soldiers, and while there was detailed to aid Miss Clara Barton in the correction of lists kept by her of missing soldiers, and for this purpose was allowed free access to the rolls in the possession of Captain Moore, among which was the copy of the names of deceased soldiers he had sold to the government. Upon the return of Captain Moore to Washington this list was found to be missing, and Atwater being charged with taking it, admitted that he had done so.

The proceedings were regular, and the findings of the court justified by the evidence.

It is recommended that the sentence be carried into effect.

J. HOLT,
Judge Advocate General.

Official :

J. HOLT,
Judge Advocate General.

GENERAL COURT-MARTIAL ORDERS No. 536.

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,
Washington, September 22, 1865.

I. Before a general court-martial which convened at Washington, D. C., September 2, 1865, pursuant to Special Orders No. 174, dated July 19, 1865; No. 181, dated July 27, 1865; No. 205, dated August 23, 1865; and No. 209, dated August 27, 1865, headquarters department of Washington, Washington, and of which Brevet Lieutenant Colonel S. B. Lamoreaux, second New York artillery, is president, was arraigned and tried—

Private Dorence Atwater, general service United States army.

CHARGE I.—“Conduct to the prejudice of good order and military discipline.”

Specification.—“In this : that Private Dorence Atwater, general service United States army, did, unlawfully and without authority, seize and take from the tent or quarters of Captain James M. Moore, assistant quartermaster United States army, certain property of the United States, then and there in the proper charge and custody of the said Captain J. M. Moore, to wit, a certain document, consisting of a list, written upon about twenty-four sheets of paper, of federal prisoners of war who had died at Andersonville, Georgia, the same having been prepared by said Atwater while a prisoner at said Andersonville, and sold and disposed of by him to the United States for the sum and price of three hundred dollars, and did appropriate and retain the said property to his own use. This at Andersonville, Georgia, on or about the 16th day of August, 1865.”

CHARGE II.—“Larceny.”

Specification.—“In this : that Private Dorence Atwater, general service United States army, did, unlawfully and feloniously, take and steal from Captain J. M. Moore, assistant quartermaster United States army, certain personal property of the United States, being then (and) in the proper charge and custody of him, the said Captain J. M. Moore, and of the value of three hundred dollars, to wit, a certain written document, consisting of a list, written upon about twenty-four sheets of paper, of federal prisoners of war who had died at Andersonville, Georgia, which said list had been prepared by said Atwater,

while a prisoner at said Andersonville, Georgia, and sold and disposed of by him to the United States for the sum and price of three hundred dollars, and did appropriate and retain the said property to his own use. This at or near Andersonville, Georgia, on or near the 16th day of August, 1865."

To which charges and specifications the accused, Private Dorence Atwater, general service United States army, pleaded "not guilty."

FINDING.—The court, having maturely considered the evidence adduced, finds the accused, Private Dorence Atwater, general service United States army, as follows:

CHARGE I.—Of the specification, "guilty." Of the charge, "guilty."

CHARGE II.—Of the specification, "guilty." Of the charge "guilty."

SENTENCE.—And the court does therefore sentence him, Private Dorence Atwater, general service United States army, "To be dishonorably discharged from the United States service, with loss of all pay and allowances now due; to pay a fine of three hundred (300) dollars; to be confined at hard labor for the period of eighteen (18) months at such place as the Secretary of War may direct; to furnish to the War Department the property specified in the second specification as the property stolen from Captain J. M. Moore, assistant quartermaster United States army, and to stand committed at hard labor until the said fine is paid, and the said stolen property is furnished to the War Department."

II. The proceedings, findings and sentence of the court in the above case of Private Dorence Atwater, general service United States army, were approved by the proper commander, and the record forwarded for the action of the President of the United States.

The State prison at Auburn, New York, is designated as the place of confinement, where the prisoner will be sent, in charge of a suitable guard, under the orders of the commanding general, department of Washington.

By order of the Secretary of War:

E. D. TOWNSEND,
Assistant Adjutant General.

Official:

E. D. TOWNSEND,
Assistant Adjutant General.

GENERAL COURT-MARTIAL ORDERS No. 650.

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,

Washington, December 16, 1865.

Dorence Atwater, late private, general service United States army, sentenced by a general court-martial "To be dishonorably discharged from the United States service, with loss of all pay and allowances now due; to pay a fine of three hundred (300) dollars; to be confined at hard labor for the period of eighteen (18) months at such place as the Secretary of War may direct; to furnish to the War Department the property specified in the second specification as the property stolen from Captain J. M. Moore, assistant quartermaster United States army, and to stand committed at hard labor until the said fine is paid, and the said stolen property is furnished to the War Department;" and the State prison at Auburn, New York, designated as the place of confinement, as promulgated in General Court-Martial Orders No. 536, War Department, Adjutant General's Office, September 22, 1865, has been ordered to be immediately discharged from imprisonment.

By order of the Secretary of War:

E. D. TOWNSEND,
Assistant Adjutant General.

Official:

E. D. TOWNSEND,
Assistant Adjutant General.

THIRTY-NINTH CONGRESS UNITED STATES,
HOUSE OF REPRESENTATIVES,
Washington, D. C., April 20, 1866.

SIR: I beg leave respectfully to call your attention to the enclosed copy of a memorial of Dorence Atwater, late a private in the 2d regiment of the New York volunteer cavalry, and subsequently in the general service United States army.

I have also another memorial in my hands, signed by a large number of highly respectable citizens of Connecticut, certifying to the excellent character of Atwater, and praying Congress to do him justice.

I have examined a certified copy of the proceedings and testimony before the court-martial which convicted Atwater of the charge of theft, and do not hesitate to certify that the evidence is not only insufficient to convict him of a charge of felony, but conclusively rebuts the charge. I am satisfied the proceedings could never have been examined by Judge Advocate General Holt, or he would never have given them his approval.

I believe that Atwater deserves the gratitude and honor of the American people for his services in bringing to light the records of the deaths of Andersonville, and that, in substituting for such returns the suffering and degradation of conviction and imprisonment as a felon, most monstrous injustice has been perpetrated.

Believing that there is no loftier or more grateful duty which can engage the attention of the Executive head of the nation, or which you personally will more delight to perform, than to remedy such injustice even to the humblest citizen, I have thought it proper to call your attention to the case, before submitting the memorials to Congress.

I respectfully request that you will, if you shall deem such course consistent with the public service, direct the Judge Advocate General of the army personally to review the proceedings of the court-martial which convicted Atwater of felony in September, 1865, at Washington, and to report to you whether, in his opinion, the evidence sustains the conviction, and that he may be directed, with his opinion, to submit to you a copy of the proceedings and testimony before the court-martial, and that this may be done with all practicable despatch.

If the Judge Advocate General shall, by his opinion, sustain the conviction, I respectfully ask leave to call your personal attention very briefly to the evidence, which I think demonstrates the injustice of the conviction. If you shall be satisfied that injustice has been done in the case, I respectfully ask that you will, by order, annul the conviction and sentence of the court-martial, and cause such other action to be had as shall relieve his character from the infamy implied in such a conviction, and restore him to all the rights of which he was deprived by it.

I beg leave to add my own personal certificate to the high personal merit and pure character of Atwater.

I have the honor to be, very respectfully, your obedient servant,

ROBERT S. HALE,

Member of Congress from New York.

The PRESIDENT of the United States.

Official copy:

E. D. TOWNSEND,

Assistant Adjutant General.

ADJUTANT GENERAL'S OFFICE, *July 13, 1866.*

To the honorable representatives of the United States of America in Congress assembled:

Your memorialist, Dorence Atwater, of Terryville, Litchfield county, State of Connecticut, respectfully represents: On the 22d day of August, 1861, I was

mustered into the 2d New York (Harris light) cavalry, in the city of New York. On the 7th day of July, 1863, while bearing despatches to General Kilpatrick from one of his aids, I was taken prisoner by the rebels, near Hagerstown, Maryland, and with other Union prisoners, captured at Gettysburg, marched to Staunton, Virginia, thence to Belle Isle, Richmond, where I remained five months. I then went to Smith's tobacco factory, Richmond, where I kept the account of supplies received from our government, and issued to federal prisoners of war.

In the latter part of February, 1864, I was sent to Andersonville with a squad of four hundred other prisoners from Belle Isle, arriving there on the first day of March. I remained inside the stockade until the middle of May, when I was sent to the hospital. On the 15th of June, 1864, I was paroled and detailed as a clerk for Surgeon J. H. White, the surgeon in charge of hospitals. My duties were to keep the daily records of all federal prisoners who died there, and make out monthly and quarterly abstracts of the deaths; the latter report was said to be for the federal government. The appalling mortality was such that I suspected that it was the design of the rebel government to kill and maim our prisoners by exposure and starvation, so that they would forever be totally unfit for military service, and that they withheld these facts. Accordingly, in the latter part of August, 1864, I began to secretly copy the entire list of our dead, which I succeeded in doing, and brought safely through the lines with me in March, 1865. Arriving at Camp Parole, Annapolis, Maryland, I learned that I could not get a furlough on account of my term of service having expired some seven months before. I immediately wrote to the Secretary of War, asking for a furlough of thirty days, for the purpose of having my "death register" published for the relief of the many anxious thousands in regard to the fate of their friends.

Before an answer could have returned, I received a furlough from the commandant of the camp. I then went to my home, in Terryville, Connecticut, where I was taken sick the next day after my arrival, which confined me for three weeks. On the 12th day of April, 1865, I received a telegram from the War Department, requesting me to come immediately to Washington, and bring my rolls, and if they were found acceptable I should be suitably rewarded. I started the next day for Washington; arriving there, I went to the War Department, and learned that the person (Colonel Breck) with whom I was to make arrangements was absent to the Fort Sumter celebration. I left my rolls with the chief clerk for safe-keeping. In a day or two Colonel Breck returned, and he informed me that the Secretary of War had authorized him to pay me three hundred dollars (\$300) for the rolls. I told him I did not wish to sell the rolls; that they ought to be published for the benefit of the friends of the dead, for whom chiefly they had been copied. He replied: "If you go to publish them the War Department can call them contraband matter, and confiscate them. You can have until to-morrow morning at 9 o'clock to decide whether you will take the \$300 or not." I inferred from what he said that he would take them any way; so I said, "Give me \$300, a clerkship and *my rolls back again* as soon as copied, and you can take them." To which he agreed. I then asked leave to visit home until the 1st of June, when I should return and enter upon my duties as clerk.

Early in May, while at home, I sent to Colonel Breck a draught of the Andersonville cemetery, and a letter stating how our dead were buried, and that if immediate measures were taken I thought the graves could be identified; also, if the government would furnish the requisite number of headboards, I would have them properly marked and erected, and do this instead of clerical duty, to which I received no reply.

In the latter part of May I telegraphed to Colonel Breck, from New York city, asking if my rolls were copied, and received a reply, "Not yet."

On the 1st of June I reported and entered upon my duties in the Adjutant

General's office, War Department. I called upon Colonel Breck several times, and asked if my rolls were copied, and was informed by him they were not. I then asked to be allowed to take out sheets of my rolls, and copy them after business hours, returning them the next morning. He asked me what I wanted to do with my copy; I told him I wished to publish it. He said "he did not see any use of publishing it," and would see General Townsend about it. I replied "that I thought its publication would interest a great many thousands in regard to their friends." I called upon him afterwards; he said he had been unable to see General Townsend. On the 19th of June I addressed Colonel Breck a letter, asking, "Do you or do you not intend letting me have my Andersonville rolls? I have promised that they shall be copied in the most beneficial manner for the public;" on which was indorsed by Colonel Breck, that he had fully explained the matter to General Townsend, and he says "the rolls shall not be copied for traffic under any consideration whatever."

Meanwhile in the month of June, through Miss Clara Barton, the matter had been brought to the attention of Secretary Stanton, who had ordered an expedition to be sent to Andersonville for the purpose of identifying and marking the graves and enclosing a cemetery. I was detailed to accompany the expedition to designate the graves.

This expedition consisted of a working party under the charge of Captain J. M. Moore, assistant quartermaster, and left Washington on the 8th day of July, 1865, arriving at Andersonville on the 25th day of the same month.

Before leaving Washington it was found that the original register kept by me at Andersonville, and captured by General Wilson, was deficient in one book, containing about twenty-four hundred (2,400) names, and my rolls were sent to supply this deficiency. The original was also found in many places blurred and imperfect through want of care, and my rolls were frequently needed to aid this defect. They were, therefore, publicly and constantly in the hands of all who had occasion to consult them, and so came into my hands in the course of duty. They had been copied at Washington according to my agreement with Colonel Breck and were mine, and lawfully in my possession.

I desired to retain and give them to the people of the country. The day previous to our departure it became necessary for me to remove my effects from my tent in consequence of the death of a young man (one of the working party) who had been attacked with typhoid fever soon after our arrival, and placed in my tent. No particular place being assigned for the rolls, and no further need of them for reference, I placed them inside my trunk for safe-keeping; no allusion whatever was made to the rolls by any person until after our arrival in Washington, when, upon calling at Captain Moore's office, I was told by one of his clerks that Captain Moore had been looking for me, and wanted to know if I had the rolls taken by me when a prisoner? I told him I had.

On the 26th day of August I reported to Colonel Breck. He asked me if I had given my rolls to Mr. Henry, (who had charge of them while in the Adjutant General's office.) I told him "no;" and asked him if he would allow me to keep them now. He said, "We might as well come to an understanding about these rolls; this is the last talk I shall have about them. If you give back the \$300 that was given you for copying them you can keep them; otherwise you must give them up." I asked him if he did not agree to give the rolls back as soon as copied. He said "Yes; but you were going to set yourself up in business, and we did not consider ourselves bound to that agreement." I asked him "How set myself up in business?" He replied, "By publishing them." "Certainly I had a right to, and it was my duty to publish them for the benefit of the friends of the deceased," I said. I then turned to leave, intending to see Secretary Stanton. He said, "I infer that you do not intend to give up the rolls." I said, "Not yet; I must go further to see about them." He said, "You will go to the Old Capitol if you do not intend to give up the

rolls," and sent for a guard and had me arrested. My trunk and room were searched, but the rolls could not be found. I was then put in the guard-house for two days, and then transferred to the Old Capitol prison, and in a few days was arraigned and tried by court-martial, on the following charges and specifications:

CHARGE I.—Conduct prejudicial to good order and military discipline.

CHARGE II.—Larceny.

Specification.—In this: that Private Dorence Atwater, of the general service of the United States army, did seize and unlawfully take from the tent or quarters of Captain J. M. Moore, assistant quartermaster United States army, certain property of the United States, then and there in the proper charge and custody of the said Captain J. M. Moore, to wit, a certain document, consisting of a list, written upon about 24 sheets of paper, of federal prisoners of war who had died at Andersonville, Georgia, the same having been prepared by said Atwater while a prisoner of war at said Andersonville, and sold and disposed of by him to the United States for the sum and price of three hundred dollars, and did appropriate and retain the said property to his own use. This at Andersonville, on or about the 16th day of August, 1865.

I was convicted and sentenced as follows:

To be dishonorably discharged from the United States service, with loss of all pay and allowance now due; to pay a fine of three hundred dollars; to be confined at hard labor for the period of eighteen months at such place as the Secretary of War may direct; to furnish to the War Department the property specified in the second specification as the property stolen from Captain J. M. Moore, and stand committed at hard labor until the said fine is paid and the said stolen property is furnished to the War Department.

On the 25th day of September, 1865, while I was in the office of the Old Capitol prison, waiting for the guard that was to take me to the penitentiary, a captain of the Veteran Reserve corps, who was to, and did, have charge of me, came in and said to the superintendent, "I want that Atwater handcuffed damned tight; I know what kind of a fellow he is; I have heard of him before."

I was accordingly handcuffed and marched to the Baltimore depot under guard, and started for Auburn State prison. I arrived there on the 26th day of September, where I remained over two months at hard labor, when I was released under a general pardon of the President of the United States, on the 30th day of November, 1865. I reached New Haven, Connecticut, on the following day, and immediately set about preparing *my* rolls for publication. After forty (40) days of incessant labor they were placed in the hands of a publisher, and in due time were offered to the public, at the low cost of paper and printer's labor.

Having submitted the above statement, and believing myself to have been the subject of combined injustice and cruelty at the hands of Colonel Samuel Breck, Assistant Adjutant General, and Captain J. M. Moore, assistant quartermaster, your memorialist respectfully prays that you will cause the facts of the case to be inquired into and justice to be done.

DORENCE ATWATER.

DISTRICT OF COLUMBIA, *County of Washington, ss:*

On this 22d day of March, A. D. 1866, before me, Edmund F. Brown, a notary public in and for the county and District aforesaid, personally appeared Dorence Atwater, and made oath according to law that the foregoing statements made and signed by him are correct and true to the best of his knowledge and belief. Given under my hand and notarial seal.

EDMUND F. BROWN, *Notary Public.*

Assistant Adjutant General.

WAR DEPARTMENT,

Bureau of Military Justice, May 10, 1866.

To the Secretary of War, (for the President :)

Private Dorence Atwater, general service United States army, was convicted on the 2d of September last by general court martial, sitting at Washington, D. C., of "conduct prejudicial to good order and military discipline," and of "larceny," and sentenced "To be dishonorably discharged from the service of the United States, with loss of all pay and allowances due; to pay a fine of three hundred dollars, (\$300;) to be confined at hard labor for the period of eighteen months at such place as the Secretary of War should direct; to furnish to the War Department the property stolen from Captain J. M. Moore, assistant quartermaster United States army, and to stand committed at hard labor until said fine should be paid, and the said stolen property be furnished to the War Department."

The proceedings and findings were approved and confirmed by the reviewing officer, Major General Augur, and the State prison at Auburn, New York, designated as the place of confinement.

It appears from the accompanying memorial of Private Atwater, that after he had been in confinement a little over two months, the unexecuted portion of his sentence was remitted by the President.

In this memorial, (which is addressed to Congress,) Atwater sets forth that he was a member of the 2d New York (Harris light) cavalry, and that while bearing despatches to General Kilpatrick from one of his aides, in July, 1863, he was taken prisoner by the rebels near Hagerstown, Maryland, and after a varied experience was finally sent to Andersonville in February, 1864; that on the 15th June following he was paroled and detailed as a clerk for the surgeon in charge of hospitals at that point, in which capacity he kept the daily records of all federal prisoners who died there, and made out monthly and quarterly abstracts of the deaths. The latter report (so he alleges) was said to be for the federal government. He further sets forth that the appalling mortality was such that he suspected it was the design of the rebel government to kill and maim the Union prisoners in their possession by exposure and starvation, so that they would be forever totally unfit for military service, and that they withheld these facts; that accordingly, in the latter part of August, 1864, he began to secretly copy the entire list of the Union dead, the list whereof he succeeded in bringing safely through the lines with him, when he was exchanged in March, 1865. The memorial continues as follows: "Arriving at Camp Parole, Annapolis, Maryland, I learned that I could not get a furlough on account of my term of service

having expired some seven months before. I immediately wrote to the Secretary of War, asking for a furlough of thirty days, for the purpose of having my 'death register' published for the relief of the many anxious thousands in regard to the fate of their friends.

"Before an answer could have returned, I received a furlough from the commandant of the camp. I then went to my home in Terryville, Connecticut.

* * * * *

"On the 12th April, 1865, I received a telegram from the War Department, requesting me to come immediately to Washington and bring my rolls, and if they were found acceptable I should be suitably rewarded. I started the next day for Washington; arriving there, I went to the War Department, and learned that the person (Colonel Breck) with whom I was to make arrangements was absent at the Fort Sumter celebration. I left my rolls with the chief clerk for safe-keeping. In a day or two Colonel Breck returned, and he informed me that the Secretary of War had authorized him to pay me three hundred dollars for the rolls. I told him that I did not wish to sell the rolls; that they ought to be published for the benefit of the friends of the dead, for whom chiefly they had been copied. He replied, 'If you go to publish them, the War Department can call them contraband matter, and confiscate them. You can have until to-morrow morning to decide whether you will take the three hundred dollars or not.' I inferred from what he said that he would take them any way, so I said, 'Give me three hundred dollars, a clerkship, and my rolls back again as soon as copied, and you can take them,' to which he agreed. I then asked leave to visit home until the 1st of June.

"In the latter part of May I telegraphed to Colonel Breck from New York city, asking if my rolls were copied, and received a reply, 'not yet.'

"On the 1st of June I reported and entered upon my duties in the Adjutant General's office, War Department. I called upon Colonel Breck several times, and asked if my rolls were copied, and was informed by him they were not. I then asked to be allowed to take out sheets of my rolls, and copy them after business hours, returning them the next morning. He asked me what I wanted to do with my copy. I told him I wished to publish it. He said he did not see any use of publishing it, and would see General Townsend about it. I replied that I thought its publication would interest a great many thousands in regard to their friends. I called upon him afterwards; he said he had been unable to see General Townsend. On the 19th of June I addressed Colonel Breck a letter, asking, 'Do you or do you not intend letting me have my Andersonville rolls? I have promised that they shall be copied in the most beneficial manner for the public; on which was indorsed by Colonel Breck that he had 'fully explained the matter to General Townsend, and he says the rolls shall not be copied for traffic under any consideration whatever.'

"Meanwhile, in the month of June, through Miss Clara Barton, the matter had been brought to the attention of Secretary Stanton, who had ordered an expedition to Andersonville for the purpose of identifying and marking the graves and enclosing a cemetery. I was detailed to accompany the expedition, to designate the graves. This expedition consisted of a working party, under the direction of Captain J. M. Moore, assistant quartermaster, and left Washington on the 8th day of July, 1865, arriving at Andersonville on the 25th day of the same month.

"Before leaving Washington it was found that the original register kept by me at Andersonville, and captured by General Wilson, was deficient in one book, containing about 2,400 names, and my rolls were sent to supply this deficiency. The original was also found in many places blurred and imperfect, through want of care, and my rolls were frequently needed to aid this defect. They were therefore publicly and constantly in the hands of all who had occasion to consult them, and so came into my hands in the course of duty. They

had been copied at Washington according to my agreement with Colonel Breck, and were mine, and lawfully in my possession. I desired to retain and give them to the people of the country. The day previous to our departure it became necessary to remove my effects from my tent, in consequence of the death of a young man (one of the working party) who had been attacked with typhoid fever soon after our arrival and placed in my tent. No particular place being assigned for the rolls, and no further need of them for reference, I placed them inside of my trunk for safe-keeping. No allusion whatever was made to the rolls by any person until after our arrival in Washington, where, upon calling at Captain Moore's office, I was told by one of his clerks that Captain Moore had been looking for me, and wanted to know if I had the rolls taken by me when a prisoner. I told him I had. On the 26th day of August I reported to Colonel Breck. He asked me if I had given my rolls to Mr. Henry, (who had charge of them while in the Adjutant General's office.) I told him 'No,' and asked him if he would allow me to keep them now. He said, 'We might as well come to an understanding about these rolls; this is the last talk I shall have about them. If you give back the \$300 that was given you for copying them you can keep them, otherwise you must give them up.' I asked him if he did not agree to give the rolls back as soon as copied. He said, 'Yes; but you were going to set yourself up in business, and we do not consider ourselves bound to that agreement.' I asked him 'How set myself up in business?' He replied, 'By publishing them.' 'Certainly, I had a right to, and it was my duty to publish them for the benefit of the friends of the deceased,' I said. I then turned to leave, intending to see Secretary Stanton. He said, 'I infer that you do not intend to give up the rolls?' I said 'Not yet; I must go further to see about them.' He said, 'You will go to the Old Capitol if you do not intend to give up the rolls;' and sent for a guard and had me arrested. My trunk and room were searched, but the rolls could not be found. I was then put in the guard-house for two days, and then transferred to the Old Capitol prison; and in a few days was arraigned and tried by court-martial." * *

[The trial and conviction is then set forth.]

Hon. R. S. Hale, M. C., submits the foregoing memorial to the President, and requests that the Judge Advocate General be directed to personally review the proceedings of the court-martial which convicted Atwater of felony, and report whether, in his opinion, the evidence sustains the conviction, and to furnish a copy of the record.

Mr. Hale states in his communication that he has examined a certified copy of the record, and that he does not hesitate to certify that the evidence is not only insufficient to convict Atwater of a charge of felony, but conclusively rebuts the charge. He asks that the conviction and sentence be annulled, and that such other action may be had as shall relieve the character of the accused from the infamy implied in such a conviction.

The case, when referred to this bureau, had been formally approved, and only awaited the designation of a place of confinement in accordance with the terms of the sentence. In such cases it is not usual to subject the proceedings to that careful revision and critical scrutiny bestowed upon cases requiring the approval of the President or Secretary of War. The review is made only in regard to the jurisdiction and construction of the court, and to the regularity of its proceedings; to which is added such cursory examination of the evidence as the time of the office will allow. A closer examination than this of the many thousand records sent to this bureau would be practically impossible in the first instance, and is deemed unnecessary in the absence of any collateral application for clemency, based upon alleged illegality of the proceedings or otherwise.

Upon a close and careful revision of the testimony, and consideration of the point of law suggested by Mr. Hale, it is the opinion of this bureau that there is room for grave doubt as to the correctness of the findings of the court of the guilt of accused under the second charge—that of larceny, although the allegations in his memorial in regard to the conversations had with Colonel Breck relative to the sale of the rolls in question are not sustained in their most essential particulars.

It appears that Colonel Breck informed Atwater, when at their first interview, that the Secretary of War had ordered him to be paid the sum of three hundred dollars for his lists. Atwater said he thought it was worth quite a large sum more than the Secretary had ordered to be given him. He also wished to retain copies of the lists, or to have a copy of them. He also wanted a clerkship in the department. Colonel Breck told him that the department was entitled to the lists, and could take them. Atwater then sold them to the War Department for three hundred dollars and a clerkship, and obtained a leave of absence. Before he left the city he wrote to Colonel Breck, pressing *for copies of the lists*. He was informed that the clerks had no time to make out copies. It appears that Colonel Breck suspected the accused had some money-making scheme in view, and submitted the question to the Adjutant General, who gave orders that no copies be furnished. Atwater was informed of this decision.

Colonel Breck testified that he had no recollection of an agreement to return the rolls to Atwater after the War Department had copied them, as was claimed but not shown by the defence.

The manner in which the accused finally obtained possession of the rolls is as recited by him. When charged with the theft, he stated "that a man could take his own property wherever he found it," and the testimony of several witnesses shows that he appeared to be under the impression that he was entitled to them. If he honestly entertained such a belief, he could not be guilty of larceny, as the essential element of that offence—the felonious intent—was wanting. The court evidently discredited the honesty of his assumption, and did so, it is probable, upon the following grounds: 1. His silence as to his title in the property while it was in his use at Andersonville, and until he was charged with stealing it. 2. George Henry, a witness for the accused, and a fellow clerk with him, testified that the latter had told him (witness) that he could have disposed of the rolls for a large amount in confederate money, but that he had sold them to the War Department as being the proper place, and that he got three hundred dollars for them.

The statement made by Atwater that "they (the rolls) had been copied at Washington, according to my agreement with Colonel Breck, and were mine and lawfully in my possession," is not sustained by the record or by law. It does not appear that a copy was ever made in detail, though abstracts had been made for different purposes. In regard to his having lawful possession of the rolls, it is well settled in law by the best authorities that "goods in the custody of a servant are in the possession of the master. The servant may, therefore, commit larceny of them. And, generally, where one has the bare charge or care of effects which belong to another, whether his relation to the owner be that of servant or not, the legal possession remains in the owner, and the party may be guilty of trespass and larceny in fraudulently converting the same to his own use."

The only point, then, to be considered in this case is, whether Atwater was really and honestly impressed with the conviction that he had a right to the property. In the opinion of this bureau, there is a possibility that, however mistaken he may have been and was, he had this impression, and therefore may have been innocently convicted of larceny. His conviction, however,

under the first charge was justified, for he was surely guilty of gross misconduct and disregard of his obligations to the service.

It is believed to be beyond the power of the Executive to grant the request made by Mr. Hale—to annul the conviction and sentence in this case. The offender was in the military service, and therefore the court had jurisdiction of his person, and also of the offences with which he was charged. The court was legally constituted and its proceedings were regular. When its findings were made up and sentence pronounced, and its action formally approved by the general commanding the department, the case was concluded, and could only be set aside for some fatal defect in the record. An error of judgment on the part of the court as to the sufficiency of the evidence can, at this stage of the proceedings, be considered only with a view to the exercise of the pardoning power. Had General Augur disapproved the findings because of the insufficiency of evidence, such action would have been competent; but the record having been completed by his formal approval of the findings and sentence, the power of the Executive cannot extend beyond a remission of that part of the sentence remaining unexecuted.

This case is analogous to one wherein a criminal, convicted in a United States civil court and undergoing sentence, is pardoned by the President, the only relief which can be afforded.

The judgment of a court-martial, like that of a civil tribunal, when based upon the regular proceedings of a competent court, can, after due confirmation, only be set aside for errors of law. In this case the President, under existing laws and the rules of the service, not being the reviewing officer, and being without appellate jurisdiction, he can only interpose, as he has done, by extending a pardon on the ground of the findings of the court seeming to have been contrary to the evidence.

What is now desired appears to be, that the stigma resting on Atwater's character, arising from a conviction of felony, be removed. It is suggested that no formal pardon has yet been issued to him, he having been released from confinement by an order of the War Department. A pardon may, therefore, be issued to him setting forth the grounds upon which it is granted, to wit, the insufficiency of the testimony on which his conviction rested. This, it is believed, would afford as impressive an evidence of the President's judgment, and as effectually remedy the discredit which has attached to Atwater, as would an attempted annulment of his conviction and sentence.

J. HOLT,
Judge Advocate General.

Official copy :

J. HOLT,
Judge Advocate General.

WAR DEPARTMENT, ADJUTANT GENERAL'S OFFICE,
Washington, May 24, 1866.

Dorence Atwater, while a Union prisoner at Andersonville, made lists of Union soldiers who died there. After his release, *in consideration of the trouble he took*, three hundred dollars (\$300) was paid him on his surrender of the lists. He being a soldier, and the lists being valuable for the public service, they are considered *as belonging to the government, even though no compensation had been paid Atwater*. Three hundred dollars (\$300) was not by any means considered the money value of the papers, and was not intended as the price paid by the government to secure possession of them. That the War Department might have Atwater's services, supposed to be valuable from his knowledge of such records, he was enlisted as a clerk in the Adjutant General's office. Subse-

quently he was detailed to go with Captain Moore, quartermaster, to Andersonville, to mark and lay out the graves of Union soldiers there. The lists procured from Atwater were intrusted to Captain Moore to aid in the object of his visit to Andersonville. While on this duty these lists were surreptitiously abstracted by Atwater from Captain Moore. Atwater had previously asked of the Adjutant General copies of these papers, and had been refused; one object in securing the papers being to prevent fraudulent claims against the government from being manufactured out of the data contained in them. On his return to Washington he confessed that he had the papers and refused to surrender them. He was tried by a court-martial, sentenced to eighteen months in the penitentiary, to restore the stolen property, and pay a fine of three hundred dollars (\$300.) He was confined in the Albany penitentiary, but released on the order of the Secretary of War after a little less than three months' confinement. He has never restored the papers or paid the fine of \$300.

Hon. Mr. Hale, of New York, requests that the proceedings be set aside and all disgrace removed from Atwater. On a former review of the case the Judge Advocate General reported the proceedings regular. After a recent examination he recommends a pardon, it appearing from Atwater's statement that he was not guilty of the intent of larceny, but supposed he was only taking what belonged to him of right, and alleging that he was promised a return of the papers after they had been copied.

It is earnestly recommended that the Judge Advocate General's view be not adopted. Atwater has, in conjunction with Miss Clara Barton, published garbled statements of this transaction, and of his trial, reflecting upon the uprightness of an officer of the Adjutant General's office.

His statements are not true; he could not have misunderstood the transaction; if he did, the papers were rightly the property of the United States, and might have been taken from him without remuneration. There is no doubt of the fact that he stole the papers from Captain Moore, and that he intended to keep them at all hazards is shown by the fact that he yet has them. There is reason to believe that he is using them as a means of profit by selling the information which they contain. Beside that, he has no just claim to pardon; such an act of clemency would give a coloring to his false representations against the Adjutant General's office.

E. D. TOWNSEND,
Assistant Adjutant General.

ADJUTANT GENERAL'S OFFICE, *July 13, 1866.*

Assistant Adjutant General.

Executive.—Memorandum.

Dorence Atwater, late private, general service United States army. Conduct prejudicial to good order and military discipline. Larceny. Dishonorably discharged, with loss of all pay and allowances due; to pay a fine of \$300; to be confined at hard labor for eighteen months; to furnish to the War Department the property stolen; to stand committed until the fine be paid and the property restored.

Judge Advocate General recommends pardon be issued on account of insufficiency of the testimony.

Adjutant General United States army earnestly recommends that the Judge Advocate General's view be not adopted.

EXECUTIVE MANSION, *June 18, 1866.*

Respectfully returned to the Secretary of War for his final action in the case,
the President declining to take any action.

By order of the President:

WRIGHT RIVES,
Brevet Lieut. Col. U. S. A.

TREASURY RECEIPTS AND EXPENDITURES.

LETTER

FROM THE

SECRETARY OF THE TREASURY,

IN ANSWER TO

A resolution of the House of 9th instant, transmitting statement of the receipts and expenditures of the treasury to March 31, 1866, and estimates to June 30, 1866.

JULY 21, 1866.—Laid on the table and ordered to be printed.

TREASURY DEPARTMENT, *July 19, 1866.*

SIR: I have the honor to acknowledge the receipt of a resolution of the House of Representatives passed July 9, 1866, requesting the department to furnish the House with a statement of the receipts and expenditures of the government for the fiscal year ending June 30, 1866.

In reply to this resolution, I have to state that the formal and complete statement of the public receipts and expenditures during the fiscal year ending June 30, 1866, cannot be made up with accuracy in season to be furnished in response to the present resolution; and it is not usual to prepare this formal statement and to publish the same prior to the meeting of Congress on the first Monday of December.

I have, however, the honor to forward herewith, in reply to the resolution, a statement of the receipts and expenditures, inclusive of the public debt, from July 1, 1865, to March 31, 1866, covering the first three quarters of the fiscal year, together with an estimated statement of the receipts and expenditures for the last quarter, exclusive of the public debt, accompanied by a recapitulation of the actual and estimated receipts and expenditures for the fiscal year ending June 30, 1866, exclusive of receipts and payments on account of the public debt. The statement of expenditures, it is believed, will not vary from the final statement to be forwarded to Congress in December, with the exception of interest on the public debt, but the receipts for the last quarter of the fiscal year ending June 30, 1866, may be increased to some extent by reason of covering warrants not yet issued in consequence of returns up to that date not having been received from distant points.

I have the honor to be, very respectfully,

H. McCULLOCH,

Secretary of the Treasury.

HON. SCHUYLER COLFAX,

Speaker of the House of Representatives.

TREASURY RECEIPTS AND EXPENDITURES

TABLE A.

Statement of the receipts and expenditures of the United States from July 1, 1865, to March 31, 1866, agreeably to warrants.

RECEIPTS.

Customs	\$132,871,519 25
Sales of public lands	488,311 40
Direct tax	1,486,118 05
Internal revenue	245,369,074 50
Miscellaneous	48,478,119 41
Total receipts, exclusive of loans	428,693,142 61
From loans, &c.	520,466,393 05
Total receipts	949,159,535 66

EXPENDITURES.

Civil, foreign intercourse, and miscellaneous	\$29,196,626 41
Interior (pensions and Indian)	15,817,669 89
War	271,705,679 13
Navy	34,195,964 03
Interest on public debt, including treasury notes	96,919,456 38

RESTORATION OF TENNESSEE.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

TRANSMITTING

His views relative to the restoration of Tennessee, by joint resolution, informing the House that he had signed the same.

JULY 24, 1866.—Ordered to be printed.

To the House of Representatives :

The following "joint resolution restoring Tennessee to her relations to the Union" was last evening presented for my approval:

"Whereas, in the year eighteen hundred and sixty-one, the government of the State of Tennessee was seized upon and taken possession of by persons in hostility to the United States, and the inhabitants of said State, in pursuance of an act of Congress, were declared to be in a state of insurrection against the United States; and whereas said State government can only be restored to its former political relations in the Union by the consent of the law-making power of the United States; and whereas the people of said State did, on the twenty-second day of February, eighteen hundred and sixty-five, by a large popular vote, adopt and ratify a constitution of government whereby slavery was abolished and all ordinances and laws of secession, and debts contracted under the same, were declared void; and whereas a State government has been organized under said constitution, which has ratified the amendment to the Constitution of the United States abolishing slavery, also the amendment proposed by the thirty-ninth Congress, and has done other acts proclaiming and denoting loyalty: Therefore,

"Be it resolved by the Senate and House of Representatives of the United States in Congress assembled, That the State of Tennessee is hereby restored to her former practical relations to the Union, and is again entitled to be represented by senators and representatives in Congress."

The preamble simply consists of statements, some of which are assumed, while the resolution is merely a declaration of opinion. It comprises no legislation, nor does it confer any power which is binding upon the respective houses, the Executive, or the States. It does not admit to their seats in Congress the senators and representatives from the State of Tennessee; for, notwithstanding the passage of the resolution, each house, in the exercise of the constitutional right to judge for itself of the elections, returns, and qualifications of its members, may, at its discretion, admit them, or continue to exclude them. If a joint resolution of this character were necessary and binding as a condition precedent to

the admission of members of Congress, it would happen, in the event of a veto by the Executive, that senators and representatives could only be admitted to the halls of legislation by a two-thirds vote of each of the two houses.

Among other reasons recited in the preamble for the declarations contained in the resolution is the ratification, by the State government of Tennessee, of "the amendment to the Constitution of the United States abolishing slavery, and also the amendment proposed by the thirty-ninth Congress." If, as is also declared in the preamble, "said State government can only be restored to its former political relations in the Union by the consent of the law-making power of the United States," it would really seem to follow that the joint resolution which, at this late day, has received the sanction of Congress, should have been passed, approved, and placed on the statute books before any amendment to the Constitution was submitted to the legislature of Tennessee for ratification. Otherwise, the inference is plainly deducible that, while, in the opinion of Congress, the people of a State may be too strongly disloyal to be entitled to representation, they may, nevertheless, during the suspension of their "former proper practical relations to the Union," have an equally potent voice with other and loyal States in propositions to amend the Constitution, upon which so essentially depend the stability, prosperity, and very existence of the nation.

A brief reference to my annual message of the 4th of December last will show the steps taken by the Executive for the restoration to their constitutional relations to the Union of the States that had been affected by the rebellion.

Upon the cessation of active hostilities, provisional governors were appointed, conventions called, governors elected by the people, legislatures assembled and senators and representatives chosen to the Congress of the United States. At the same time the courts of the United States were reopened, the blockade removed, the custom-houses re-established, and postal operations resumed. The amendment to the Constitution abolishing slavery forever within the limits of the country was also submitted to the States, and they were thus invited to, and did participate in its ratification, thus exercising the highest functions pertaining to a State. In addition, nearly all of these States, through their conventions and legislatures, had adopted and ratified constitutions "of government, whereby slavery was abolished, and all ordinances and laws of secession, and debts contracted under the same, were declared void."

So far, then, the political existence of the States and their relations to the federal government had been fully and completely recognized and acknowledged by the executive department of the government; and the completion of the work of restoration, which had progressed so favorably, was submitted to Congress, upon which devolved all questions pertaining to the admission to their seats of the senators and representatives chosen from the States, whose people had engaged in the rebellion.

All these steps had been taken, when, on the 4th day of December, 1865, the 39th Congress assembled. Nearly eight months have elapsed since that time; and no other plan of restoration having been proposed by Congress for the measures instituted by the Executive, it is now declared in the joint resolution submitted for my approval, "that the State of Tennessee is hereby restored to her former proper practical relations to the Union, and is again entitled to be represented by senators and representatives in Congress." Thus, after the lapse of nearly eight months, Congress proposes to pave the way to the admission to representation of one of the eleven States whose people arrayed themselves in rebellion against the constitutional authority of the federal government.

Earnestly desiring to remove every cause of further delay, whether real or imaginary, on the part of Congress to the admission to seats of loyal senators and representatives from the State of Tennessee, I have, notwithstanding the anomalous character of this proceeding, affixed my signature to the resolution.

My approval, however, is not to be construed as an acknowledgment of the right of Congress to pass laws preliminary to the admission of duly qualified representatives from any of the States. Neither is it to be considered as committing me to all the statements made in the preamble, some of which are, in my opinion, without foundation in fact, especially the assertion that the State of Tennessee has ratified the amendment to the Constitution of the United States proposed by the 39th Congress. No official notice of such ratification has been received by the Executive, or filed in the Department of State; on the contrary, unofficial information from most reliable sources induces the belief that the amendment has not yet been constitutionally sanctioned by the legislature of Tennessee. The right of each house, under the Constitution, to judge of the elections, returns, and qualifications of its own members is undoubted, and my approval or disapproval of the resolution could not in the slightest degree increase or diminish the authority in this respect conferred upon the two branches of Congress.

In conclusion, I cannot too earnestly repeat my recommendation for the admission of Tennessee, and all other States, to a fair and equal participation in national legislation, when they present themselves in the persons of loyal senators and representatives, who can comply with all the requirements of the Constitution and the laws. By this means harmony and reconciliation will be effected, the practical relations of all the States to the federal government re-established, and the work of restoration, inaugurated upon the termination of the war, successfully completed.

ANDREW JOHNSON.

WASHINGTON, D. C., *July 24, 1866.*

UNION AND REBEL SOLDIERS DIED WHILE PRISONERS.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of July 12, relative to the number of Union and rebel soldiers who died while held as prisoners of war.

JULY 28, 1866.—Laid on the table and ordered to be printed.

WAR DEPARTMENT,
Washington City, July 19, 1866.

SIR : In compliance with a resolution of the House of Representatives, dated July 12, directing the Secretary of War to report the number of Union and rebel soldiers who died while held as prisoners of war, I have the honor to state that it appears by a report of the Commissary General of Prisoners —

1. That twenty-six thousand four hundred and thirty-six deaths of rebel prisoners of war are reported.

2. That twenty-two thousand five hundred and seventy-six Union soldiers are reported as having died in southern prisons.

The reports also show that two hundred and twenty thousand rebel prisoners were held in the north, and about one hundred and twenty-six thousand nine hundred and forty Union prisoners in the south.

Your obedient servant,

EDWIN M. STANTON,
Secretary of War.

HON. SCHUYLER COLFAX,
Speaker of the House of Representatives.

UNION AND REBEL SOLDIERS DIED WHILE PRISONERS

LETTER

THE SECRETARY OF WAR

IN ANSWER TO

A resolution of the House of July 17, relative to the number of Union and rebel soldiers who died while held as prisoners of war.

July 17, 1868—Sent to the table and referred to be published.

War Department
Washington City, July 10, 1868.

Sir: In compliance with a resolution of the House of Representatives, dated July 17, directing the Secretary of War to report the number of Union and rebel soldiers who died while held as prisoners of war, I have the honor to state that it appears by a report of the Commissioner General of Prisons—

1. That twenty-six thousand four hundred and thirty-six deaths of rebel prisoners of war are reported;

2. That twenty-two thousand five hundred and seventy-six Union soldiers are reported as having died in southern prisons.

The reports also show that two hundred and twenty thousand rebel prisoners were held in the north, and about one hundred and twenty-six thousand nine hundred and forty Union prisoners in the south.

Your obedient servant,

EDWIN M. STANTON
Secretary of War

Wm. Schuyler Colfax,
Speaker of the House of Representatives

PENSIONERS DROPPED FROM THE ROLLS.

LETTER

FROM

THE SECRETARY OF THE INTERIOR,

IN ANSWER TO

A resolution of the House of May 22, relative to pensioners dropped from the pension rolls.

JULY 27, 1866.—Referred to the Committee on Invalid Pensions and ordered to be printed.

DEPARTMENT OF THE INTERIOR,

Washington, D. C., July 27, 1866.

SIR: I have the honor to transmit to you, herewith, a report from the Commissioner of Pensions, dated the 26th instant, containing a partial answer to the resolution adopted by the House of Representatives on the 22d of May last, calling for certain information in relation to the pensioners who were dropped from the rolls under the operation of the act of Congress approved the 4th of February, 1862, entitled "An act authorizing the Secretary of the Interior to strike from the pension rolls the names of such persons as have taken up arms against the government, or who may have in any manner encouraged the rebels."

You will perceive that it has been found impracticable to furnish all the information called for by the House, but that it is proposed to have it prepared by the reassembling of Congress.

I am, sir, with great respect, your obedient servant,

JAMES HARLAN, *Secretary.*

Hon. SCHUYLER COLFAX,

Speaker of the House of Representatives.

DEPARTMENT OF THE INTERIOR, PENSION OFFICE,

Washington, D. C., July 26, 1866.

SIR: I have the honor to acknowledge the receipt of the resolution of the House of Representatives referred by you on the 24th of May for a report of the "names and places of residence of all persons who were dropped from the rolls in pursuance of said act, (February 4, 1862,) and who have been at any time restored thereto, and of all persons whose applications for restoration may be still pending, with the date of such restoration or application, and the amount of annual pension allowed or claimed in each case; also whether arrears of pension for any period of the rebellion have been allowed, and the amount of arrears allowed or claimed in each case; also an estimate of the amount required to pay the arrears of pensions which have accrued during the late rebellion to persons dropped from the rolls in pursuance of the provisions of said act; also

the precise proofs upon which, in each case, the restoration was allowed, or the pending application based; and on whose order or by whose decision, and under what provision of law, such restoration of pension, or payment of arrears of pension, has been directed or authorized."

To satisfactorily answer the foregoing resolution involved so large an amount of labor, requiring the employment of several clerks, that it would seriously interfere with the progress of the regular business. Under these circumstances I deemed it impracticable to have this information compiled before the adjournment of Congress, and propose to furnish it immediately after the opening of the next regular session.

I would respectfully state that the claimants are required to establish their past and present loyalty by two credible and respectable witnesses. Most of the widow pensioners, as well as a large proportion of the invalids, are advanced in life, ranging from 65 or 70 to 95 or 100 years of age.

The annual amount of pensions in the insurrectionary States was, on the 30th June, 1861, say \$152,155, and with the exception of a few—not more than ten, perhaps—who were refugees, or performed some meritorious service for the army, none were transferred or paid until after the enclosed instructions had been issued and its requirements fulfilled.

I am, very respectfully, your obedient servant,

JOS. H. BARRETT,
Commissioner.

Hon. JAMES HARLAN,
Secretary of the Interior.

PENSIONS IN STATES HERETOFORE IN INSURRECTION.

In resuming the execution of the pension laws in the several States heretofore in insurrection, the Secretary of the Interior directs that attention be called to the following act of Congress:

"AN ACT authorizing the Secretary of the Interior to strike from the pension rolls the names of such persons as have taken up arms against the government, or who may have in any manner encouraged the rebels.

"*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of the Interior be, and he is hereby, authorized and directed to strike from the pension rolls the names of all such persons as have or may hereafter take up arms against the government of the United States, or who have in any manner encouraged the rebels, or manifested a sympathy with their cause.

"Approved February 4, 1862."

In accordance with the provisions of this act, the names of all pensioners who have resided within the insurrectionary States during the rebellion, and whose pensions were payable at any one of the following places, viz: Richmond and Norfolk, Virginia; Fayetteville and Morgantown, North Carolina; Charleston, South Carolina; Nashville, Knoxville, Jonesboro', and Jackson, Tennessee; Jackson, Mississippi; New Orleans, Louisiana; Savannah, Georgia; Jacksonville, Tallahassee, and Pensacola, Florida; Huntsville, Tuscaloosa, and Mobile, Alabama; and Little Rock and Port Gibson, Arkansas, are hereby dropped from the pension rolls. Persons heretofore receiving pensions at the above-named agencies, who still claim the benefits of the pension laws, must make application for restoration to the rolls, with the requisite evidence, in accordance with the forms and instructions published herewith.

JOS. H. BARRETT,
Commissioner of Pensions.

JUNE 10, 1865.

Form of application for restoration to the pension rolls by persons whose names have been dropped under the act of February 4, 1862.

STATE OF ———, County of ———, ss:

On this ——— day of ———, A. D. one thousand eight hundred and ———, personally appeared before me, [*judge, clerk, or deputy clerk*] of the ——— court in said State and county, the same being a court of record, ——— A. B. ———, aged ——— years, a resident of ———, in the State of ———, who, being duly sworn according to law, declares that he [or she] is the identical ——— A. B. ——— who was a pensioner on the roll of the agency at ———, and whose pension certificate is herewith returned; that he [or she] has resided since the first day of January, A. D. 1861, as follows: [*here name the place or places at which the applicant has resided;*] that during this period his [or her] means of subsistence have been [*here name the employment or other means by which a livelihood has been gained;*] and that he has not borne arms against the government of the United States, or [or she has not] in any manner encouraged the rebels, or manifested a sympathy with their cause; and that he [or she] was last paid his [or her] pension on the ——— day of ———, A. D. 18—.

This application is made for the purpose of securing a restoration of his [or her] name to the pension rolls, and of obtaining a new pension certificate, such as he [or she] may be entitled to under existing laws, reference being made to the evidence heretofore filed in the Pension Office to substantiate his [or her] original claim.

Also personally appeared ——— and ———, residents of [*county, city, or town,*] persons whom I certify to be respectable and entitled to credit, and who, being by me duly sworn, say that they were present and saw ——— sign his [or her] name [*or make his mark*] to the foregoing declaration; and they further swear that they have every reason to believe, from the appearance of the applicant, and their acquaintance with him, [or her,] that he [or she] is the identical person he [or she] represents himself [or herself] to be; and they further swear that they have no interest in the prosecution of this claim.

(Signatures of witnesses.)

Sworn to and subscribed before me, this ——— day of ———, A. D. 186—; and I hereby certify that I have no interest, direct or indirect, in the prosecution of this claim.

(Signature of judge or other officer.)

INSTRUCTIONS.

If the declarant, or any witness, signs by mark, the officer must certify that the contents of the paper were made known to the affiant before signing.

In every case the declaration or affidavit must be signed either by the affiant's own hand or else *by mark* (X.) Signing by another hand, when the party is able to write, or without a mark when the party is unable to write, is wholly inadmissible.

The allegations made in the applicant's declaration must be sustained by the testimony of two credible and disinterested witnesses, to be certified as such by the officer before whom the testimony is taken.

The applicant must also take and subscribe the oath prescribed in the recent amnesty proclamation of the President of the United States, filing such oath with the application for a new pension certificate, in the following terms:

"I, ———, do solemnly swear (or affirm,) in the presence of Almighty God, that I will henceforth faithfully support, protect, and defend the Constitution of the United States and the union of the States thereunder; that I will in like manner abide by and faithfully support all laws and proclamations which

have been made during the existing rebellion with reference to the emancipation of slaves: So help me God."

If the applicant be an invalid pensioner, he must be examined by an army surgeon, or by a surgeon duly appointed by this office, as to the continuance of his disability. If a widow, she must prove, by two credible witnesses, her continued widowhood. If the guardian of a minor child, newly appointed, he must file evidence of his appointment as such.

RELEASE OF FENIAN PRISONERS.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

IN ANSWER TO

A resolution of the House of 23d instant, relative to release of Fenian prisoners in Canada, and to discontinue prosecutions against the Fenians in the United States.

JULY 26, 1866.—Referred to the Committee on Foreign Affairs and ordered to be printed.

To the House of Representatives:

In answer to two resolutions of the House of Representatives of the 23d instant, in the following words, respectively:

“Resolved, That the House of Representatives respectfully request the President of the United States to urge upon the Canadian authorities, and also the British government, the release of the Fenian prisoners recently captured in Canada.

“Resolved, That this house respectfully request the President to cause the prosecutions instituted in the United States courts against the ‘Fenians’ to be discontinued, if compatible with the public interests”—

I transmit a report upon the subject from the Secretary of State, together with the document which accompanied it.

ANDREW JOHNSON.

WASHINGTON, July 26, 1866.

DEPARTMENT OF STATE,

Washington, July 26, 1866.

The Secretary of State, to whom were referred two resolutions of the House of Representatives, passed on the 23d of July, instant, in the following words, respectively:

“Resolved, That the House of Representatives respectfully requests the President of the United States to urge upon the Canadian authorities, and also the British government, the release of the Fenian prisoners recently captured in Canada.

“Resolved, That this house respectfully request the President to cause the prosecutions instituted in the United States courts against the ‘Fenians’ to be discontinued, if compatible with the public interests”—

Has the honor to report in regard to the first resolution that the government of the United States holds no correspondence directly, upon any subject, with the Canadian authorities mentioned in the said resolution, or with the authorities of any colony, province, or dependency of any other sovereign state; and that, on the contrary, all its correspondence concerning questions which arise in, or affect, or relate to such colonies, provinces, or dependencies, is always conducted exclusively with such sovereign government.

On the 11th of June last a note was addressed by this department to the honorable Sir Frederick W. A. Bruce, her Majesty's minister plenipotentiary residing in the United States, of which a copy is annexed.

It is proper to say in relation to that note, first, that the reports mentioned therein, to the effect that prisoners had been taken on the soil of the United States and conveyed to Canada, and threatened by Canadian agents with immediate execution without legal trial, were found on examination to be untrue, and without foundation in fact.

It is due to the British government to say, in the second place, that the representations made in the said note have been received and taken into consideration by the British government and by the Canadian authorities in a friendly manner.

The resolution of the House of Representatives, first recited, harmonizing as it does with the spirit of the aforesaid note, will be brought to the attention of her Majesty's government and of the Canadian authorities, with the expression of a belief on the part of the President that affairs upon the frontier have happily come into a condition in which the clemency requested by Congress may be extended without danger to the public peace, and with advantage to the interests of peace and harmony between the two nations.

I have already received your directions that the second of the said resolutions be taken into consideration by the proper departments of the government, with a desire that it may be found practicable to reconcile the humane policy recommended with the maintenance of law and order, the safety of the public peace, and the good faith and honor of the United States.

Respectfully submitted.

WILLIAM H. SEWARD.

The PRESIDENT.

DEPARTMENT OF STATE,

Washington, June 11, 1866.

SIR: The Secretary of War has laid before the President several despatches which were received yesterday and to-day from Major General Meade, who is commanding the United States forces on the Canadian frontier.

These communications warrant the President in believing that the so-called Fenian expedition is now entirely at an end, and that order and tranquillity may be expected to prevail henceforth upon that border.

I regret, however, that I am obliged to connect with this gratifying information the further statement that reports have reached Major General Meade to the effect that some Canadian or British troops have crossed the line, and entered within the territory and jurisdiction of the United States. It is even said that this entry took place after the disturbers of the peace, under the command of the leader named Spear, had relinquished their forbidden enterprise, and withdrawn within the boundary line of the United States.

The reports go so far as to say that prisoners have been taken on the soil of the United States and conveyed to Canada; and that the Canadian agents have threatened that these prisoners, together with such stragglers as may now be

found within the Canadian lines, will be immediately executed without legal trial.

It is believed that these reports are exaggerated. Care has been taken by Major General Meade to have them promptly investigated. In the mean time I am instructed by the President to represent to you, and through you to the British and Canadian authorities, that this government could not look without serious concern upon the practice of any unnecessary severity, and especially upon the exercise of retaliation or other illegal proceedings upon the persons of such of the offenders as have fallen, or shall hereafter fall, into the hands of the Canadian authorities.

I respectfully invite your attention to this subject, with a confident expectation that no proceedings that shall not be authorized by and be in conformity with law will be taken against persons of that class, and in the hope that even the customary administration of the law will be tempered with special forbearance and clemency.

In view of the effective proceedings which this government has adopted in regard to the disturbances on the frontier, now so fortunately ended, these representations would have been made by me without waiting to be moved from any other quarter. They are now made, however, with the approval of Major General Meade, and I believe that they will receive the concurrence of the Congress and the people of the United States.

I have the honor to be, sir, your obedient servant,

WILLIAM H. SEWARD.

Hon. SIR FREDERICK W. A. BRUCE, &c., &c., &c.

RAILROAD PROPERTY.

LETTER

FROM

THE SECRETARY OF WAR,

IN ANSWER TO

A resolution of the House of June 4, relative to railroad property in the possession of the government.

JULY 27, 1866.—Laid on the table and ordered to be printed.

WAR DEPARTMENT,
Washington City, July 26, 1866.

SIR: In reply to a resolution of the House of Representatives of June 4, 1866, respecting railroad property which was in possession of the government on May 1, 1865, &c., &c., I have the honor to transmit herewith the Quartermaster General's report of July 23, with accompanying papers, which contains all the information on the subject which the department can furnish at present.

Very respectfully, sir, your obedient servant,

EDWIN M. STANTON,
Secretary of War.

Hon. S. COLFAX,
Speaker of the House of Representatives United States.

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., July 23, 1866.

SIR: I have the honor to return herewith resolution of the House of Representatives of June 4, 1866, referred by the War Department to this office June 5 for report.

A copy of the resolution was transmitted, June 6, to General D. C. McCallum, director and general manager of military railroads of the United States, for report from the files of his office of the information called for. Herewith is respectfully forwarded, under date of July 19, the full report of General McCallum, embracing that of Brevet Major F. J. Crilly, assistant quartermaster United States army, under whose supervision the transfer of all the railroad property in the military division of the Tennessee and in the military division of the Mississippi was effected.

In addition thereto is respectfully forwarded a report with schedules of railroad property in the possession of the United States May 1, 1865, prepared from reports received at this office from officers in the military division of the Gulf, showing the disposition of such property, with the authority therefor, and steps taken to recover the value thereof, appended in each case; altogether comprising, it is believed, a full schedule of all railroad property in the possession of

the government on May 1, 1865, whether held by right of capture or purchase; also, what disposition has been made of such property—if sold, whether for cash or credit; and if for credit, under what law or authority.

Attention is invited to the letters of General McCallum and Major Crilly, transmitting their respective reports, and especially to the statements contained therein, that, owing to the large amount of property transferred, and the many different sources from which it was derived, it would be impossible, in every case, to trace each separate item back to its original purchase-bill within the present session of Congress, and consequently so much of the resolution requiring the original cost of the property held by the United States by right of purchase has not been fully complied with. For information on this subject, the following extract from the letter transmitting General McCallum's report is quoted:

"The greater portion of this property had been on hand and in use a long time, and though the prices obtained were below the cost, with some exceptions, they are believed to be very favorable to the government; this is particularly true with the property sold on credit, the companies purchasing it paying better prices than when sold for cash."

Upon an examination of the prices obtained for the railroad property in the military division of the Gulf, a similar state of circumstances is found to exist.

The following is a statement of the amounts of sales of railroad property:

For cash.....	\$3, 403, 412 22
On credit.....	7, 418, 962 30
Total.....	<u>10, 822, 374 52</u>

Attention is invited to the enclosed consolidated statement of the indebtedness of railroad companies, May 31, 1866, for the purchase of railway material of the United States on credit, prepared from reports transmitted to this office by quartermasters in obedience to General Orders No. 80, Quartermaster General's office, December 22, 1865, (accompanying.)

In order to secure payment of the indebtedness of railroads for the purchase of property of the United States, every railroad company to which sales have been made on credit is required to give bond in double the amount of the value of the property transferred to it, as per form contained in Executive Order of October 14, 1865, (accompanying,) by the terms of which the United States has a lien upon the property transferred, and each company is required to make prompt payments of the instalments as they fall due. These bonds, with lists and receipts of the property transferred, have, in every instance, been executed, and are on file in this office.

A great number of these roads have failed to comply strictly with the terms of their bonds; but owing to the devastating effects of the war, and the great expenses incurred in repairing the roads by rebuilding bridges, trestles, &c., and the prostrate condition of the southern roads, it is believed that they are actually unable to meet their engagements with the United States, and that to attempt to enforce prompt payments would be to arrest the operations of the roads, and thus to defeat the object of the Executive in the policy which dictated Executive Orders relative thereto. A general willingness to meet their engagements with the government appears to be manifested, however, by the greater number of the roads purchasing property, and a very large proportion of the payments already made have been in *cash*. All moneys accruing to their credit for the transportation of troops and supplies have been stopped against them and applied in liquidation of their indebtedness to the government; and arrangements have been made with the Post Office Department by which all payments for mail services performed by indebted railroads are withheld and

placed to the credit of such roads on account of the purchase of military railroad property.

It is believed that these arrangements are sufficient to secure, ultimately, the payment of the indebtedness, with interest in full, of all railroads for the purchase of railway material of the United States.

Respectfully, your obedient servant,

M. C. MEIGS,

Quartermaster General, Brevet Major General U. S. A.

Hon. EDWIN M. STANTON,

Secretary of War, Washington, D. C.

REPORT

Of all railroads operated and controlled by the military railroad department during the war, and of all railroad property on hand the 1st day of May, 1865, and not embraced in the report of Major F. J. Crilly; also, copies of the letters of the Quartermaster General to the Hon. Edwin M. Stanton, Secretary of War, dated May 19 and July 17, 1865, and of Executive Orders of August 8 and October 14, 1865. Prepared in accordance with resolution of the House of Representatives of June 4, 1866.

WAR DEPARTMENT,
OFFICE OF DIRECTOR AND GENERAL MANAGER
OF MILITARY RAILROADS UNITED STATES,
Washington, D. C., July 19, 1866.

GENERAL: I have the honor to return herewith the copy of the resolution of the House of Representatives of June 4, 1866, referred to this office June 6, 1866, in the following words, to wit:

"On motion of Mr. Kelley,

"*Resolved*, That the Secretary of War be directed to furnish to the House of Representatives a schedule of all railroad property which was in the possession of the government May 1, 1865, whether held by right of capture or by purchase, and if by purchase, stating what it cost. Also, what disposition has been made of such property; if sold, whether for cash or credit, and if for credit, under what law or authority; and whether the purchase-money has been paid, or what steps have been taken to recover it."

And to transmit, in answer thereto, the following reports, to wit:

1st. Reports numbered from 1 to 9, inclusive, being reports relative to railroad property in the military division of the Tennessee, transmitted to this office by Major F. J. Crilly, assistant quartermaster.

2d. Letter of Major Crilly of July 9, 1866, transmitting and explaining the above reports.

3d. Report of all railroads operated and controlled by the military railroad department during the war, and of all railroad property on hand on May 1, 1865, subject to the control of the military railroad department, and not embraced in the report of Major Crilly, showing how the same was obtained; how and by what authority disposed of, with copies of the letters of the Quartermaster General to the Hon. Edwin M. Stanton, Secretary of War, dated May 19 and July 17, 1865, and indorsements thereon, and of Executive Orders of August 8 and October 14, 1865.

These papers are arranged as follows, to wit:

1st. The letters and orders above referred to.

2d. Reports of all railroads operated and controlled by the United States at any time during the war, under my direction, giving the name of the road, number of miles operated, estimated value, how held, and how disposed of.

3d. A condensed statement showing the value of the property sold on credit to railroad companies in the departments of Virginia and North Carolina, payments made, and amount remaining unpaid.

4th. A schedule of property sold on credit to railroad companies in the departments of Virginia and North Carolina.

5th. A schedule of property sold at auction for cash, by General H. L. Robinson, assistant quartermaster, and Captain J. D. Stubbs, assistant quartermaster, since May 1, 1865.

6th. A schedule of property used in repairing and operating railroads in the departments of Virginia and North Carolina, since May 1, 1865.

7th. A schedule of property transferred to officers not connected with military railroads, since May 1, 1865.

8th. A schedule of captured property, showing how and by what authority disposed of.

9th. A schedule of property not yet disposed of.

In preparing this report it was not possible to give the cost of all the articles. The amount of property on hand was large, and having been received from so many different sources, it could not, at this date, be traced back to the purchase bills. This is particularly true with regard to the property in the military division of the Tennessee; and in the other departments, I could only give the average cost price, or no price at all.

The amount received from sales of property is as follows, to wit:

For cash.....	\$3, 403, 412 22
And on credit.....	7, 192, 855 63
Total.....	<u>10, 596, 267 85</u>

The greater part of this property had been on hand and in use a long time, and though the prices obtained were below the cost, with some exceptions, they are believed to be very favorable to the government. This is particularly true with the property sold on credit, the companies purchasing it paying better prices than were obtained when sold for cash.

Though all the railroads in the States lately in rebellion were virtually in the possession of the government on the 1st of May, 1865, only those necessary for military purposes were at any time formally taken possession of and controlled and operated by it; and when the necessity for military occupation ceased, they were either abandoned or turned over to the board of public works of the State, or to their former owners, in accordance with instructions from the general commanding the department, or from the Secretary of War, or Executive Orders of August 8 and October 14, 1865.

Under these orders, control of each road was relinquished so soon as the necessary steps could be taken and the proper persons found to receive and operate it in such a manner as to secure the speedy movements of all military stores and troops.

I have the honor to be, very respectfully, your obedient servant,

D. C. McCALLUM,

*Brevet Brigadier General, Director, and General Manager
of Military Railroads United States.*

Brevet Major General M. C. MEIGS,

Quartermaster General U. S. A., Washington, D. C.

THIRTY-NINTH CONGRESS, FIRST SESSION.

IN THE HOUSE OF REPRESENTATIVES,

June 4, 1866.

On motion of Mr. Kelley,

Resolved, That the Secretary of War be directed to furnish to the House of Representatives a schedule of all railroad property which was in the possession of the government on May 1, 1865, whether held by right of capture or by purchase; and if by purchase, stating the cost. Also, what disposition has been made of such property; if sold, whether for cash or credit; and if for credit, under what law or authority, and whether the purchase money has been paid, or what steps have been taken to recover it.

Attest:

EDWARD McPHERSON, *Clerk*,
By CLINTON LLOYD, *Chief Clerk*.

Respectfully referred to the Quartermaster General for report, to be sent to me, with this paper.

By order of the Secretary of War:

EDMUND SCHRIVER,
Inspector General.

W. D., *June 5, 1866.*

A true copy :

ALEXANDER BLISS,
Colonel Quartermaster's Department.

WAR DEPARTMENT, *June 5, 1866.*

Refers for report, to be sent to General Schriver, with the enclosed papers, resolution of the House of Representatives calling for information relative to railroad property.

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., June 6, 1866.

Respectfully referred to Brevet Brigadier General D. C. McCallum, general superintendent United States military railroads, Washington, D. C., for report as early as practicable.

The schedule required should embrace all the railroads in the possession of the United States at the date named, as well as movable railroad property, and show the disposition made of both.

By order Quartermaster General:

ALEXANDER BLISS,
Colonel Q. M. Dep't, in charge 4th Division.

Report showing the disposition of United States military railroad property in the military division of the Tennessee for which Captain W. R. Hopkins, A. Q. M., is responsible.

[Enclosure No. 2.]

[The property sold under the Executive Orders of August 8 and October 14, 1865, was appraised by a board convened by Major General G. H. Thomas, commanding military division of the Tennessee; copy of order herewith.]

The property sold to the Southwestern Iron Company was a few items for which they were charged by the United States in excess of the price paid by them for the rolling mill at Chattanooga, as per public advertisement. The prices were fixed by the board convened by Major General G. H. Thomas, commanding military division of the Tennessee, to assess the value of property sold to railroads.

The property sold at auction was in accordance with the authority of the Secretary of War, communicated through the Quartermaster General.

The captured property was returned to the owner by instructions received from Major General G. H. Thomas, commanding military division of the Tennessee.]

Running number.	Articles.	Captured property on hand May 1, 1865.	Property purchased by the United States on hand May 1, 1865.	Total amount of property on hand May 1, 1865.	Property sold on credit to railroad companies under the Executive Orders of August 8 and October 14, 1865.				Captured property returned to owners.		Sold to the Southwestern Iron Company. Statement showing the average appraised value of "box" and "flat" cars sold to southern railroad companies in the military division of the Tennessee, under the Executive Orders of August 8 and October 14, 1865, with the average original cost of the same.

Name of railroad.	Price of box cars.	Price of flat cars.	Remarks.
Memphis, Clarksville, and Louisville	\$755 00	\$600 00	New lot; appraised separately.
Edgefield and Kentucky	800 00	610 00	
Nashville and Chattanooga	847 00	650 00	
Nashville and Northwestern	830 00	650 00	
Nashville and Decatur Line	825 00		
Tennessee and Alabama	826 00	650 00	
Central Southern	835 00	650 00	
Tennessee and Alabama Central	816 00	650 00	
Wills Valley	815 00	650 00	
East Tennessee and Georgia	845 00	650 00	
East Tennessee and Virginia	847 00	650 00	Has many wrecked boxes.
Rogersville and Jefferson	850 00	650 00	
Western and Atlantic	820 00	650 00	
Rome Branch	715 00	530 00	
Macon and Western	790 00	625 00	
Southwestern	839 00	650 00	
Macon and Brunswick	815 00	650 00	
Montgomery and West Point	847 00		
Alabama and Florida	847 00	625 00	
Alabama and Tennessee River	855 00	650 00	
Selma and Meridian	805 00	625 00	Second invoice.
Mississippi, Gainesville, and Tuscaloosa	855 00	625 00	
Mobile and Ohio	780 00		
New Orleans, Jackson, and Great Western	780 00		
Mississippi and Tennessee	730 00	600 00	
Memphis and Charleston	830 00	650 00	
Memphis and Ohio	730 00	600 00	
New Orleans and Ohio	715 00		
Mobile and Great Northern	735 00	575 00	
Nashville and Chattanooga	725 00	550 00	
Mississippi Central	710 00	525 00	
Rolling Mill		600 00	
Adams Express Company	700 00		

NOTE.—The average original cost of these cars was \$1,150 for box, and \$890 for flats. The average length service was eighteen (18) months.

[General Orders No. 56.]

QUARTERMASTER GENERAL'S OFFICE,

Washington, D. C., September 28, 1865.

The following order, by the President of the United States, in relation to the relinquishment of the government's control over all railroads in the State of Tennessee, and their continuations in adjoining States, now occupied by the United States military authorities, and no longer needed for military purposes, is published for the information of all officers and agents of the quartermaster's department.

M. C. MEIGS.

Brevet Major General, U. S. A., Quartermaster General.

WAR DEPARTMENT,

Washington, August 8, 1865.

GENERAL: It having been determined by the government to relinquish control over all railroads in the State of Tennessee, and their continuations in adjoining States, that have been in charge of, and are now occupied by, the United States military authorities, and no longer needed for military purposes, you are hereby authorized and directed to turn over the same to the respective owners thereof, at as early a date as practicable, causing, in all cases of transfer as aforesaid, the following regulations to be observed and carried out:

1. Each and every company will be required to reorganize and elect a board of directors whose loyalty shall be established to your satisfaction.

2. You will cause to be made out in triplicate, by such person or persons as you may indicate, a complete inventory of the rolling stock, tools, and other materials and property on each road.

3. Separate inventories will be, in the same manner, made of the rolling stock and other property originally belonging to each of said roads, and that furnished by and belonging to the government.

4. Each company will be required to give bonds satisfactory to the government that they will, in twelve months from the date of transfer as aforesaid, or such other reasonable time as may be agreed upon, pay a fair valuation for the government property turned over to said companies, the same being first appraised by competent and disinterested parties at a fair valuation, the United States reserving all government dues for carrying mails, and other service performed by each company, until said obligations are paid; and if, at the maturity of said debt, the amount of government dues, retained as aforesaid, does not liquidate the same, the balance is to be paid by the company in money.

5. Tabular statements will be made of all expenditures by the government for repairing each road, with a full statement of receipts from private freights, passage, and other sources; also a full statement of all transportation performed on government account, giving the number of persons transported, and amount of freight, and the distance carried in each case—all of said reports or tabular statements to be made in triplicate, one each for the Secretary of War, the military headquarters of the department, and the railroad company.

6. All railroads in Tennessee will be required to pay all arrearages of interest due on the bonds issued by that State, prior to the date of its pretended secession from the Union, to aid in the construction of said roads, before any dividends are declared or paid to the stockholders thereof.

7. Buildings erected for government purposes on the line of railroads, and not valuable or useful for the business of said companies, should not form a legitimate charge against such companies; nor should they be charged for rebuilding houses, bridges, or other structures which were destroyed by the federal army

8. You are authorized to give any orders to quartermasters within your division, which you may deem necessary to carry into execution this order.

By order of the President :

EDWIN M. STANTON,
Secretary of War.

Major General GEORGE H. THOMAS,
Commanding Military Division of Tennessee, Nashville, Tennessee.

[General Orders No. 62.]

QUARTERMASTER-GENERAL'S OFFICE,
Washington, D. C., October 23, 1865.

The following order by the President of the United States, in relation to executive order of 8th August, 1865, extending the provisions and benefits of the same to all railroads within the limits of the military division of the Tennessee desiring to purchase railroad rolling stock and material from the United States, for the purpose of repairing the losses of the war, is published for the information of all officers and agents of the quartermaster's department.

M. C. MEIGS.
Brevet Major General U. S. A., Quartermaster General.

WAR DEPARTMENT,
Washington, D. C., October 14, 1865.

GENERAL : The provisions and benefits of the executive order of 8th of August are hereby extended to all railroads within the limits of your command desiring to purchase railroad rolling stock and material from the United States, for the purpose of repairing the losses of the war.

You are also authorized to direct the sale to any such railroads of rolling stock, now within the limits of your command, and not needed by the United States for actual use, upon the following conditions, if they are preferred to the terms of the order of 8th August, and the individual security required by you under that order.

You will take care that this property is distributed among the several roads in proportion to their actual needs, and that none is sold to any railroad in excess of the reasonable requirements of its business, or to be used for purposes of speculation, sale, or hire to other roads.

You will require from all such railroad companies satisfactory bonds, in the form herewith enclosed, binding them to the payment to the United States of the full appraised value of the property sold to them, in equal monthly instalments, with the interest at the rate of seven and three-tenths per cent. per annum, within two years, credit being allowed to them, on the first of each month, for any service of military transportation rendered by them during the preceding month, at the established rates now allowed to northern railroads for such service.

Full reports of all sales under this order will be made to the War Department from time to time, as required by existing orders.

The serviceable railroad iron in possession of the quartermaster's department at Chattanooga and Nashville is excepted. It will be sold only for cash at the prices fixed by the War Department.

By order of the President :

EDWIN M. STANTON,
Secretary of War.

Major General GEORGE H. THOMAS,
Com'd'g Mil. Div. of the Tenn., Headquarters, Nashville, Tenn.

BOND.

Know all men by these presents, that the ——— railroad company, duly incorporated by the act of the ——— of the State of ———, by ——— its president, acting for and in behalf of said railroad company, do hereby acknowledge itself and its successors held and firmly bound unto the United States of America in the full and just sum of ——— dollars, lawful money of the United States; for which payment, well and truly to be made to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated by the War Department, within two years from the date of these presents, the said railroad company, by its president, hereby binds itself and its successors, firmly by these presents.

Sealed with its corporate seal, attested by the signature of its president, and affixed by the express authority of its directors, this ——— day of ———, in the year of our Lord one thousand eight hundred and sixty ———.

The nature of the above obligation is such that, whereas the above bounden railroad company has purchased and received, or shall receive, from the War Department of the United States, rolling stock, iron rails, cross-ties, chairs, spikes, timber, and other materials for repairing and operating its railroad, in quantities, at prices, and to an amount and value which shall be evidenced by the receipts given for the same by the said railroad company to the proper officer of the said War Department, upon a credit of two years from the date of these presents, payable in equal monthly instalments, with interest, at the rate of 7 3-10 per cent. per annum, within the said two years, either in cash to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated for this purpose by the War Department, or in transportation of the troops or military supplies of the United States, under the order of the proper military authorities, at the rates of fare and tolls allowed for such service to northern railroads;

And whereas the said railroad company desires, and by these presents intends, to secure to the United States the complete and punctual payment as aforesaid of the amounts which may be due for the said materials received or to be received by it from the United States:

Now, therefore, if the said railroad company shall well and truly pay as aforesaid, either in cash, in equal monthly instalments, or in transportation as aforesaid, to the United States, within two years from the date of these presents, all that shall be due as aforesaid to the United States on account and in payment for all the materials received as aforesaid from the United States, then this obligation shall be void and of no effect.

But if the said railroad company shall fail to pay to the United States all or any portion of what may be due to the United States, on account of the said materials received from the United States, within two years from the date of these presents, either in cash as aforesaid, or in transportation as aforesaid, or shall fail to pay any of the monthly instalments aforesaid, punctually when due, then this obligation shall remain in full force and effect to the extent that may be necessary to fully repay to the United States the full amount which may be due on account of the said materials so received as aforesaid, and all loss or damage which may have been incurred by the United States by reason of the said railroad company's failure to pay for the same what shall be due therefor when the same shall be due.

And as a further security for such payment and indemnity to the United States, the United States shall have a lien upon the property sold to said company, and in default of such complete and punctual payment of all moneys which may be due on account of the aforesaid purchase of materials, be fully authorized to take possession of and sell said property, and also to place in charge and control of the said company's railroad, an agent of the said United States, who shall be fully

empowered, and by these presents is fully empowered, in case of such default as aforesaid, to collect all the revenues of the said company, and apply the same to the payment to the United States of all the moneys which shall be due at the times of such application of such revenues to the United States for any such materials, which shall have been delivered by the United States to the said railroad company, or by reason of any loss or injury to the United States resulting from such default in payment of the same. And the said company shall have no authority to sell or convey out of its possession without the consent of the United States first in writing obtained, any of the property referred to in this agreement; but shall hold and retain the same to the exclusive use of said company, in carrying on the business of transportation of persons and property over its line of road, until the whole is fully paid for as aforesaid.

In witness whereof, the corporate seal of said railroad company is affixed hereto, by authority of its directors, and attested by its president.

Witness :

NOTE.—The amount of this bond to be double the valuation of the property sold and delivered. Internal revenue stamps should be affixed, to the amount of fifty cents for every thousand dollars.

No. 2.

LETTER OF MAJOR CRILLY, TRANSMITTING AND EXPLAINING THE ABOVE REPORTS.

OFFICE ASS'T QUARTERM'R, U. S. MILITARY RAILROADS.

Washington, D. C., July 9, 1866.

GENERAL: I have the honor to transmit the papers called for in your indorsement of the sixth ultimo on the Quartermaster General's letter, transmitting the resolution of the House of Representatives, calling for a report of the amount of United States military railroad property on hand May 1, 1865, and the disposition made of the same.

It has not been possible to comply with that portion of the resolution requiring the cost price of each article to be reported. The amount of property was so large, and was obtained from so many different sources, that it would be impossible to trace the items back to their original bills, within the present session of Congress. For the same reason it has also been impossible for me to consolidate the reports of the different officers, before Congress adjourns. The individual reports are therefore forwarded; they are as follows, viz:

1. Report of United States military railroad property in the department of Tennessee and Arkansas, for which Brevet Colonel John Parks, assistant quartermaster, was responsible.

2. Report of United States military railroad property on the roads operated by the United States in the military division of the Tennessee, south of Chattanooga, for which Captain W. R. Hopkins, assistant quartermaster, was responsible.

3. Report of United States military railroad property in the military division of the Tennessee, on all roads operated by the United States centring at Nashville, for which Captain S. R. Hamill, assistant quartermaster, was responsible.

4. Report of the same, for which Captain G. H. Clemens, assistant quartermaster, was responsible.

5. Report of same, for which Lieutenant George F. Nelson, assistant quartermaster, was responsible.

[NOTE.—There was no property sold while Captain Clemens and Lieutenant Nelson had charge of property.]

6. Report showing the cost value of 154 locomotive engines, purchased by the United States for roads operated by government in the military division of

the Tennessee, together with the appraised price fixed to the same by the board convened by Major General George H. Thomas, commanding military division of the Tennessee.

[NOTE.—It is not possible to compare the balance of the locomotives, the original cost not being known to me.]

7. Report showing the money value of the property sold to the different companies, with the amount paid thereon, and the balance of principal and interest due and remaining unpaid.

8. Showing the appraised price of box and flat cars sold to the different companies, together with the average original cost of the same.

9. Copies of the executive orders of August 8th and October 14, under which the property was sold.

Very respectfully, your obedient servant,

T. J. CRILLY,

Brevet Major and A. Q. M. U. S. Army.

General D. C. McCALLUM,

Gen. Man. Mil. Railroads United States, Washington, D. C.

No. 3.

REPORT OF ALL RAILROADS OPERATED AND CONTROLLED BY THE MILITARY RAILROAD DEPARTMENT DURING THE WAR, AND OF ALL RAILROAD PROPERTY ON HAND ON MAY 1, 1865, SUBJECT TO THE CONTROL OF THE MILITARY RAILROAD DEPARTMENT. AND NOT EMBRACED IN THE REPORT OF MAJOR CRILLY; SHOWING HOW THE SAME WAS OBTAINED, HOW AND BY WHAT AUTHORITY DISPOSED OF, WITH COPIES OF THE LETTERS OF THE QUARTERMASTER GENERAL TO THE HON. EDWIN M. STANTON, SECRETARY OF WAR, DATED MAY 19, AND JULY 17, 1865, AND INDORSEMENTS THEREON, AND OF EXECUTIVE ORDERS OF AUGUST 8 AND OCTOBER 14, 1865.

No. 1.—Letter of the Quartermaster General to the Hon. E. M. Stanton, Secretary of War, dated May 19, 1865; letter of the Quartermaster General to the Hon. E. M. Stanton, Secretary of War, dated July 17, 1865; and Executive Orders of August 8 and October 14, 1865.

QUARTERMASTER GENERAL'S OFFICE,

Washington, D. C., May 19, 1865.

SIR:

The question of the disposition of the railroads in the States lately in rebellion is a large one, and, after reflection, I have the honor to advise that the following principles be established to govern the action of the quartermaster's department and of the military authorities in disposing of all of them:

1st. The United States will, as soon as it can, dispense with the military occupation and control of any railroad of which the quartermaster's department is now in charge, turn it over to the parties asking to receive it who may appear to have the best claim, and be able to operate it in such manner as to secure the speedy movement of all military stores and troops. The Quartermaster General, upon the advice of the military commander of the department, to determine when this can be done, subject to the approval of the Secretary of War.

2d. No charge to be made against the railroad for expense of material or expense of operation.

3d. All material for permanent way used in the repair and construction of the road, and all damaged material of this class, which may be left along its route, having been thrown there during the operations of destruction or repair, to be considered as part of the road and given up with it.

4th. No payment or credit to be given to the railroad for its occupation or use by the United States during the continuance of the military necessity which compelled the United States to take possession of it by capture from the public enemy; the recovery of the road from the public enemy, and its return to loyal owners, with the vast expenditure of defence and repair as a full equivalent for its use.

5th. All movable property, including rolling stock of all kinds, the property of the United States, to be sold at auction, after full public notice, to the highest bidder.

6th. All rolling stock and material, the property before the war of railroads, and captured by the forces of the United States, to be placed at the disposal of the roads which originally owned it, and to be given up to these roads as soon as it can be spared, and they appear by proper agents authorized to receive it.

7th. When a State has a board of public works able and willing to take charge of its railroads, the railroads in possession of the quartermaster's department to be given up to the board of public works, leaving it to the State authorities and to the judicial tribunals to regulate all questions of property between rival boards, agents, or stockholders.

8th. Roads not being operated by the United States quartermaster's department not to be interfered with unless under military necessity. Such roads to be left in possession of such persons as may now have possession, subject only to the removal of every agent, director, president, superintendent, or operative who has not taken the oath of allegiance to the United States, which rule should be rigidly enforced.

9th. When the superintendents in actual possession decline to take such oath, some competent person to be appointed as receiver of the railroad, who shall administer the affairs of the road and account for its receipts to the board of directors, who may be formally recognized as the legal and loyal board of managers. This receiver to be appointed as in the case of other abandoned property by the Treasury Department.

10th. I recommend that the governor of the State of Virginia be informed that the War Department will interpose no obstacle to the board of public works of the State taking possession of all the railroads in the State not in use and occupation of the military force of the United States by the quartermaster's department, and that, as soon as the military occupation of any of these roads can be safely dispensed with, the road will be transferred to the charge of the board of public works.

In some of the States the State is a large bond-holder in the roads, and though there may be in such States no board of public works, it is probable that the State authorities will be willing to receive and take charge of the roads; if not, receivers should be appointed by the Treasury Department, upon application at the War Department, to take charge of them as abandoned property.

I have the honor to be, very respectfully,

M. C. MEIGS,

Quartermaster General and Brevet Major General.

Hon. E. M. STANTON,

Secretary of War.

A true extract :

ALEXANDER BLISS,

Lieutenant Colonel, Quartermaster's Department.

A true copy :

D. C. McCALLUM,

Bvt. Brig. Gen., Director and Manager Mil. Railroads U. S.

QUARTERMASTER GENERAL'S OFFICE,

Washington, D. C., July 17, 1865.

SIR: I submit herewith an estimate for funds required by the disbursing officer for railroads at Nashville, Tennessee.

The remittances to Nashville, on account of railroads in the southwest, in 1865 are as follows, viz :

In March, on the November, 1864, estimate	\$1, 805, 500
In March, on the December, 1864, estimate	1, 000, 000
On May 2, on the January, 1865, estimate	1, 400, 000
On May 2, on the February, 1865, estimate	1, 400, 000
On May 30, on the April, 1865, estimate	1, 400, 000
Total	<u>7, 005, 500</u>

The estimate for March was held back by General McCallum, it being supposed that the sums required on the previous estimates, and that for April, would be sufficient to pay off all his indebtedness to the 30th of June, owing to expected reductions in the establishment.

General McCallum reports (on the 3d instant) that one million dollars will be sufficient on the estimate for March to enable Captain Crilly to pay off his indebtedness.

It will be perceived from the foregoing statement that these railroads have been costing, during the present year, upwards of \$1,300,000 monthly, and the expenditures are still going on. These expenditures were necessary during the war, but it appears to me that the government should be relieved from this heavy expenditure by the restoration of the railroads to the companies; and I recommend that this be done as soon as it is possible to make arrangements for the transfer, on the basis of my report of the 19th of May last.

The appropriation for transportation of the army is exhausted, and there is no money in the treasury for army transportation, against which requisitions can be drawn.

Very respectfully, your obedient servant,

M. C. MEIGS,

Brevet Major General U. S. A., Quartermaster General.

Hon. E. M. STANTON,

Secretary of War.

A true copy :

ALEXANDER BLISS,

Lieutenant Colonel, Quartermaster's Department.

[One enclosure.]

WAR DEPARTMENT, *July 24, 1865.*

The recommendation of the Quartermaster General is approved, and he is directed to turn over the roads immediately.

By order of the Secretary of War :

THOS. T. ECKERT,

Acting Assistant Secretary of War.

QUARTERMASTER GENERAL'S OFFICE,

Washington, July 27, 1865.

Respectfully referred to Brevet Brigadier General D. C. McCallum, general manager of the military railroads, together with a copy of the report of the Quartermaster General of May 19, 1865.

General McCallum will at once transfer all the railroads in the military division of the Mississippi, which are controlled at Nashville, in accordance with the recommendations of the Quartermaster General, as approved and directed by the Secretary of War. General McCallum will please report what railroads will remain in the possession of the military authorities when this transfer shall have been accomplished.

By order of the Quartermaster General :

ALEXANDER BLISS,
Lieut. Colonel, acting in charge 4th Division.

A true copy of letter and indorsements :

D. C. McCALLUM,
Bvt. Brig. Gen., Director and Manager Mil. Railroads U. S.

[General Orders No. 56.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., September 28, 1865.

The following order by the President of the United States, in relation to the relinquishment of the government's control over all railroads in the State of Tennessee, and their continuations in adjoining States, now occupied by the United States military authorities, and no longer needed for military purposes, is published for the information of all officers and agents of the quartermaster's department.

M. C. MEIGS,
Brevet Major General U. S. A., Quartermaster General.

WAR DEPARTMENT,
Washington, August 8, 1865.

GENERAL: It having been determined by the government to relinquish control over all railroads in the State of Tennessee, and their continuations in adjoining States, that have been in charge of, and are now occupied by, the United States military authorities, and no longer needed for military purposes, you are hereby authorized and directed to turn over the same to the respective owners thereof at as early a date as practicable, causing, in all cases of transfer as aforesaid, the following regulations to be observed and carried out :

1. Each and every company will be required to reorganize and elect a board of directors whose loyalty shall be established to your satisfaction.
2. You will cause to be made out in triplicate, by such person or persons as you may indicate, a complete inventory of the rolling stock, tools, and other materials and property on each road.
3. Separate inventories will be in the same manner made of the rolling stock and other property originally belonging to each of said roads, and that furnished by and belonging to the government.
4. Each company will be required to give bonds satisfactory to the government that they will, in twelve months from the date of transfer as aforesaid, or such other reasonable time as may be agreed upon, pay a fair valuation for the government property turned over to said companies, the same being first appraised by competent and disinterested parties at a fair valuation, the United States reserving all government dues for carrying mails, and other service performed by each company, until said obligations are paid; and if, at the maturity

of said debt, the amount of government dues, retained as aforesaid, does not liquidate the same, the balance is to be paid by the company in money.

5. Tabular statements will be made of all expenditures by the government for repairing each road, with a full statement of receipts from private freights, passage, and other sources; also a full statement of all transportation performed on government account, giving the number of persons transported, and amount of freight, and the distance carried in each case—all of said reports or tabular statements to be made in triplicate, one each for the Secretary of War, the military headquarters of the department, and the railroad company.

6. All railroads in Tennessee will be required to pay all arrearages of interest due on the bonds issued by that State, prior to the date of its pretended secession from the Union, to aid in the construction of said roads, before any dividends are declared or paid to the stockholders thereof.

7. Buildings erected for government purposes on the line of railroads, and not valuable or useful for the business of said companies, should not form a legitimate charge against such companies; nor should they be charged for rebuilding houses, bridges, or other structures which were destroyed by the federal army.

8. You are authorized to give any orders to quartermasters within your division which you may deem necessary to carry into execution this order.

By order of the President:

EDWIN M. STANTON,
Secretary of War.

Major General GEORGE H. THOMAS,
Commanding Military Division of Tennessee, Nashville, Tenn.

[General Orders No. 62.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., October 23, 1865.

The following order by the President of the United States, in relation to Executive Order of August 8, 1865, extending the provisions and benefits of the same to all railroads within the limits of the military division of the Tennessee desiring to purchase railroad rolling stock and material from the United States, for the purpose of repairing the losses of the war, is published for the information of all officers and agents of the quartermaster's department.

M. C. MEIGS,
Brevet Major General U. S. A., Quartermaster General.

WAR DEPARTMENT,
Washington, D. C., October 14, 1865.

GENERAL: The provisions and benefits of the Executive Order of August 8 are hereby extended to all railroads within the limits of your command desiring to purchase railroad rolling stock and material from the United States for the purpose of repairing the losses of the war.

You are also authorized to direct the sale to any such railroads, of rolling stock now within the limits of your command, and not needed by the United States for actual use, upon the following conditions, if they are preferred to the terms of the order of August 8, and the individual security required by you under that order.

You will take care that this property is distributed among the several roads

in proportion to their actual needs, and that none is sold to any railroad in excess of the reasonable requirements of its business, or to be used for purpose of speculation, sale, or hire to other roads.

You will require from all such railroad companies satisfactory bonds, in the form herewith enclosed, binding them to the payment to the United States of the full appraised value of the property sold to them, in equal monthly instalments, with interest at the rate of seven and three-tenths per cent. per annum, within two years, credit being allowed to them, on the first of each month, for any service of military transportation rendered by them during the preceding month, at the established rates now allowed to northern railroads for such service.

Full reports of all sales under this order will be made to the War Department, from time to time, as required by existing orders.

The serviceable railroad iron in possession of the quartermaster's department at Chattanooga and Nashville is excepted. It will be sold only for cash at the prices fixed by the War Department.

By order of the President :

EDWIN M. STANTON,
Secretary of War.

Major General GEORGE H. THOMAS,
Commanding Military Division of Tennessee, Nashville, Tenn.

—
B O N D.

Know all men by these presents, that the ——— railroad company, duly incorporated by the act of the ——— of the State of ——— by ———, its president, acting for and in behalf of said railroad company, does hereby acknowledge itself and its successors held and firmly bound unto the United States of America in the full and just sum of ——— dollars, lawful money of the United States ; for which payment, well and truly to be made to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated by the War Department, within two years from the date of these presents, the said railroad company, by its president, hereby binds itself and its successors firmly by these presents.

Sealed with its corporate seal, attested by the signature of its president, and affixed by the express authority of its directors, this ——— day of ———, in the year of our Lord one thousand eight hundred and sixty ———.

The nature of the above obligation is such that, whereas the above bounden railroad company has purchased and received, or shall receive, from the War Department of the United States rolling stock, iron rails, cross-ties, chairs, spikes, timber, and other materials for repairing and operating its railroad, in quantities, at prices, and to an amount and value which shall be evidenced by the receipts given for the same by the said railroad company to the proper officer of the said War Department, upon a credit of two years from the date of these presents, payable in equal monthly instalments, with interest, at the rate of 7 3-10 per cent. per annum, within the said two years, either in cash to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated for this purpose by the War Department, or in transportation of the troops or military supplies of the United States, under the orders of the proper military authorities, at the rates of fare and tolls allowed for such service to northern railroads ;

And whereas the said railroad company desires, and by these presents intends,

to secure to the United States the complete and punctual payment as aforesaid of the amounts which may be due for the said materials received or to be received by it from the United States :

Now, therefore, if the said railroad company shall well and truly pay as aforesaid, either in cash, in equal monthly instalments, or in transportation as aforesaid, to the United States, within two years from the date of these presents, all that shall be due as aforesaid to the United States on account and in payment for all the materials received as aforesaid from the United States, then this obligation shall be void and of no effect.

But if the said railroad company shall fail to pay to the United States all or any portion of what may be due to the United States on account of the said materials received from the United States, within two years from the date of these presents, either in cash as aforesaid, or in transportation as aforesaid, or shall fail to pay any of the monthly instalments aforesaid, punctually when due ; then this obligation shall remain in full force and effect to the extent that may be necessary to fully repay to the United States the full amount which may be due on account of the said materials so received as aforesaid, and all loss or damage which may have been incurred by the United States by reason of the said railroad company's failure to pay for the same what shall be due therefor when the same shall be due.

And as a further security for such payment and indemnity to the United States the United States shall have a lien upon the property sold to said company, and in default of such complete and punctual payment of all moneys which may be due on account of the aforesaid purchase of materials, be fully authorized to take possession of and sell said property, and also to place in charge and control of the said company's railroad, an agent of the said United States, who shall be fully empowered, and by these presents is fully empowered, in case of such default as aforesaid, to collect all the revenues of the said company, and apply the same to the payment to the United States of all the moneys which shall be due at the times of such application of such revenues to the United States for any such materials, which shall have been delivered by the United States to the said railroad company, or by reason of any loss or injury to the United States resulting from such default in payment of the same. And the said company shall have no authority to sell or convey out of its possession, without the consent of the United States first in writing obtained, any of the property referred to in this agreement; but shall hold and retain the same to the exclusive use of said company, in carrying on the business of transportation of persons and property over its line of road, until the whole is fully paid for as aforesaid.

In witness whereof, the corporate seal of said railroad company is affixed hereto, by authority of its directors, and attested by its president.

Witness :

_____.

NOTE.—The amount of this bond to be double the valuation of the property sold and delivered. Internal revenue stamps should be affixed, to the amount of fifty cents for every thousand dollars.

ALABAMA AND FLORIDA RAILROAD AND MOBILE AND GREAT NORTHERN
RAILROADS.

Schedule of property in the possession of the United States May 1, 1865, by right of purchase, transferred to said roads, with value of labor in reconstructing road, and authority therefor.

Alabama and Florida.....	\$27, 109 04
Mobile and Great Northern.....	3, 398 99
Total	<u>30, 508 03</u>

Statement of circumstances and authority under which the railroad property included in the accompanying schedule was transferred to the Alabama and Florida railroad and the Mobile and Great Northern railroad by Captain H. L. Wheeler, 96th U. S. C. I., chief engineer Mobile and Memphis railroad, and acting assistant quartermaster, viz:

[Letter of Captain Wheeler, transmitting abstract, with vouchers of amounts expended on said railroads.]

MOBILE, ALABAMA, *July 12, 1865.*

SIR: I have the honor to enclose herewith an abstract, with vouchers, showing the expenses incurred by the United States government in putting the Mobile and Great Northern and Alabama and Florida railroads in running order during the months of May, June, and July, 1865.

Very respectfully, your obedient servant,

HENRY L. WHEELER,
*Captain 96th U. S. C. I., Engineer in charge M. and M.
Railroad, and Acting Assistant Quartermaster.*

[Letter of the Quartermaster General to the chief quartermaster military division of the Gulf, calling for full report, giving copies of the orders under which these expenditures were incurred.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., August 21, 1865.

COLONEL: Captain H. L. Wheeler, 96th U. S. C. I., engineer in charge, and acting assistant quartermaster, has forwarded to this office abstracts of expenses incurred by the United States in putting the Mobile and Great Northern railroad, and also the Alabama and Florida railroad, in running order during May, June, and July, 1865.

Your attention is respectfully called to General Orders No. 77, Adjutant General's office, and 24, Quartermaster General's office, 1865. You will please make full report, giving copies of the orders under which these expenditures were incurred and the work done.

By order of the Quartermaster General.

Very respectfully, your obedient servant,

ALEXANDER BLISS,
Lieut. Col. and Quartermaster, acting in charge 4th Division.

Colonel C. G. SAWTELLE,

Chief Quartermaster Mil. Div. of the Gulf, New Orleans, La.

[Extract of reply of the chief quartermaster military division of the Gulf, showing authority' enclosing copies of orders under which the expenditures were incurred, and the work done.]

OFFICE CHIEF QUARTERMASTER, MILITARY DIVISION OF THE GULF,
New Orleans, La., September 19, 1865.

GENERAL: I have the honor to acknowledge the receipt of a letter from your office, bearing date of August 21, 1865, enclosing certain abstracts of expenses incurred by the United States in putting in order the Mobile and Great Northern railroad and the Alabama and Florida railroads, under the direction of Captain Henry L. Wheeler, 95th U. S. C. I., acting assistant quartermaster, &c., and directing me to report under what orders those expenditures were made.

In reply, I have to state that on the 3d of May, 1865, Major General E. R. S. Canby, commanding army and division of West Mississippi, instructed Major General A. J. Smith, then commanding the 16th army corps, with headquarters at Montgomery, to send a competent officer to examine the Great Northern railroad, a copy of which instructions is herewith enclosed. Captain Wheeler seems to have been the officer so designated. I have never been furnished with a copy of the orders or instructions given him by Major General Smith, nor can I ascertain that any reports were made by him, or by General Smith, to General Canby.

About the 12th of May Captain Wheeler came to Mobile, having so far repaired the road as to run a locomotive from Montgomery to Tensas Station, near Mobile, and requested to be informed how he should account for the quartermaster's property expended on the road. The matter was referred to Captain H. C. Hodges, assistant quartermaster United States army, at that time having the immediate charge of the supply of troops and matters pertaining to the quartermaster's department on the Alabama river.

On the 5th of May, 1865, instructions were given by Major General Canby to put the presidents and directors of the railroads in Alabama in charge of the same; copy of which instructions is herewith enclosed. These railroad companies were not, however, in a condition to put their roads in running order without the assistance of the military authorities. I directed that a careful account should be kept of all material used, and expenses incurred in putting these roads in running order, the same to be charged against the roads and paid for by subsequent services rendered in transportation of government freight.

My absence in Texas accounts for my delay in reply to the letter of August 21, referred to above.

I am, general, very respectfully, your obedient servant,

C. G. SAWTELLE,

Colonel and Chief Quartermaster, Military Division of the Gulf.

[Enclosure of foregoing letter.—Order of General E. R. S. Canby.—Extract.]

HEADQUARTERS DIVISION OF WEST MISSISSIPPI,
Mobile, Alabama, May 3, 1865.

GENERAL: * * * * * * *

The general-in-chief further directs that you send a suitable officer and a sufficient cavalry force along the Alabama and Great Northern railroad all the way from Montgomery to Stockton; the officer will investigate the condition of the road and its rolling stock, and report to these headquarters fully, so as to provide for everything necessary to put the road in running order again. If

there is any of the directory at Montgomery, or within your reach, they ought to be sent to these headquarters to confer with the general in regard to the road.

Very respectfully, your obedient servant,

P. J. OSTERHAUS,
Major General, Chief of Staff.

Major General A. J. SMITH,
Commanding 16th Army Corps.

[Indorsement of General Canby on foregoing order.]

Respectfully forwarded to the chief quartermaster's headquarters division of the Gulf. After a thorough examination, no orders or instructions can be found that authorized the expenditures made by Captain Wheeler. The object of the examination ordered was to be prepared to put the road in running order, if the low stage of water in the Alabama river should render it necessary to use this road to supply troops in the interior of Alabama. The general instructions given were to make no expenditures and furnish no material except when the use of the road was necessary for military purposes, and using the authority subsequently delegated to me, I directed that no such expenditures should be made until after the estimates had been approved by the general superintendent of military railroads. See General Order No. 85, department of the Gulf, enclosed herewith.

E. R. S. CANBY,
Major General, &c.

[Order of General Canby.—Enclosure of letter of chief quartermaster military division of the Gulf.]

HEADQUARTERS ARMY AND DIVISION OF WEST MISSISSIPPI,
Mobile, Alabama, May 5, 1865.

The president and directors of the Mobile and Ohio, of the Mobile and Great Northern, and of the Alabama and Florida Railroad Companies, will be put in possession of the offices, depots, locomotives, rolling stock, and all other material and property pertaining to said roads, so far as they may be under the control of the United States military authorities within the limits of this command, and are authorized to put the said roads in working order, and to run under the regulations established by the said president and directory, on such conditions as may be imposed by military authority; but this order will not be construed as barring any questions of private interests that may be involved in this property, or as barring or restraining any legal proceedings that may hereafter be instituted against these companies.

E. R. S. CANBY,
Major General Commanding.

Official :

ALFRED FREDBERY,
Captain and Acting Assistant Adjutant General.

[Letter of the Quartermaster General instructing the chief quartermaster military division of Tennessee to charge the amounts against said roads.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, January 20, 1866.

GENERAL: The following amounts have been reported to this office by Henry S. Wheeler, late captain 96th U. S. C. I. and engineer in charge military rail-

roads, Mobile, Alabama, as chargeable against the respective railroad companies, for expenses incurred in putting the roads in running order, viz :

Alabama and Florida railroad for such expenses incurred during May, June, and July, 1865, \$27,109 04.

Mobile and Great Northern railroad for expenses incurred during the same period, \$3,398 99.

You will please instruct the quartermaster at Nashville, charged with the settlement of transportation accounts, to withhold payment on any accounts presented by these companies against the government for services rendered, and apply them in discharge of this and any other indebtedness of the companies to the government, until the same are fully satisfied.

By order of Quartermaster General.

Respectfully, your obedient servant,

ALEXANDER BLISS,

Brevet Colonel and A. Q. M., in charge 4th Division.

Brevet Major General J. L. DONALDSON,

Chief Quartermaster Mil. Div. Tennessee, Nashville, Tenn.

[Reply of chief quartermaster military division Tennessee to foregoing letter of the Quartermaster General, stating that the amounts will be charged against said roads.]

HEADQUARTERS MILITARY DIVISION OF THE TENNESSEE,

CHIEF QUARTERMASTER'S OFFICE,

Nashville, Tenn., January 24, 1866.

GENERAL: Your letter of January 20, 1866, stating that "the following amounts have been reported to this (your) office by Henry L. Wheeler, late captain 95th U. S. C. I. and engineer in charge military railroads, Mobile, Alabama, as chargeable against the respective railroad companies for expenses incurred in putting the roads in running order, viz: Alabama and Florida railroad for such expenses incurred during May, June, and July, 1865, \$27,109 04; Mobile and Great Northern railroad for such expenses incurred during the same period, \$3,398 99," and directing that "the quartermaster at Nashville be instructed to withhold payment from any accounts presented by those companies against the government for services rendered," has been received, and the disbursing officer of railroad accounts directed to carry out your instructions.

Very respectfully, your obedient servant,

J. L. DONALDSON,

Brevet Major General, Chief Q. M. Mil. Div. Tennessee.

Brevet Major General M. C. MEIGS,

Quartermaster General U. S. A., Washington, D. C.

List of quartermasters' stores transferred to and expended on the Alabama and Florida railroad by Captain H. L. Wheeler, 96th U. S. C. I., engineer in charge M. and M. railroad, and acting assistant quartermaster, in the months of May, June, and July, 1865.

NEW ORLEANS, OPELOUSAS, AND GREAT WESTERN RAILROAD.

Schedule of property in possession of the United States May 1, 1865, by right of capture and of purchase, transferred to said road, with authority therefor.

Property purchased.....	\$113, 773 45
Property captured.....	173, 088 21
Total.....	286, 861 66

Statement of circumstances and authority under which the New Orleans, Opelousas, and Great Western railroad was transferred to the directors of said road by Brevet Colonel J. G. Chandler, acting chief quartermaster, military division of the Gulf, viz :

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., August 18, 1865.

COLONEL: The government should be relieved at the earliest possible day of the expenses of maintaining and operating railroads heretofore held by it for military purposes.

You will cause the railroads in the military division of the Gulf to be at once turned over to the several companies or to their representatives, or such other persons or civil authorities as the general commanding the military division shall advise.

In carrying out these transfers you will be governed by the principles recommended by the Quartermaster General in a letter dated May 19, 1865, to the Secretary of War, and by him approved, copy of which is herewith furnished you.

Inventories of the railroad material and supplies, rolling stock, &c., which are the property of the United States, setting forth the amount and estimated value of the articles, will be prepared and forwarded to this office with recommendations as to the most advantageous modes and places of disposition of the same.

Very respectfully, your obedient servant,

M. C. MEIGS,

Quartermaster General, Brevet Major General U. S. A.

Colonel C. G. SAWTELLE,

Chief Quartermaster Mil. Div of Gulf, New Orleans, La.

OFFICE OF CHIEF QUARTERMASTER MILITARY DIVISION OF THE GULF,
New Orleans, Louisiana, February 15, 1866.

GENERAL: In obedience to orders received from the Quartermaster General, dated August 18, 1865, I have transferred the New Orleans, Opelousas and Great Western railroad to the directors, and enclose herewith for file the bond and lists of property transferred. The appraisal was made by two experienced men in railroad matters, and acceptable to myself as well as the railroad company.

Very respectfully, your obedient servant,

J. G. CHANDLER,

Brevet Col. U. S. A., Chief Acting Q. M. Mil. Div. of the Gulf.

Major General M. C. MEIGS,

Quartermaster General U. S. A., Washington, D. C.

8 fire tongs	12 00
6 ash rakes	9 00
7 jack screws	56 00
7 pinch bars	14 00
1 mandrel, 150 pounds, at 4 cents	6 00
3 engine truck-wheels, 1,380 pounds, at 2 cents	27 60
259 car wheels, (burnt,) 119,140 pounds, at 2 cents per pound	2,382 80
101 car axles, 308 pounds each	436 32
9 push-car wheels and five axles, 920 pounds, at 4 cents	36 80
3 old McGowan's pumps and stands	16 00
1 old McGowan's pump and stand	2 00
3 old car-catchers, of wood	15 00
2 old car-catchers, of iron	25 00
1 wheel and stand for bridge	12 00
689 bars railroad iron, (old,) 4,375 yards, 63 pounds to a yard, at 2 cents	5,512 50
60,670 pounds old bridge castings, (burnt,) at 1½ cent	910 05
39,961 pounds wrought-iron from burnt cars and bridges	999 02
7,229 pounds burnt car springs, at 5 cents	361 45
988 pounds steel springs, at 8 cents	79 04
3 ball pumps, (in bad order)	12 00
Total value	173,088 21

G. FANDEBY.
JAMES E. SHAKSPEARE.

Approved:

B. CHANDLER,
Captain and Assistant Quartermaster, Brevet Colonel U. S. A.

List of railroad property transferred to the president and directors of the New Orleans, Opelousas, and Great Western railroad, belonging to the United States government, for the value of which said road has given bond for \$227,546 90 to secure payment. Appraisal made by disinterested parties experienced in railroad matters, appointed by Colonel J. G. Chandler, acting chief quartermaster military division of the Gulf.

A. B. SEYER, *President.*

NEW ORLEANS, JACKSON AND GREAT NORTHERN RAILROAD.

Schedule of property in possession of the United States May 1, 1865, by right of capture and of purchase, transferred to said road, with authority therefor.

Property purchased	\$33,050 00
Property captured	7,350 00
Total	40,400 00

Statement of circumstances and authority under which the railroad property included in the accompanying schedules was transferred to the New Orleans, Jackson and Great Northern railroad by Brevet Colonel J. G. Chandler, acting chief quartermaster military division of the Gulf, New Orleans, Louisiana, March 10, 1866, viz :

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., August 18, 1865.

COLONEL: The government should be relieved at the earliest possible day of the expenses of maintaining and operating railroads heretofore held by it for military purposes.

You will cause the railroads in the military division of the Gulf to be at once turned over to the several companies or to their representatives, or such other persons or civil authorities as the general commanding the military division may advise.

In carrying out these transfers you will be governed by the principles recommended by the Quartermaster General in a letter dated May 19, 1865, to the Secretary of War, and by him approved, copy of which is herewith furnished you.

Inventories of the railroad material and supplies, rolling stock, &c., which are the property of the United States, setting forth the amount and estimated value of the articles, will be prepared and forwarded to this office, with recommendations as to the most advantageous modes and places of deposition of the same.

Very respectfully, your obedient servant,

M. C. MEIGS,

Quartermaster General, Brevet Major General U. S. A.

Colonel C. G. SAWTELLE,

Chief Quartermaster Mil. Div. of the Gulf, New Orleans, La.

QUARTERMASTER GENERAL'S OFFICE,

Washington, D. C., March 3, 1866.

COLONEL: Your letter of February 10, 1866, presenting request of New Orleans, Jackson, and Great Northern railroad for the return to it of certain property said to have belonged to it, is, with its enclosures, received.

This road or a portion of it, with its appurtenances, was taken possession of by right of capture upon the occupation of the city of New Orleans by the United States forces in 1862.

Its property became the property of the United States by right of capture, and has been used and in part consumed for military purposes.

Such of this property as still remains in possession of the quartermaster's department, and is no longer required for military use, has been, in accordance with the general policy pursued upon grounds of public utility toward railroad companies, ordered to be restored to the company.

It appears that the road was restored to the company in June last. The government does not undertake to restore material which has been consumed or disposed of, such as iron laid down on other roads, &c. Nor does it restore iron and other material which it has taken up and replaced by other equally good or better material.

If any of the property mentioned in enclosed schedule presented by the company and clearly identified as its former property is still in possession of the quartermaster's department, and no longer required for military purposes, it will be, with the exceptions above stated, relinquished to it.

The letter of the treasurer of the New Orleans, Jackson, and Great Northern Railroad Company, with the schedules, are herewith returned.

By order of the Quartermaster General.

Very respectfully, your obedient servant,

ALEXANDER BLISS,

Brevet Colonel and Acting Quartermaster in charge 4th Division.

Brevet Colonel J. G. CHANDLER,

Acting Chief Quartermaster Mil. Div. of the Gulf, New Orleans, La.

OFFICE CHIEF QUARTERMASTER MILITARY DIVISION OF THE GULF,
New Orleans, Louisiana, March 24, 1866.

COLONEL: I have the honor to report the sale of a lot of railroad property to the New Orleans, Jackson and Great Northern railroad, and to enclose the receipt of the agent of said company for the articles sold, with the prices as appraised, and the bond duly executed in accordance with General Orders No. 62, Quartermaster General's office, October 23, 1865.

In accordance with an order from this office this road was advertised for sale, as will be seen by copy of advertisement enclosed.

The property was bid in at the sale, for the reason that there were no bidders present. I then sold it to the company above referred to, under the provisions of the general order above referred to.

I am, general, very respectfully, your obedient servant,

J. G. CHANDLER,
Brevet Colonel United States Army, in charge.

Major General M. C. MEIGS.

Quartermaster General U. S. A., Washington, D. C.

List of captured property transferred by Captain J. B. Dexter, assistant quartermaster United States volunteers, to the New Orleans, Jackson, and Great Northern railroad, as per letter from the Quartermaster General, dated March 3, 1866.

Date.	Articles.	Cost when new.
1866. Mar. 10	2 tables	
	2 sets gas fixtures	
	1 set drawers	
	1 book-case	
	11 ticket cases	
	3 armoirs	
	5 desks	
	1 steam-guage adjuster	
	1 iron safe	
	1 passenger car	\$2,250 00
	1 passenger car	2,600 00

[General Orders No. 62.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, October 23, 1865.

The following order by the President of the United States, in relation to executive order of 8th August, 1865, extending the provisions and benefits of the same to all railroads within the limits of the military division of the Tennessee desiring to purchase railroad rolling stock and material from the United States, for the purpose of repairing the losses of the war, is published for the information of all officers and agents of the quartermaster's department.

M. C. MEIGS,
Brevet Major General U. S. A., Quartermaster General.

WAR DEPARTMENT,
Washington, D. C., October 14, 1865.

GENERAL: The provisions and benefits of the executive order of 8th of August are hereby extended to all railroads within the limits of your command, desiring to purchase railroad rolling stock and materials from the United States, for the purpose of repairing the losses of the war.

You are also authorized to direct the sale to any such railroads of rolling stock now within the limits of your command, and not needed by the United States for actual use, upon the following conditions, if they are preferred to the terms of the order of 8th August, and the individual security required by you under that order:

You will take care that this property is distributed among the several roads in proportion to their actual needs, and that none is sold to any railroad in excess of the reasonable requirements of its business, or to be used for purposes of speculation, sale, or hire to other roads.

You will require from all such railroad companies satisfactory bonds, in the form herewith enclosed, binding them to the payment to the United States of the full appraised value of the property sold to them, in equal monthly instalments, with interest at the rate of seven and three-tenths per cent. per annum, within two years, credit being allowed to them, on the first of each month, for any service of military transportation rendered by them during the preceding month, at the established rates now allowed to northern railroads for such service.

Full reports of all sales under this order will be made to the War Department from time to time, as required by existing orders.

The serviceable railroad iron in possession of the quartermaster's department at Chattanooga and Nashville is excepted. It will be sold for cash, at the prices fixed by the War Department.

By order of the President:

EDWARD M. STANTON,
Secretary of War.

Major General GEORGE H. THOMAS,
*Commanding Military Division of the Tennessee,
Headquarters, Nashville, Tennessee.*

BOND.

Know all men by these presents, that the ——— railroad company, duly incorporated by the act of the ——— of the State of ———, by ——— its president, acting for and in behalf of said railroad company, does hereby acknowledge itself and its successors held and firmly bound unto the United States of America in the full and just sum of ——— dollars, lawful money of the United States; for which payment, well and truly to be made to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated by the War Department, within two years from the date of these presents, the said railroad company, by its president, hereby binds itself and its successors, firmly by these presents.

Sealed with its corporate seal, attested by the signature of its president, and affixed by the express authority of its directors, this ——— day of ——— in the year of our Lord one thousand eight hundred and sixty——.

The nature of the above obligation is such that, whereas the above bounden railroad company has purchased and received, or shall receive, from the War Department of the United States, rolling stock, iron rails, cross-ties, chairs, spikes, timber, and other materials for repairing and operating its railroad, in quantities, at prices, and to an amount and value which shall be evidenced by the receipts given for the same by the same railroad company to the proper officer of the said War Department, upon a credit of two years from the date of these presents, payable in equal monthly instalments, with interest, at the rate of $7\frac{3}{10}$ per cent. per annum, within the said two years, either in cash to the disbursing quartermaster of the United States military railroads, at his office in Nashville, or to such other disbursing quartermaster as may be designated for this purpose by the War Department, or in transportation of the troops or military supplies of the United States, under the orders of the proper military authorities, at the rates of fare and tolls allowed for such service to northern railroads;

And whereas the said railroad company desires, and by these presents intends, to secure to the United States the complete and punctual payment as aforesaid of the amounts which may be due for the said materials received or to be received by it from the United States:

Now, therefore, if the said railroad company shall well and truly pay as aforesaid, either in cash, in equal monthly instalments, or in transportation as aforesaid, to the United States, within two years from the date of these presents, all that shall be due as aforesaid to the United States on account and in payment for all the materials received as aforesaid from the United States, then this obligation shall be void and of no effect.

But if the said railroad company shall fail to pay to the United States all or any portion of what may be due to the United States, on account of the said materials received from the United States, within two years from the date of these presents, either in cash as aforesaid, or in transportation as aforesaid, or shall fail to pay any of the monthly instalments aforesaid punctually when due, then this obligation shall remain in full force and effect to the extent that may be necessary to fully repay to the United States the full amount which may be due on account of the said materials so received as aforesaid, and all loss or damage which may have been incurred by the United States, by reason of the said railroad company's failure to pay for the same what shall be due therefor, when the shall be due.

And as a further security for such payment and indemnity to the United States, the United States shall have a lien upon the property sold to said company, and in default of such complete and punctual payment of all moneys which may be due on account of the aforesaid purchase of materials, be fully authorized to take possession of and sell said property, and also to place in charge and control

of the said company's railroad an agent of the said United States, who shall be fully empowered, and by these presents is fully empowered, in case of such default as aforesaid, to collect all the revenues of the said company, and apply the same to the payment to the United States of all the money which shall be due at the times of such application of such revenues to the United States for any such materials which shall have been delivered by the United States to the said railroad company, or by reason of any loss or injury to the United States resulting from such default in payment of the same. And the said company shall have no authority to sell or convey out of its possession, without the consent of the United States first in writing obtained, any of the property referred to in this agreement; but shall hold and retain the same to the exclusive use of said company, in carrying on the business of transportation of persons and property over its line of road, until the whole is fully paid for as aforesaid.

In witness whereof, the corporate seal of said railroad company is affixed hereto, by authority of its directors, and attested by its president.

Witness : _____.

NOTE.—The amount of this bond to be double the valuation of the property sold and delivered. Internal revenue stamps should be affixed, to the amount of fifty cents for every thousand dollars.

[General Orders No. 80.]

QUARTERMASTER GENERAL'S OFFICE,
Washington, D. C., December 22, 1865.

Sales to railroad companies under executive orders of August 8 and October 14 (General Orders, Quartermaster General's office, 56 and 62, 1865) will be promptly reported to this office, addressed to R. R. division.

As soon after completion of sale to any railroad as practicable, a statement of the account of such railroad with the United States, accompanied by the receipt of the company for the articles sold, with prices as appraised, and its bond duly executed, will be forwarded for file in this office.

The duplicate of receipt, and a copy of the bond, will be retained by the officer making the sales.

Every payment of instalment and interest, whether in cash or by accepted vouchers, will be reported on the day it is made, with a statement of the balance remaining due to the United States. On all such payments the usual three days' grace will be allowed.

The railroad companies will be credited with the amount of their duly certified vouchers, for any services rendered prior to the month current, whether in excess or not of the monthly instalment due; such credit to date from the receipt by the officer to whom the railroad makes its payments of vouchers duly certified, examined and audited by the proper officer for settlement of transportation accounts.

The accounts of railroad companies will be examined and audited by the proper officers without unnecessary delay; but no payments will be made to any railroad in the States lately in rebellion, except upon the certificate of the officer charged with sales of military railroad property for the military division or department that such road has not incurred any indebtedness to the United States, or if incurred, that its indebtedness has been discharged in full.

If so indebted, the vouchers, duly certified, will be referred to the officer who made the sales, to be credited as above.

The reports herein called for are not intended to supersede those already required by regulations and existing orders.

M. C. MEIGS,
Quartermaster General, Brevet Major General U. S. A.

SURVEYING DISTRICT IN MONTANA.

MESSAGE

FROM THE

PRESIDENT OF THE UNITED STATES,

RETURNING

To the House, with his objections, the act erecting Montana into a separate surveying district.

JULY 28, 1866.—Referred to the Committee on the Territories and ordered to be printed.

To the House of Representatives :

I herewith return, without my approval, the bill entitled "An act erecting the Territory of Montana into a surveying district, and for other purposes."

The bill contains four sections, the first of which erects the Territory into a surveying district, and authorizes the appointment of a surveyor general; the second constitutes the Territory a land district; the third authorizes the appointment of a register and receiver for said district; and the fourth requires the surveyor general to "select and survey eighteen alternate odd sections of non-mineral timber lands within the said district, for the New York and Montana Iron Mining and Manufacturing Company, incorporated under the laws of the State of New York, which lands the said company shall have immediate possession of on the payment of one dollar and twenty-five cents per acre, and shall have a patent for the same, whenever, within two years after their selection, they shall have furnished evidence satisfactory to the Secretary of the Interior that they have erected and have in operation on the said lands iron-works with a capacity for manufacturing fifteen hundred tons of iron per annum: *Provided*, That the said lands shall revert to the United States in case the above-mentioned iron works be not erected within the specified time: *And provided*, That until the title to the said lands shall have been perfected, the timber shall not be cut off from more than one section of the said lands."

To confer the special privileges specified in this fourth section appears to be the chief object of the bill, the provisions of which are subject to some of the most important objections that induced me to return to the Senate, with my disapproval, the bill entitled "An act to enable the New York and Montana Iron Mining and Manufacturing Company to purchase a certain amount of the public lands not now in market." That bill authorized the same corporation to select and survey in the Territory of Montana, in a square form, twenty-one sections of land, three of which might contain coal and iron ore, for which the minimum rate of one dollar and twenty-five cents per acre was to be

paid. The present bill omits the three sections of mineral land, and directs the surveyor general to select and survey the timber lands; but it contains the objectionable feature of granting to a private mining and manufacturing corporation exclusive rights and privileges in the public domain, which are by law denied to individuals. The first choice of timber lands in the Territory is bestowed upon a corporation foreign to the Territory, and over which Congress has no control; the surveyor general of the district, a public officer, who should have no connexion with any purchaser of public land, is made the agent of the corporation to select the lands; the selection is to be made in the absence of all competition; and over eleven thousand acres are bestowed at the lowest price of public lands. It is by no means certain that the substitution of alternate sections for the compact body of lands contemplated by the other bill is any less injurious to the public interest; for alternate sections, stripped of timber, are not likely to enhance the value of those reserved by the government. Be this as it may, this bill bestows a large monopoly of public land without adequate consideration; confers a right and privilege in quantity equivalent to seventy-two pre-emption rights; introduces a dangerous system of privileges to private trading corporations; and is an unjust discrimination in favor of traders and speculators, against individual settlers and pioneers, who are seeking homes and improving our western Territories. Such a departure from the long-established, wise, and just policy which has heretofore governed the disposition of the public lands cannot receive my sanction.

The objections enumerated apply to the fourth section of the bill. The first, second, and third sections, providing for the appointment of a surveyor general, register, and receiver, are unobjectionable, if any necessity requires the creation of these offices and the additional expenses of a new surveying and land district. But they appear in this instance to be only needed as a part of the machinery to enable the "New York and Montana Iron Mining and Manufacturing Company" to secure these privileges; for I am informed by the proper department, in a communication hereto annexed, that there is no public necessity for a surveyor general, register, or receiver in Montana Territory, since it forms part of an existing surveying and land district, wherein the public business is, under present laws, transacted with adequate facility; so that the provisions of the first, second, and third sections would occasion needless expense to the general government.

ANDREW JOHNSON.

WASHINGTON, D. C., *July 28, 1866.*

DEPARTMENT OF THE INTERIOR,

Washington, D. C., July 25, 1866.

In reply to your request of the 24th instant, to be furnished "with a note expressing my opinion as to the necessity of a surveyor general and land office in Montana Territory," I have the honor to state that, under existing laws, Montana is a part of the surveying district of Dakota and Montana. A surveyor general has been appointed who has supervision of the surveys in progress and to be prosecuted in both Territories. The first work to be done in Montana will be the establishment of a meridian and base line, standard parallels and guide meridians. This work must be done before township and section lines can be surveyed, and will necessarily consume the existing unexpended appropriations for surveys in that Territory. Such work is always executed in the field by a deputy surveyor, who can in this case make his returns through the existing surveyor general's office, or direct to the Commissioner of the General Land Office, without inconvenience or detriment to the

public service, and thus save the necessary expense attending the establishment of a new surveyor general's office, estimated by the Commissioner of the General Land Office at eleven thousand dollars (\$11,000) per annum.

The establishment of a land office and the appointment of a register and receiver will not be necessary until after the surveys above described, including the sectionalization of townships, shall have been executed and approved.

It is manifest, therefore, that the public interests do not require, at present, the establishment of an additional surveyor general's office in the district of Dakota and Montana, or of a land office in the latter Territory.

With the greatest respect, I have the honor to be your obedient servant,

JAS. HARLAN, *Secretary.*

The PRESIDENT.
